

## BELOVED SAINT GERMAIN'S DISCOURSE

CHICAGO, ILLINOIS

JULY 13, 1945

AFTERNOON

### GROUP LEADERS' MEETING

BELOVED ONES OF THE LIGHT, as I come for this short talk with you, it is that I may enfold each of you in a more Intense Action of the Flame and Substance from Our Octave of Light that carries within it the Consciousness and the Directing Intelligence which will help each of you in the carrying on of the Activities in your own localities to more accurately sense all which the people need the most to keep you in attunement so the strain will be less upon all of you.

As the Cosmic Light increases more, all mankind is going to accept this Mighty "I AM" Instruction, each of you becomes a brighter Sun, as it were, of Our Radiance, Our Consciousness and Our Power. In anchoring this Greater Power around you for the greater help to the people, it naturally intensifies within your own world the amount of energy with which you are to be clothed and which you can have at your direction to go forth and do many things which are required to be done without so much strain and stress in the future as you have had in the past, provided the harmony is maintained. The fundamental need now, above all else, is the control of your own feelings, so no matter what the problem is to be handled there never arises within you a feeling of resentment.

Sometimes in handling many people as you do in your Groups when things perhaps do not go as you would like them, do not let that disturb you in your own feeling world. If something occurs that is not quite up to the Perfection which you would like, just take it within the Silence and call forth more of the Power of Our Consciousness and the Power of the Great Great Silence; because as the Pressure of the Cosmic Light drawn forth with the Power of the Silence surrounds individuals

you will find they have less and less tendency to do that which would be disturbing to someone else and in that way it does not open the door for any personal contact wherein discord may arise.

People at this time, both in the Study Groups and in the outer world, Precious Ones — as We see the struggle of mankind from Our Octave — people need kindness, Oh, so much. They need the enfolding Presence of Love, that Great Protecting Assistance which makes things easier for them. The mass of mankind is struggling under so much from which they cannot escape until they understand This Law. You who are cut free from that sort of thing and are lifted above it do not always sense the pressure under which others are struggling. When those are brought into your Study Groups from now on who have never contacted the Work before, as they come into your atmosphere, you will be extremely kind.

Each of your Study Groups and “I AM” Sanctuaries are Study Groups and Sanctuaries under Our Direction and will become such a haven of Peace, Help and Blessing to those who come there for Light and Assistance that it will enable the new people coming into the Work to draw forth much greater Light much more quickly. The whole need of the outer world at this time is the kindness, the harmony which stills the distress around them so their minds will work more clearly.

There is so much occurring in the channels of the National Defense that is generating very great unrest and a feeling of injustice and resentment against the military organizations and activities who seem to be so hardhearted and so indifferent to the people's suffering that We want you to be an extremely intense Focus of the Peace, the Light and the Healing Power to offset that other force which is being generated to arouse certain destructive activities within the country.

There is such terrific injustice in the treatment of those who have been wounded in war as they have come back here. The people are in such distress they do not know what has happened to their loved ones; and as they turn to This Light you will find as you give them Peace, Kindness and a Blessing,

their own minds will clear more quickly to comprehend the Action of the Law so they may make application with very much greater Power than otherwise would be.

The duty of the Group Leader or those in charge of an "I AM" Sanctuary and Reading Room is always to take time enough to go by yourself, entirely alone in your own atmosphere, sometime each day and just still the outer with the Command that everything required for each day's Victorious Accomplishment comes into you, floods and saturates everything around you with whatever Power is required to bring the Victory to each one who comes for assistance.

It is much the same thing in business channels, except the people are not so receptive to the illumination; and yet people in business, the moment someone comes along with an idea of helping and the feeling that harmonizes and releases the sense of strain, that kind of an individual is always deeply appreciated by all in good business channels. People who have the poise and the self-control to pour out kindness, regardless of what the problems are, means a strength to the Light in each individual and therein is your opportunity. As you become an Open Door for more intense Action of Our Consciousness and Light to go forth into those of your Study Groups, each one becomes in turn within that Group an Open Door to Our Outpouring to the business world or whatever channel they are in. The Supreme Service after all is that Great Outpouring of Harmony and Kindness which does not allow destructive forces to act through someone else. In that way you shut off from other Life Streams the connection with destructive forces which otherwise would use them.

