

BELOVED LORD MAITREYA'S DISCOURSE  
CHICAGO, ILLINOIS

APRIL 23, 1944

*Evening*

BELOVED PRECIOUS ONES, you who travel thru this world, you who have travelled thru this world many, many times, tonight in all the Power of Love at My Command, I come to release to you, whatever will assist you to your Greatest Victory, your Mightiest Freedom, your most Glorious Accomplishment!

You who came originally from the Octaves of Light, and to whom others come for assistance, tonight I want you to feel the Love that pours to you and the Gratitude that comes to you from Our Hearts, the Hearts of the Ascended Host, Who have waited thru the centuries for people with Conscious Understanding of the Law of the "I AM" to use the Authority which Life provides in this octave and to issue the commands for the Freedom of this world and mankind upon it. Long, long, long have We waited for mankind to take the Dominion which is within the Light, and release itself from the chains of its own forging.

You who have turned your faces to This Light and have accepted Saint Germain's Explanation of the "I AM," are awaking to the need or rather the Requirements of the Cosmic Law, in order to pour forth thru you that which gives the earth release from all distress; that which releases mankind from their unfortunate human creation.

You have trod this earth many times, many, many, many times—with a little happiness here and much sorrow there and a little happiness and more limitation, and back and forth as swings the pendulum of human feeling, in the experiences of this octave. Many times you have been weary beyond words, and then you have been lifted to the Heights by some Great Manifestation of Light; but you were not able to hold to It and make It a permanent thing in your experience; because without your stabilizing acceptance of your "I AM Presence," there is no Permanent Balancing Power in the human experiences of this world.

I am called the "Great Initiator"! which means, that as you pass from one experience to another, as you rise out of old conditions of distress, by the Power of Light and Love and Wisdom, you go on to greater achievement! Then again you are tested, and when you have made the Power of Light and Love and Wisdom in Its next Wave of Intensity fully your own, and built

It into your Life Stream's experience in the Authority of your own Free Will, you rise another step higher; and each time "I AM" present when the Greater Light and the Greater Love needs to be released to your assistance.

Those going forth into the outer world to carry a Message of Light and Assistance to mankind, have always stood within the Flame of My Heart, and as It flowed forth enfolding them, I have been able to charge them with the Activity of the Sacred Fire! It gives them the Strength, the Courage and the Love to go thru all human experiences keeping their faces to the Light and hold to It with whatever Power is required, and step higher each time out of the problems thru which they have passed.

In your onward and upward march of the experiences of this world, the higher you go the more of Our Protection you need, and the greater must be your Self-control! I want to give you a warning tonight, because the greater your Power and the greater the Light you have drawn forth, either by your own application or that which you have received from the Ascended Masters' Octave to help you gain your Victory, the higher you go, the more subtle become both the temptation and the pitfalls of the destructive forces.

Therefore, I ask you tonight to be sure that you charge into all your application, the Power of that Cosmic Divine Love to which the Mighty Orion referred this afternoon; that you may move forward into the use of greater Power safely and firmly without interruption. One thing alone can take you thru unto the Greatest Heights and that is the amount of Pure Divine Love, qualified with the Ascended Masters' Consciousness, which you permit to pour forth into and thru your feelings to the outer world's activities.

When you reach a certain point on the Pathway, all beyond that requires the Activity of Cosmic Divine Love, in order to hold the Protection that you need; in order to stand against subtle deceit and those forces which become the shadows that trip mankind upon the Pathway of Light.

Divine Love ordinarily is very happy, very comfortable to charge into the feelings and it is a Tremendous Power; but there must come with Its Use, the positive force of Wisdom in its Direction so you know and see ahead always, the subtle activities of the human which would try to disturb your feelings.

