

## CHAPTER IX

July 23, 1938

LOS ANGELES, CALIFORNIA

My Love, Blessings, and Greetings, Beloved Ones; and I am more than delighted that you are keeping abreast of the times, being aware of the possibilities. May I remind you again that you have a Power, once you realize it, which would enable Us in any emergency to successfully achieve almost any kind of activity upon which the large percent of the outer world's attention might be fixed.

You may be sure that wherever the outer plans of the world conform to the Inner Requirements, every assistance will be given; and I feel very sure—if in cooperation with the Great Cosmic Light—this which you have been joyously discussing could be a means of establishing an activity unparalleled by any other means at the present time. That is how many things can be transmuted into a Divine Activity, and out of it comes a Great Activity of Divine Justice.

I have never in My entire Experience seen so much accomplished for the Nation as has been

accomplished in the past thirty days. You will see the outpicturing of this gathered momentum of these Mighty Decrees for the past three and a half or more years; and if you understood as We do, they cannot fail to produce the results, either in your private Decrees or in the Group Activity.

I call your attention again to these vast Group Decrees in the Class. There is no one outside of Ourselves who can possibly estimate what is done through those tremendous activities; and the joy and harmony and the enthusiasm and the great outpouring of Divine Love in this recent Class is unparalleled by anything the world has ever known in hundreds of centuries—and it was a gathered momentum of about six months.

Do you realize, Beloved Ones, what—I mean something that is in conformity with the Divine Order of things, how an expectation in your desire world creates and holds a power of activity and anchorage that can produce astounding results? Therefore, you are beginning to see now the outpicturing of the gathered momentum by these Mighty Decrees that will be the greatest delight of your whole experience.

I do congratulate you. With Our Assistance I feel so sure that your entire Life Streams—all of you—have been so cleared of past accumulations

and conditions that you will be able to govern yourselves in absolute happiness and harmony that makes it possible for Us to do the things We need to do. You have no idea what that would mean to you and to Us—absolute harmony maintained in your feelings, in your association, for six months.

I know it is not quite possible, unless you saw with Me from the Octave above just what all this means, but it is so vital! It is so important that I again plead with you: *don't let anything under any circumstance disturb your feelings* because, you see, We have gained such a Victory in spite of all that has had to be met, that if that can be done (and it was with those conditions), what magnificent Marvels would be accomplished with absolute perfect harmony, because it releases the full Power of the Forces of Light. But that has to be done over a sufficient period to get the momentum gathered.

I say this to you advisedly tonight: such a tremendous momentum was gathered for you individually and for the future activity during this Class, that I want you to realize that to hold and sustain the harmony in yourself, that none of that be requalified—We can do what We plan to do any time; and I can assure you, I shall delight your Hearts, every one of you, beyond your fondest imagination

if you will do this for Me, because We are going into very definite action.

I will never forget this Class, and you see how absolutely powerless all of the vicious forces are. They have no more power than a feather in a gust of wind. The only slightest touch of anything was when the gathered projection of force was there to make the people sleepy, so they would not comprehend. That was cleared immediately, so it was a very marvelous thing.

You see, really, and this is why I talk about it again, when there is sufficient harmony within a focus, all those things can be transmuted into an activity of service. While their intent is wholly wrong, yet with the sufficient gathered substance from the human octave, We can always change that into a thing of Divine Beauty and Perfection.

Because of certain individuals in the room on Ascension Day, We thought it unwise to give forth certain descriptions of things concerning the Ascensions, but it was the most magnificent thing ever witnessed on this Earth since the height of the Second Golden Age! The effect over the atmosphere of America as those twenty-five ascended was the most powerful thing We have ever witnessed in the human octave, and of course

it was so charged and qualified that it covered the whole of the United States.

A thing unknown in the formation of the Earth occurred at the Tetons. You will remember the vein of gold at the back of the Audience Chamber—well, that extends through the mountain in each direction. Deep down the veins of gold curve so that it is practically under the center of the mountain.

Now, I did not do this Myself; but when the Ascensions took place, streams of that metal were drawn through the Earth until it formed a Canopy of those Golden Streams up, over, and above the Audience Chamber in the mountain—a thing that was never known in the history of the Earth before. I say that, to give you some idea of the Power that was released through the Earth. Now you see, that would be about 18,000 feet from the point under the mountain from whence this was drawn from the vein up, through, and over. It would be around 14,000 feet that these streams of metal were drawn through the Earth, which makes the Canopy over the Audience Chamber.

That shows to Me the Power of Intelligence within the Cosmic Light. Now this is outside of Our Efforts, of any one of the Ascended Masters. I want you to see the difference. That was from the

Intelligence and Power *within* the Cosmic Light, that is the Light projected from the Great Central Sun by the Great Group of Ascended Masters there. That is a definite Activity. While of course Our Efforts cooperate with that insofar as certain Cosmic Activities are required, I want you to feel that is a wholly independent activity from what We are doing in the requirement.

Once you realize (I mean bring into action in your feeling) that this is just as definite a thing as if you had a factory and you went out and set your machinery into action to produce a certain material with it; it is just as definite as if you went out and planted your grain and seed and produced certain crops—you would expect results. Of course, this is far more definite because it is Divine Action in which there is no atmospheric or human condition to interfere with it.

What I am trying to do is convey into your feeling for constant action the mighty Reality, because as quick as that becomes active in your feelings, then I can do a thousand times more in withdrawing that from you than I can otherwise. Now, this is not drawing any of your physical energy, not for a single instant; but it is drawing through you the Power of your own “Mighty I AM Presence.”

This is what I want you to feel, because it cannot draw anything from your physical energy and strength. That is why, as you realize this, you will find yourself sustained abundantly with all the energy you require for any service you wish to perform, and that will change the whole thing within your bodily activity; and as you give it a little more attention, it will make it practically impossible for you to become tired or exhausted. Then in an emergency when you need to use more energy, it is always there, and you will feel no sense of tire or exhaustion from its use.

*Mrs. Ballard:* Can we use the Activity of the Canopy like we use the Blue Lightning?

*Saint Germain:* I was just going to say that. If you will be aware of that—for instance: don't feel that this is the least complicated when these various things are added, but just feel that the Essence from that gold forms a Canopy above your human bodies as you move before mankind. This would be a very marvelous thing for you, especially for your voices. That Essence would release into your vocal cords and would give you some of the most astounding things in your voice. It would give a liquid quality and a flexibility of the vocal cords that would delight you beyond words.
