

CHAPTER VI

March 10, 1938

CLEVELAND, OHIO

I bring you Love and Greetings, Beloved Ones of the Light, from the Great Host who are ministering to bring about the great Eternal Victory of the Light.

We are all supposed to be able, to a large degree, to forget personalities; and the Law of each one's Life is going to demand a certain amount of that. Seeing from My unlimited standpoint, I obey the Call of each one's Life through their Higher Mental Body. I cannot be misled by human desires. The individual unascended, can be. Therefore, it is My Privilege to attempt to guide and direct until such time as individuals come to the point in the clearness, in the receptivity of their own "Presence," they do not mistake the direction of the human for the "Presence."

Therefore, I know sometimes blessed ones have thought Lotus was severe in her holding guard over the correction in the requirements; but one day you will find it is not.

Mrs. Ballard: I am grateful that You relieved my mind, for I felt maybe I was wrong.

Saint Germain: My Dear, you are being prompted because of the responsibility and guard that it means. If you two Messengers are not to give obedience and guard this Work, then who is there to guard It? If I cannot have you to give Me obedience, and others to give you obedience, then where does the obedience come from to hold the Work pure and unadulterated?

Mrs. Ballard: May I make a request for everybody, ourselves included, tonight; and if I am intruding on anyone's Free Will, then I withdraw it. *"In the Name of the 'Mighty I AM Presence,' in the name of the American people, in the name of the sanity of mankind, I ask You and the Great Divine Director to take out of every one of us, every fragment of the human—cause, effect, record, and habit, and everything of the human; and blast it, the last fragment, until it can never act again; so each one can serve to the maximum of their own 'Mighty I AM Presence,' that there can be done for America what needs to be done, and ten times more than You hope to do!"* I have said repeatedly for a long time, *please don't let us want anything but just Your Way.* I ask that; and if I am intruding on anyone's Free Will, then I withdraw it from that person; but I do ask it, that You may do that which

You and the Great Divine Director know must be done for the Students and America.

Saint Germain: I have the Right and Authority to ask it; but at the same time, unless We can have the *willing* obedience from each one, there are yet certain things upon which We may not intrude.

It has been Our Hope ever since New York, to be able to dissolve and consume the last vestige of each one's own accumulation of human creation and set aside time and space for each one, that they might more easily hold the obedience and have the dominion to allow this Great Work to be done. We have been very patient, but the time is demanding, and I trust no one will blame Me for this firm, determined stand; but the Life Stream of each one compels Me to demand it, and it must be given regardless of human desires.

Mrs. Ballard: May I say to You—I am speaking now for myself—considering what we have all done in the past, in this embodiment at least, the work we did in the outer world, the things that we thought we were doing that were right, serving life, and the conditions in the outer world, may I say that the hardest work any person ever did in the outer physical life, all of it for all lifetimes we have ever lived, still would not be too much to give and do over again a thousand times for the privilege of being

near You and carrying the Light for the Freedom of America and the sanity of mankind. Were I to do it over, I would work a thousand times harder for the privilege of obeying You now.

Saint Germain: Thank you with all My Heart. That is true and real obedience.

Mrs. Ballard: It would not make any difference what this Work demands of us, still it would not be a fragment of what we have given to the outer world and had nothing in return.

Saint Germain: I want to say to each one of you tonight—and your gracious and kindly remarks enable Me to bring it forth—if individuals in the outer understood what full and complete obedience means to the “Presence,” to Us who represent the Activity of the “Presence” in Its Perfection, you would know so definitely that everything then of the activity in the outer would have such unsolicited assistance unknown to the outer world, that everything would come into order, Perfect Divine Order with an ease, a speed that would be almost inconceivable to the individual who did not, within their feelings, give that full and willing obedience.

Owing to the conditions—if I seem severe tonight, bear with it, because you do not know the conditions which I know; and unless I can release sufficient Radiation and Power through the Staff,

you might meet conditions wherein it won't be so easy to be guarded. I do not want you to fear, but there are still attempts being made to interrupt this Work; but if a sufficient harmony and willing obedience can be given by each one of the Staff, so I can release through the Staff the Power of Radiation—you will not see It, but It will go forth, nevertheless—We can govern these outer conditions so that no physical thing intrudes.

Mrs. Ballard: I have tried since I wrote that article on the Power of Peace I read over the radio, to charge the Staff three times a day with Your Power of Peace.