That is why, individuals going forth to carry the Light to mankind have come to Me for a certain Raising Activity; and I have anchored within their mental and feeling world and the

atmosphere about them, the Substance from My Octave of Light and the Flame of Love from My Heart. In that way they have become a Part of Me. Wherever they go and whatever they do, there registers within the atmosphere about Me, an awareness of what is going on. If they give obedience to the Light, then on the instant there comes back to them the Full Force of all the Love and all the Power of the Victory of Light at My Command; but if there be not obedience, then I must stand by and while feeling their consciousness, watch when they go thru those initiations and see how much Light is within their Life Streams, how much strength and to what degree will they turn all things unto the Light.

I want to help you tonight with an Explanation of the Cosmic Law of which most of you I am sure are unaware. In every one's progress on the Path, at times Great Waves of Light and Love, Wisdom and Power are released from Us—Myself, Other Ascended Masters and Cosmic Beings; in, thru and around an individual's Life Stream, to fan the Light which is struggling to take Its Dominion thru the human form. When a certain amount of that Out-pouring has gone forth from Us, then We must wait and watch and see to what degree the individual absorbs and uses It and makes It his or her own for a greater Expansion of the Light.

After a certain amount of effort, We watch and when the individual's own conscious command of the Forces and Powers of his or her own Life, has brought them forth to a certain point, that one is ready for the next Wave of Power to be released. Then We must stand aside and withdraw all Assistance! As the individual passes thru certain experiences, We must observe just how much strength is within that one's own Light and how much there seems to be a wavering or uncertainty.

That is when the initiations take place, and sometimes when your struggles seem great, sometimes when you seem alone, you are passing thru a time of that sort; so don't be discouraged but rather know that one day, you must stand alone with your "I AM Presence" and know all of Its Mastery, all of Its Power, all of Its Powers and let them rule thru your human form to render service to Life while you are yet here.

The more you stand with your "I AM Presence," depending completely upon It, the more does the Cosmic Light permit Us to assist you; and many times We use Powers for your protection that would make you gasp could you see Their Action at the Inner Level! Many times when you are going thru fierce

experiences and you seem to think it is about all you can stand, remember your "I AM Presence"! Whenever a feeling of loneliness comes over you, whenever there is a feeling of struggle or lack of the accomplishment you would desire, turn back to your Presence; reach your arms up and hold It to yourself and say to your Presence: "COME INTO ME AND ABIDE FOREVER! WALK THE EARTH THRU ME AND DO THAT WHICH IS YOUR DIVINE PLAN! HOLD ME IN YOUR HEART! KEEP ME AT PEACE AND MAKE ME YOUR VICTORY OF LIGHT TO ALL FOREVER." If you will do this instead of even for an instant entertaining a feeling of self-pity or loneliness; or sometimes a sense of discouragement, when you think you are not making as much progress as you would like to, you will gain your Victory! The moment those qualities attempt to register, jump into the Arms of your Presence again and say: "HOLD ME IN YOUR HEART AND MAKE ME ALL THOU ART"! With a few moments intense devotion and adoration to that Glorious Being, which you are, the clouds of those testing times will pass you by and the strain will not seem so great. When you have found the Happiness of loving your "I AM Presence," fill you with that Power of Mastery and the Conquering Majesty of your Victory, then again will We release thru you another Wave of Light, to lift you into the next step higher.

Many times if students but understood what was taking place, they would cooperate very easily with Us and the struggle would not be so great; but so few know anything really of the Inner Action of the Law, which We are compelled to see act and thru which We know the student's strength of the Light.

Every one who is sincere and determined to the Light is making more progress every time there is a desire goes forth from the Heart, for more Light and more Power to help others. When the desire and the Flame of Love within the Heart reaches up to the "I AM Presence," reach up to the Cosmic Beings and the Great Central Sun, to call forth more help for the Freedom of the Life in mankind; then it is the Light in your Heart expanding with a Conquering Power and the Strength that later on will delight you greatly.

Your desire to reach to the Heart of Creation for the Power to set Life free, is the Expansion of the Flame of Love and Light in your heart! The more you call that forth for the Freedom of the rest of Life, the more can the Great Powers of Life raise you into Their Greater Freedom!

