

BELOVED GODDESS OF LIBERTY'S DISCOURSE

CHICAGO, ILLINOIS

FEBRUARY 20, 1944

Y BELOVED ONES OF LIGHT, I come to you this afternoon with My Outpouring for your Freedom and the Radiance through you to bless your land, that Its Freedom may through Radiation pour forth the Cosmic Light until It covers the Earth.

Since 'I AM' your Cosmic Mother, since My Family of Light is within the Three Americas, then I do have the Authority and the Right, Inner and outer, to be that Liberty of Action by the very Power of Radiation which lifts the Hearts of those who enter here into My Feeling World and to give them the Flame of My Liberty.

When you realize, when you are in touch with the form of a thing, you are in touch with the Presence of that thing; then you will know what it is that touches the feelings of those who enter New York's Harbor and see the Statue of Myself—My Light by night, My Form by day. Since there is charged into that Statue the Radiation of My Liberty, My Love to the people who enter the shores of the Americas, and since That has been intensifying since the Statue was first built, it is no wonder those who see that Statue feel deeply something pull at their Heartstrings and release a feeling which even the strongest do not cover.

When that Statue was charged by Myself with the Power of Light and Liberty for the mankind who come to the shores of the Americas, My Love was focused within and around that Statue. The Flame from My Heart pours through that Substance and those who gaze upon That, knowing It means the Freedom of that which is in the Americas for them, It draws forth a Love and a Gratitude for the Freedom of America which the majority within the borders of this land have forgotten to pour forth frequently enough.

The Radiance around that Statue can be drawn and

intensified and still farther can be charged by each of you through your Calls to Me, to the Ascended Masters and to the Great Central Sun. You can call to have That Feeling intensified by every one of your Life Streams so the Radiance pouring forth charges all who gaze upon that Statue with a love of Liberty which is strong enough to enable all to defend the Liberty for which I stand!

When the forces which have sought to deprive the Americas of My Liberty started their imaginations to little by little withdraw one phase of My Liberty after another, they little dreamed the Cosmic Law, which I represent, must one day take Its Action upon those who do not want mankind at liberty.

The Flame of Love from My Heart is very Real, for "I AM" Light! Life! "I AM" a Cosmic Being Who has guarded the Activities of Life in America since Her inception; and since the Cosmic Law under which I act is Eternal in Its Authority, since the Flame of Love from My Heart gives the Liberty which "I AM" to all Life, then to those who will give Me their attention I will pour the Radiance of My Light-Substance in, through and around them until wherever they move just the Radiation alone around them from their Calls to Me, will give life Freedom, little by little, more and more until Life, Liberty and the Pursuit of Happiness are real and in action in every phase of the life of the people of America.

You know when destructive vortices of energy are gathered at various parts of the Earth's surface, there always comes forth under the direction of Life something of the Light in an Intense Focus to help hold the balance to offset that. Since I carry the Torch in My Hand, the Flame of Liberty is the Light of the Western World, and if you will CALL FOR THE SUBSTANCE OF MY LIGHT TO STAND IN THE ATMOSPHERE AROUND YOUR PHYSICAL BODIES, SO THAT ITS RADIATION CAN ILLUMINE LIFE WHEREVER YOU MOVE AND FIRE THE FEELINGS OF

THE PEOPLE WITH A DESIRE FOR LIBERTY, you may have It!

Radiation is very powerful; the most powerful way of drawing people's attention away from human discord; and if, through Radiation, you can give encouragement of Liberty and Light through your feeling, there can go forth an Action of Life which will touch the feelings of all you contact with that same feeling of Liberty and Light.

I want you to feel the Radiation drawn forth from an Ascended Master at your Conscious Call and established around individuals, localities or activities at your Conscious Command through the Calls to Me at the Conscious Call of your own feeling world, enables a Permanent Focus to be brought into the outer.

At first you might not see any immediate result of Its action, but as you give It continued recognition and just accept that you have called, in agreement with the Cosmic Law, the Beings of Light are at work building that Focus for which you called, if you will give It daily recognition.