Now at the Inner Level that means a tremendously greater increase of the Pressure of the Cosmic Light within the atmosphere over the land. It forms just like a fog comes in over the city and shuts out the sunshine. This Radiance and Light Substance which We pour forth, flooding in and around each of you and in and around the Sanctuaries and then out through your people into business channels, becomes like a Self-Luminous Substance of sunshine in and around you all. This carries into

business activities the same as the fog carries into the city and you can have it without any limit whatever. Do not hesitate to call It into action and if you wish to CALL THE SUNSHINE SUBSTANCE FROM OUR OCTAVE IN AND AROUND INDIVIDUALS, CHARGED WITH THE SACRED FIRE OF COSMIC PEACE you would be amazed how as you just keep sending that forth and wrapping those up in it with whom you come in contact, you will find destructive forces which might have planned to act against you will just somehow be stilled and would not be allowed to express, and in this way you can help individuals much more quickly.

Each Reading Room and Sanctuary is a "Cup" of that Light and Its Outpouring from Our Octave into the locality in which you abide. Where We have Sanctuaries and Reading Rooms and the harmony is maintained you have no idea what that means to the whole locality, even though sometimes it seems to be small. Yet if the attention is regularly turned to Us and the Calls made, that entire locality can be clothed, by those in the Sanctuary through your Calls, in this Sunshine Substance from Our Octave which will be just like a breath of Happiness and Peace to all within the locality. You may not see the immediate result of This right at once, but as it goes on It will become an Illumining Presence within the consciousness of each Life Stream and will enable them from time to time to look away from the destructive forces more frequently than they have in the past. In this way, We gradually draw their attention off the destructive conditions and hold them on higher Ideals until the old American standards can be brought back into the outer regulations of the people and they will feel once again the great Happiness of being Free.

The people this hour are struggling under tremendous things. They know not, of course, what it is. They do not understand how they feed it, but nevertheless We are here to help all Life be Free and so are you. Beloved Ones, do not pay any attention to those who might question or doubt or make disparaging remarks. After all, if you could see some of their inner creations at the time they make their remarks you would

not have any feeling except – well just pass it by and – call Me to dissolve whatever is the obstruction. You know people so often – Oh my, when they begin to tear each other to pieces – they say this is wrong and that is wrong in the other one and something else; and that habit grows so quickly and the first thing you know there is a terrific whirlwind of it acting within their own emotional bodies. But you cannot tell at the time just what form it will take, and this is the reason I want to bring extra protection to all who are heads of Study Groups, Reading Rooms or Sanctuaries at this time.

As We clothe you in Our Greater Protection, it will make possible the maintaining and expanding of many of your Sanctuaries; Oh my, with very much greater speed and power until you are all in very lovely places that are owned by the Saint Germain Foundation, in which you will feel the Freedom to do everything in the most harmonious way.

“I AM” going to give you a little recipe this afternoon, and if you will remember this remark I think you will make some of our critics very much ashamed. This Messenger has been under so much criticism and condemnation, where people are not too kind to Her and they have criticized Her for doing this, that and the other thing. There may come a time when She will have to tell them face to face some of these things “I AM” going to tell you now. If people become very critical and condemnatory when you are trying to do right and you know you are right, just say: “Well, can you find anything else wrong about me? Have I done anything that is right?” You will suddenly take them back like that and make them begin to realize what they are doing, and then I would say to them: “Well, perhaps it is unfortunate for you that I was not created according to the design in your mind for me, but after all God created me in His Own Image and Likeness; and I leave the results of my actions in the Hands of my Creator.”

I think an answer like that will stop any ugliness which might come forth to you from those who by nature are very critical and do not govern it. After all every human being has been created in the image and likeness of that Majestic Presence,

and anyone can look up to that Divine Pattern any time he or she makes the Call. If each one is created on that Divine Pattern and the "Presence" has waited so long to release the Fullness of Its Outpicturing, well then, the easiest way to starve out the human is to remember the Divine about everybody.

This will hold within you, as you take that calm, poised, kindly, undisturbed attitude, and will build around you a Wall of Power which will be very disconcerting to critical people, because destructive forces only argue with you to get your feelings stirred up and when by a kindly forgiving remark they find they have not stirred your feelings, well, they do not accomplish their end. They will either go somewhere else for more fertile ground or desist entirely.

I do want to give the Group Leaders every assistance possible now, and We will do This not only for you who are here, but We will do It for the Group Leaders throughout the world, not only those who are heads of the Reading Rooms and Sanctuaries, but all Group Leaders and Study Groups wherever they are, because there must come an intensified Radiance of the Sunshine Substance of which "I AM" speaking.