So your own progress on the Pathway, your own Expansion of the Light is determined by your fierce relentless decision to set the rest of Life free from all human qualities wherever you move. To live with intense determination to release Life from that which has bound It in discord, entitles you to the greatest Assistance of the Greatest Cosmic Beings of whom you either know or to whom you can turn your attention.

Every Great Cosmic Being of Light in the Universe will rush to assist you from out Interstellar space, no matter where that Being is, when your motive is persistent, to release mankind from the shadows of the outer world's distress; not with a temporary flare of sympathy; not with an impulse here and then forgotten the next moment; but with a firm predetermined decision to expand the Light within yourself; to become a Power with which all human creation will have to reckon; and to so glorify your "Mighty I AM Presence" in the release of that Power and stand so true to your decision, that the Cosmic Beings and the Ascended Masters—gazing upon your Light and observing Its Steady Expansion and never a flicker within it, say: "At last, We have found a 'Cup of Light' upon whom We can depend"! Then will your Light be brighter and brighter! Then will the Assistance that you call forth come quicker and quicker! Then will the Limitless Legions go forth at your bidding and perform that Service which cuts Life free everywhere from human shadows.

As the Great Initiator it is part of My Duty, when help is given to the mass of mankind thru a Life Stream, to assist that Life Stream with all the Love at My Command, to cultivate and expand within that Life Stream, the Love from the Presence of that individual, the Love from My Heart, from the Ascended Masters' Octave and the Love from the Central Sun! Therefore, My Service is the anchoring within the mental and feeling world of those who go forth to set mankind free, of the Power of Light and Love which gives them Victory.

When you turn to your Presence and then to Me or any of the Ascended Host with that fierce determination to have more Power of Light to set Life free, you will know a Happiness, you will know a Joy and the Feeling of Mastery that nothing else brings! Then will you FEEL Our Heart's Flame enveloping you on the moment! That Flame can flash thru you in a second and be the strength which sustains you for hours! That Flame of My Love can clothe you in the Mantle of Peace, which nothing in human creation can pass thru nor disturb.

We try always to expand the Light everywhere We see an individual struggling to hold to the Constructive Way of Life; but the shadows sometimes grow very dense in the outer world's atmosphere, and that is when they need Us more than ever.

As you go higher upon the Pathway, you will find the Power of Cosmic Divine Love will be a Majestic Masterful Force, which will come within you and like a hand set at rest all that has sought to disturb. It is to this State of rest in Action, that I wish to help you tonight to enter into this and to move within It, Calm, Masterful, Poised in the Authority of your decision; to set Life Free with the Conscious Knowledge that every Cosmic Power and Being of Light agrees with you, and stands ready on the instant to bring about the fulfillment of your desires, when they are for the Freedom of the whole.

Why am I the one to enfold those who contact great masses of people in the carrying of the Light? Why am I the One to enfold them in the Flame of Love from My Heart? Because those who enter into the Service of setting Life Free, must cut thru the discord around those human beings and they need more of My Love to be protection about them; to make them feel less the discord of the human creation in which they move, and which they are commanding to be consumed. Therefore, when the individual chooses to release the Light that sets Free the mass, then that individual needs more than ordinary Assistance; because the Service is of such paramount importance and is dealing with forces of concentrated viciousness.

Regardless of what seems to be the appearance of the outer world in which you move, remember always this: when you have drawn the Light forth to a certain intensity; when you have made conscious application to a certain point, and are increasing your Power to a definite momentum, there must come the testing of that Power, so We may know how much of It you have built into your own Life Stream as a permanent anchorage of the Greater Mastery from your "I AM Presence."

Never be discouraged when you attempt to give assistance and there seems opposition, rather just say to that condition: "Well this is here to be handled and my 'I AM PRESENCE' is greater than this problem! Therefore, as I live within the Arms of my Presence Its Power will release to conquer the problem!" Then you are really taking the attitude toward every experience, that it comes to compel you to release the Fulness of your Mastery! which must one day come to every Life Stream that ever came to this earth or ever will.