I want to remind you of this in all your application. You make a definite decision to draw forth some particular Manifestation and you give a Decree a few times, but unless you will give it daily, systematic, conscious attention and a certain amount of your energy each day, the momentum does not grow rapidly enough to bring That to you so your own feelings are aware of this gathering Power which is in action. Unless Manifestations to your Calls come forth speedily enough to make you know the Fulfillment of the Law and that It is in action, your feelings unknowingly begin to doubt through the delay, or at least you minimize the expectation of the Fulfillment of your Call. Now this is what We want you to avoid.

If the moment you make the Call you will know the Being to Whom you made It has set into action right then the Light Rays or the Flame, and has begun the building as soon as you have signified to Life that you want a special

Manifestation brought forth. Then, after you have indicated through your Call what you want, you must give It some daily recognition, a blessing, your love and your protection of It in addition to what the Great Being pours forth. Each day as the Being increases Its Power and Momentum, so must you, each day, give It more of your loving attention through your Calls, until together from the outer and the Inner there comes forth all which is required to produce your Manifestation quickly.

People often say: "My 'Presence' knows I have decided this, and I want it!" Certainly, but whatever you want to live in your world you must give your life to it, and a little portion of life will only manifest a small part of the Fulfillment of your Decree. If you are asking These Great Beings from Their Height of Attainment to give Their Love, Their Energy and Their Power into the physical octave, then what you are calling forth in the way of manifestation should be important enough to you to give it systematic daily recognition, daily blessing, daily love, daily gratitude and daily acceptance in your feelings.

You must accept in your feelings each day that Life has gone to work and is in the process of bringing the Fulfillment of your Call! This is just as accurate, just as mechanical a process as building a house. As soon as you specify to the architect what kind of a house you want and the plans are drawn, the architect and builder begin to draw the substance; but if you are really interested in that house, you are going to look at it often and see what there is about it which you can improve. You give it your attention, your time and your Life in co-operation with the builders in order to bring it forth as you desire, and if you do not give it that directing intelligence and attention, it does not come forth in the way you want it to fulfill the plan.

The same is true of a nation or a world. People want Freedom in their feelings because no one likes to be limited, and yet they are so content to sleep and accept

limitations imposed upon others. When it does not just quite touch your own individual world you are not quite so concerned about the rights of free men for the rest of mankind; but if you are made uncomfortable enough, then it arouses you and arouses your feelings into a positive state wherein you do something about putting it in action to remain free.

Now then, since you are Children of the Light, or Ambassadors of Light grown to full stature, then your main business in your application should be the calling forth persistently with determination that the mankind of this Earth shall be free; and My Liberty and the Pursuit of Happiness are qualities and conditions which every Life Stream on this Planet shall have when you decide it with a Fierce Relentless Determination that mankind shall not sleep contentedly in the limitations of the senses.

I think it was your Beloved Saint Germain Who said: "Mankind is so content to sleep in limitations, they do not exercise a positive force quick enough to stand guard over the treasures of existence." If Life did not want every human being unconditionally free, then there would not be the Love of Freedom within the individual. There would not be the Love to have your own way if Freedom were not the Law of your Life Stream; but you must learn to have your own way to your own Life Stream, and let every other Life Stream have its own way according to Its Divine Plan! You like to use your own free will, but you don't like anybody else to have theirs! Of course, that is not in obedience to the Law.

Since America is the Cup of Light to the Earth, Her Light is the Illumining Power; then the rest of the World should be able to drink of the Radiance of America's Light, but they must not want to destroy the "Cup," which they do at the present time. So We need to call forth a very powerful guard for the rights of free men in America, and when America has guarded her own and educated the rest of the World

to the fact that She is going to hold on to them, then there will be a Radiance from Her "Cup" which will illumine the rest of the World.

From the Heights of attainment, from the Great Source which supplies all Light and Life to this Earth there flows always whatever increasing Pressure of Light and the Sacred Fire are required to annihilate even world conditions which have gone awry. That Light and Life, Love and Freedom are always flowing from the Great Central Sun through the Physical Sun to this World. There is nothing wrong with the Octaves of Light above the physical world. There is only an atmosphere between these destructive conditions of the outer world and the Limitless Invincible Pressure of the Cosmic Light and the Activities of the Sacred Fire from the Octaves above.

Now since you must have the Action of that Fire Element in the Octave above brought into this World in order to purify it, since you must have the Liberty which is in the Ascended Masters' Octave brought into this physical octave to guard the rights of free men, since you must have the Cosmic Light Substance from that Octave brought into this to create the Manifestations of Perfection, then the Calls and the attention of mankind ought to be on the Octaves of Light to the God Power from whence comes their help!

