

the humbleness of Life! From here there has gone forth one of the greatest Blessings yet poured out to mankind; because the combined forces of the Ascended Masters and the Cosmic Beings have gathered here to render this Service to the earth and mankind for the protection of your America. Your calls have not been in vain. Aside from the Blessings which have come to you individually, I am sure this will always be a great memory to all who are here! May each heart rejoice forever, and may I be of such service to each one, as to give you the full consciousness of your Victory and Freedom at once!

I say adieu to you, but not good-bye! Try to feel how great My Love, My Satisfaction is, to find this condition upon earth. I shall try to come, as opportunity offers, to continue to expand this begun to-night. Possibly We can meet once a month to carry on this which We have started to-night.

Saint Germain wants to say a few more Words to you.

*SAINT GERMAIN:*

Beloved ones, I shall leave it to you, to hold the Sacred Memory of this beautiful night. With a powerful telescope lens camera, I am sure that you would be able to make visible the Radiance about this place to-night! For a radius of fifty feet around this place, there is a Blazing Light, which was the Light drawn forth by this Great Presence.

May I offer one more suggestion? As you retire to-night and awaken in the morning, will each of you make a definite practice of projecting the Mighty Power of Light before you and so harmonize, take command of all conditions about you and your world, and hold such complete obedience of all qualities, that not a discordant thing can find expression in your world? Begin to practice the projection of this Mighty Light Ray before you, which will hold Its Dominion and Perfection that you are no longer subject to the discordant things of the outer world which can just as well be dissolved before you reach them, as to have to experience them thru the physical body. **REMEMBER! YOUR APPLICATION MEANS EVERYTHING! THE LAW DOES NOT ACT WITHOUT IT!**

As you keep calling forth the Great Power of the Light, the Mighty Light Rays to go before, cleanse, harmonize, perfect and take full command of all your activities, then will you find yourselves moving in a charmed world of Harmony and Perfection; and the discordant things which would other-

wise contact you thru human beings, will find it impossible to act. While in the Radiance of your Presence, all will experience only Perfection and act only harmoniously, giving you Divine Order and Divine Justice. It is right at this time, that you should begin to draw forth this definite action.

Remember, beloved ones, you are no longer plodding children of the earth, but shod with the "Winged Sandals of Light" which carry you forth with this Limitless Energy which produces Perfection everywhere.

I congratulate and thank you for this opportunity, in behalf of Myself and all the Great Ones; and I am grateful that you are now beginning to comprehend what the Victory of the Light really means to you. It is very beautiful and wonderful.

Refrain as much as possible from ever referring to destructive individuals or personalize them, for they are powerless. Hold such dignity in the Constructive Activity of the Power of Light and Life, that it commands the greatest respect of every individual, even your so-called enemy. There is nothing to battle! Call forth the Power of Light and It becomes Its own Victory everywhere!

You to-day, who have become the Bearers of the Light, have your homes everywhere. The Great Presence of Life and the Power of Divine Love welcome you everywhere and the homes are open to you everywhere. Is it not a beautiful thought? Is it not a beautiful Reality, that all Beauty and Perfection in the acknowledgment of the Great Presence of Life, have become yours to enjoy, and it is so with all of you? As the greater and greater Harmony has come into your Life, so does Life begin to flood your world with Its greater and greater Beauty, Perfection and Abundance in every way.

You may find, that I am a rather Desirable Grand-papa. I thank you beloved ones, and in the Fulness of that Light which is your Perfection, your Dominion, yours to command, I bid you good-night. May the fulness of all Peace, all Joy, all Happiness, the Limitless Supply of all good things, the Limitless Supply of all money which you require for use, be yours at once in the Power of your Almighty call to the Treasure-house of your Presence.

Ere long, I am quite sure, you will all come to know what it has meant to make the call that "Ascended Master Friends" be raised up everywhere to bless you.

Good-night and Our Blessings enfold you always to your Perfection.