I want you to realize, tonight, how you may build around your body an anchorage, if you will, of the Substance of Cosmic Divine Love. It means a Focus of the Fire Element and the Substance from the Ascended Masters' Octave, charged with the Cosmic Pressure of Their Energy which has for centuries been built into a Momentum of Cosmic Levels of Creation. It is the same Activity as you produce when you open the faucet of water. If you open it only a little way, only a little comes out. That is the way the Inner Power also acts as you call It forth in your Decrees, many times in your "I AM Music" and devotion to your Presence. You call It forth and you feel at ease. It conquers some problem and you are grateful. Then it recedes from your memory, until something forces it forward again by a demand of some kind in the outer world. With the Cosmic Pressure, that is not necessary and does not happen.

If you have a large bucket or container and you wish to fill it with water more quickly, you open the faucet wider and you accomplish it quicker. Exactly the same thing is true when you call forth the Power of Cosmic Love Divine, for that always holds within It Wisdom and Power in Terrific Pressure. It is that Substance which I anchor around the body and mental feeling of an individual, who comes to Me for the Blessing which I give, and the charge which is to be focused around that one before he or she goes forth to serve mankind and carry the Light to many.

At each time, you can stand just so much. Then you go forth and render your service and when the Light has expanded to a certain intensity, you receive more. Each time the Pressure of the energy is greater than it was the time before. That is how in your gradual accomplishment of the Full Release of all the Powers of your Presence into your outer use, there come months of preparation, sometimes years before the Final Manifestation is visible to the physical sight; yet you may feel that for months before it becomes visible and tangible in the outer world; because the preparation has gone on before and the energy and substance is all gathered before the final release takes place. That is what We are doing with mankind.

You may take a locality which needs much Light. It needs much cleansing! There are many ways by which it could be accomplished thru outer means, but when you start with the Light and you begin to bring It forth gradually, It is as if you planted a tree and you attended to it, and the more attention and blessing you gave it, the greater and faster it would grow;

until after awhile, that Light would fill the locality and the people wonder how marvelous the change that has taken place.

You are carrying as it were Light plants everywhere you go; for you plant a word here or a feeling there, or some encouragement to someone else who is of the Light; and you lift the shadows of distress for the time being from the individual. If there is pressure enough around your body and in your feelings—of the Light from your “I AM Presence” and the Ascended Masters’ Octave, you will be irresistible and those people to whom you say those things will never forget you. They will think back again, again, and again upon what you have said. They will want to see you again every time you come. They will gain more encouragement! More Light floods their worlds, until there are no more shadows.

No one knows how far reaching a phrase, a word or a sentence of Assurance and Power of the Light may become, when one is struggling in the shadows without hope or way of Freedom. You who so often associate with each other become used to each other’s Happiness and Courage, Strength and Power which you all release in this class. Each one of you carries 60% of that still in your own atmosphere. Therefore, when others approach you, they realize there is greater pressure around you of that which gives them encouragement, than there is around the average individual and that is what I can give. It is an added Pressure of Cosmic Power of Our Divine Love focused around an individual. It becomes a force which makes that one irresistible and welcome wherever he or she goes in the outer world’s service. Occasionally a vicious force will dislike that, but be unconcerned!

I want to say to you something which will bring you very great protection, if you will remember it. The world is full of jealousy in almost every channel of its activities. You meet that feeling of mankind everywhere in the outer world at this time, because of mankind’s own accumulation. If you would have Our Protection, and if you would have your Victory and Freedom in the Light, never retaliate, never be concerned about that jealousy. Just go on and be kindly and ignore it. If it sometimes becomes distressing, turn from it and place your arms about your Presence and say: “Take me into Your Heart and You dispose of this condition”!

