

CHAPTER III

February 6, 1938

SAN FRANCISCO, CALIFORNIA

I congratulate you all on the wonderful success of this Class. We have not time tonight, but the first time we have a little extra time, I want to go into some of the details that took place. I tell you, Beloved Ones, had you seen from the Inner Standpoint even half of what took place in this Class, you would be launched forever in the Victory of your Light. Things were dissolved and consumed that have been active in this city and environment for thirty centuries.

Just be reminded that when the Radiance can be brought to a point where the number of new people who came into this Class became immediately harmonious—to the degree that there was no discordant radiation going forth—that should be proof to every one of you of the Victory of the Light in the Group that has been drawn together, providing you give obedience.

Dear Ones, watch out that your human sympathy does not run away with you under any

circumstance. Let each one feel that your Service to the Light is *first*. I congratulate you. I know every feeling that was in your Heart tonight. Let us go on and on into greater and greater Victory in this great Service to the Light.

You see, if you can get vicious forces vicious enough so that they bite themselves, then you are soon finished with them; and I think we are arriving at that point. You know, there isn't anything so amusing in all the world as to see a vicious force thwarted, and they see that all of their effort amounts to nothing. It is really from the human standpoint an interesting thing. However, that is not where We focus our attention, but on the Great Light that produces Perfection.

Now, this is where I am going to have to use the paddle. Every one of you must do more work on your Application. I think it is the outer pull of the seeming need that is keeping the rest of you children from the full Application. So, will you just buckle on your Armor and get busy with definite work. Do not let the pull of the outer world hold you from making your definite Application.

Blessed Ones, I am watching the opportunity to enable all of you to bring back the Work you are doing through the Higher Mental Body, since I asked you to retire and get the body out of the way

so the Inner Work could go on. I tell you, the day you bring back that memory, you will rejoice. You haven't any idea, Blessed Ones, the tremendous Work you do from the Higher Mental Body every night your body sleeps soundly. Believe Me, it is no idle thing. I think it is not wise to go into it just yet. You see, I try your patience so severely—not unnecessarily though.

Whenever there is a real desire within an individual to win the Victory, then We want to give all the Assistance We can; but everyone must prove they are stabilized, when they have been so fluctuating through life. Everyone who has a temperament, after giving way to destructive conditions, must prove themselves in order for them to have the realization and the strength it requires to hold self-control.

In the tremendous Service rendered here, this city has been blessed as no other city where the Messengers have been. It just shows what could be done everywhere if the people but realized that their love, harmony, and cooperation make a condition that makes all things possible—that as long as you love, bless, and do not see each other's faults, why, you will find great achievement. Children, you know when they get playing, sometimes have peculiar feelings and actions; so

you are not children at play now, but at work with a Joy of Eternal Perfection which is that Service.

Don't you think I am frightfully severe? Does My paddle hurt so severely? But it is nice to have My children around Me before they scatter in all directions and then come together again.

Now I must be considerate and remember that you all have things to do before tomorrow, so remember that My Love and Blessings enfold you. If My paddle was not too strong, you will still love Me, I think, and go on your way happy and rejoicing, knowing your Victory of the Light and of the Classes. As you go forth, do your Work twice a day for the Perfection, the filling of every seat in the Kansas City and New York auditoriums. Charge ahead that Mighty Power that reaches out or enables the "Presence" and the Ascended Masters to reach out, prepare the way, and fill those places.

The radio and transcriptions are doing a Work that is very marvelous; and I say to you blessed ones, do not bother with discordant conditions or individuals. If it is a discordant condition of health, that is quite different; but if it is some feeling of discordant viciousness and condemnation, tear it up and forget it. Someday, by your silence, they will know that something was wrong. Do not waste time

and energy on those things. There is too much of the greatest good that can be done.

Question: As You may have noticed in our Contemplation Groups, instead of calling for things to be done, we have been saying: *“In the Name of the ‘Beloved Mighty I AM Presence,’ we say to all human creation: NO! By the Victory of the Sacred Fire, you have no power! Your day is done! Be thou dissolved and consumed from the face of the Earth forever!”*

Saint Germain: Stipulate, *“You have no power!”* to human creation and human forces. It is absolutely *imperative* to be maintained. And when you ask that they be dissolved and consumed, I think it is a very important part of the Work; for not only is that accomplishment being temporarily done, but when the Great Cosmic Light in this greater Power descends of Its own Volition—which It will—that means the Activity of that Light will then take over the charge of the quality of mankind and enable It to do in a great sweep, as it were, the dissolving and consuming effect for the conditions that are in the atmosphere of Earth, which it is the province of the Great Cosmic Light to dissolve. That is why in Washington’s Vision It was shown—and Beloved Arcturus mentioned It, because They all know that one day there must descend into the Earth this Great Cosmic Light. We cannot always tell just how It is

going to manifest. At first It may begin with Great Rays of Light that hundreds of people will see, and they will feel the Activity of the Forces of Light. Should It decide to act in that manner, you would see the greatest transformation in human beings you ever witnessed in your life—oh, I mean that ever was witnessed on Earth!

Only when the Light takes on sufficient Manifestation and the people begin to see from the human standpoint the Victory of the Light, will they begin to come into line, as it were, and realize that this which has been mentioned for many, many centuries—well, in fact, ever since the seventy-thousand-year-period civilization—in each age this Idea has come forth. Of course, you are only cognizant today of your own present time.

