

BELOVED ELOHIM OF PURITY'S DISCOURSE

CHICAGO, ILLINOIS

APRIL 15, 1945

BELOVED ONES OF THE LIGHT, travelling the pathway of Earth, I come to thank you for your continued Calls for that which it is My Privilege to release, to clothe the Earth in the Flame which purifies and perfects all things.

In the constant demand of the outer activities of mankind, they have sought the Blessing which Purity alone can give, and yet they call not for that which makes those Blessings Eternal. You who have stood together night after night and called for the Purification of the many activities of your Land and the World, I come to bless you tonight with all which I can give. You have no idea from the Inner Standpoint what your personal Calls for Cosmic Purity have meant in the Fulfillment of the Demands of the Cosmic Law, because when mankind has so long dwelt in the shadows of impurity, the Cosmic Law demands that they come back into the Light and call for Purity of their own volition. Having turned from the Light of their own free will, and having created the conditions of impurity, and that they have done of their own free will, then the Cosmic Law demands that they must reverse that and come freely and gladly into the Light, and call forth the quality that dissolves their unfortunate creation.

So you see in your intense desire to purify yourselves and your surroundings, the conditions that you have contacted, you become the raising Power of the mass of the people of your Nation and the World. This means that a certain proportion of the people of Earth of their own free will are calling again for the Purity of Life, that only the Ascended Masters and Cosmic Beings can give, because the outer world does not and cannot give you Purity. It imposes upon you its own impurity, and that has become so great you had to call to Us for release and relief from that which mankind has done unto you, and of course, that which you have done unto yourself. But in your Call for the release of your Nation and the World from the conditions of impurity, that have allowed this destruction to come into

outer manifestation, you are reversing the currents of the Earth and are turning them back again into the Direction of the "Mighty I AM Presence" and the Ascended Host; and it is well you have done so. This will enable Us to draw around you certain more intense Activities of Life's Blessings for your Greater Perfection, and then the release of Greater Powers, to more quickly purify the rest of the Earth.

Without those added Powers released through each one of your Life Streams, there could not be an increasing Pressure of the Purifying Powers of Life going into the outer activities of mankind. But with these added Powers, which We hope to release through most of you — and all of you can have Them if you will give Obedience to the Law — you will move forward into conditions that will give you great joy; and you will be, not only the Light-Bearers of the World, but you will be the Vanguard who bring into outer use for the rest of mankind, those activities which will more rapidly purify the whole.

As Some of Us have said from the platform several times, you Beloved "I AM" Students and especially the younger generation, the "I AM" Ascended Master Youth, with your fierce, determined, persistent Calls to your "Presence" for the Purification of your Beings and worlds and the Fulfillment of the Divine Plan, with that Obedience you can become the outstanding Lights of the World in five years' time. Because every step of progress that you make now, is an Eternal Accomplishment, not only in your own Life Streams and its experience in your world, but anything you bring forth now that is a Gift of Life's Perfection and Greater Purity to the Earth becomes part of the Permanent Golden Age — therefore, an Eternal thing to the Earth, and Eternal Manifestation of Greater Purity and Freedom and Victory of the Light to America and the World, because what you bring forth in the Name of the "I AM" is to remain forever!

So your opportunity is so very great, and all you are doing for the rest of mankind becomes a Permanent Blessing to the Earth, therefore, an Ever-Increasing Blessing to yourself; because you cannot, by your Decrees, bless the Nation and the whole World with conditions of Greater Purity and Perfection and not have the Presence of every Life Stream and all Powers of Nature bless you for that which produces the permanent Perfection to

the Earth, of which they are a part.

If you will make the Calls, Beloved Ones, for more magnificent Ascended Master Ways of keeping your homes clean, and your cities, your schools and the various activities of the outer Life, you will find many magnificent inventions and very practical ways of keeping things clean, released through your Calls. In the Decrees for the Fulfillment of the Divine Plan, as the Beloved Mary said, "Your Way," speaking of the "Presence," asking It to fulfill the Divine Plan Its Way, instead of your way; I might say the same thing in regard to your homes and your clothing and your cities and your Nation. And may I remind you of your schools? That blessed younger generation has had to go into those schoolrooms, some of them fifty years old, where filth of generation after generation has gone into those places day after day after day, with no cleansing of the Inner atmosphere, and by that, I mean the mental and feeling world of those who spend the years of their school Life in those places. The Inner atmosphere, My Dear Ones, needs cleaning, not only quite as much, but to Me it seems more than your outer physical, because if the Inner atmosphere were ever cleaned, because it is the realm of cause, the outer physical would have to be.

