

BELOVED JESUS' DISCOURSE

CHICAGO, ILLINOIS

MAY 18, 1944

ASCENSION DAY

BELOVED Ones of My Heart, you who so devotedly give Me your attention and your acceptance! "I AM" come today, to give you My Power and My Feeling, which is My Love. While there is within My Life every quality, yet in the Ascended State, every Quality is the Conscious Focus of Feeling, charged with the Pressure that compels the Instantaneous Manifestation.

When I give you My Love, I give you the Feeling of My Life from My Ascended Master Octave. Since "I AM" All-powerful, then My Life can pour from My Octave into yours, as easily as water can pour forth thru the faucets in your homes. When I offer you My Love, I offer you the Concentrated Energy of My Feeling of that Cosmic Love which has within It, everything in the Universe.

Since Life fills the Universe around you and since there is Feeling within Life, that Feeling or the Power to feel, is ONE thruout all Life. You may feel different qualities and sensations; but the Activity of feeling which is within all Life is One Activity; and it is no trouble for Me to pour the Feeling from My Octave into you. You received It a few moments ago! (during half hour silence) Thousands of people, when they still themselves and turn their attention to Me, feel a Peace, an Ease, a Stillness which is My Love. Those are the Qualities within My Love. They feel that! Then I must be REAL! I must be in the Universe, if they feel Love from Me, when they think about Me!

There is light within My Feeling and therefore, when you feel Me, My Light has entered into you. I mean by that—Illumination, not only of ideas, but actual Illumina-

tion of the flesh structure of your bodies; because the Feeling which is within My Love is the Expanding Action of Light; and if you have felt Me in the Peace that comes into the room, then you have felt My Light.

Your Beloved Saint Germain has told you, that within feeling was both sight and hearing. When your feelings are held quiet and Harmonious enough, you will first of all begin to feel Light, when you place your attention upon Me; or upon any Ascended Master; or upon the Manifestations of Light and the Sacred Fire. The moment your attention goes to these Activities of Life, Life begins to pour back into your feelings, the Substance of Light. Therefore, when you begin to feel at ease and accept the Feeling of My Love, you are feeling Light from My Octave; and if you were to sustain that without interruption over a certain period, then your feeling would become intensified to the point, where you would see the Light coming thru your flesh. You must FEEL Light coming thru the flesh, before your bodies can be Self-luminous.

Now let Me show you what a short step it is between visualizing a thing and feeling it. You can visualize Light and the moment you hold your attention upon It with Love and Devotion, you begin to feel It; and don't let your intellect tell you you cannot, because you can! When you suddenly recall to your minds, or you sometimes conjure up, which you many times do, conditions in your imagination, which are the imaging of the action or the condition within your minds; that begins to generate a feeling, because if it be something of discord in just a few moments, your feelings have become disturbed.

So if you can picture in your minds just an outline of something that is discordant and that can make you feel its qualities, why can you not feel My Light and why can you not see My Light? You can if you will admit it! You can if you will accept It! You can if you want to, and

don't ever let your intellect again tell you that you cannot. I did and thousands of Other Ascended Beings have done it also. You are doing it with destructive qualities, why not admit that you can do it with constructive qualities!

Did I not give you the Statement: " 'I AM' the Presence of Pure Divine Love that transcends every human concept and that opens the Door to Me to the Light within Its Heart," showing that within Love, within the Heart of Love is Light? Now you cannot get away from this. It is as Self-evident as that the Sun is in the heavens. Therefore, when you turn your attention to the Sun, do you not feel its Light? Well then, when you turn your attention to your "I AM Presence," will you not feel Its Light? I want you to get this clear in your intellects, that the moment your attention goes to something, you feel instantly something about that thing; and you can feel as much Light as you want to!

When you realize that every constructive quality within Life anywhere in this Universe, is a Radiation of a Certain Intensity of Light, then you cannot tell Me that you don't feel Light, because you do feel constructive qualities; and it will not be long, until there will be those sensitized substances of the outer world in photographic channels, which will photograph many gradations of Light around an individual with such finesse, that it will catch the slightest wave of Light as it radiates from the physical body.

Now will you follow closely with Me, because there is anchored into the structure of the earth today, thru your bodies and thru the body of every human being on earth, a Cosmic Action of Light, the Cosmic Light, that is as it were, fastening individual streams of Itself into the structure of the ground upon which you walk. That is the Cosmic Action which is intensifying the Love "I AM" pouring out today to those who give their attention to

Me intensely. Of course to them and also thru every particle of Life of every human being's Life Stream on this planet and even to the structure of earth and the substance of Nature, I am pouring the Light of My Love this hour.

