MRS. G. W. BALLARD:

As Beloved Morya speaks His Heart to us all may our Love and Blessing to Him carry to the Beloved Land of India the fulfillment of our Heart's Desire to give assistance there, or rather, to be the channels through which the Great Cosmic Light, the "Mighty I AM Presence," moves into outer action the focus of Assistance to the Earth to which mankind can reach up and receive that which lifts them out of their distress.

BELOVED KUTHUMI:

Beloved Ones of Saint Germain's Family, as We commune together for a few moments, may you feel your oneness with India, and receive from there that which the Mighty Himalaya can give you. And you, in the returned Love that you offer to India, may you enter into the Mighty Radiation that has poured through centuries at various points within Her borders.

Since the Mighty Master Morya has certain Responsibility in rendering Assistance to Beloved Saint Germain, so also has the Great God of the Himalayan Range, the Great God Himalaya, a certain Cosmic Responsibility in pouring that Substance over America which holds constructive activities more easily protected. May I say to you, since He renders that Service to this Nation, and the Mighty Saint Germain has worked long in India quite as well as in the western world, then it is a reciprocation under the Action of the Cosmic Law that enables each of Us to come to you and render that Service which We can give, that connects the Light throughout the world in the various Retreats and bring that through the Student Body into the physical octave for outer action.

Now, this is very much needed in America as well as in India. There is a certain balancing process going on within the two Nations, and they together have a certain responsibility to the entire Earth. India represents the head and America the Heart of the planet. And in that Activity when the Flame in the Heart expands and becomes One with the Flame in the forehead, then the body becomes perfected, and no longer is limitation or imperfection able to exist within the body, whether that be the individual's body or the body of the world.

In the uniting of the two Flames from the Heart and the head, which is the Unfed Flame in the Heart and the Sevenfold Flame of the Seven Mighty Elohim in the head, and since it is necessary for that complete atonement to take place before the Immortal Perfection of outer action occurs, then when We move into outer action the blending of those two Flames in the world it is because the Power of the Sacred Fire is to take Its Dominion in the outer physical

activities of mankind, and I mean by that, activities in the physical world will recognize and use the Powers of the Sacred Fire with conscious understanding.

Long, long, long has Life been very kind to mankind. One Great Ascended Master after another has through long centuries poured Love again and again and again to purify the outer activities which mankind have created, because the individual is a creator. But since the creation has been distorted, then the Hand of Life through the "Mighty I AM Presence" of each Life Stream, and through the "Mighty I AM Presence" of the nations, at various intervals the Life of the planet has received from these Great Ascended Masters and Cosmic Beings the intensifying Purifying Action of the Sacred Fire. And that is to make the Flame of Love within each Life Stream expand to the point where It becomes the predominant feeling within the individual, so that Our Love radiated to unascended beings can strengthen the Outpouring of Life's Perfection from the "Mighty I AM Presence" of each one to the point where It becomes the Authority and complete Governing, Controlling Power of the outer self. Well, that is so much for the individual.

When it comes to rendering a similar Service to the world, well then, it takes many Ascended Masters and Cosmic Beings, and it takes the combined action of those who govern the Sacred Fire to the System to so expand that Power of Love through whole nations, and through the structure of Earth itself, until that comes to the predominating point where It governs outer activities harmoniously and holds them in Its sustained action. Then the world goes forward in what you call the Permanent Golden Age, and no longer will the discord of the past or the frightful experiences through which mankind has passed in the centuries that have gone by, those experiences will not again be allowed on this Earth.

Those in whose Life Stream there is a momentum of good gathered within the Causal Body, which is the circle of colors around the Electronic Presence of the "Mighty I AM," when there is a certain proportion of the Causal Body filled with the Light Substance which is energy that has been used constructively through many embodiments, It becomes the great Reservoir of constructive Power for that Life Stream. And where that stands within the Causal Body, We are able to read that and know the strength of a nation as well as the strength of an individual.

When the Life Streams within a nation have a certain proportion of that Light Substance within their Causal Bodies, that makes a certain intensity of Light within the atmosphere over the nation. When that reaches a certain proportion, then We know that that nation is going forward to constructive permanent activity, the same as an individual who has great accumulation of that, We know We can depend upon to draw that Light into outer action when the nation requires that extra strength in outer activities to guard that which is constructive.