There must be Manifestations of the Powers of Light and the Sacred Fire brought forth into the outer physical world dynamically powerful enough to suddenly draw mankind's attention to the Light and away from the destructive forces which are imposing destruction upon them. The people have to look away from their own qualities of destruction if they are going to have the assistance to stop it.

When that Fiat was spoken, three times now, that if necessary for the protection of America, the Jewel in the Heart of God, THEN THAT LIGHT OF A THOUSAND SUNS SHALL DESCEND INTO THE EARTH AND DISSOLVE AND CONSUME ALL HUMAN SELFISHNESS AND DIS-

CORD—when That was spoken, that was a Fiat of the Cosmic Law which I spoke in the beginning of this country's activity! When Mighty Arcturus spoke It again, it was the next Wave of Action of that Cosmic Light to intensify what had gone forth in My Decree in those early days! When your Beloved Jesus spoke It again, it was the third time that Decree was issued and when a Cosmic Fiat is spoken into the physical octave of Earth three times, then you must know the Powers of Life have sent forth here a Pattern of an Action that the Cosmic Law intends to release for outer control!

If you could know this hour how the feelings of the people long for the Liberty which I represent, and struggle against the limitations in their feelings they know should never be, if you could see the struggle in their mental world you would want to give Freedom just as I want to give It! You would want the American people to be Free as Beloved Saint Germain wants them to be Free! Part of the feeling world of each individual is craving the Fulfillment of Life's Divine Plan, and the other part of the energy is tying and binding it to the distress of the outer world, against which there is constant rebellion in the energy of the feelings.

As you keep calling forth the Power of this Cosmic Light and Its Great Pressure from the Great Central Sun, the Action of the Light within the people will demand This! When something even momentarily turns their attention to the Light, their Hearts loving the Light and wanting It, irrespectively, will raise their attention into the Light. Then as you keep calling forth the Pressure of the Cosmic Light to set the people free, it will be just as if a Hand struck again, again and again upon the creations which are holding the people bound.

So as one after another of those Waves of Cosmic Light reach into the physical feeling world of the people en masse it is as if each time It drew away a certain proportion of the substance which has been their limitations. As you go

on and on and more and more of the Cosmic Light comes into outer action, the Call for the Freedom will be more intense, and the Assisting Power to draw here That which is Freedom from their limitations, that Assisting Power will be more and more dynamically active.

Now "I AM" speaking of the average person. Sometimes they keep harmonious and sometimes they do not, but they really want the constructive way of Life in their own motives. These are the many We are trying to help and through Radiation expand into their feeling, sometime each day, the desire for more Freedom and that Love of the Light which just makes them more and more determined to have that Greater Freedom. As this Expanding Power enters into the feeling world of the people they will turn their attention and hold it more persistently upon that which is constructive. There will come within them, first of all, a restlessness under limitations, and then it becomes a constant determination to be through with limitation. That is the moment under the Action of the Cosmic Law We must strike into their Life Stream when they reach that decision to have no more of the limitations and to be free from it!

If someone can always guard every Life Stream at that moment and give the Assistance, the Love and Encouragement which strengthens that impulse to be free, then wonders can take place. This is why in the illumination of individuals they may make application for a long time and feel they are not getting anywhere, then all of a sudden something bursts through and they suddenly accomplish what they wanted.

Don't allow that feeling of discouragement to have one instant of acceptance any time, anywhere for any reason. Don't ever let that feeling come in—I don't seem to be making much progress—almost to the point where you are ready to stop your application. That is the most dangerous thing of all. You don't know, it might only take one more Call to burst the whole momentum through, and you don't

know how many times the Ascended Masters stand by your side in an hour of that sort watching you to see if you will give the final quota to give you greater assistance to the Fulfillment of your call instantly!

It is this Instantaneous Answer to your Call We want you to come to! You are all getting much more Instantaneous Action to many of your Calls than you did a short time ago. Hourly you are getting your Decrees fulfilled more rapidly, but still We want to bring you to the point where, when you speak the word, there is the feeling within you that every force around you is going into action to bring your physical world into living fulfillment in the outer world. That has to come in your own feeling. That is a Pressure of Energy from your feeling world which is required in order to bring things to a certain outer manifestation.