The Victory of the Ascension is the Victory of drawing thru your individual Life Streams such an ever-increasing Focus, acceptance, acknowledgment and feeling of Dazzling White Light, that when It reaches a certain point, Its vibratory action raises and illumines all substance that you have drawn from this world into your bodies, for It goes into the next Octave as Light; for My Body became wholly Luminous before I entered that Octave where "I AM" now. I have gone on of course into Greater Cosmic Activities of the Universe, and still that Octave of the Ascended Masters which is above the physical atmosphere of this earth, is the Octave of Light-substance within which there abides more intensified concentration thru the Ascended Masters and Cosmic Beings of the Action of Light, and the Cosmic Light's Activities of creation.

Just as you might have much light within this room from the sun, so could you have and do have these other Focuses of Light also. More intense Light and the greater concentration of Light-substance can be drawn within the Light that fills the Universe. There is where Cosmic Creation takes place and it all is the Action of Light. Life's Perfection is always the Action of Light! So if there be conditions under which you are struggling, either in yourselves or in the world around you, if you are to ascend out of these, if you are to rise out of your problems, then you yourselves thru your physical bodies, must draw greater Substance of Light. If you would so determine it, every thought, feeling and spoken word, every act that you perform could be qualified with your Feeling of Light, if you really want to; if you love to and if you love the Light.

Now remember to qualify means to FEEL—and that is not just an intellectual idea! To qualify means to feel that everything you do, during your waking activities day by day, is qualified with your acceptance, your feeling, your blessing and expansion of the Light, which is within the Divine Love that transcends every human concept; you could never know exhaustion! You could never again feel tension in the nerves or the muscles! You could never again feel irritation, disappointment, strain or human struggle.

The Light My beloved ones does not struggle! The Light expands and gives Itself, and is the Song of the Joy of Life. Everything you do, could be the Expansion of the Light which is within the Divine Love that transcends every human quality, if you would so determine it and FEEL It. Perhaps this statement will help you: “‘I AM’ the Presence which always FEELS the Light within the Divine Love transcends every human concept; and is now the action which I perform.” If you could take that Statement and think deeply upon it and use it before you start to do anything; or even when you are in the midst of doing something, use the Statement several times, it would keep your outer feelings reminded of the Light which is within that Divine Love; for when Divine Love transcends every human concept what does that mean to you? It means It is the Focus of Life that transcends, is always acting and held before all human discord; therefore, Master of it and untouched by it.

Your Beloved Saint Germain said to you: “The shadows may come and the shadows may go; the human may come and the human may go, but the Light goes on forever,” for who can take Light out of the Universe? Then, since you are in the Universe and Light cannot get out of the Universe, you can always reach to that Light which is within that Divine Love—which is feeling, that transcends every human concept. Therefore, It is the Feeling

of Peace and Harmony and Mastery that transcends all human discord, struggle and irritation. Is that not what takes place in the Ascension?

If you are to have that feeling of Life, if you are to be that Light, Its Masterful Manifestation and Dominion over all things human, you must acknowledge that you ARE the Presence of that Light here in action thru yourselves. That is why I gave that Statement! If you will recall I said, that statement, at least I inferred It, was the most powerful one I used; because It was only after using It that the Full Revelation came to Me of how I could leave the Example of the Ascension to mankind.

Now, if that was the Statement which gave Me My Victory and enabled Me to have the Revelation of the Light within that Love, would It not solve your problems? Would It not enable you to realize the Mastery over human creations of this world? That is what one of the Great Ones said to you recently—to keep charging the Cosmic Power and Pressure of Cosmic Divine Love around you, until It became so concentrated, you could move anywhere and nothing human could ever come near you.

Like everything else, It takes your attention upon It regularly, with the call, the Love, the recognition and the feeling of It acknowledged and accepted as the Presence of that which you wish to become, charged in, thru and around your bodies, your homes, your worlds and your loved ones; to continually build the momentum of Its Pressure increasing with Cosmic Action; until one day you find yourself raised above all feeling of human struggle and you abide as the Master Presence of that Love, whose Light is the Revelation of all things and the release of the Powers of Life, that produce all outer manifestations of Perfection.