So, when the Mighty Saint Germain and those who govern the Destiny of this Nation--now "I AM" speaking of the United States of America--when They have said that the Destiny of this Nation is Freedom, and that It represents the Heart of the world, it is because the Activity of the Sacred Fire within the Nation has reached a point where the Causal Body of the Nation glows with a certain intensity of Light. Then We know that there is the strength and the power within each Life Stream that composes the Nation to stand against destructive forces and still not go down under the mass accumulation of discord driven against the Nation. And so it is with India,

so it is with China. You must realize how great has been the Strength and the Power of the Light in both India and China to have maintained their identity as nations down through civilization after civilization. They have never lost their identity as countries or nations. There have been six civilizations in each one of those countries, and they still retain their identity, which is a thing that has not happened anywhere else in the world.

So, the Inner Strength of the Light in the masses of the people--I mean in those Life Streams that are there--assures the Cosmic Law that when the destructive forces are removed there will be enough of the Powers of Light anchored within those who remain, to be the Perfection and the Guarding Authority of the future. And so it is in America. Beloved Cha Ara told you that within America is the Strength of the Light in Her people that would arise and throw off the barnacles that had sought to attach themselves to Her as a Nation. You will find India and China will arise and do the same thing.

Now, it is Our Privilege and is Our Service to mankind to strengthen wherever possible the individual's conscious knowledge of the Sacred Fire. Mankind in the outer world hear those expressions, but know very little of what actually occurs. And when We speak of these various Flames--the Unfed Flame or the Sevenfold Flame--I want you to know that there is the actual focus of a Flame within every Heart, and within the brain structure of every physical body, that is consciously projected there--the one in the Heart by the Higher Mental Body of each Life Stream, each "Mighty I AM Presence," and the one, the Sevenfold Flame in the forehead, is consciously created and sent and located within the brain structure by the Seven Mighty Elohim. That is the Gift of a certain proportion of the Flame of Their own Life Streams into every human being who embodies upon this Earth. And I want you to feel that it is a great privilege, My Dear Ones, to carry within the brain structure a part of the Flame of Life from each one of the Seven Mighty Elohim.

People are not aware of what their mental faculties are. You think, or you think you think--either way you want to put it--and you reason, and you see, and you hear. You might say to Me, well, that's all within the energy of my own Life Stream. Yes, so it is. But did you ever realize that the Great Cosmic Law has Its own reasons for guarding the faculties of your Life Streams by the Enfolding Sevenfold Flame of the Seven Mighty Elohim? That is the Power of the Sacred Fire by which you are connected with the Supreme God Life of the System. And there surely must have been a reason for It or the Cosmic Law would not have manifested It. So you are, each one, privileged to be connected through the Activity of the Sacred Fire with each one of the Seven Mighty Elohim of Creation. Otherwise your own creative faculties within your consciousness would not function in outer contact with the things of this world, because that just is the Great Divine Plan of Life.

Therefore, to feel, Precious Ones, that the Powers of the mind are a Gift from your "Presence" first, and are protected by the Seven Mighty Elohim, will bring you to the point where within yourselves there will come the conscious understanding and the full Illumination of just how great is the Gift of Life, and what It contains within It that you may draw forth by Conscious Command. And that Conscious Command arises from the Desire in your Heart to draw the Perfection of the "Presence" into outer physical action and flood It to fill the world around you. Then the Sevenfold Flame of the Seven Mighty Elohim clothe that Outpouring in

Their Immortal Protection, that there may grow within the physical octave this Perfection which is to become permanent.

Mankind of the outer world know nothing of this Inner Activity of Life. And yet some channels of the medical world, some channels of supersonics and photography, will before long reveal certain activities of the Flame within the brain. While the medical world does now know certain pulsations that are there mean that Life will be sustained, yet they do not quite understand that the Power of the Flame within the brain which they do not see with their physical eyes, that it is the Power of the Flame that is the Sustaining Protecting Action of the individual's Life Stream. Therefore, the Sevenfold Flame of the Elohim that give the Protection to the mental faculties of each Life Stream, is something that mankind should comprehend, and realize that it is through the thought or the attention, [be] clothed and protected by that Sevenfold Flame of the Elohim, that enables the individual to reach to Cosmic Heights, or to reach out into the Great Universal Activities of Life and be taught, and to comprehend those Greater Activities in the Universe that you see as Cosmic Manifestations.