Saint Germain: That is a very good suggestion. Will each one of the Staff take that up and charge yourselves and each other either with My own Power of Peace, or Beloved Jesus', Nada's, or the Divine Director's, or all together, as far as that is concerned?

This attempt—I cannot go into details and explain to you, because I do not want to get your outer mind on it; but the conditions, until after your trip to Washington, require the most powerful protection and calm Power of Radiation. After that—I do not mean anyone should let down on their protective power—but after that the conditions will be very much more easily governed, but so far

We must govern these conditions from the Inner standpoint.

You see, this Work is not just a matter of My walking in. I can go in and get what I want. There is no question about that; but this is the Work of the Students, in preparation for the things which are to follow. There is no use of My going ahead and doing these things without sufficient Application of the Students in the environment who are supposed to be a part of this. I cannot be after them all the time and tell them the demand. If they really refuse acceptance of the human appearance and call the “Presence” into action with a calm, determined, earnest desire, the human will not ride in to make them uncertain of which quality is acting.

If individuals could forget each other for the time being, things would be more easily adjusted. People begin to blame one another and build upon things, until the first thing they know they create a condition which has to be dissolved—because these days, in the increased Power of the Cosmic Light, individuals are releasing energy and power of which they have little concept. Especially when the feeling is charged with a little defiance, or disturbance enters in, much more feeling is released than is even imagined. It seems so strange when We

have pled with the people so long, that they will still keep giving power to human appearances in the feelings, when in the intellect they know the actual truth—that they have no power. We just have to keep on trying.

If there is anyone who has anything in their feeling, known or unknown, that feels that I am not Real and Tangible, and that the Messenger has anything to do with these Dictations, then you must get it out of your system, because that cannot remain in your midst. I know absolutely everything that is going on in each one's thought and feeling. I am never deceived with what is in the feeling and motive of the individual; therefore, do not think for a moment that I am. But these things have reached this point now where We are so near reaching the apex.

Oh, I do not mean, Dear Ones, that one has to be as perfect as the Ascended Being for this to be done; but I am only asking certain simple things that anyone can give to make it possible. In Kansas City when this great percentage was attained, and now when we have the opportunity to go on expanding it, surely there is no human desire that could have any part in it.

Oh, those Blessed Ones who have so recently accomplished the Ascension go forth with that great Love, pleading with the people, trying to have

them understand that only so recently they were in limited forms, and now are Free. How many there are in America today who could have that Freedom even as quickly, but all desire to have a feeling concerning another must vanish.

Oh, Beloved Ones, *love and bless each other as you have never known or thought possible, and refuse to let one word or a single feeling arise in you of criticism of each other.* It must be done. If you forfeit the right now, then God help you. I do not mean by that that any harm would come to you, but it would mean you would be again in the outer world from which you came. Oh, I wonder if you realize that you are no longer of the outer world. I wondered, oh, so much, and I longed so much to see in the audience (when the Great Divine Director said He held them in that Globe of Light drawn from the Cave of Light in India) those who realized a single thing of what He meant and how real it was. But after all, great and tremendous is the Victory being won, in spite of all.

Steadily and surely is vanishing the so-called opposition to the Light, and the time is very short now until vicious individuals who begin to put forth that viciousness toward the Light will last but a short time. Their ignorance in their viciousness toward the Messengers, toward the Light, makes no difference—the reaction will come.

Not so large a number, but a great and loyal, tremendous love goes up from this place; and there are about two hundred people here from whom the most intense, loyal, wondrous love and gratitude is released to the Messengers and the Great Ones for all that has come forth. Of course, that is equal to two thousand who would be lukewarm.

Will each one of you, as you have the opportunity to talk to people, stress the one point that in all their Decree Work they are releasing into the mental and feeling world of mankind—so far-reaching—these qualities or whatever is called forth, and that there is no limit, really, to it. You see, Beloved Group Leaders, in the future try to understand the need of your holding fast to the Ascended Masters' Words. Look how long the Messengers read from the manuscript. While they have a privilege the Group Leaders do not have, there is not one thing they ever say that is not Our Words from the Dictations that are in the Books or private. The outside world does not understand that perhaps, but nevertheless it is true. Therefore, that accounts for their success in this great achievement. If all the Group Leaders understood the need or reason for using the Ascended Masters' Words that are Cups that carry those Qualities into their Group Activity and their Decrees, they would have no

difficulty in making and holding harmony in their Group Activity.