Watch out when you start into an accomplishment that once you set the goal and you decide to do something, go ahead, make your plans and hammer away until you are over the top, but don't let anything get you into the habit of starting something and then relaxing your pressure. There is a very subtle activity of that thing in the feeling world. Lots of people like to start new things. They do pretty well and have good ideas, but to hold the pressure back of what you have started until you propel it into manifestation has to come, for that is the only Power of Mastery there is.

If someone does not hold the stream of energy concentrated and increase the pressure unto the Victory you are holding in your mind or the Fulfillment of a Decree, then the Great Beings – no matter how much help They want to give, the Cosmic Law will not release energy and substance from that Octave unless a certain proportion comes from this. If you have not fulfilled the quota of energy necessary from the physical side of Life, the Cosmic Law can do nothing about it. That is a balance in the Universe which is an Eternal Thing in the Octave of Light!

The Ascended Masters stand ready to give everything

in Their Octave to assist you, but after you have said to Life: I want thus and so; then you must assure Life you are going to stand by and you keep right on standing by until the Law of Balance is released into the other side of the scale to release whatever is necessary to bring about the manifestation.

It is just as if you were weighing something. Supposing you were weighing something in the physical world, you place something on one side of the scale. You give a little there and you signify what you want and the Ascended Masters release what goes on the other side of the scale. They are always ready to release an equal quantity to what you do, but you cannot expect Them to put on your side of the scale what you want and what you ought to put on your own side.

The Law of Balance is irrevocable, and if there is nothing given from the unascended octave to assure the Ascended Ones there is pressure enough and you mean business, the Ascended Ones watch that. When They see that Light growing each day, growing brighter and brighter, expanding further and further, They watch that and as soon as it reaches a certain intensity then They release a thousand times more than They could until you have assured Them you are going to stay right with the determination upon the accomplishment of what you desire. You must stay right with a thing until it has been focused and becomes something which acts in the outer.

You would not expect to build an automobile or have the convenience of its use if you decided to make it and you got the wheels together and some parts of the engine and you then began to think about an airplane, and then you began to think about a boat. The family would not get an automobile very fast. That is the way with Life. It is the scattering of the attention and scattering of the energy into many channels which keeps the concentration of it from compelling the manifestations that you might have very quickly.

When the individual has the capacity to design a thing, give your Decrees for it, love it, bless it and enjoy the action of building it; enjoy the process of giving the Decrees which bring it into the outer. If you enjoy that, it will come a thousand times faster than if you feel—I have to give these Decrees or I won't get it through. If it is a matter of duty, the energy does not have the same intensity and power as if you thrill with the enjoyment of giving the Decree which is like something pushing it into outer manifestation. Your joy is absolutely imperative, and Life is not free until it is joyous. Life is not at liberty unless it is happy, because happiness is the Harmony of Life. Without harmony, it is not possible.

If mankind but understood what happiness in the feeling world meant, those who belong to America and the rest of the World, if all of them understood This Law and knew how they could charge the very atmosphere around them with the Insatiable Love of Freedom which would produce constructive activities; if they knew the Power they could release through Radiation and these Calls, there is not anything on the top side of God's green earth would stand before the rush of the energy the American people could release to produce this Freedom for the World, but the American people cannot have Freedom when they sell their birthrights for money.

You sell your birthright of your own Freedom when you are willing to sell somebody else into a condition of limitation so that you may protect your own, because that is not protection. That is what is the matter with the world today.

Selfishness wants the individual to save his or her own positions and pleasures at the expense of some other part of Life and the Law does not act that way. The more people try to hold to themselves through selfishness, the more they will steal from their own world. If the generations who have sold this present one into the holocaust of

war had been as concerned about the protection of the rights of free men for that generation, that generation would not be paying with their lives for the discord of the few in the outer world.

So, as the Goddess of Liberty and your Cosmic Mother, I have a right to charge into the feeling world of those who are determined to set Life free! I have a right to charge around you the Flame of Love from My Heart and the Substance of My Liberty, the Substance of My Happiness and the Substance of My Light. I can cover the Earth, if the Cosmic Law will permit, with a Feeling from My Heart which would bring liberty to every human being upon the Planet, but since I may not intrude upon the free will of any individual, then I can but stand and pour My Radiance and let those accept It who will.