I bless you, Beloved "I AM" Students, for the Calls you have given to start the permanent action of purifying those channels by the Inner Command of Life, in the Full Authority of the "I AM." May I remind you that in regard to your land and the whole World, long after the war ceases, I would keep up your Calls for the complete Purification of all military camps and the disbanding of all military machines; and the dissolving of all munitions from the Earth; the disbanding of the war department from every Nation on the Planet. If you will begin to make your Calls now, you will see those things will not only become obsolete, but they will become forgotten by the mankind of the Golden Age.

It takes your Calls to Us in the Octave of Light to set into outer action the Powers of the Cosmic Law to accomplish this which is the Permanent Perfection of the Incoming Golden Age. Oh, Beloved Ones, if you only knew how easily many times things could be done for you, that in doing a thing your own way, so often contains the struggle and the imperfection from

which you are trying to free yourself. Let Me illustrate. Supposing there is a locality, or your home, or your business, or your clothing, that you want to purify. If you would just for the time being, at least while you are making your Calls, forget there was any physical way of doing it, and just pass it up to your "Presence," releasing it and all your feelings about it completely into the possession and management of your "Presence," and say: "Beloved Mighty I AM Presence, Purify this Your Way! Fulfill Your Divine Plan concerning it and me, but Your Way, and make my mind stop thinking of anything but Your Way!" I challenge you to try that, because Your "Presence" will show you so many Ways of doing things that you never knew existed, and it would be as easy as if you swung open a doorway into a fairyland of Powers, into which you walked and could choose many — any one of which could change conditions into Perfection with which you are working. But the human has so long felt it must get out and do a thing as it sees it; and it rebels like fury when anybody suggests or offers an idea that it might be better to do it some other way.

Did you ever notice how rebellious people's feelings are when they are doing a thing one way and someone else comes along and has a new idea? Sometimes that new idea is tried out, but not until frightful rebellion has gone out first and then overcome. That is how determined the human is to do a thing its own way; and it is needless to say that the human way is never God's Way. Mankind has lived the human way and you see the results.

Now with Me, may I take you into My Temple of Cosmic Purity and show you how God intends all Life to live? That "Beloved Mighty I AM Presence" above every human being is a very, very wise Being. Did it ever occur to you to realize just how wise that Being has been, and what a marvelous Inventor It is, when It constructed your physical bodies, with a system of drawing in Its Light and flooding out Its Blessings, not using anything in this World to move Itself around coming and going as It pleases? Did you ever realize how Infinite that "Presence" is to construct a body in which the system of leverage is so perfect that mankind has never yet equalled anything like it? Can mankind make substance see? And yet the "Presence" makes you see through your eyes. Don't you realize

what a marvelous Inventor that “Mighty I AM Presence” is? And “I AM” sure “I AM” not mistaken. It can invent many much more wonderful ways of keeping your clothing, your homes, your cities and your Nation cleaner than they are now by far. Ways and means mankind has never yet heard of, and may I introduce you to your “Presence”? (*Applause, audience rising*)

Thank you, Beloved Ones, I accept your love, but I offer it to Mighty Helios, because it is His Life Stream’s Flame of Love which I must use to purify the Earth, so I thank you and offer that to Him; and I know He loves you enough now to illumine many things and show you His Way of purifying and keeping things in Divine Order. Won’t you be seated please?

Whenever you start to do a thing, or before you start it, make it a habit of saying to the “Mighty I AM Presence”: “NOW, ‘BELOVED MIGHTY I AM PRESENCE,’ YOU TAKE POSSESSION OF ME, AND SEE THAT I DO THIS YOUR WAY.” Many of you have made the Call: “Now, ‘Mighty I AM Presence,’ You do this.” But have you ever asked the “Presence” to show you how to do it Its Way? You see there is a difference. “I AM” trying to set things into Divine Order tonight. Try it! If you ever once completely became saturated with that feeling of letting go of your own way and just giving everything to that “Presence,” and then be so harmonious, and ask It to teach you Its Way, and fulfill Its Divine Plan through you, as It wants you to do it, I will guarantee you, you will never struggle again! Never, not even for a moment, because the moment the suggestion of that struggle or effort comes forth, just like a Hand, you will receive the reminder to give it to the “Presence” and await the Illumination which shows you how to do what is necessary according to the Way the “Presence” desires it.

You see the desires have become so entangled with each other in the outer world. Your emotional bodies, Precious Ones, are so connected with the mass of mankind’s feeling world, that you don’t realize how many times your desires and the desires of the rest of mankind are just tangled up like a ball of twine that is being tangled into knots. That is what is the matter with most people’s emotional bodies. They are full of knots, and the physical bodies outpicture those knots many times. Now, “I AM” going to try to show you how to unravel the mystery, because you have made it hard for yourselves, and the “Pres-

ence" will make it easy for you.