You will notice in every single instance where discord came in, it was through an individual trying to assert their human opinions about it. In every single instance you will find that is the case. The moment a Group Leader or anybody begins to lose that humbleness and feel their authority to dictate to somebody else, then trouble is brewing because the very condition will open them up to the discord that is surging everywhere. But that need not be done. If every Group Leader and Student knew, really knew in their feeling, that their every motive was known to the Ascended Masters, that there was not anything hidden, how different everything would be. It would keep them in that humbleness. It would keep the discord from intruding so often.

I do not think, Beloved Ones, that the Law of your Life Stream will permit Me to give any further promptings. I am not definitely sure of that tonight; but when that Life Stream says, "Stop," then I too must stop. I wish you could know how amazingly infinitely you have been privileged. Never in the history of the Earth has as much prompting been permitted by the Life Stream of individuals as in this case, but it is because your Light must be very great in order

to permit it. So won't you accept that, in all the joy of your Heart—that because the expansion of your Light was enough, I invited you to come into the Heart Center and be a part of it.

I want all the Staff to know how very wonderful, and what our Blessed Lotus' courage has meant to each one. Many times she has given the prompting when this Messenger would have been silent. So, know how great your blessing is; and you cannot help but know, each one of you, that only the greatest love and kindness goes out from each one. Never in your life did love pour out to you from any human being as the love pours out from each one of them to each one of you.

Please feel with Me tonight how real all of this is. This is no imaginary thing. You are entering into the Great Power and Mighty Stream of Life. You are dealing with the Mightiest Laws in the Universe in this Heart Center of Light! If It is to govern America, if It is to govern and save and bless mankind, then you must know how Infinite is Its Power. Oh, you only see a fragmentary part of Its Manifestation yet; but won't you be patient until the Law sees fit to show you the magnificent splendor of Its Power, Radiance, and instant Obedience over destructive forces and powers of which you cannot conceive as yet.

You are not dealing with the Messenger's imagination; you are not dealing with some shadowy condition of Life, but the most Real and Powerful Activity—the Power and Force of Light!

Everyone's Life Stream, Students or otherwise, is the thing that decrees what is to be done for them. You might decree a thing outwardly or desire a thing outwardly; but if it was contrary to your Life Stream when you had entered into this Stream of Light, then it would not be answered, unless by that answer it brought to you an experience that would be the lesson to be learned.

We hope for many wonderful things in this Class. So, will everyone enter in with the joy and happiness and enthusiasm that is yet greater than any you have experienced, and just let the flood of your being and world charge forth. Oh, Beloved Ones, if you could look—now this is not human sympathy, but if you could look into the Hearts of mankind and see what is there, how gladly and willingly you would render every service of your being. Unfortunate humanity is crying out as never before in the world for help, for freedom. It is this great mass pressure—and our Blessed Lotus once saw it as great rollers of time that are rolling humanity in between those great rollers, compelling that Life Stream to come into Divine Order.

To some it may seem very painful. To others it will be an extreme joy and gratitude. But if all understood, even the painful letting go of the human would be a joy too exquisite to describe.

Oh, to once stand in that Gateway of Freedom where We stand! Oh, Beloved Ones, can you feel with Me for a few moments what our Blessed David Lloyd, Rex and Nada, Bob and Pearl, and the Rayborns feel—that which They feel in the opportunity to reach the Goal of Eternal Freedom forever! Human desires sink into such insignificance after centuries, and lifetime after lifetime of struggle—the same old struggles again, again, and again with no perceptible change; yet, then to suddenly step into the Stream of Light, the Pathway of Light that is like the movable steps in the department stores, that aside from your own movement is carrying you on and on and on, rapidly into that Eternal Freedom of the Light. Perhaps there would not be any better illustration to you than as you walk up those stairs, as they are moving, your own effort is there; but underneath you is the Power of Light carrying you forward with your own efforts. That is what We represent to you. The Ascended Masters' Power, Consciousness, and Light is just like that moving stairway under you that is carrying you on more powerfully than your own effort could

possibly do, and yet taking you to a sure, definite Goal with that obedience to Our Requirement.

Oh, do you not see, Blessed Ones, that in your joyous attention to your “Presence” and the Great Ones, in that great Perfecting Activity taking place within and about you and your feeling world, how the whole world without must come into that glad Divine Order and Perfection and Harmony of all that you require for your happiness, supply, and comfort in the outer world. Do you not see how it would be impossible for you not to have everything in Divine Order in your outer life? Oh, not that individuals might not try to oppose you at times, not at all; but that has no power, it has no effect upon your life so long as you do not accept it. Oh, how individuals who feel unkindly to the Messengers or to the Staff are just pushing themselves farther, farther, and farther beyond the periphery of the Light. What a pity! Is it not true that when anger and viciousness beset the individual, all sense of reason and justice is lost? They see nothing but their own fiendish picture of the human desires.