Therefore, you possess within your Life the Ability and you have the Power to produce things of Perfection

in this physical world, by your acknowledgment of the Presence of the Divine Love, that transcends all else in your physical world; and opens the Door to you to the Light within Its Heart, which is the Gift, the Giver and the Power of the thing you desire.

You may say to the flesh structure of your bodies: "I AM' the Presence of the Light in and thru this flesh, that illumines my way wherever I wish to go." I believe I would use "desire" instead of "wish" because sometimes wishes are not backed up with enough dynamic pressure or energy to get very far; but when you desire something you usually turn on plenty of pressure of the energy in your feelings—at least as someone said to you recently: "When you desire something to eat, you usually turn on considerable pressure of energy, to get where that desire is satisfied. Just so with many other things in this Universe.

If you, My precious people of the Light, will release that same Pressure of Light, you will be Free! You are My people of the Light and have been for ages! We have been together again, again and again, when the Light was to be expanded and protected! This is not the first time that My Life, My Love and My Light have worked in co-operation with yours; to increase the Light of the world and to set Life free from human qualities, that have cast shadows in this world for so many centuries.

May I urge you, today, to have the same determination to draw these Transcendent Powers, this Freedom and Victory of Light from Our Octave into yourselves, your loved ones, then America and the world with the same fierce, persistent relentless Pressure of feeling—that you have when you want something to eat very much. If you had had the same habit of persistency and the same fierce relentless determination to have your own way about the Expansion of This Light, that you have had to get your own way in defiance of opposition from others when your

desires were of human discord, the world would be illumined today, and no war upon it.

"I AM" bringing today, a very Positive Force into your mental and feeling worlds and into the atomic structure of your bodies, as well as the atomic structure of the earth itself and into the atmosphere of earth; because that which is of the Light, that which is of Perfection must be powerfully, dynamically and positively charged, with the Pressure and Quality which cuts thru the human accumulation of discord in the atmosphere about you.

In Pure Divine Love that transcends every human concept, there is a Concentration of the Light from Our Octave that is like steel, against human qualities, or human discord consciously directed against those who serve the Light. This Light to which I refer is from Our Octave, not from yours! Therefore, no human quality can cast a shadow upon the Cosmic Light, and that is where the human meets its Waterloo!

You could give Us an invitation, if you would, in this acknowledgment and begin to release a momentum which would produce manifestations that none will question. If you were to say: "'I AM' the Presence of the Light-substance from the Ascended Masters' Octave, that illumines the atmosphere about me where I go forever"—in that, you could move as it were, in a Continual Pathway of Light-substance. You could draw that forth to whatever intensity is necessary, to make that visible to the physical sight of mankind; but it is a matter of FEELING.

The reason you gain such Rapid Victory thru the acknowledgment of the Presence of these qualities or activities, is because that phrase does two things. First of all, It is a reminder that raises or lifts your outer feeling and intellectual consciousness into your Presence. When you say: "'I AM' the Presence of the Ascended Masters' Light-substance, illumining the atmosphere about me wherever I go," then that is as if your outer form reached

Its arms up to your "I AM Presence," and the Presence reached Its Arms into the Ascended Masters' Octave and flooded down to you, that which you have signified to Life is what you desire to expand and move into outer action in this octave.

That is what your spoken word is for, what it is to signify! It is a Cup that reaches up and receives what you desire and releases it here by the Sacred Fire. That Fire is the Flame of Love in the Permanent Atom of your own physical hearts; and that is a Part of the Flame from your "I AM Presence," from the Physical Sun and the Great Central Sun. It is a part of the Flame of Every Ascended Being in the Universe and Every Cosmic Being; for that Fire Element is One! Have you more than one water element on this earth? Well there is ONE Fire Element thruout Creation and Its Qualities and Its Power are ready to come forth and serve you at your conscious direction, whenever you desire to fulfill the Divine Plan.

"I AM" going to explain something to you today, concerning the use of My Luminous Presence or that of any Ascended Master! My Personal Ray, My Individual Rays which I send forth from My Heart—the Heart of My Ascended Body, My Visible Tangible Body or from the Etheric Record of My Ascension, are the Light-substance from the Ascended Masters' Octave—from My Own Individual Temple of Light and Activity, the Focus of My Life Stream's Action from the Great Central Sun! The Form which I build by condensing that Substance within those Rays, as My Luminous Presence, can be enfolded in an Action of the Flame or Fire Element to hold around an individual, those Activities from Our Octave, thru which nothing can ever pass.

