

OUR BELOVED MESSENGER'S TALK TO THE "I AM" ASCENDED MASTER YOUTH OF AMERICA AND ESPECIALLY IN NEW YORK CITY

MAY 28, 1938

NO WORDS CAN ever express our Love and gratitude to the precious young people of America, and the few thus far who have had the strength to step out and stand in their own God Presence regardless. There is one blessed Daughter of Light, whom we happen to know about, who has won such a Victory. It is very wonderful, and there will be many of the "I AM" Ascended Master Youth of America, who may be compelled to step out into their own "I AM Presence" alone, but those who have the courage to do it will find the Heavens open; and they shall be caught in Its Mighty Embrace of Light, and all human things which have disturbed and opposed them will disappear from their pathway.

Today, beloved ones, the Glory of God is in this Freedom for mankind, and no one dare any longer try to retard or hold another in subjection in any way. Dear ones, this may sound strange to you, but as sure as we are here, the Great Cosmic Light will compel it, whether it be husband, wife or friends; brothers or sisters, there will come that Power of God's Light which shall not tolerate the domination of one by another. I feel that today as never before in my experience, and any human being who has the desire not give others Freedom is something now the whole world will come to know and understand, is to be removed from Life's experience forever.

When I see these beloved young people standing before the forces of the world, declaring the Purity, the Perfection of God, the "Mighty I AM Presence," then shall that Power of Light with Its Infinite Power and Invincible Protection enfold each one and carry all forth, the Victory of the Light.

I thank you Son of Light, may I be able to release such a Power of Light that with the Power of lightning, may all human discord be dissolved forever wherever we move in these Great Classes; that enough of mankind may be set Free in Our Courage and Strength to go forward Ambassadors of Light to carry this Great Light to mankind.

In all that we have experienced in this Class it seems to me

I never in my life realized how powerful, how great was the Expansion of this Great Light; and how It is taking Its Dominion, dissolving and consuming everything before It, until where every earnest sincere student moves, will Harmony reign and the discord about them all dissolve. Oh let us feel that!

GEMS OF LIGHT

GODDESS OF LIGHT

Self-pity is an unfortunate thing in the world of mankind and is the most dangerous thing there is. I tell you frankly, beloved Children of the Light, so long as you resent corrections, as long as you feel you are being imposed upon by the Ascended Masters, Who with so great Love offer corrections, you will never gain the Victory of Freedom. You cannot do it. It is impossible.

SAINT GERMAIN

When I think, beloved ones, with the ease and comfort with which you are receiving this Great Light today, in comparison with all we were compelled to go thru! It is no wonder that so few won the Victory of Life then. Now the Great Cosmic Light has turned Its lenient beneficence upon mankind and by the willingness and call on the Law of Forgiveness for all mistakes, yourselves and mankind included, do you open and leap the barriers of human conditions that have held you bound so long.

The opportunity to gain strength and energy from the forests and the strength and power of the mountains is something which should give you the desire to improve every moment to draw to yourselves and into your feeling worlds the strength and power of the physical octave which is the abiding power of nature.