May I say to you again tonight, that in all My vast experience there is no one thing so difficult to endure as to see one here and there fail on the Pathway of Light. I think that is the most difficult thing that anyone has to experience. You do

not see in the human octave that which I mean by those words; for unless you saw from Our Octave of Light, you could not understand nor comprehend just what My Words mean. But to Us it is a tremendous thing. And yet, We must always be serene.

We are soon touching into that great Height of Achievement of the seventy-thousand years ago, and whatever Height of Achievement has been achieved since, will all be combined into one; and then I trust—and it is why I have so earnestly been prompting—each one will leap ahead.

May I say something most encouraging to you, in spite of all that has occurred in the outer? Since the beginning of the Kansas City Class, the Light within each one of you has expanded at least one fourth beyond what It was at that time—a very wonderful thing; a miracle, so-called, in itself.

Do you not understand there is not one thing within your physical body that cannot be done by the directing of the Currents of Energy from the “Presence.” The directing of the Activity of the Violet Consuming Flame, or the Blue Ray, or the Consuming Flame, or the Unfed Flame, directed and held to a given point, would remove all imperfection there. Won’t you all just try it out? Whether it is on yourself or some other body, try

directing the Violet Consuming Flame, just like It was intelligent, because It is if It is directed by the Intelligence of your "Presence"; and see It penetrate and dissolve a growth, or see It put Its lasso of Light around that and operate on it and take it out.

Oh, for the confidence in the Power of Light, that you have in the outer things! Is it not strange, Beloved Ones, how because of habit you have confidence—but of course you do, you remove the *effect* of things; but who of you shall say to Me you remove the *cause* by the surgeons in the outer world? Sometimes that effect does not gather again in this embodiment; but Beloved Ones, unless you have removed the cause and the record, it might recur.

Therefore, Beloved Ones, I wonder—you see, I am wondering tonight too—if any one of you could tell Me how much I love you. Is there anyone brave enough to venture?

Mrs. Ballard: More than our outer can understand.

Saint Germain: Quite true. Oh, maybe I am a severe old chap; but nevertheless, I think you will all survive it.

Mrs. Ballard: I wonder that You have not gotten tired of us long ago, and You would let us take our medicine.

Saint Germain: Well you know, I think, Blessed

Ones, all of you have had all the whipping you need—I am sure more than was really necessary; so let us just, as you say, cut it out in the future.

Question: _____ wants a new suit of clothes, and he says he sees that diamond on his hand.

Saint Germain: Tell Me, what would you do were you to awaken some morning with that physical ring on your finger, and your suit of clothes there ready for you?

Answer: I don't know, but I would be awfully happy. Am I looking in vain for my diamond? I feel I could almost see it sometimes.

Saint Germain: Blessed One, it would be impossible in the Light to look for anything in vain that was the Divine Order for your Life Stream. And really, I have been very peculiar throughout all My Life Stream, for I have loved jewels because of the radiance and power they have conveyed. Oh, if you, each one, only knew what stands so short a distance before you, the joy within your Heart would burst all bounds. I think I hear you say to Me some of these days before long, "Well now, where is all this Perfection You were talking about? Why isn't it manifesting?" Now then, can you tell Me what has been achieved while we have been visiting? Now tighten up your suspenders. Sometimes I am strongly tempted to come

forth and take you, one by one, in My Arms in congratulations. This started out seemingly rather severe, but it has ended in a Blaze of Glory.

Mrs. Ballard: Can I do more intense work for the Washington Group to push aside the discord, that we may have these Broadcasts? I think I have left them on their own when I have been busy with other things.

Saint Germain: That is quite all right. Don't feel your responsibility for those places and conditions. Do whatever work you feel impelled to do; but don't accept any responsibility, because it is their work. It is they who must harmonize themselves. You are not supposed to do constant work on them to keep them harmonized.

Mrs. Ballard: No, but it being the heart of the government, I so much want the maximum power to be poured out.