I want to reveal to you today what actually takes place in your physical octave, when you call forth the Luminous Presence, the Personal Rays or the Sacred Fire or all three, from Myself, any or all the Ascended Beings of

Light—Ascended Masters or Cosmic Beings. My Luminous Presence is a Condensation of the Light-substance from My Temple of Light, exactly as a sculptor would mold clay into a form. Would you deny Me the Ability to build or model a Form of Myself into which I could charge the Flame of My Love, the Pressure, the Energy, the Power of My Feeling and the Substance of My Light, to bless Life in this octave? Would you deny Me that right, when your sculptors mold the substance of the clay which they take from this earth, into whatever form they please and send it forth for whatever purpose they desire? You grant that request, you grant that privilege and action to the Life of human beings who are sculptors or painters. Would you deny Me at least as much power? Would you deny Me the Activities of Life, which could release Greater Blessings to more people and bring Greater Purity, Peace, Healing and Perfection into this octave? It needs it! Many are crying out in the wilderness of its unhappiness.

Would you deny Me the right to build as many Replicas of Myself as the Luminous Presence, as I please, when a sculptor can make as many statues as he pleases? Am I not entitled to the same Activities of Life, as human beings who have so much that is not Perfection? Would you deny Me the right to give more and pour more Love, and more Healing Power into your world, when it is crying in the agony of human discord and destruction? Then, is not My Luminous Presence a Reality? Is not the Luminous Presence of any Ascended Master or Cosmic Being a Reality? "I AM" asking you and the rest of mankind, to be at least as fair to the Ascended Masters as you are to human beings who impose such destruction upon you; at least as fair to Us, as you are to yourselves.

You gather materials of this world; you go out and buy material by the yard; you have a garment made of it, a suit of clothes or a dress and you wear it around your bodies. Would you deny Me the right to draw the power

of the Sacred Fire around the Replicas of Myself and clothe them with the Power which can heal instantly, and undo the damage that human mistakes are constantly creating? Precious ones of this world, remember, if you deny this as being possible for Me, then the world around you, will deny that it is possible for you, and where are you in that kind of consciousness? Where are you in that sort of feeling? Where is the world going, when that becomes an onrushing cyclone of discord?

Then, please accept that My Luminous Presence is the Extension of Myself, offered to you when you are calling It forth; offered to enfold your loved ones; those you hold near and dear, or any of mankind, when you choose to accept It. This is what takes place! Suppose you call for My Luminous Presence to enfold a dear one. I never refuse you! I have never once failed to build the Form of Substance from My Octave and focus It around those for whom you have called to Me. Never once have I failed! Then failure is not in Our Octave of Life! Failure is of the human, but never of the Divine, which the Light is!

When I focus the Luminous Presence of Myself around, or rather in, thru and around an individual, it is as if an Armor of Light-substance enfolded that one first, and then there begins to pour forth inside of that until it penetrates the body structure, the Light-substance from My Octave; and that is absorbed by the atomic structure and the mental and feeling world of the individual to whom it is drawn, exactly as a sponge would absorb water.

Since all the Substance from My Octave is that of Light, when It enters into the atomic structure of the body of an unascended being, then that much Substance begins to pour forth Its Radiation thru the substance around it; and upon that much Light in your bodies, nothing human can ever impose a shadow. That which I give to you or to your loved ones, remains and abides within that Life

Stream until the Ascension is completed, be it now or a thousand embodiments hence. That is My Gift for Eternity with a Drawing Power and an Expanding Action of Light, that will one day be the Ultimate Victory of the Ascension.

When you call forth the Action of the Sacred Fire around My Luminous Presence, I will blaze forth around the individual an Action of the Fire, an Action of the Blue Flame if need be, of Eternal Invincible Security of that Protection, that Safety of the Fire Element, thru which nothing human cares to pass and which it never thinks of opposing. Do not the animals run away from the Fire Element, when there is a forest fire? Well just so, when the Flame of Love from My Heart is drawn around the Substance of My Luminous Presence, just so does all discord flee! If you would visualize and accept That and feel It, calling to have It sustained in Ever-expanding Action for Eternity, if you desire, I will give It!

