*"Having observed thru many cycles of time, the activity of mankind in their approach to the Light, it is the most gratifying experience in thousands of centuries to see the expansion of the Light in the hearts of mankind. There are many who have not touched this Understanding yet but who ARE responding to the call of those Mighty Decrees issued by the students thruout America and the world."*

GOD TABOR

*"Once the students really understand that they have Infinite Power in these Decrees, they will find a Power and speed of achievement that will be the most astonishing thing in their entire experience. A great many are coming to understand that they are dealing with Real Law; a Law that responds more quickly and more accurately than the response of the engine in your cars and just as practical and mechanical in its action."*

GOD TABOR

All Life's action really is in the form of a wheel, because of the wheel of birth and rebirth—a continual thing, until the achievement of the Ascension. So it is in the Cosmic Activity; the Great Cosmic Wheel is compelling Our Assistance to the earth."*
