

“MIGHTY I AM PRESENCE”! No longer do I accept one single thing of the limitations or conditions of this world! Take command of my mind and body; compel my human into obedience and sustain it! Stand guard over it and see no longer does the human feel discord or inharmony!

## GEMS OF LIGHT

SAINT GERMAIN

In all Music

*In the Activity under This Radiation, you forget the technique and you let the Presence be the technique. In this, it is the Power of the Presence acting and there is no exhaustion; there is no confusion. It is often in the attempt to hold to the technique thru the outer training that caused you to become exhausted.*

SAINT GERMAIN

*When your attention is upon the technique of the outer, you are accepting the limitations of the outer; while with your attention upon the Presence while you are singing, it gives It the Power to make It the technique; because the Presence is the Technique in the outer manifestation. It has to be!*

SAINT GERMAIN

*Before you knew this, of course you had to have certain technique, you could not go forward without it; but since you know the Presence, who is the Power of all Technique, why not let It act and become the Technique in action?*

SAINT GERMAIN

*Life makes no mistakes! Life fits everything together, and since there is the One Great Life and all individuals are Its Out-Pouring; then each one, many times when he or she least suspects it, is really fulfilling that requirement.*