Life loves to have you have It, because It is My Love to this octave, which sets it Free from human creation! When It dissolves and consumes that which has been a shadow upon the substance of this world, there are Two Activities of the Luminous Presence of an Ascended Being, or as far as that is concerned the Angelic Host, which will do the same thing for all.

There are Two Activities, when you call forth Our Luminous Presence! There is the Focus of the Presence, the Light-substance, from which more Light-substance can be drawn to penetrate into the body or into whatever It is focused; and there is the Action of the Flame around It, which continues to expand around the body and burn away and keep burned away, that which is less than Perfection; and this my beloved ones, is all within that Statement: "I AM" the Majestic Presence of Pure Divine Love that transcends every human concept and opens the Door to me to the Light within Its Heart."

So whenever you feel Me, whenever you feel the Divine Love from any Ascended Masters, whenever you call for Pure Divine Love from your own "I AM Presence" that transcends every human concept, and you may say: "forever"; then truly you can say: "and opens the Door to me to the Light which is within Its Heart." Then there comes forth this Substance of Light which can as surely penetrate, dissolve and consume human qualities and human shadows, as easily as the Intense Rays from your Physical Sun, play upon a fog and dissolve and consume it in a few moments.

"I AM" going to offer you for your acceptance another Action for which you may call. The Rays from your Physical Sun focused upon the earth, play thru the atmosphere of earth and are regulated, shall I say, to a certain intensity or Pressure of the Light and the Action of the Fire Element; but that is different from what We refer to as the Cosmic Light. The Cosmic Light is the Substance drawn from the Great Central Sun by the Ascended Masters and Cosmic Beings who have consciously drawn that forth and qualified It, to consume all human creation, to burn away that which is of human qualities.

If you care to make the call to the Beings from the Central Sun; the Ascended Masters, the Cosmic Beings and all Beings from the Great Central Sun, to charge into all the Light coming from your Physical Sun, the Cosmic Light-substance; to saturate the atmosphere of earth with whatever intensity is necessary to consume all—now notice—substance and etheric records in the atmosphere which are destructive, you can bring about a very much more rapid cleansing of the earth and its atmosphere, from destructive action.

The intensity of the Rays of Light coming from the Physical Sun are regulated as it were, so the bodies of mankind can endure and still go on in their outer action. It is not brought to the point where the physical body

cannot stand it, except at certain points on the earth's surface; but if you ask for the Physical Sun's Rays to have charged into them the Cosmic-Light Substance that instantly consumes all in the atmosphere of earth that is destructive, I think you will see the collapsing of destructive activities take place much more quickly; and a quicker awakening come about in the consciousness of the mass of mankind, who do not understand This Law.

You may add, your conscious recognition that the Cosmic Light be charged with the feeling of Cosmic Divine Love that transcends every human concept; and that opens the Door to all mankind to the Light which is within Its Heart and compels them to be forever set Free.

As I said to you, Divine Love that transcends every human concept, can be made as intensely concentrated, dynamic and Invincible as We desire or as the occasion may require; but these Activities have got to be specified to Life by unascended beings, before the Cosmic Law will permit the Release of Its Powers past a certain point to the mass of mankind or even to individuals themselves.

The Cosmic Law releases a certain mass action of these Powers of Light and the Sacred Fire at regular intervals; but you may have as Intense an Action as you desire or as is necessary to cleanse the earth more quickly; if unascended beings in the Full Authority of their own Life Streams and the Command of the Great Cosmic Word "I AM" will issue the call for these Special Intensified Activities, which are the Law's requirement for quicker action in cleansing the earth.

I would appreciate it very greatly, if you would all use that phrase more frequently in everything you do, before you attempt to contact a condition physically. Keep charging it with the Presence of Divine Love that transcends every human concept and that releases all the Light, and opens the Door to all the Light which is within Its Heart, and charges forth Its Full Cosmic Power! That

needs to be charged into the feelings of mankind, and you will find it will still many vibratory actions of discord.

Cosmic Power, which is the Cosmic Pressure of Cosmic Energy and this Cosmic Light-substance, concentrated to a given objective must come into the physical octave; in order to shut off the mad onrush of the cyclone of destruction seeking to engulf all upon the earth. With this Explanation which I have given today, of My Luminous Presence and the Flame that can enfold It at your call, much Greater Help can be given; because it will cause you to feel that Power and that Light going forth into every condition of distress. If you will so call for it, I shall hold It in sustained, ever-expanding action; until the conditions of discord have been dissolved and Divine Order, Divine Justice and the Perfection of the Divine Plan fulfilled, have taken the place of that which seeks to destroy and injure.