When that Statue was placed in New York Harbor many years ago, the Cosmic Law knew then that America would have to have that Radiation of My Protection if Her Destiny is to be fulfilled and Her Cup of Light sustain the World until it awakens from the nightmare of its destruction. The same thing is true of the Statue of Our Beloved Jesus in South America—the Statue of Jesus overlooking Rio de Janeiro Harbor; the Statue of Jesus high in the Andes between Chile and Argentina, the other Statue of Jesus in Peru are all Mighty, Mighty Outpourings of His Cosmic Love, His Power and His Light for the Freedom of America. You would have had much to experience if the Statue of Myself in New York Harbor had not been placed there. New York would have had a great deal more destruction to handle, and she has had about all she could stand and still survive.

Mankind know so little about these Great Inner Activities of Life, and yet the world around them is so filled with Manifestations so infinitely Greater than anything the human intellect ever thought about that it is amazing to Me people don't awaken more quickly and insist that they have the

Freedom which Life intends. If they were not so occupied with just the sensations of the physical body, they would have more Illumination in the mind; but since they are but children, when they become caught in the shadows, then like all children they are full of fear; and why do shadows make mankind fear? Because they are uncertain as to what is hidden by the shadows.

So in order to be rid of the fear and in order to know where they are going and what they are doing, in order to throw off the lethargy of the limitations of the senses, they must have the Light; and the Light of My Liberty which is represented by the Torch in the Hand of that Statue in New York Harbor is a Light that has watched for many years certain forces which have sought to enslave the American people.

The people themselves do not want to be enslaved by others, but they are enslaved by their own feelings, and this is the point "I AM" coming to. If My Liberty is to be maintained for the Great Happiness and Perfection of Life, then We must free individuals from their own feelings which have enslaved them through fear.

Now the Cosmic Light in Its descent into the Earth does two things to those who want the Constructive Way of Life and understand the Law. The Cosmic Light will give them greater Strength and Courage and greater Illumination – greater Understanding of what is occurring. To those who do not understand the Law, the very pressure of the Light upon their own human creation, which is afraid of the Light, makes their human fear frightful; and that is why the viciousness of very destructive individuals, with every Wave of the Cosmic Light, temporarily seems stirred into more viciousness because they are so afraid they are going to be annihilated, which they are!

Within all Life is a knowing when the end of a form is to come. That in the feeling world of individuals is co-existent within Life and it is to release you from those

feelings that I come this afternoon to charge you with the Radiance of My Being, the Love from My Heart; and if you will accept It I will offer you the Torch in My Hand to light your Way and let that Light consume all which casts a shadow upon your pathway!

If you notice, I hold that Light in My Right Hand like a Scepter of Power and that means I reach My Hand into the Universe and draw forth the Flame in the Powers of the physical world, and that Light annihilates the darkness wherever I move it. You may do the same. Will you feel that you are just as much obligated by Life to call forth This Power of Light to free and illumine the pathway of everybody you meet, just as much as I, a Cosmic Being, have offered My Light to free those who come within the borders of the Americas?

Your Mighty Saint Germain represents Freedom to the Earth. Of His own volition He has taken This Responsibility to Life and the determination to set the World free from that which is not of God, just the shadows of the human substance which has been discordantly qualified. I have decided to do It for a Nation – a Continent. You may decide to do It for your Loved Ones, your fellow man, your city, your state, the Nation and the World.

There is nothing We would not give you, and you are the Authority! You know sometimes small boys and others when they awaken each other in the morning are not too gentle about it. Sometimes a cup of cold water gets very rapid results. I suspect some of mankind are going to get a rude awakening in a similar way. Perhaps it won't be through water, but nevertheless there are events coming which are going to compel the awakening of at least a large portion. If people won't get up when they should in the morning of their own volition, many times more strenuous methods are available and many times very practical and they do get results. Mankind is in that state right now. They have been asleep in the senses and in the hypnotic

feeling that the destructive forces are their master, and it is This Awakening which has to come; and if they won't awaken harmoniously through the acceptance of This Light, then they will awaken suddenly through other strenuous means!