Precious ones, I can give Invincible Protection to any human being on earth, who will govern that feeling of jealousy and not allow resentment, retaliation or revenge to ever have the slightest registration in your feelings. I am going to remind you again

tonight, of something Saint Germain said—I believe in a Staff Dictation some years ago. There was a discussion of the experiences of Marie Antoinette and He said: “I went to France with her the first night she entered. I stayed with her until the night before her execution. I pled with her not to retaliate and had she been able to just remain sweet and kindly, regardless of the injustice heaped upon her, she would never have had to go thru those experiences.” Then do you not realize what you can avoid, if you will never allow that feeling of revenge or retaliation to ever register. If there is the slightest particle of it say quickly: “‘Mighty I AM Presence’! that is not from You! Annihilate all such feeling from my world forever and from all Life on this earth! Replace it with the Mastery, the Majesty, the Power of your Presence and the Ascended Masters’ Consciousness; and let me hold Harmony, Your Sweetness and the Obedience which is always Invincible Protection.”

No discord can enter your world unless discord be within you! Either there is fear or tension or something that is discordant in the feelings, to which the discord of the outer can anchor; otherwise, it could never come into your experience. So, either there is something which attracts it that is like it, or there is something opens the door and lets it in. It is to avoid these experiences that I seek to enfold each one in the Flame of Love from My Heart, which is the Cosmic Power of Divine Love and Wisdom. It is a Pressure surrounding the individual which keeps repelled all that would seek to disturb!

Retaliation and revenge are not part of Saint Germain’s teaching; no part of the Ascended Masters’ Consciousness. All of that comes about because the human or the outer self—rather the human part of the outer self, wants to be the doer, when the Presence is the Only Authority and only Doer of all Good! No unascended being is Authority over another Life Stream! Therefore, if those things come about in your experience, will you just reserve the Authority and Power which the human usually usurps and pass it back to the Presence and say: “‘Mighty I AM Presence’ You handle this according to Your Divine Plan and keep my feelings out of it”!

You see that Miracles of Perfection are the only things that can come out of it to all concerned. Miracles of Cosmic Divine Love are a Positive Force charged with Wisdom that is irresistible.

You have been told that there is no substitute for kindness! I say to you: there is no substitute for the Cosmic Power, which

is Pressure, of that Divine Love the Cosmic Beings control and direct, for the Protection of all that is of the Light.

The human always wants to be the administrator of justice, and therein comes its usurpation of the Power and Authority of the "I AM Presence." If you can always hold yourself steady in the midst of a disturbing condition and keep calling to your "I AM Presence" to hold you in Its Arms and to right the condition harmoniously, the way It knows is best—you will be amazed at the happiness which will be yours and the entanglements you will avoid, because you did not take the thing into your own hands for readjustment.

There is no power so great as the Great Great Silence, and Our Power of Cosmic Divine Love is part of that Power of the Great Great Silence, which compels conditions to change harmoniously and permanently without any human interference. **IT IS WORTH EVERY EFFORT YOU COULD EVER MAKE, TO REACH TO THAT HEIGHT OF GREAT CALM MASTERY WHEREIN YOU CAN STAY ALWAYS WITHIN THE ARMS AND LOVE OF YOUR PRESENCE AND AWAIT ITS DECISION BEFORE YOU DO ANY PHYSICAL ACTION.**

This is the thing mankind has not understood; because the intellect suddenly decides to do something and it seems to be constructive, is no proof it is the Divine Plan NOW! It never stops and asks the Presence, if that be the Divine Plan of that individual's Life Stream at that particular time. The outer self has so long been acting upon impulse and the desire to dash and have its own way, that it has forgotten to put God first! It has forgotten to call the "I AM Presence" into action to know whether a thing is the Divine Plan at this particular time! Because a thing might be constructive now does not necessarily mean that now is the time of its fulfillment; but if you will ask the "I AM Presence" to illumine to you the Fulfillment of Its Divine Plan, concerning that thing, It will show you the time of its manifestation; and if it be now, It will raise up Ascended Master Friends to your assistance, to help you carry it forward and fulfill it NOW. Then Its Own Divine Plan will bring you Its Joy and Happiness unbounded.

