

GO TO THE ROYAL TETON

Beloved Ones—As we go to the Royal Teton New Year's Eve this year, the Power and Victory of the Light will flood forth to the Earth at our call, and all required to give America the assistance for which our hearts call. The amount of Cosmic Light which we call into the physical octave is dependent upon the expansion of Light through our hearts; so let us pour the devotion required, to the Great Ones at the Royal Teton, in our call for help to the humanity of Earth, which will enable Saint Germain, Jesus, Daddy, Cyclopea, Mighty Victory, Our Beloved Lanto and all others assisting from There, to release whatever is required to fill America's Crystal Cup with the Light that must redeem the world.

Let us I AM Students feel the obligation of holding such indestructable Harmony that the greatest amount of Cosmic Light may flood America everywhere, and hold our people protected until the Great Ones give the One Mighty Stroke. America's Protection is our Responsibility. All the Harmony we hold is just so much Cosmic Light, which Saint Germain and the Great Ones can use for Her Protection.

Let us not give one ounce of energy to anything less than the Perfection of the Light, for America is ours. SHE SHALL BE FREE. SHE SHALL BE VICTORIOUS. And Her Light shall blaze with whatever intensity is needed to protect America and release humanity from the claws of destruction forever.

We enfold you in Victory's Full Momentum of blazing Victory, of Invincible Protection and overwhelming supply of every good thing for the entire New and Perfect Year. We Bless all from the Royal Teton and all who carry the Light, to lead mankind into the Ascended Masters' Octave forever. We thank you, we love you, we bless you. Forever in the Service of the Light.