It can put Light into any locality. It can bring Light in the body. It can be condensed around you until It becomes a Shining Garment; and if I were you, whenever you are concerned with pouring out the Light, I would acknowledge that Garment about me and We will start a Focus of that Substance of Light around you which will become very tangible to you; and if I mistake not, as you hold the harmony It will become tangible on your outer garments. Then through continued Devotion and Harmony you draw That, sometimes right while you are holding class or following it as you leave. As you find that Substance sparkling on your clothing will you begin to have such a feeling of exhilaration within that Light as It condenses into outer visibility. That will make your feelings leap with joy and a gratitude, strength and power which will lift you beyond all that is of the outer self. This will be a tremendous buoying Power to you and It will be a sustaining Strength which will enable you to handle any situation with nothing but the greatest

kindness and ease to yourselves and to those whom you are trying to assist.

This will also bring great Peace and Relaxation within your own flesh bodies; because the Sunshine Substance from Our Octave is a Condensation, Precious Ones, of the Element of Gold. Now "I AM" not saying this for any exploitation or anything of the sort, but It is a powerful, Purifying Substance and when It condenses to the point where It sparkles upon your clothing, the Radiation penetrates everything in and around you and you really become a Mighty Power of the Peace-producing and the Peace-commanding Presence. That will keep you so at ease within yourselves, you will feel as if it were impossible for anybody to become disturbed; and that very feeling touching the emotional bodies of others will make them feel the same way. It will be — I do not like to use the word — but it will be just as contagious as some of the destructive things which mankind has been accepting; only this won't exactly be contagious, It will be radiating Its Presence to give assistance to others.

Now many times when This occurs, you might be able to see that Sparkling Substance and for the time being, your sight might be temporarily opened to let you see It to give you encouragement right while you would be talking to others. It would not necessarily be visible to them unless they were Students and their attunement was being raised because of their sincerity and devotion to the point where they could see It also. Many people will see It about you who are Students.

There is a lot of mankind whose Power of Sight is partially opened. I do not say a lot of mankind, but you quite frequently find individuals in whom the Power of the All-Seeing-Eye is acting at intervals; and you need not be surprised, if you draw an intense Focus of This around you, that there will be those who are not Students who will remark about It. If they do just say: "Yes, it is quite Real and I often express It, but It is the condensation of the Light from the Ascended Masters' Octave."

Now We can establish That in and around every "I AM" Sanctuary and Reading Room to help keep things purified, to

keep things harmonized and for maintaining Divine Order in such Love and Peace that you sometimes will think, well, where has all the work gone! It will take away from you that sense of struggle, because when that Light Substance comes into the atmosphere it so clears the consciousness at the same time so others around you will automatically anticipate the right thing to do and just gently do it as a matter of course. It is a most amazing thing to gain harmonious co-operation from other individuals — shall I say, if they know it not. They might not consciously outwardly know what It is, but they will respond to Its Feeling.

I would be very careful in the months just ahead not to become too much of a pressure upon any one around you. Your own Light in all of you is expanding very rapidly. The pressure is coming into you, really, in leaps and bounds; and, of course, you are being raised into That gradually and do not quite yet understand how fast the Light is expanding within you, because you are used to It. Because of Its increasing pressure to others in the outside world whose Light is not expanding with that speed, they sometimes feel That as a pressure around them; and if they do not accept It and receive Its Blessings, it really becomes quite a thing for them to handle. We cannot take people beyond the point where the Vibratory Action maintains harmony within them.

If We were to suddenly step up the Power of Our Love, it would shock many of them out of the body and that is not Wisdom. It is not Obedience to the Divine Law and if that Light around you increases to the point where others begin to feel Its pressure, well then, the more kindly you are and sometimes the more silent, the easier things are handled with no danger or distress to those who do not understand.

The need of every Sanctuary, Beloved Ones, is the pouring out of kindness to the people. We want to avoid in this "I AM" Activity the conditions which have crept into the churches. It has crept into the schools! It has crept into the business activities and it has crept into many social organizations and channels that were brought forth to help people. We never want

this "I AM" Activity to ever come into the cold, hard routine of regulation where individuals are not allowed the natural play of their own free will, where We may establish the Light within them and draw It forth in happiness instead of a disciplined regulation.

Now, you do have to hold a certain amount of law and order. I do not mean the people are not to be held within certain controlled regulation, but if you notice the coldness in the churches has come about because the people have not received the love from those to whom they looked. That is the Secret of this Activity. If you want your Study Groups to become full to overflowing I ask you to keep making the Calls and giving your Decrees for the Sacred Fire of Cosmic Love Supreme to be God's Full Divine Justice and Supremacy in everything you do. Pour that feeling of real kindness and kindly consideration and concern about other people who come to you.