[That which is greater than the individual is protected by that, or] That which is Greater than the individual protects the individual. And that which is lesser always reaches up throughout Creation through Love to that which is Greater than itself. And in that Love there comes back the Assistance or the Power to make itself grow greater. All ability to expand Perfection within the individual, or within a world, comes from the Radiation of that which is Greater than itself. All growing expanding Power comes from within out, but It is drawn out by the magnetic pull of that which is Greater than itself. That is just the Law of Expansion throughout Creation. Therefore, those in the physical octave who have some comprehension of this of which "I AM" speaking, when the Love and Devotion goes forth to the Seven Mighty Elohim, then individuals may become far more powerful in the physical octave than they are otherwise.

Please be assured, Precious Ones, and every Ascended Master and Cosmic Being in the Universe will tell you the same thing, that whatever you want in the Universe that is Greater than what you have, whatever you desire to know of the reality of existence everywhere, you may make your own, and it will come to you as surely as the Universe exists if you send forth your Call through Love. And that's all it takes to open the door into the realm of the infinite. That's all it takes to reach to the Heights of Creation and draw forth the Reality of the Great Cosmic Law, that the outer intellect may understand the next Activity to which it is reaching, and to which it must attain in the expansion of its own activities.

Everything that is Greater than what is in this world stands ready to give individuals here the fullness of Itself, but the individuals must unlock the door to that greater knowledge through the key of their own Love. And all it takes, My Precious Ones, is just the desire or the Love within, that reaches and loves to know that which is Greater than itself. Just as a child, a tiny child, reaches up to the parents and looks at the parent as the ideal, and loves to become like the parent and do what the parent does, and one day grows into those qualities, just so can the outer self of unascended mankind by their attention to Ascended Beings, and their Love to that Greater Perfection, draw themselves up to the point where that Perfection clothes them. And therefore, there is no condition and no individual on the Earth who cannot have the help of that which is

Greater than himself or herself so long as the desire goes there, and loves to understand what is there, and loves to bring Its Perfection here. That is all that it takes, Precious Ones.

And mankind struggle down here under such limitation, when Love is so ready to set them Free. But it does require the humility of the outer self that is ready to humbly listen, and through the attention receive the Love that is the Illumination of the outer self. When your Love comes to Us asking for Illumination, Our Love clothes your Love and brings that comprehension in and around you. Your own "Presence" makes you comprehend the thing from within yourselves. But Our Love is what draws the conditions around you in which your "Presence" may work with unlimited Power and uninterrupted Concentration. I hope "I AM" not getting too deep for you tonight? (*applause--audience rising*) Thank you, Precious Ones; please be seated.

Now, the reason "I AM" entering into this subject is because shortly, whether or no, mankind are going to have to learn about Us. (*applause--audience rising*) Thank you, Precious Ones; please remain seated. Now, the reason for that is this. Through supersonics, through television, and certain scientific experiments, mankind have learned a mechanical way to project pictures and sound, and to record sound through Light. Well, it's a very short step farther until they come to the point where they're going to see at a distance, quite as well as hear within the Light which is at a distance. Well, when they begin to see at a distance, who do you think they're going to see? (*laughter*) Some of Us unmistakably. And then there may be consternation, there may be rebellion, there may be denial, but it will all go down. But you who have come the pathway ahead of the rest can easily be shown how, when you desire to understand this which is the next step of advancement for mankind. By your attention and your Love you may have the knowledge ahead of time in a perfectly natural, normal, happy way, just as natural as a child learning its abc's.

(Cassette Side 2)

And it might interest you to know that to some degree "I AM" supposed to be a Teacher, and there are many ways of teaching Life, teaching mankind rather, but Life is the Teacher. And so, We are privileged to use the Love of Our own Life and pour that to an individual while the attention is upon something that the individual wants to know. And while the attention is there, and the connection comes through, if the individual can be guarded at that time so the Harmony is not interfered with, the Real Truth comes through and the individual goes forward to what you call success. And it is only because there is interruption in the flow of Illumination, the flow of Life from the "Presence" to the outer self, or because discord from the outer makes the individual change the attention, is the only reason that people cannot have anything they want to know brought into the outer consciousness for use whenever the outer self desires it.