I would rather have you truly armored with the Light and the Momentum gathered around your bodies through whose very Radiance there will pour forth the Love, the Liberty, the Light, the Illumination, the Discrimination and the Feeling which goes forth to the rest of Life to arouse the people to their responsibility and their duty to protect the constructive things of this World, at least for their Loved Ones and the generations which are yet to come.

I know sometimes it sounds like a very silly thing to ask a world that is sinking in the destruction of its own selfishness to awaken and live for the Freedom of the whole, but you would be surprised when so many are placed in similar conditions through war, there does come a feeling of wanting to stop that against all mankind. Sometimes it does not come forth as quickly as it might, but you would be surprised how many of mankind all over the World are releasing a feeling within themselves that they want to stop the destructive activities operating against Life. They see the senselessness of it and that begins to awaken them from their own selfishness to the point where they want God to do something for the rest of mankind.

That is why terrific experiences exist and why sometimes mankind won't learn any other way, because the feelings won't let them learn until Liberty comes within the feeling world and the understanding of what takes place in the feeling makes the individuals take control of themselves with enough determination to shut off the feeding of any more energy into destructive activities.

I wish you who choose to, would see every boat load of troops that leaves your eastern shores clothed in a Pillar and Garment of Living Flame from My Heart in that

Statue. The Flame is Pink and Gold. Let the Garments be of Gold and the Pillar of Pink Flame; and as they proceed across the waters, may that Fire go before them as the ocean's waves, and burn out every danger intended for them; burn through the substance which is destructively qualified and make them feel the Love of Liberty which is in My Heart. My Heart's Flame shall clothe them in My Love and the Radiation from that Flame shall burn Its way through the substance of destructive forces until the Love of Liberty has awakened in the feelings of the rest of mankind, and that Love of Liberty draws their attention unto the "Mighty I AM Presence"!

"I AM" the Cosmic Mother of those Beloved Life Streams who have been brought to the Three Americas; and in that capacity, since I represent the Authority over the structure of the bodies, the substance of the outer world, then by the Radiance of My Flame and My Love I can charge into all substance the FEELING of My Liberty until the people will feel It, until the people will love It, until the people will defend It, until the people will forever hold It inviolable!

Even though "I AM" facing toward the East in the Statue, the Flame of My Love envelops the Earth and that can go forth to those who are leaving the shores of America and going to the Orient. You can see My same Flame envelop them as Garments of Living Fire held in Great Pillars of that Flame of Liberty which burns away all substance which holds mankind in bondage.

Remember, nothing but the Flame and the Light can correct any condition permanently or harmoniously, and if it is not done harmoniously, it will have to be done over, over and over again. You might think if certain individuals were disposed of, that would solve the destructive conditions of the world. It would not! That thing has gone on for centuries. Tyrant after tyrant has been constantly taken out of the body, yet tyrants are still with us. Not Us in the As-

cended Masters' Octave –you in the unascended world, so the energy was not changed when the form was shattered. The quality in that energy remains the same and it has returned upon mankind century, after century, after century to be redeemed by the Power of Light, for the Power of Light is the Universal Authority.

The Power of the Sacred Fire is the Supreme Intelligence from the Great Central Sun; and until every condition you meet is purified by the Flame and replaced by the Substance of Light and commanded to produce Perfection, sustained and expanded forever, any other way of handling outer world conditions will be unsatisfactory to the end of time. To just get your own way is bringing you neither happiness nor the permanent solution of your problems. Since two wrongs never make a right, then because one Nation does wrong and another Nation begins to do wrong does not change the world condition. It but intensifies the wrong already acting.

So someone or some few of mankind should, understanding This Law, keep pouring forth your Commands that Life shall be Free and every Life Stream shall have the Liberty to fulfill the Divine Plan, by the Power of the Sacred Fire Elements or Activities from the Great Central Sun which are required to handle world conditions. They must come forth if you will call!

You have been doing marvelously! How I wish every person within your borders could have been here last night and been a part of those Decrees that you sent forth. Precious Ones, if it had not been for your Decrees since the Ascension of your Beloved Messenger, you would not have a roof over your heads today! You did love Life enough to give This Service for the Protection of your country and mankind; and now, more of mankind must awaken to This Light! If they have to have the experience of more frightful suffering in order to make them accept This Light, then it will have to come, but We are hoping it will not have to

come to that point! Many are awakening very rapidly, and more and more are accepting This Light each day, but the Cosmic Light still demands much more.