Saint Germain: Don't you worry. When you get there your Class will be all right. I may find the way to have some of them cancel their engagement. However, we will see. Do not let those things bother you. Go right on serenely with the Work; and do keep before you, Beloved Ones, that the human appearances have no power. It must be before you. Don't accept anything ever from the appearance world less than the Perfection, for any cause whatsoever, as

having power to obstruct or interfere with the Light, the Class Work, individually or anything else—because that is a tremendous part of the battle, so-called, to just simply know that any appearance that attempts to interfere with your world or the Work has no power instantly. Then go on with your Call and Application, but feel that with dynamic Power. You absolutely stop everything, as it were; then as the Power of the “Presence” flows forth, it dissolves and disappears.

Question: Would it help any if we asked Beloved Astrea to hold a Wall of Light around Washington and bind all black magicians?

Saint Germain: Yes, and may I suggest in addition to that, that you *call Mighty Astrea, the Mighty Divine Director, the Goddess of Liberty, and the Queen of Light to dissolve every human focus of discord that has been drawn within the city of Washington.* That is quite as important as disposing of the entities, because there are vortices of human, destructive activities that have been drawn there—about ten within the city of Washington. Call Beloved Astrea to take care of the entities, and the Great Divine Director or Mighty Victory or any one of Those to dissolve, consume, and explode all human vortices that have been gathered there; then consume them, because sometimes you need to shatter a thing before the consuming activity can

act quickly. Do as you would if it were something exploded.

As you visualize—you do not need to know just where they are, but into all those human vortices that are there—see the Blue Lightning go into that, explode it; then use the Violet Consuming Flame and consume it. As you make that mental picture, it will hasten and intensify the activity of your Call to the “Presence” tremendously, because those human vortices there are quite as important, in fact more important now than the entity condition. A lot of the entity condition has been handled there, so that is not as dangerous just now as this other condition.

You could do the same thing for New York, but let Me explain to you what happens in this activity I am suggesting. When you call the Blue Lightning into a thing to explode it—you know, just like the roots of a tree: each one of these focuses or vortices there is like a root; and when that explodes, that goes into that, which means into human beings and their feeling world. At first they will be tremendously confused; but as that settles down, they will begin to see and sense Divine Justice of the thing and their mistake or wrong. So, I feel that activity now is as important, or more important than any one thing that could be done just at this

time. I am telling you this today because of your own human creation being dissolved; and as you project that Blue Lightning into that and see it explode, then It carries into the roots of the thing. I would call for the cause, effect, and record to be consumed; but in each case, just make the one quick, dynamic Call. Then take your mind completely off it and let It go forth sustained to do Its Work.

Mrs. Ballard: Can you tell me what it was I brought back the other morning when I saw someone standing in the Unfed Flame untouched? Was that my human watching the Higher Mental Body instruct me, or was I watching someone else?

Saint Germain: For the moment you were watching another's experience, and your great intense desire will bring you into the same activity. This observation was the Etheric Body of the individual, and this may be done—let all of you take notice of this—this may be done with and through the Etheric Body of each one, which will carry the Radiation into the physical, causing tremendous activity and change to take place. Now you are all getting a tremendous tip there. You see, did I not keep My Promise?

How great, how great is your privilege and opportunity! Remember, you have the opportunity, the privilege of entering into the Unfed Flame in

the Etheric Body, carrying the Radiation into the physical body which would bring about a very rapid change in the appearance of the physical form, its health and perfection.

Question: Should we visualize the Crystal White Light or the Golden Light?

Saint Germain: I think it would be wise not to offer suggestions. Let the Wisdom of your “Presence” do that, for perhaps no two of you would require the same color, qualification of activity there.

Question: Should we make the Call just before we go to sleep?

Saint Germain: Yes, and please don’t have any consideration whether you see any immediate result or bring back the memory. Don’t be affected by that, just go right on. Before you go to sleep, make that Call. If you understand what I mean from the Inner standpoint—as soon as you cease to look for results, then how much more quickly will the results come. That sounds like a paradox, but it is true.

Now I must say good-night to you, Beloved Ones. Oh, we could go on and on and on for hours and hours.

Mrs. Ballard: Will you make the ears of the world listen tonight, and speak through my voice on “America’s Power”?

Saint Germain: God Himalaya has prepared the Currents already, and they are waiting to carry it forth.

Question: Will that go to India?

Saint Germain: Oh yes. So I will say good-night, and all Love and Blessings to you all. May the fullness of that Infinite Light from your “Presence” anchored within your Heart expand, produce Its Perfection, Perfect Health, Strength, Courage, and Harmony in your feeling world of action, and glorify you with a Serenity and Consciousness of Command and Power that compels obedience to the Law of Divine Order and Justice everywhere you move. In the fullness of Its Infinite Power of Light, good night.
