

· MIGHTY HERCULES' DISCOURSE ·

August 6, 1938.

(Private Dictation)

SAINT GERMAIN:

BELOVED ones, you might have sometimes wondered whether I would fulfill all My Promises. We shall see! In the need of the world to-day, to-night I shall try to have you understand why I have called so earnestly for such Complete Harmony within those of your immediate association. This which We have planned for to-night, We have been waiting to do for four months. The need for the Messengers and the need for This Work, is a natural release of Power, which only as you saw from Our Standpoint would I be able to make it clear to you, because words just don't do it.

The Great Cosmic Being, whom We have called Hercules, is the Presence which you are feeling, to-night. Presently He will give to you the Dictation. I would suggest that all of you here, before you retire to-night, make an absolute, firm, definite call for the release of all that the Cosmic Light plans for tomorrow during the Dictation and Broadcast. (During Minute Men's Meeting.)

Such definite Power is going into action that We want to make the most of It. While the classes in Oakland and Seattle will be very wonderful, by the time you reach Chicago, this Power releasing to-night, will have reached Its Apex and by this, We expect to reach into the feeling world of the individuals not familiar with This Work, who will be drawn into the classes, to enter with a complete acceptance in their feelings.

The forces of darkness know absolutely that this Power is Real. They know We are Real, and therefore never in the history of the earth has such a fear been thrown into destructive forces, as is being done right now. When that begins to react upon some of these individuals still embodied, it will be pitiful to behold.

Again I say to you, beloved ones, there is no possible means of knowing just what can be done, until the release of the energy thru individuals actually takes place. Then you can know definitely what you can do with it. Last night and to-night, while the group of individuals is small in numbers, a Power is released, which were you to see it, you would scarcely believe your own eyes. That is what it means by the gaining of momentum.

This charge which Hercules is bringing to-night, is in answer to your long call. I want you to see, if you will, how the impulse within the feeling speaks with such Mighty Truth and Power; and again see how unfailing is your answer, how unfailing is your call.

This is the first time this Great Presence has come forth into the human octave in three hundred twenty-six thousand years, exactly. If you saw the calendar — I mean by that the eternal calendar which We have as the accessory of time held within the human octave, you would see it is exact to the day.

I do not mean that this is just because of its being the answer to the call of a few individuals. It means that the Light within the individuals acting thru the Higher Mental Bodies of each one, has responded to the Cosmic Impulse — which causes these calls to be made with sufficient intensity for it to be amplified so as to draw forth this Great Presence. You will never know, until you are with Us, what this has meant. You see the various Ones have been called forth, each One doing His or Her own specific Part; but the need among the students, to-day, is for a greater Power and Energy.

Now notice this carefully! I shall use the two expressions, because both are included in it. The refusal of the students to

give heed to the earnest call, to hold Harmony in the feelings, and their feeling of inability on the other hand to give that obedience, has made this demand necessary; for the students must have — and I mean by that, greater Natural Power of Protection. Therefore, these Beings who are the Authority for that particular thing must come forth to give It full release and if there were no other proof before us, that the Great Cosmic Law was going to compel the fulfilling of that which was thrown on the Cosmic Screen in the Teton, at the Messenger's first visit there, then this would be it.

One by one, the call of mankind has brought forth these Great Beings. Could you who are gathered here, fully understand and comprehend your power in your call at this time, you could transform almost any condition at once, whether it was in the government or industry. I almost hesitate to say this, because when you have so much to do in the outer I don't wish to impose more upon you; but after to-night, when there is some urgent need, if you who are here can be gathered together and for thirty minutes issue a Mighty Decree for the adjustment of whatever might be required, you would be amazed at the result.

I do not want you to feel obligated in any sense at this suggestion, but from time to time between now and the time you leave Chicago, you will find that there will be opportunities; but if you cannot be gathered in this manner, then notify each one and let it be done in their respective places before you retire at night. You see really the matter of your physical bodies being together in a group this way, while it is helpful, it is not always imperative. I have always hesitated to speak of it, lest in your rush of work, you feel in some way a sense of strain in doing it; for that is what I want you to get away from absolutely—any sense of strain—because when you really FEEL the Presence doing what is required, there cannot be any strain. It is only when you unknowingly in the feelings, feel too much responsibility in the outer that you begin to use your outer energy too much; because your call to the Presence will release and cause to flow thru you, every particle, every ounce of energy you require for use.