Now, may I say to you, most of you have a momentum in the Causal Body of much constructively used energy, a great deal of which you have earned through the Decrees in this embodiment. And "I AM" quite sure you realize that's tremendous. That has allowed to accumulate in each one of your Causal Bodies a momentum of energy constructively qualified. Most of you have faculties or talents which you have used in the past. They were talents that you brought into outer dynamic action through former experience. You might not be using them now, but they lie there enfolded in the entire momentum in which you gained the fullness of their

outer use. Now, those are Powers of your own Life Streams, and you may draw into outer use at any time a small amount of that momentum, or a great amount, depending on the requirement. And when you begin to use the Powers of your own Life Streams that you have already used in the past, then when the requirement comes into the outer, you will find you are able to do things quickly and perfectly even though in this embodiment you seem not to have had any knowledge or practice in doing that.

But, when it comes to the point of the Nation requiring the Power of your Life's Light, the Strength of the Light in each Life Stream to unite within the Nation and be the Guard that holds destructive forces at abeyance, then the Powers, the Inner Strength of your own Life Streams, when you are ready to bring that into outer action for the Protection of the Nation, then We take advantage of that, and draw forth the Activities of the Sacred Fire into outer action that will enable you to stand against the accumulated discord under which many people go down. And all of this is a direct action of the Powers of the Sacred Fire. Some of you have known something about those Activities in the past. Some of you seem only to be aware of Them in this embodiment.

But you must realize, Beloved Ones, that if the Light of your own Life Stream had not expanded to a certain point, your desire for the Light and the Greater Perfection which It is, would not have been strong enough to have held you in this Activity and helped you decide that you would be willing to discipline the outer in order to have this Greater Power. Now that you have had a sample of how much Power there is in your Calls, those of you who realize how much more Power there is in your Decrees now from what there was in the Decrees you gave in the Shrine, why that seems like the kindergarten of existence compared to what you send forth today.

And may I say this. Now, it should not take a crisis to introduce you to the Fullness of your Power, but if there were a sudden crisis of a certain type come into the outer, you'd be surprised how much more Power you could draw, even tonight if you had to. You have no idea what your reserve Power is until the actual Demand through need calls It into outer action. Now you probably would much prefer to go home and go to sleep, and that's all very well at the right time. But, My Dear Ones, in an emergency when you need to draw unusual Power, every one of you has a momentum through your Decrees, and through the attention you have given to the "Presence" through the years past, to draw far greater momentum than any of you understand tonight, in a crisis, because the feeling would surge with the same fierce determination that you went into action tonight on the war situation. And depending on the intensity of your Love, and your feeling and desire for that Power to come forth and render Its Service to you, would you draw either a small amount or a great momentum. And if My Feeling serves me correct, and It usually does--It hasn't done anything else for a long while--"I AM" quite certain there isn't one of you here who couldn't draw forth Power that would amaze yourselves.

So be of good cheer. We are watching carefully. And you must know the Destiny of this Nation is in the Hands of tried and trusted Messengers from the Great Central Sun whose Power over all the Earth is unquestioned. If the people themselves will reach up of their own free will and demand to be relieved or released from these destructive forces, then We could come to their Assistance with very much greater Power. But sometimes it takes severe experiences to force a

nation, or the people within a nation, to step forward and take the step that is the deciding factor. So, you who have given your energy through your Decrees of your own volition for the Freedom of your Nation without the crisis, then I say to you, We can give you very much greater Power in a condition of that sort than We could the mass of the people. And that comes from the Love you have sent to Us. And you will find not one wave of Love that you have ever sent to Us but what will bring back to you infinitely greater Power, and that Power is Our Love to Life.

So, any time you require more Power in the outer to do what you require, try to feel that your Love coming to Us draws back Our Love which is Our Power of Life. And you can have that, My Loved Ones, without limit. There isn't a thing you could ask Our Love to do for you that We wouldn't do. Oh, I don't mean to solve your problems. You can't just dump your problems this way on Us. But when you take your stand that by the Mighty Power of the "Mighty I AM Presence" you are going to dissolve those problems according to the Law, then when you call to Us for Our Love to give you the Strength to dissolve those problems, then that Love is there. We answer always. Therefore, you're never left at any time without Our Love pouring around you. You are never left at any time in a condition where you could not make Us hear. Our Hearing is very good. There would not one Call come to Us that We could not hear or would not answer.