Perhaps I am intruding a little upon the Silent Watcher's Prerogative—I hope not, I trust not! I think He will forgive Me! I would appreciate it and I am sure He would, as well as your Beloved Saint Germain and your Beloved Godfré—We would all appreciate your calling to the Silent Watcher; to charge forth the Pressure of the Cosmic Silence that shuts off all destructive action on this earth, and makes it impossible in the future. His Increasing Momentum of that, will assist that which I wish to do thru My Luminous Presence, if you will visualize It around persons, places and conditions, that are brought to your attention which need purifying and perfecting.

This which I have described to you today, if drawn forth and concentrated into your military camps, will bring surprising results in the raising of the morale and the consciousness of all within those channels. It will help to cut away much that is debauching mankind and therefore incapacitating them to protect your country.

Now you might think that sounds peculiar, but it is no more impossible than that which your sculptors do.

You know they model figures life size, sometimes in miniature and then they have colossal statues do they not? Well, if they can build forms of varying sizes, do you not think I could do the same? I have as many helpers as they have, in fact many more. The Angelic Host are My Ministering Angels of Love and Light and Blessing! They love Me and do My Bidding instantly! Oh, not that I tell Them what to do, but They just love Me and when they see I love to do something, They automatically help Me.

May I touch upon a point which I would like to have you think over, because this has to come into the outer relationship of mankind, if they are ever to solve the problems about them today; and set the order that holds some sort of permanent Harmony for the future. Remember this in any physical undertaking—there always has to be one or perhaps several who direct the bringing forth of what is to be set into action. There always has to be one whose desire it is to bring something into outer manifestation; but one can be directive or many can cooperate with the direction of that one and yet no one ever be dictatorial. I want to make this distinction very clear today, for this is the fundamental of harmonious business association of the constructive business activities of the future, in America and eventually thru-out the world.

I want to show you from the Inner Action of the Law, what takes place in Our Octave. When Saint Germain wanted to bring This Work forth, He was the Directing Intelligence which was seeking to accomplish the building of an Activity thru which He could pour His Freedom, Illumination and Cleansing Power to mankind. Nada and several others stood with Him—the Beloved Victory from Venus and the Beloved Cha Ara; but could you imagine Saint Germain telling Them what to do! Won't you think this thing thru! If this is possible in Our Octave, it is possible down here; because Love is everywhere and Love

is the Activity of Life by which anything can be accomplished or be set into action.

When some questioned slightly—not Saint Germain's Ability, but mankind's ability to accept This Light and accomplish what He desired at this particular time of the world's History, They said to Him there was some question. They wondered, if it were quite the time for It; if it were possible at this time, because They had not looked down the Life Streams or examined them minutely. They gave things a passing glance and were considering It. Saint Germain did not give Them much time, He said: "On My Own Responsibility I shall try It out," and Nada, Cha Ara and the Mighty Victory stood with Him, but Those who might not have agreed with Him did not disagree with Him. I, Myself, was hoping He would take that Initiative, but no one said to Him: "Saint Germain, you cannot do it, mankind won't obey at this time!" He did not get any cold water from any of the Ascended Host! There were no arguments!

When He set into action the Mighty Ray thru which He was focusing the Power for This Accomplishment; and He called to His Assistance the Presence of the Golden Heart, to guard the Forces within that Ray and the Cherubim or Group of Them to guard the Presence of the Golden Heart, He did not have to say: "You sit here and you sit there; you do so and so, and you do so and so"! They were ONE in the Presence of the Divine Love that transcends every human concept, and opens the Door to Them to the Light within Its Heart. It was the instantaneous knowing of the Right Thing to do, in the Perfect Co-operation which was required to fulfill the Divine Plan. That, My beloved ones, is the Original Condition to which the Round Table referred; for in Our Octave, We council together and call the Power of Light, to reveal to Us the Perfection which is within Its Heart, which We desire to

know and use in Our Activities. It is all the Perfect Action of Life.