Dear People, today the Truth carries with It *Application*, and the Understanding that mankind must make Application to release themselves from the conditions for which they are alone responsible. How in the world would they go on for the next million years—if the Law of Life and Light permitted that—in the same condition? It is only this marvelous Understanding that is bound to bring the freedom of mankind, and make mankind alert to the things that they have just ignored completely.

You can say a thing is needful; but mankind, in the density into which they have drawn themselves today, unless some Application is given them, they are like children—helpless. That is why the old occult laws had to be set aside—they were doing far more harm than good, expecting mankind to reach out in the mental and feeling world and gain the Understanding of these Great Laws when the density was so great.

You see, the density has become so great that they cannot comprehend anything else until their attention is drawn to it. Then feebly they begin to think and become just a little more alert. If you saw in many of the Classes—and of course it was more noticeable in this Class; but in almost every Class that has been, if you saw the change from the beginning, the first day and the closing day, you would absolutely—unless you saw it with your own eyes—you would certainly say it was incredible. The change in the comprehension, the change in the alertness! When that is pounded at them with dynamic force—which has been necessary—then they begin while they are in the Radiance, to awaken, be alert, and feel more; and oftentimes for a considerable period afterwards they retain that alertness which was practically unknown to them before.

Now in this Class—you take the Students who have been in most of the Classes—a tremendous Work was done.

Mrs. Ballard: May I ask You why I awakened the other morning with that thing—a mailed fist? Was that a black magician?

Saint Germain: Yes.

Mrs. Ballard: Was he from Europe?

Saint Germain: He was the black magician who was the driving power back of so much.

Mrs. Ballard: I felt that, when I made the Call to take him.

Saint Germain: You know, it is strange; mankind has seen that, even in the newspapers—that black, mailed hand. It has been in your newspapers, showing that somebody sensed close enough to draw that much of it forth. Think of it, you today who are responsible for so many of these black magicians being seized and bound, this one was the one who caused your death in Egypt. That is why you (*Lotus*) handled him and brought it back into the physical, which enabled his physical body to be destroyed.

Mrs. Ballard: I mean the one here the other morning.

Saint Germain: Both of these.

Mrs. Ballard: Did I bring this fellow back too?

Saint Germain: Yes.

Mrs. Ballard: Tell me, did I do something with the Blue Ray from my own “Presence” to help dissolve him?

Saint Germain: Yes. You dissolved the image which he projected, which made it possible for that physical body to be dissolved.

Mrs. Ballard: He was in physical embodiment?

Saint Germain: Oh yes, both of them were. The one in Los Angeles was the one who caused you to be burned at the stake as Joan of Arc. This one was the one who caused your death in Egypt; so retribution does come, does it not?

Mrs. Ballard: I was not afraid of either one, but this thing the other morning was a definite action; or was it because I happened to see it?

Saint Germain: Yes, there was a somewhat definite action. They won a temporary victory, but all to their end. *Therefore, there is no force of darkness that can ever win the victory.* Never! They seem to have temporary results, but often it is an open door to their complete annihilation. Won’t you feel that, toward all destructive forces toward yourself or this Work? They really have no power! When you have come to know this now with dynamic Application and know the Power of your “Presence” at the same time, then do you not see the tremendous Power you carry when

you use that Decree?

Now I must say good-night; otherwise, we will be going along here until the wee hours in the morning. It is not right and just, and I should know better; so I will say good-night to you. My Love and Blessings enfold you all to your Victory; and remember, the important thing is not to get on each other's nerves.

Question: Any special instructions for the Thursday night 100% Group?

Saint Germain: I think they are very marvelous. I would suggest, as Victory did tonight, that you hold them all firmly to those three Decrees, because it is very vitally important at this time for the Work in hand.

Question: Will You tell me wherein I have fallen down in my Application?

Saint Germain: The feeling in your mental Application is abundant, but the feeling is not always following the Application. If your feeling always followed your intense Application, you would perform miracles, because your feeling is intense; but you have not been aware in your earnestness of your outer Application, that the feeling was not always following it. So if you will watch that, you will find it does not run around "Robin Hood's barn" when you want it to be concentrated.

Question: How long should we use the Violet Consuming Flame?

Saint Germain: I think if you use it intensely, five minutes, three times a day, that is quite sufficient. That will keep dissolved anything that is there. There is so little of your human creation left in any of you. I think it will not be so very bothersome.

Question: Did I do the right thing the way I talked to that woman this morning?

Saint Germain: There are many of those individuals who are more or less psychic. When you begin to do physical things for them, they will hang onto you like a barnacle; but watch out in the future, all of you, and be very careful about that. There is always a reason people get into the conditions they do, so don't be over-sympathetic. The Light within her was strong enough to draw her to this Light, and if she will apply It she will have her Freedom; but she must not think you are going to make the Application and assist her physically all the time.

I would suggest that in the future when you render a service, which you have done so wonderfully to so many, cut them off right there. Don't let them feel they can follow up and begin to cling to you. It is very important because there are many people who, seeing your great loving kindness, will work

every means to keep following up, leaning on you to make Application for them and give them material assistance. So whenever you give help, not only issue your Decrees silently that they stand on their own feet, but if they physically try to lean on you, simply shut it right off and say: "You must not do that. You must stay in your own environment and depend on your own Application." It is very important, because you cannot carry people to Heaven on your back; and there are a few who think there is a possible chance they might ride there, possibly unobserved. So, you cannot let them do that.

Question: Does everybody have to be present at the Class to have their human creation dissolved?

Saint Germain: No, there were others outside. Now I am really closing. Good night!