But the decision of how much of Our Power is coming to assist you is made by your determination to take that problem, and by your own Authority of your "Mighty I AM Presence," demand it be consumed or dissolved or solved. Then when you decide that by your Call to your "Presence" you are going to solve and dissolve that problem, then when you call to Us for the Love by which that can be done, then We are in attendance. And you will then begin to understand something of the Boundless Powers that are within the Great Love of the Universe, and how It answers every Call, and never anything but Perfection can ever result from Its use. And the more you use It, the more you yourselves become a Sun of Its Presence. And then when you once begin to sense the full Power that you can draw through Obedience to the Cosmic Law, then will you find fear has gone forever, doubt dare not approach, problems fade at your Command, and those activities that have been the limitations of the past are gone. The shadows are passed as if they had never been. Then you begin to use the Real Powers of your own Life and go forward to build that which is permanent Perfection.

So, if you will understand that We cannot solve your problems for you, because the Cosmic Law does not permit, but We can pour Our Love to you which will give you the Strength to solve them when you take the Scepter of your own dominion and demand that by the Power of the "Mighty I AM Presence" they shall cease from your world. Then you come to the point where when Our Love floods through and clothes you while you do those things, you come to the point where you don't have any more problems. You have wonderful activity and Cosmic Christ Accomplishment beyond description, but you never again have another problem. And I think it's well worth any effort it takes on your part to hold the Authority of your "Mighty I AM Presence," and demand and command that every problem in your world by the Authority and Power of your "Mighty I AM Presence" is compelled to cease to be. *(applause--audience rising)* Thank you so much.

That is how, My Dear Ones, that which is Greater enfolds you in Itself when you are determined by the Authority of your own Life to compel Perfection forth. Then the moment you demand Perfection in the Authority of your own "Mighty I AM Presence," It releases Its Inner Energy, and We enfold that in Our Flame of Love and that becomes Immortal. Now you know why recently your attention has been turned to the use of that word *Immortal*. Then you understand that that becomes a permanent Manifestation, because Our Flame of Love is permanent in Our Octave. And if you draw that here to clothe that which you wish to bring forth in Our Eternal Perfection, then you may call It forth Self-sustained. If you only want a temporary manifestation, then say so. But you have all Authority through your own "Mighty I AM Presence" to produce this in the outer world, and fill this world with Our Perfection, Immortal in Its Action here. And that is your obligation to the world. That is the fulfilling of the Divine Plan according to the Law. Won't you be seated please.

Now, I shall not keep you longer, but I shall love you stronger. (*applause*) Then, My Dear Ones, --thank you--will you come to the point that your Mighty Saint Germain told you about when He said one day after you have called this Power of your "Presence" forth and you are free from those problems, you will look back at that human creation and say, "Is it possible thou didst once disturb me?" You will feel such Mastery from within your own Life Flame. And when Our Love enfolds that there comes the Authority of all the Universe into the outer self, and the moment you can feel that, your problems are gone. Your problem only stays because it still can get a feeling out of you of fear that makes it hold to you. But when you feel Our Love and the Love of your "Presence" that is all Authority throughout the Universe to produce Perfect Creation, then when your feeling comes forth with that Mastery, that problem collapses because the energy has no longer a sustaining source.

May I clothe you tonight in that Mantle of My Love. May the Flames of My Love enfold each one of you and surge forward as you take the Scepter of your own dominion, and in the Name of your "Mighty I AM Presence" demand the Immortal Manifestations of Perfection to take the place of every problem, until you feel the full surge of your own Cosmic Authority of Life enfolded in Our Love that makes you Master over everything in this world. Then you will go forward and do the real creative work that you have always desired to do. And then will come the Immortal Joy and the boundless use of the Powers of your own Life Stream, and you will know that you are One with the Great Master Presence of all Creation. And that Oneness can only draw the Full Power here, by Love to the Source from whence that Power comes. We are part of It. We will clothe every particle of Harmony and Love that comes from your "Presence." We will clothe It in Our Love until It grows so great about you that you feel this Great Master Presence. And when you do, then We shall have a day of celebration. And Miracles which are God's Ways of Perfection uninterfered with by human fear and doubt and limitation, those Miracles of Perfection will flood to you and bless you with Their Happiness, because They are yours for Eternity. May I be privileged to have that Joy soon. "I AM" waiting anxiously. (*applause*)

Now, Precious Ones, may I enfold you tonight in the Immortal Love of My Great Octave and My Temple of Life, and may that carry to you tonight the Strength, the Courage, the Power, and the Happiness to make you feel your complete dominion over the limitations of this world, and take you forward free from that which has been your distress of the past. And may My Love

become so Bright around you that It becomes your world of permanent manifestation of Perfection. And then We shall go forward and build the Permanent Golden Age, and the permanent civilization in your Nation, in Honor of the Beloved Saint Germain.

