

DESCRIPTION OF CHART

I WANT YOU TO realize something I am sure very few have ever contemplated, yet the Explanation of This Law, as It is given in Unveiled Mysteries, has been there all this time. If you will remember the Statement is made by Beloved Saint Germain, that all of your faculties are elastic. You know how often He has reminded you of the Power of your Attention, the Power of your Vision and the Power of your Qualification.

We will take the Power of your Attention. I ask you to follow me closely, then notice the feeling which is released. I call to your own "I AM Presence," your Higher Mental Body and all the Ascended Masters of Light; to charge you with such Blazing Illumination on this point; such Mighty Directing Intelligence, such Mighty Discrimination, that you cannot help but understand It clearly, and never forget It. I ask Beloved Saint Germain, to charge you with His Power of Concentration, Crystal Clear Comprehension and Keen Alertness, so you will understand all this means to you; and in using Their Power, feel your Close Connection with Him and Power to fulfill your Decrees instantly.

Remember Beloved Saint Germain said, the faculties of the intellect are elastic. Notice, you can hold your attention upon some of your problems here in the physical world; you can take your attention from a problem right here around you; and the next moment, you can place it on the Physical Sun or the Great Central Sun, any Planet, Star in Space, or any Ascended Being in the Octave of Light.

Notice, when your attention is on your own problem, the energy and qualities in the problem are being drawn right into you; for if the problem is serious, it causes worry and a disturbed feeling within you. The moment you think about that problem, all your feeling or energy in your world is in a tension; showing the qualities of your problem are absorbed into your feeling, into the flesh structure of your body. The moment you take your attention off the problem, place it on the Physical Sun, and begin to think of the Perfect Focus and Concentrated Action of the Electronic Force of the Universe which forms our Physical Sun, you begin to comprehend It. You think how Mighty must be the Great Directing Intelligence which can so concentrate that much energy into one place, that It produces such an Intensified Focus; hold It in Its Orbit and directs Its Rays to

the various Planets of the System. It sustains them, holding all suspended in Solar Space and supplies all with Intelligent Direction which obeys the Great Cosmic Law.

Notice, your attention is on the Sun, and you are contemplating what Perfect Force is there; what Magnificent Intelligence created It; what Intelligence sustains It and what Tremendous Blessings It pours constantly to you and me! Without Its Rays on the Physical Earth, no physical body could live here.

When you contemplate the Physical Sun, your attention has gone into It! Your attention is elastic, for It has to stretch from your problem here into Interstellar space and connect with the Physical Sun millions of miles away; and while you are thinking of It, the Energy of the Physical Sun is flowing into you, and also Its Qualities, Its Intelligence, Its Marvels, Its Blessings, Its Consciousness and Its Power.

Any instant you can turn your attention from the disturbance of your problem in your feeling world, to the contemplation of the Sun. The moment you look there, the disturbed feeling about your problem is gone, because you are absorbing the Qualities from that Sun into yourself. Those Qualities and Intelligence are a Wider Concept of Life's Consciousness there. The Magnificence of the Great Intelligence which placed It there, maintains It, releases Its Blessing constantly, cannot help but draw forth from you, Love, Gratitude and Adoration. Worship! Adoration to the Magnificence of that Intelligence and Power, Its Consciousness and Action of Life, draws to you Its Light, Its Substance and all Its Energy; which you are privileged to observe and of which you are the beneficiary!

Thru your attention at any instant, your feelings can have either the qualities of your problems, or the Qualities of Infinite Space and the Great All-powerful Intelligence of the Universe! Its Mighty Gifts, Its constant Sustaining Power, Its Full Illumination; Its Discriminating and Directing Intelligence! Its Great Peace, Happiness and Love within that Focus of the Energy are Its Powers of Light.

If you can think of the Physical Sun, you can think of the Great Central Sun. You can think of every Great Being in the Universe! You can think anywhere in Infinite Space, and draw forth those same Qualities of Life—Their Intelligence, Feeling, Consciousness; Their Energy, Substance, Illumination, Supply, Love, Gratitude and Adoration.

In contemplating that Great Magnificent Activity of Life, your feelings and world have been expanded and become saturated, charged and qualified with the Qualities and Powers

of the Life, which are there, instead of the problems of the human which are here. Then, do you realize that your attention is not only elastic, but it is the way and means by which Life reaches into the Infinite at any moment, and draws the Qualities, Power and Perfection of all that Infinite into the finite! Who says you cannot have all the Infinite Qualities in you?

Mankind is limited because the attention has been fastened to the limited. Mankind can become Unlimited, the moment the attention is released and fastened to the Unlimited! The more you think, feel and read about war and its insane vicious destruction, by the insane individuals who create it, you can go raving crazy yourself contemplating it, if you do not stop! It will drive anybody crazy, but our attention has the capacity to connect with the Infinite, which is Master over the finite; but you cannot master the finite by more of the finite! You cannot change your problem by your attention on another problem just as destructive; or try to fight one problem with another. By the time you get thru, you will find instead of one problem you have two.

If the problem is vicious here in the finite, there is only one thing in the Universe which will ever change it, and that is—to take your attention off the problem, and place it on the Source which releases the opposite. That is the only solution for dissolving it. That is what Our Blessed Saint Germain and our Blessed Messenger meant, so many times when They said: "You don't yet have the faintest idea what terrific Power is in any one of those three faculties. Any one of them completely controlled, kept in adoration or connection with your Source, the 'Mighty I AM,' and the Ascended Host of Light, would take you thru to your Ascension; and would release whatever is necessary to dissolve any problem!"