Precious Ones, if you could see the Life Streams as We do at the Inner Level of the whole Student Body, not all, but so many of the Students, Dear Blessed Ones, the hour or two hours or three hours they spend in the Study Groups sometimes are the only hours of the twenty-four that they are at peace. So let us make every Study Group and Reading Room a Haven of the Sacred Fire of Cosmic Love Supreme until the Blessing and real Feeling is so intense they feel like one great family all defending each other. If some get a little out of regulation one way or the other, Oh do not be too concerned about it. Sometimes when we see that struggle, just walking through the room will take it away from every one. We have done it so often. We will do it any time you make the Call, but make the people, when they come into your Sanctuaries and Reading Rooms, feel This is the Home of Light and Love that they do not get anywhere else in their lives.

To the Group Leaders who will pour out Love and Blessing and kindly consideration to those who come into their Sanctuaries, you will find your Groups expanding until they are full to overflowing. You won't find places big enough to hold the people if you will, all of you, sincerely pour out that

kindness to the rest of the people. Oh, you might not like them personally, but what difference does it make, Precious Ones? You might love some more than you do others, but what is it you love in anybody? What is it anybody loves in you — certainly not the human. Each one who harmonizes with someone else loves the Light, because the Light is the harmony and the kindness and the agreeable qualities you like in any one; and everyone belongs to the Light really. Each one belongs to the Light of his or her own “Mighty I AM Presence,” each one belongs in the Ascended Masters’ Octave. They should have been there a long time ago and the only thing which will ever arouse them to get There is your Light and Love in addition to their own Calls to their “Presence” and to Us; and the more you can pour out that Sacred Fire of Cosmic Love Supreme into everybody and everything, Dear Ones, there will be no such thing as a lack of anything.

We could in a week’s time, if the Student Body would all stand together, release such Wealth, such magnificent Temples into your hands and your use that your joy would never stop expanding in Eternity. The actual bringing forth of the money or supply you need to either build these Temples or have them precipitated is not a tremendous thing for the Cosmic Law. All of that Wealth stands in Our Octave just surging, like in a warehouse, so to speak. It is a crude expression, but if you have a warehouse in your locality full and overflowing with supplies — well the purpose of that storage of wealth is to open the door and let it move into action when it is needed, isn’t it — outside of speculation, and of course We do not speculate, that is the difference.

But from Our Octave, Our Octave is just surging with Wealth and Gifts and Power, all Life contains, and it is no trouble for Us to open the Floodgates and pour That into your hands and use. The reason “I AM” pleading for the Love and Kindness to the people is when these things do come forth, Dear Ones, you are all going to be a lot busier than you are now. If you do not already have established, as a matter of habit, This Momentum of the Sacred Fire of Cosmic Love about you, the

handling of more and more business problems in the bringing forth of your Temples, Schools and Cities of Light will become a strain upon you and that We do not want. We want the building of your Temples and your homes and cities of Light to be the same enjoyment to you that the building of Our Temples of Light has been to Us in the Electronic Belt around the Physical Sun.

There is only one thing that can bring you enjoyment and that is the pouring out of Love, Kindliness and Blessings to everybody who needs assistance and that has not anything to do with personal attachment; not a thing in the world. This is your great, great Trust from Life. When people offer you their Love, Precious Ones, remember they are saying to you, I accept what you can give, because without a feeling of Love and Kindliness to you they are not receptive to This Law, do you see? If you are going to help anybody, you have to help them through their own receptivity, but when people are harmonious and kind to you or you are pouring your love and blessings to them, they will receive and accept what you say, while if it is just a cold, intellectual thing, they won't do it. They will go home and argue with themselves about it and keep it up, because human nature is built that way. Not that God created them that way, but nevertheless, those habits are still acting in mankind.

Now in all these things, the only Thing that can be your Protection and draw the Greater Power from Our Octave is your uninterrupted Blessing, Kindness and Harmony to others. There are many things ahead coming in this "I AM" Activity which will require very great Wisdom, very great Kindness, very great Understanding and Self-Control in yourselves in order to use the Powers that can and will be released to handle conditions with which the outer world cannot deal. This Help stands Above in Our Octave ready to flow forth to bless the people when We have an Open Door through which to give It, but those Open Doors must be guarded by the Kindness and the Harmony which is the Insulation against the viciousness of the outer world.

It just means being strong as tempered steel within the Great Pillar of Fire which We draw, then just pour It forth and

if any disgruntled condition comes up just be kindly about it and say: "Well, we will just call the 'Presence' into action to bring Happiness, Perfection and Divine Justice for you all." You maintain That in yourselves, and We will much more quickly handle the outer conditions.