So as you call the Powers of the Cosmic Light and Its Limitless Pressure into various channels of human selfishness, as you keep calling forth the Oceans of Flame and Substance and Miracles from the Heart of the Mighty Elohim of Purity and the Elohim of Peace and the Heart of your Precious Saint Germain and Mighty Victory, these Great Streams will intensify day, after day, after day, and I shall continue to pour Oceans of the Flame of Love from My Heart that causes Liberty—God's Liberty to Life throughout the Americas and to Life in the rest of the World which will accept It.

I hope you feel as proud of Me as I do of you! Your Beloved Saint Germain in His Great Great Efforts to bring Freedom to America in the Beginning, My Efforts to warn ahead so the frightful destructive forces might be offset in time, have been successful up to a certain point. We would have done more if the Cosmic Law would have permitted, but since the people who receive the Blessings of Saint Germain's Love and Freedom, and the Love and Light I have tried to pour out—since the people are receiving the Gifts from Our Channels, then surely they ought to value Those Gifts enough to protect Them or want to save Them for themselves in the future, and to protect Them for generations that are yet to come. When people become so intent upon the fulfillment of their own desires that they do not care what happens to the rest of Life and the Divine Rights of mankind, then there always comes an Action of Life which will give them shock enough to awaken them out of their selfishness.

So if you will use the Flame of Love from My Heart you may have It! "I AM" pouring It! It will expand without limit! It is qualified with Liberty and the Pursuit of Happiness! It is My Life! I give It to you for your Liberty, but

I expect you to call It forth for the Liberty of My other Children within this land. When I say: "this land," I mean the Three Americas!

You know a mother loves all of her children. Sometimes they are not so fond of each other, but the mother loves them all, and when they are grown up she expects them to carry her love and her training to the rest of the world and BE an example of what she has tried to bring forth through their Life Streams.

So as part of Saint Germain's Family, His Qualities of Freedom, Honor and Honesty are the things He expects you to give to the rest of the world. As My Children, "I AM" Liberty to you, and I want you to give Liberty to Life, all the Life that is here first, then all the Life throughout the rest of the world which is crying out in the darkness for the Light which they have lost in their wanderings. Mankind in their feelings has wandered far from the Great Harmony, Truth and Perfection which Life demands if Manifestations of Beauty and Perfection are to come forth and fulfill the Divine Plan.

As the shadows flee before the morning sun, so are the destructive forces being compelled to recede inch by inch until there is driven back into its cause the full accumulation which has preyed upon mankind throughout the centuries. When that is removed from the Earth, then you will know what I can give to you that is the Real Liberty of Life. You will be at liberty to draw without limit the Choicest Gifts, the Mightiest Power, the most Blazing Glorious Beauty around you and to bless all Life wherever you move; but I want your Liberty to begin in your own feelings, because they are what have held you in the shadows of distress. Don't ever consider your distress anything more important than a shadow, because the moment you take the importance out of it in your feelings, you will find it gone and disappeared.

When you are in deep pain, when you are troubled,

worried, concerned about a lot of things in the outer world, it may not seem so unimportant as it does when I speak of it in this way, but I want to take out of it the importance and let you remember that only the Perfection of Life is really important and all else interferes with My Liberty to you. Just getting things your feelings crave or getting your own way is not the important thing in this Universe. The Perfection of Life is the only important thing in all of creation and My Liberty is the Perfection of Life! Saint Germain's Freedom is the Perfection of Life! The Purity of the Great Elohim of Purity and the Goddess of Purity is the Perfection of Life! The Cosmic Light is the Perfection of Life!

So in the Fulfillment of the Divine Plan or drawing forth of one Great River of Flame after another in various activities of the outer world, give It some attention each day! Call to Us to sustain and expand Its Action! You may go forth and plant as it were, great Rivers of Force, Rivers of Flame, Rivers of Substance into any special activity, if you will give It daily recognition and can remember Us and make the Call to Us to amplify It. Then it is just like an intense Heartbeat which pulsates the release of its energy and is followed by the Substance and Flame released. It pulsates again and more comes forth until It just sweeps Its way through the maze of human action in the outer world; and in your world there comes forth the Beauty and the Perfection of the Divine Plan Fulfilled. The more you fulfill every Divine Plan which comes to your attention, the more the Radiation from every Divine Plan Fulfilled will come forth to fire others with the feeling and desire to fulfill their Divine Plan also.