You may do the same thing, if you just wouldn't boss each other. Oh precious ones, My Heart sometimes would ache, if it could in Our Octave, when I see the mass of mankind struggling under the whip of each others wills and the desires of their human feelings! Oh, precious ones, you don't know, how you the Beloved of the Light, have day after day become more Free. Precious ones, you do not know the pressure upon the feelings of those in the outer world today, who are driven like cattle to the slaughter; who are whipped into line to do the will of some other part of human creation; all for no good purpose; all for human selfishness and not one atom of that energy being used for constructive purposes; nor to fulfill the Divine Plan; nor let Life or the Presence accomplish what It has to some day do, thru those Life Streams in this world.

You don't realize the struggle and the suffering of those who have to live day in and day out, under the whip of someone's will and feelings, who is discordant and selfish and dictatorial. So you, who are Part of the Flame of Love from My Heart that transcends every human concept, please in the future always council together; and please don't try to force someone else to always do your will. Please! If you would have Perfection in your bodies; if you would have Beauty, Opulence and Harmony in your homes, give unto everything, the Presence of that Divine Love that transcends every human concept; and that opens the Door to you and all with whom you come in contact, to the Light within Its Heart. Let that Light be the Ease, the Love, the kindness and the Blessings to all who are trying to assist you, to fulfill what you wish to get accomplished.

There is no substitute, My Beloved Blessed People of the Light, for any Activity of Divine Love nor Light nor kindness. There is no substitute for Majestic Patience and

Self-control. It is the Dignity of the Universe! It is the Majesty of the Presence of Life! It is the Power of the Ascended Masters' Consciousness, that makes all Beings of the Elements Their Loving Friends and willing Co-workers and fulfills the Divine Plan. You may have those same friends and willing co-workers! You may have the Assistance and Co-operation of the entire Angelic Host, but They will never come except thru the drawing Power of your Love. They are not subject—remember this, the Angelic Host are not subject to mankind's conscious direction nor command. They are obedient only to the invitation of Divine Love, that transcends every human concept. You may force some of the Beings of the Elements to do your destructive will sometimes, when you have willed destructive things thru destructive feelings, but never the Angelic Host. They are wholly the Action of Divine Love, even the Angels of the Blue Lightning and the Blue Flame, are only obedient to the drawing Power of Pure Love.

Since They come at My slightest Desire, thru My Love, so will your Love draw to you Their Ministering Presence, whether that be an Angel to guard and protect your loved ones or a group of Angels; whether it be an Angel Deva of Magnificent Power and Accomplishment; whether it be an Angel Deva of Healing, of Music, of Light or of Power—They come only at the call and invitation of your Love, because They are deaf to the commands of human dictators.

So let us today, in the Great Cosmic Light which is surging into the earth, dissolve and consume all human desire, to domineer or dictate or lash someone into doing your desire. If you will just give the Blessing of Divine Love that transcends every human concept, you will find the Door that opens to the Light in Its Heart, will be ever open to you; and thru that Door, will come Beings of Light, Love, Power and Perfection, which will give you Joy for

Eternity and will raise the world into Their Love also.

May I offer you this same Statement again! To relax your bodies! “‘I AM’ the Presence of Pure Divine Love that transcends every human concept and that opens the Door to me to the Light within Its Heart; that now saturates my body and relaxes it in Eternal Peace, Beauty, Purity and Perfection; and I abide in the Arms of that Love and absorb Its Light. I feel Its Power! ‘I AM’ Its Presence to all each hour”!

This, My beloved ones, is the Secret and the Fundamental of gathering Power to heal instantly; and to be able to dismiss with Cosmic Authority, the human creation about an individual that is sometimes terribly stubborn and defiant; except in the Presence of that Positive Force of Divine Love, that transcends every human concept; and that floods the Light from within Its Heart, to take command and dissolve the human forever!

As you pay more attention to this Statement and the Acceptance of Its Power, as you feel Its Light, then may you gather the Momentum of Indestructible Health and Instantaneous Miraculous Healing Power; to assist anybody and anything that crosses your pathway, to raise into the Light and out of the human forever! Everywhere you go, you may be a Soothing Harmonizing Happy Presence of that Divine Love that transcends every human concept and that opens to Door to you and to all to whom you send it—to all the Light that is within Its Heart, to the Fulfillment of every desire that is constructive.

I can give you no Greater Gift, for that is My Love, the Greatest Gift that can be given! “‘I AM’” the Presence and the Fulfillment of that Divine Love in Action, wherever I move thruout the Universe, and nothing is superior to that Power of Life. If you will so accept It, I would love to make a Living Reality in and around your bodies and those you hold near and dear, of My Words that I spoke in those Early Dictations. If you will accept

It and give It daily recognition and expanding Power—when I said: “With My Love I enfold you! With My Light I clothe you! With My Energy I sustain you; that you may go forth unto Perfection forever.”