As you call My Cosmic Power of Divine Love into action, as the Beloved Orion reminded you this afternoon to call His into action, It opens the door to Us to release the Momentum of Our Life Streams to assist you. We have offered that as freely as

the air you breathe, and if you will charge your atmosphere with Our Cosmic Pressure and Power of Cosmic Divine Love, you will find no antagonism from people, as you move among them in the outer world; because that Power and Pressure of Our Divine Love carries a Feeling of a Soothing Kindness, which has within it Wisdom and a Pressure that all know are Infinite Authority and Power; and which none of anyone's human creation would think of opposing.

It is that Power around Ourselves, around the Ascended Masters and Cosmic Beings, which makes all human creation know that when Our Light approaches, the human either flees or is dissolved; but there is nothing of fighting within Us and don't you think it is worth every effort to come to that state? It is much more comfortable! Wouldn't you like in the unascended state to have charged around you, the Feeling and the Substance, that nothing of human creation ever wants to oppose? It just does not want to argue or resist you—it either bows and is dissolved or flees at your approach; then the resistance goes down! Then you begin to feel your Mastery and you give your "I AM Presence" a chance to come thru and fulfill Its Divine Plan thru you.

Your Beloved Godfré when He says: "Stop this frightful human struggle," has pled for your Freedom in that phrase of words; and "I AM" pleading with you tonight as did the Mighty Orion this afternoon, to accept Our Cosmic Power of Divine Love which stops all opposition, struggle and resistance from anyone's human creation; because all that is human on this earth, knows that it has no chance before Cosmic Beings whose Pressure of Light about them is so terrific, that the human never stops to defy it.

When you realize that Our Cosmic Power of Divine Love is a concentration of the Substance of Light, then you must know if that be qualified with a feeling of kindness and Harmony and it is charged about you heavily with Terrific Pressure, you move forward and the human struggle is no more. I want you to come to that state of consciousness! I want you to feel the Power of your own Mastery, the Eternal, Invincible Mastery of your "I AM Presence"—amplified by Our Cosmic Pressure of the Light that nothing human ever wants to defy.

The Cosmic Beings and Ascended Masters never know what resistance is; for all is so instantly obedient to Their Will, because the Cosmic Pressure of the Love They pour forth, gives

all Life the assurance of Harmony and Happiness in the feelings, and there is nothing which wants to stand against that. The human destructive forces might want to oppose you in the unascended state, if you have those human feelings of resistance or battle within you; but all the human creation on the planet does not want to come into My Presence; does not want to come into the Presence of the Seven Mighty Elohim of Creation! All the destructive forces on earth don't want to stand before the Seven Mighty Elohim of Creation! Therefore, they don't bother Us and they won't you, when you charge this Cosmic Power of Cosmic Divine Love around you and build the Momentum to the place where none opposes.

So as We move forward on the Pathway of Light, as you move forward in your calls for the Freedom of America and the world from the conditions of war, you may have all of the Love of My Heart that you can accept! I will give you all you can ask for and more! I offer you all that is required to still forever all human struggle, and I ask nothing in return! I just want your Freedom, because I love you and you are Life, and I live to set Life free on this planet, until It comes into Our Permanent Octave of Happiness and Perfection.

I live as the Great Initiator to release the Cosmic Powers which are Mine, to command, to enfold those Activities of Life that are expanding the Light and coming up into Our Octave, leaving the shadows to be dissolved by the Light. If you can live in the enjoyment of the Flame of Love from My Heart, I am sure you will know Rest, Peace and the Accomplishment which will amaze and delight you greatly. I know of no stronger Power of Protection than the Cosmic Pressure of Cosmic Divine Love! It knows no resistance! It never struggles!