By Radiation you can raise mankind three times more rapidly than through the spoken word. The spoken word is necessary—you cannot do without it—but **YOUR RADIATION THROUGH YOUR FEELINGS IS THREE TIMES MORE POWERFUL!** So if your feelings are at liberty to fulfill

the Divine Plan from your "Mighty I AM Presence," then the Radiation from your world will carry its Liberty to others and they will breathe that in like you breathe in the air, and it will stimulate them to want to fulfill the Divine Plan. It will awaken them from the lethargy of their own contentment! It will shock them out of the sleep of the senses.

In that way through your Radiation you may silently consume selfishness which you can never break around any one through the spoken word. The moment you begin to argue with someone who is selfish—the more you talk, the more stubborn they become; but through Radiation and example you can be a magnet which draws their attention, first onto the Perfection toward which you are looking, and when you draw their attention into the Perfection of Light, the selfishness drops away of its own weight, because they do not give it any more energy.

So to be the example, expand the Light and radiate the Liberty and the Freedom which will raise mankind through your example far more quickly than all the platitudes which have ever been offered through worded explanation. The fundamental principle of the Law must be stated! Its explanation must be given and with it an accompanying Radiance which clears the feelings and dissolves much of the substance that does not belong to the Life Streams of those you are trying to help. But the Radiation of your example can give Liberty from the chains of human feelings in the world that the spoken word cannot accomplish. There is the right place for the spoken word and there is the right place for Radiation! Neither one can do the other's work, and what one cannot do the other will.

Beloved Saint Germain radiates the Flame of Eternal Invincible Freedom to America and the Earth, and I represent the Substance of the Liberty that people ought to have in their feelings, whose Radiation pouring forth automatically draws all up into the Fulfillment of the Divine Plan.

So as you remember Me and know that I, too, carry the Flame in My Torch, it is to burn your pathway through the wilderness of humanly qualified substance that I may provide a pathway of Light-Substance on which you may walk, see where you are going and pour forth Its Light and Its Radiance to widen that pathway so that others may walk along it with you, and we move forward to the raising of the substance of this country and then the World into the Freedom of the Feeling of the Ascended Masters, until the Fulfillment of the Divine Plan of the "Mighty I AM Presence" to the Destiny of your Nation.

As Her "Cup" of Light intensifies Its Radiance and That goes forth to cover the Earth, the rest of the World in the desert of darkness will welcome the refreshing drink of Her Light, and once they have tasted of the Light of Her Freedom and have turned their attention to the Source from whence it comes, never again will they want to look back, but they will seek the Light of their own free will, then Liberty is permanent and the Goal of their physical journey is Freedom of the Ascension!

My Beloved Family of Light, may I set you Free? May I clothe you with Oceans of My Liberty? May I free your feelings from all that is not Peace and the Love and the Perfection of your own "Beloved I AM Presence" and the Liberty which "I AM" to the Earth? If you will BE My Love and My Liberty to those you meet, then Life will have to pour back to you Greater Liberty, Greater Light, Greater Love; and your world becomes more and more Free from all that is less than the Perfection of your "Mighty I AM Presence"!

Whenever you gaze upon My Statue in New York Harbor again, watch It and ask that the Cosmic Light pour forth the Qualities of My Liberty throughout the waters of Earth, throughout the landed surface of the Americas and in, through and around the physical bodies of all who belong to the Americas. I will pour forth My Love into that Light with

the Command for the Liberty which is intended for America and Her people to move into outer control and BE the Cup of Blessing to the Earth forever!

Will you accept for just a few moments the Radiance, the Love from My Heart with My Call to give your feelings Liberty from all human qualities! May My Love about you be flooded so powerfully that you are Free this hour!

If you wish to call My Liberty into the feelings of others, use My Torch and burn away the chains; and My Love in the Power of the Sacred Fire shall be Liberty to you and all to whom you wish to give That Assistance, when you call upon Me.

I hold you within My Arms and may the Fullness of My Peace that I want you to have and that I want all to have, put your feelings at rest in the Liberty which "I AM"!

I thank you.