Now "I AM" going to give you a Divine Trust tonight. Some of the Dictations which were given up at the Lodge recently had certain Statements within them of very great Power that I feel you as Group Leaders are entitled to have, because of the responsibility you are carrying, but I say to all of you without reservation, until the Dictations are published I ask you to keep these Decrees absolutely confidential. Keep Them where other people cannot read Them and do not be tempted under any circumstance to give the Decrees which are within Them out to others. The others have plenty of Decrees if they go ahead and use them and build their momentum that will handle any problem they contact, but because of the greater Radiation which was drawn when those Dictations were given, This can be expanded to include each of you who is handling the responsibility of the Sanctuaries and Reading Rooms.

Another Manifestation took place the last time the Messenger and the Staff were in the Lodge and We want to share Its Radiation with you, provided you consider these Sacred Trusts. It is not that there is a thing here that could not go in the newspapers, if you wanted to; but the point is this: when We ask you to hold This as a Sacred Trust there comes with It a certain Attunement and Radiation, but if each one of you does not consider That a trust, then We can never give you a greater trust. If you do not respect small trusts you will never be given greater ones, and if you think you are the judge of what "I AM" doing, well then I must recede, that is all. Either "I AM" the Authority or "I AM" not and I most certainly AM. If you will accept That, We will endeavor to draw forth through these Decrees for each of you who are heads of Reading Rooms and Sanctuaries, and I believe a few who are just Group Leaders, if you will consider this confidential and not lay them where others read them, but keep them for your own

private work until such time as they come forth in the Magazine. It will enable Us to give you all much greater Assistance, which "I AM" sure will give you all greater Happiness, greater Health, greater Opulence and greater Ease in handling anything that comes before you, whether it be in your business affairs or in the "I AM" Sanctuaries.

You will find you are moving into one Victory after another, provided you hold the Trust; but mankind is very peculiar. All through the centuries We have offered the Trust of Life and so few have been strong enough to hold It. So tonight, I want you to feel that, because of the Manifestation that was drawn forth at the Lodge this last time. I ask the Master Jesus to clothe these Decrees, and each one of the other Ascended Masters Who have spoken Them, to clothe these Decrees in the Essence which each one requires to hold the harmony uninterrupted and release the Wisdom, the Diplomacy and the Kindness that just makes you solve your problems with such ease and such happiness it lifts every one who comes to you with a problem, it lifts them into that Happiness and their problems are dissolved in the same way.

So because of that have we held this short Dictation so I might anchor around each of you for your family affairs, for your business and for the conduct of your Sanctuaries this Greater Essence to make your world happier. These Decrees are clothed in My Love; and may you accept Them and with Them the Ascended Masters' Garment of Sunshine Substance to know the Happiness, the Love and Peace which We want you to have.

So this night I give you a Trust, and I hope I shall never have cause to be mistaken in that which it is My Privilege to do and which I love to do and would so love to do for all mankind. I wish this night, I might come to every human being on the Earth and release the same Substance and Power to each one to lift their burdens from them, if they would only let Me by kindness to each other. There is no substitute for Love and Kindness of the "Presence" and from Our Octave. It is not an intellectual thing. It is an intense Feeling of Blessing, Protection and Assistance to every one so others may feel That, because

people get your feelings so quickly.

So tonight, I want you to feel My Feelings charged into your world and this Garment of Sunshine Substance from Our Octave become more and more tangible about you and you just hold the Relaxation, the Peace, the Power of that Peace, Love and Kindliness that can handle everything like magic, because It is the Magic of Life really to be able to hold That in the midst of the pressure around you. Be like the Sun that dissolves the fog. Let the Sunshine of Our Garment about you dissolve your problems and give assistance to others until their problems are dissolved also!

I thank you, Precious Ones, and with My Love and My Heart's Light I clothe you tonight. May This become very tangible to you and those about you until all will know the Reality of This which I have spoken. Thank you so much, Beloved Ones, for all you have always done through your Sanctuaries and Reading Rooms, your kindness and Service to the Light. Now may the Fullness of all Gifts which are within the Light come forth to serve you and help you carry the Light all over the World and seek out every one who is in the shadows and draw them into the Light of Eternal Peace and the Happiness that is God's Divine Plan fulfilled.

Thank you and I bless you for Eternity for all that has been accomplished thus far. I stand with you always to fulfill your every Heart's Call as the greater Expansion takes Its Dominion in the outer world.

Thank you, Beloved Ones of My Own Precious Family.