Our Love and Our Light never defy the forces of darkness! We move in as the Master Authority and they bow and know they must obey. I want you to become like that! It cannot be done over night. It is done little by little, but you have to begin sometime, and your continued calls for the Pressure of that Cosmic Power of Divine Love around you, can be charged and increased to any degree you decide, for there is no limit to the Power that will be released thru your calls. We will withhold nothing from Our Octave of Cosmic Action, and if you choose to make your world like Our Octave, by gaining this momentum and expanding It daily; you will move forward on an even path where stumbling is unknown and the resistance and frightful

human struggle, will have disappeared from your experience and feeling forever.

I want you to become this Cosmic Love, so there may be about each one of you, a Radiance and a Pressure of the Cosmic Power of Divine Love whose Light goes forth, and seeks out those in the darkness who are calling for help and who are looking to the Light the best they can, while they are yet in the darkness. You must be the Light, the Cosmic Pressure of that Light and Love to free all Life, if you are to dissolve the destructive forces from this world.

On, and on, and on, thru the centuries, has gone this momentum of destructive action! On, and on, and on, from the Cosmic Beings have come forth Wave after Wave of Light and Love and Blessing to free and assist mankind! One a River of Light and the other a river of shadows! Now the end of the cycle is approaching—the shadows must be dissolved by the Light, and *you are* the Light of the world this night!

Let My Love enfold you and with My Hand in yours as the Great Initiator to the world, may I have your assistance in the Expansion of this Cosmic Power of Cosmic Divine Love; until the concentration of discord has been silenced by the Light and removed from this planet forever; until the Life in every human heart has seen the Light and felt the Love, that it is Our Privilege to carry to those in the shadows.

It is your and My Opportunity, your privilege to use My Love and that of the Other Cosmic Beings to clothe yourselves, if you will, with the Power so overwhelming there is no more struggle in your world; and the rest of the world will love you, because you struggle not, and yet they will feel your Light because It sets them Free and they know it.

There is no substitute for the Flame from My Heart! It is the Cosmic Power of Cosmic Divine Love, and there is a reason why both Orion's Dictation and Mine today have focused upon this tremendous Quality, so you may become Its Mastery and Its Majesty; that you may become an Ocean of Its Outpouring and your own struggle cease. Then those in the struggle of Life about you, feeling your Love, will turn to you, as the flowers do the sunshine and receive that which dissolves their struggle also.

The world needs more Light, and the shadows are only dissolved by the Pressure and the Presence of the Light of Divine Love from those Cosmic Octaves, where the Power is beyond all words to describe! That Pressure is yours to call forth if you will.

We invite you to use all of Our Cosmic Power to free the earth from the shadows forever! The hour that the last shadow leaves, there will burst into the atmosphere of Life the "I AM Music of the Spheres" and the "Song of the Light," which shall make all Creation sing for joy and It will be remembered forever.

I love you, I bless you! I leave you the Flame of Cosmic Divine Love and Its Limitless Pressure from My Heart, as a Garment about you to let your struggles cease from this night, if you will accept It. I send It forth to clothe the loved ones of all under This Radiation; and may that Cosmic Pressure charge into the atmosphere the Light, which will bring the experience of the Light to many who will go down thruout the ages, remembering the Light as the Only Reality, and the Perfection of Life's Almighty Authority as the Only Presence acting forever.

The Light is breaking everywhere and if the storm seems yet upon the horizon in places, fear not; but call forth the Cosmic Pressure of Cosmic Divine Love and consume all that has bound Life in distress for any reason.

May the Flame from within My Heart clothe you in the Pressure of My Cosmic Divine Love so great, that wherever you move people will mention it, and it will help you to be at peace within yourself; until the Greatness of the Heart of your "I AM Presence" releases Its Cosmic Love and Pressure about you in your Mastery forever!

My Love is yours for the using and My Heart is full to overflowing, with that Light of My Love which sets all free forever.  
I thank you!