“I AM” a Part of your Life! I said long ago: “‘I AM’ in ye, ye are in Me, and we are all together in the Father”—the “Mighty I AM Presence,” the Great Flame of Life in the Universe, the Flame of Love that transcends every human concept; and that opens the Door to all to the Light that is within Its Heart, whenever they call; whenever you call!

Thru My Luminous Presence and Personal Rays, the Action described in the words of the Song—“I AM” Come—“I AM” a Living Reality in your beings and worlds, whenever you sing that; whenever you think, feel and visualize My Luminous Presence and Personal Rays enfolding you! May I add that—“and the Flame of Love from My Heart pouring before you, the Sacred Fire that makes all things clear and brings Perfection into all you do; until you stand in Our Octave or We stand beside you in the Tangible Body, and you know that there are no veils any longer between.

May the Full Cosmic Action of My Out-pouring of the Ascension anchor permanently within, thru and around all under This Radiation; all you hold near and dear; all for whom you have called forth Assistance and those for whom you are yet to call; and may that expand again thru-out the world and intensify, until the Light grows Brighter, Brighter and Brighter; and the Peace that surpasseth the understanding of the mind, saturates the feelings of all mankind and takes Its Dominion and holds Eternal Command.

May the Cosmic Power which is anchored into the earth today, intensify and expand around each of you; all for whom you call It forth; and all you hold near and dear! Its Almighty Cosmic Power of Protection and of security without limit; making you secure within the sub-

stance of the Cosmic Light and sealing you within Its Perfection; until all unlike the Light has ceased to be and you remember naught, except that you have uncountable aeons of time ahead of you; to live in the Perfection of the Light and BE the Divine Love that transcends every human concept; that opens the Door to you and all, to all the Light that is within Its Heart.

You cannot contemplate this too often, nor become too much of Its Power. That is impossible. It is the Supreme Authority and the Master Presence of Life. BE ITS PERFECTION! Call forth and acknowledge Its Presence, the Ascended Host and the Angelic Host; then Legions of Light and Ascended Master Friends beyond comprehension, will walk by your side, reveal and release to you Marvels beyond words to describe. May the Cosmic Miracles of Blessing, Freedom and Victory of Light and Love to the world, which all must some day become, flood forth and thru that Love, all will love you and your world shall become Its Perfection!

FEEL IT! FEEL IT! FEEL IT! SEE IT! BE IT! and acknowledge your "I AM Presence"! Call to Us and you shall not know one more shadow on your pathway, when you harmonize yourselves by that Presence of Pure Divine Love and BE the Door, BE the Presence that opens the Door to all the Light that is within Its Heart; and pour It forth to your fellow-man, to Life, and to all that is; and you shall be the Blessing and Perfection that the world requires, and that the Ascended Masters can at any moment, use to set the world Free.

We appreciate more deeply than you can ever realize your continued service to This Light; your happiness, your loyalty, your unflinching stand and determination, your courage and your power!

Now may the Love which "I AM" abide with you every hour and make you, the Luminous Presence of that Divine Love to all everywhere forever; in Cosmic Bless-

ings of Perfection and Love, transcending all that is human and set you and all you contact Free!

In the Power of the Ascension, which is Mine; in the Power of the Ascension which shall be thine, abides This Love! It is the Way! It is the Truth! It is the Light to which I referred and It was My Scepter of Power. It can and shall be yours and then, you shall know the Freedom and the Victory of Love forever!

I thank you!

GEMS OF LIGHT

SAINT GERMAIN

It is important that you get the simplicity of the idea, how you can call the Presence into action for any person, place, condition or thing, no matter what it is. The Light of the Presence floods thru you, goes into action and everything unlike It, knows no resistance nor interference. I mean it does not try it. It is only the egotistical foolish human thing that tries to battle; because it is being clothed in its own discord.

* * * *

SAINT GERMAIN

You know the human has thought all the time that it must go out and battle for what it has to have, when to stand calm and serene, calling the Presence forth into action, giving It all power, is all that is required. The individual's only requirement is the willing obedience to the Presence and Harmony held there, together with the call, to let the great volume flow thru, that soon comes into such activity, that really there is not a thing tries to resist it at all.