We await that hour, because all the Great Ones, because of Their Love and Gratitude to Him for the Mighty Courage that has been His, We await every opportunity to assist those whom He has loved, and who have helped Him carry this Light now to come into outer action with every Power at Our Command, and to quickly accomplish that which shall bring you Boundless Joy and Immortal Perfection. And through that Love you may have all that there is whenever you wish to command It. May Our Love reveal, and enfold you, and unfold to you everything that is of Perfection, until you know Its Immortal Power in your use at all times as you go forward. Thank you so much.

MRS. G. W. BALLARD:

Beloved Kuthumi, with all the Love and Gratitude of Our Hearts we thank You for Your Love to us, and ask You to carry our Love to India and to China, and to those places where You know we are able to render service that fulfills the Great Divine Plan. May everything that we can do to be of assistance in the physical octave be given now for the Freedom of our Nation, and the protection of all that is constructive throughout the world, until no destructive force can longer succeed for any reason.

To the Brothers of the Golden Robe, the Diamond Heart, the Blue Flame, the White Robe, and the Indigo Cape, we ask Thy Enfolding Radiance to all under this Radiation. Watch Thou between each of us while we're absent one from another. Glorify us quickly with that Limitless Outpouring of such Invincible Victory everywhere we go, that there moves into outer action everywhere the Fulfillment of the Divine Plan, and none can longer abide in limitation.

Beloved Daddy, in the Words of the Benediction, clothe us in everything You know we'll ever require to fulfill the Divine Plan the Ascended Masters' Way, until wherever we go forth that becomes manifested and is sustained forever.

(Beloved Daddy's Benediction)

Thank You, Precious Daddy. Thank You Mighty Beings of Light, and Beloved Kuthumi, and the Great Ones. With all the Love at our Command, take Command of those under this Radiation, and do through us everything You know of which we are capable to fulfill the Great Divine Plan quickly.

To the Seven Mighty Elohim, the Seven Mighty Kumaras, the Seven Mighty Chohans, the Seven Great Archangels, we ask Thy Enfolding Presence to us all. Clothe us in the Sevenfold Flame of the Seven Mighty Elohim. And do Thou, Beloved Arcturus, expand the Unfed Flame in our Hearts to become One with the Sevenfold Flame without; and cutting us free from all connection with the discord of the outer world, let us move in the world but not of it; and pouring

into its distress whatever compels the end of all that is human, make us the Immortal Victory of all that is Divine, and move us forward fulfilling the Divine Plan without limit forever. Thank you, Precious Ones.

(Closing Blessing in unison)

Thank you, Precious Ones. We add to that all we are and have or ever hope to be or have, and raise it all to our "Beloved Mighty I AM Presence" and all the Great Ones, asking Them to accept it, amplify it without limit; qualify it with the One Mighty Stroke of that world-enfolding Flame that puts an end to the human forever, and we go forward the Immortal Victory of all that is Divine.

To all who govern the Cosmic Crystal Cup, we ask You to flood forth everything It contains into the hands and use of those under this Radiation. Expand It in worldwide Victory to annihilate all poverty, all war, all impurity, all selfishness, all that is not of the Light; and make those under this Radiation the custodians of the wealth of the world, to command and to compel all on this Earth raised, purified, illumined, and used in the Service of the Light for the Ascension of all. And to this end do we go forward side by side with Beloved Saint Germain and the Great Ones until only Perfection remains.

Now as we return these physical flames to the Great Central Sun from whence they came, we ask them to be our Messengers and convey to the Heart Center of Creation our Hearts' Call for all the Immortal Love required to come forth through those under this Radiation, to move into outer action to protect America, and through America remove from the Earth all that has been of human distress.

(End of Cassette)