Now as long as you accept the problem here, as more powerful than the "I AM Presence" there, which is the Great Infinite Power of Life—just so long will the disturbing thing dominate what is inside of you, and the conditions in your world! That is why, when you issue a Terrific Decree concerning every problem of human creation, whether it be yours individually, the Nation or World, call in the Name of the "Mighty I AM Presence," for Its Light to flow! Call for the Release of whatever Intensity of that Light is needed in the problem—to blast it from the Universe and consume it, cause, effect, record and memory. That is what you mean when you say: "In the Name of the 'Mighty I AM Presence' you have no Power! 'Mighty I AM Presence'

Annihilate it from the Universe, cause, effect, record and memory: not only in my Being and world, but that of every human being on this Earth and in its atmosphere, until that ceases from the Universe forever. Blaze Thy Power and Perfection, until It fills that place and holds Dominion forever!" The "Mighty I AM Presence" is the Authority producing Perfection and holds It Eternally Sustained and ever Victorious in God's Light and Authority.

Do you see now what it means to give Love and Adoration to these Great Beings of Light, Who want to set you Free, Who want to set America Free; Who want to release mankind from this viciousness? Can you release yourself from the viciousness, the full mass accumulation of the centuries? You know you cannot! Then, if you cannot do it yourself and the outer world cannot help you and does not, then you must have help from God, Who is greater than all in this World! The war lords and the munition makers are not setting mankind Free! They are not protecting you! They certainly did not protect Europe and they are not protecting the Orient!

Every time the human fails you, turn to the Archangel Michael and Those Great Beings Who control this whole System of Worlds, and say: "All right, my 'Mighty I AM Presence,' when human beings fail to do for me what needs to be done for and thru me, for the Greater Service of Life—then Beloved Archangel Michael and all Great Beings of Light, give me Legions and Legions of Angel Devas; bring Them into the physical octave and help us to do what mankind cannot or will not!" That is what it means to have Ascended Master Friends of the Light! That is what it means to have the Power of the Ascended Masters! That is what it means when you can associate with Them constantly!

Be so constantly in connection with, and hold such constant awareness of your Love and Adoration to your "I AM Presence," the Ascended Masters and the Great Perfection of the Universe, that the very Intensity of Their Qualities, Energy, Substance and Power in, thru and around you, will automatically dissolve your every problem! If you will say to all problems and give the Command: "You have no Power! 'Mighty I AM Presence' this hour take it out of the Universe, cause, effect, record and memory; and replace it with the Ascended Masters' Perfection, eternally sustained, to all and call for the Ascension of all on Earth." That is the Power of the "Mighty I AM Presence."

Can any human being or all the war lords of the world, take the Sun out of existence? Can the puny minds who have criticized, condemned, judged and ridiculed These Great Beings of Light, affect Those Great Ones? Most certainly not! They are like the person who spits at the Sun, the only person who gets dirty is himself!

You must use the Authority of Life and command as God commands, because you have to command substance and energy; you must pre-determine what Quality you are going to allow to act, if it is in contact with you or your world. If you think a condition has too much energy to be qualified in one Decree, then keep on calling Those Great Ones, and call your "Mighty I AM Presence" and Higher Mental Body, to requalify it all! You need to do this, if you feel the human creation is greater than you can manage. You on the human side cannot always protect yourself with your physical muscles. That is not the Real Power-house! The Power-house is there! (Pointing to the Presence). It is the Presence and the Ascended Ones; because They can pour in Their Light Rays and hold Them eternally sustained, until the condition is dissolved.

Returning to your attention: the same thing is True of every other faculty you have! That is why, instead of feeling, as you have been told thruout the centuries, that you are a little finite atom down here, and you cannot do anything about it, but just accept conditions around you—take your stand against such nonsense, because, whatever you place your attention upon, gives instant obedience. The substance, Intelligence and activities of whatever your attention connects with, automatically rush in and qualify the substance of your world, your feelings, your consciousness and your view-point of Life! If you don't keep your attention away from viciousness and its qualification, you associate with it. Instead you can have God's Greater Powers and Perfection to draw into the finite! The finite will give you pain in the body, confusion in your affairs, and lack in your pocketbook, as long as your attention is given it. We do not have to give it our attention, unless we want to .

I think it is time the American people took a definite stand, made the intense call to their "Mighty I AM Presence," the Ascended Masters, and the "Mighty I AM Presence" of every human being on this Planet, to shut the door against every destructive force and keep it shut forever. Then this "I AM" Activity can release God's ever-expanding Blessings!

I call to my "Mighty I AM Presence" and Higher Mental Body and the "Mighty I AM Presence" of every human Being

on Earth, to take up this Mighty "I AM" Decree tonight; and draw forth whatever Power of the Universe is necessary to make mankind understand This "I AM" Activity; and to hold the Beings and worlds of all under This Radiation, Invincible against every destructive person, place, condition and thing on this Planet forever! Then call All Cosmic Beings to withdraw the power from destructive individuals which sets even them Free! Then all can remain permanently happy, and go forward to the attainment of Perfection. Let us issue the Fiat to shut the door against every destructive thing on the Planet, and keep it shut until all mankind are Ascended! We have but one objective: releasing mankind from whatever causes distress, so they can move forward into their own destiny, which is the accomplishment of the Ascension.

MRS. G. W. BALLARD