I would suggest, Lotus, that as soon as these transcriptions are finished or while they are being finished, try not to feel any outer strain or pull; but when they are finished, try to take just an easy steady preparation of the material for the magazine and for your future transcriptions so that there never is a feeling of rushing or taking any of your outer energy.

I would suggest that from the time you leave here, you would regulate things, so that it does not make any difference what the outer requirements are, you get on an average of seven hours sleep.

Tremendous Power and Energy will be released and We want you to feel at ease and rested, physically speaking, as much as possible during this time. A tremendous Power will be released in the Oakland class, to reach deep into the heart of that frightful, destructive thing which is gathering there because of the discord among those students and the heart of the focus there. The reason for holding the class in Oakland was not so much on account of a place, as it was to keep you out of that vortex or focus which has been gathering in San Francisco, because it does not reach across the water there.

I sometimes marvel that the students, after all that has been said, don't realize when these forces begin to touch or act thru them, that they don't stop, realize what is happening and see the force that is acting. Then, in refusing to give any response to it, stand guard over the power of the currents of energy drawn—but they have not done it. I say frankly, if it had not been for our blessed Mr. and Mrs. ———, that sinister thing would have brought great destruction into San Francisco, but seeing that they would hold the balance, I have not mentioned it before.

Oh, isn't it pitiful that people because they cannot have their human whims satisfied, turn into such destructive beasts? Really, I say that advisedly, because they become little less than beasts when they release such destructive desires and feelings just because they cannot have their human way. I am determined before the end of the Oakland Class, to annihilate that thing in San Francisco or know the reason why. That thing shall not destroy all that has been done there, or in the city either, which would very quickly follow, if that destructive force were unleashed there.

I say to you as the Staff and those not of the Staff who are present: Dear people, as you value your future existence, stand guard over any slightest sex desire that touches the world. Annihilate it instantly because, I tell you frankly, that sinister thing has become so diabolical that you must absolutely stand on guard in every way. If you will always, at the first intimation or prompting of disturbance of any kind, stop physically and call the Presence into action to annihilate cause and effect of it, then call to the Ascended Masters to amplify all the "I

AM Presence" releases, you will have absolutely no trouble in dismissing anything that touches your world — any discord or disturbance, and it is imperative because you are calling forth Great Powerful charges of Energy, so don't, please don't, allow them to be wrongly qualified.

Hercules is ready. I thank you, beloved ones, one and all, for your willingness to give the obedience. Oh, precious people, you may not quite see why I plead so earnestly for Absolute Harmony and Obedience, but it is not long until you will see and understand why I have pled so earnestly. (This was only a few months before the last of the black magicians were taken from the earth.) There must be a Focus wherein this Greater Power can be released, and there is no other place to do it. Won't you put aside forever any personal feelings for any reason that might be acting? Put them aside forever, that This Service may be rendered to mankind and the earth.

It is the application of mankind and the students which is needed, beloved ones. You have no idea how much that continued dynamic application is needed. I do not mean with any strenuousness at all, but just with great calm determination give the call. It does not make any difference what you are doing, you can make that call once an hour, if you will remind yourselves of it. It won't interfere with your regular activities in the least, for it only takes a moment to make that mighty call.

I do thank each one with all My Heart for your kindly cooperation and willing obedience. This release, to-night, has brought so much for which We had scarcely even hoped that I feel with your general activity and that of the Groups everywhere, We can accomplish what We desire. Do not be the slightest concerned about these individuals who spread falsehoods or discord. Just have no thought, except to know they have absolutely no power in any way. I will speak to you again at the close.

MIGHTY HERCULES

Beloved Children of the Light! in having come forth from the Great Power-house of the Universe, and you being a Part of Myself — of My Great Energy — in the fulfilling of the Law of the Incoming Golden Age, it will become My first and Mighty Duty to release My Power and Force thru the students who are loyal to the Light. I speak of it as a Duty, but it is really My Joy to render this Service and to show to the whole world that Students of the Light serving with Honor, Purity and Justice, are no longer subject to the viciousness of the destructive forces generated by mankind; as We shall endeavor in a comparatively short time to prove to the whole world.