Now, this is something that has already been done in the physical world of manufacture. There are certain fabrics, and there is a certain solution, chemical element, by which fabrics can be treated wherein they are wholly dirt-resistant, dirt-repellent; and if you could make one article, rather if you could treat one article with that sort of substance, you could treat everything. Now that is the physical way of doing it. Our Way, of course, is to clothe a substance in a force field of Electronic Substance of the Cosmic Flame of Cosmic Purity and Love, or rather Cosmic Love and Purity, that just keeps pouring forth Its Blessing, and everything else with such terrific pressure, that nothing discordant can come near. That is the Eternal Way of purifying everything and keeping it in Divine Order; and without Divine Order, what do you have? Without Purity, what do you have in the outer world? Chaos and distress; poverty and war; disease and disintegration, so-called death. We do not have those things in Our Octave. We have Bodies of Pure Substance. We have many things to do, many more than you do. We have a great deal more. We don't call it work, but a great deal more Activity of Life than you do, yet We keep things in Divine Order.

The Solar Systems of the Universe are run in Divine Order; and regardless of scientists, they do not disintegrate or run into each other. There is too much Interstellar Space. There is so much space in the Universe, there is plenty of room for all of them without any collision. One day We will explain to the scientific world, but they must ask Us first. We do not intrude the Knowledge; and as long as they deny We are in the Universe, well, they must stay in their own mistakes until they get a little wiser.

Oh, My Dear Ones, tonight if the mass of mankind understood this Law as you do and We could come to them, as you are listening to My Words tonight spoken through the Messenger, We could pass, as it were, a Hand of Light throughout the city. We could take the human concepts out of existence; and the results of mankind's mistakes could disappear like a fog is dissolved by the Sun, and just as quickly. When Life from Our Octave contains the Way and Means of purifying all upon the Earth, harmoniously and quickly, Dear Ones, it takes Great,

Great Love and Great, Great Obedience and Self-Control in the Ascended Masters and Cosmic Beings to stand by century after century and watch mankind struggle under the filth of human hate and discord, when God stands above, waiting, waiting, waiting to give them Purity and Love and Happiness and Freedom, just by holding their attention upon That which is Above.

When your attention comes to Us, you can have all that We have in Our Octave; and I shall begin immediately any time you remember Me, because the outer world rather needs Me tonight, at least, these big cities do. And if all of God's Substance stayed where it belonged — was held in Perfect Balance — mankind's distress would not be so great. It is because mankind has misplaced, by their discord, the Gift of Life, that chaos reigns and impurity comes into outer existence.

I wish you might, every one, have the opportunity to come to My Temple of Purity. When you leave the body at night, if you will call — I extend the invitation now and I will provide an Escort for you if you will call when you go to sleep at night — that your "Presence" and the Ascended Host bring you to the Great Cosmic Temple of Cosmic Purity in the Electronic Belt around the Physical Sun. And I might say to you to use this phrase, because it is tremendously Powerful; leaving this command in the brain structure when you leave the body, and when you return. Say these Words: " 'I AM' come into the Cosmic Temple of Cosmic Purity; and I enter into the Heart of Its Flame. 'I AM' sealed in Its Cosmic Presence, and there 'I AM' and I remain; clothed in Its Power Victorious; in Its Love Invincible; in Its Purity forever!" Then when you return to the body in the morning, say the same thing. Recognize your atomic structure as that Substance of the Cosmic Flame of Cosmic Purity; and command it in Love to accept the Blessing which you bring. You will have some amazing results. Those blessed bodies, how they are entitled to your Cosmic Blessing of Love and Purity.

Do not dislike your bodies. They have only obeyed you. If they had really been disobedient to you, they would still look like your Higher Mental Bodies, but they just did what you wanted them to do; and you should not condemn them for that, should you? So let Us just take the condemnation off and reveal the Purity which is in every Electron. Did you ever realize that

the Heart Center of every cell and every atom is an Electron, a tiny spark of Light, and that is Eternally Pure and none can ever contaminate it?

Tonight I want you to think deeply upon the Purity which the outer world requires. Now let Me connect you with the Marvelous Words which Beloved Jesus gave in that phrase: “‘I AM’ the Open Door that no man can shut,” and the Statement of your Beloved Saint Germain when He said: “When you say ‘I AM’ you stir those Electrons of the Universal Substance into action to produce what you decree.” Then when you make your Calls to purify “thus and so,” or “‘I AM’ the Cosmic Flame of Cosmic Purity,” if you would visualize every point of Light in the atmosphere and all the Electronic Force on the Substance of the physical things of your world becoming Self-Luminous and expanding that Light until the Fire Element had consumed all that was less than the Purity of the Electrons, you would find the things of the outer world that were in contact with your love, would remain clean longer and more readily stay in Divine Order.

Now do not be too disturbed if some of you in passing through some of your changing experiences have seemed to be in chaos quite a while. You probably have rebelled against it and all that, but remember the world itself is going through the period of changing. One cycle has closed and you are entering into another. Therefore, you are in the transitional period; and the transitional period is the re-ordering of the location of substance and the setting of a new plan to bring greater blessing in the future. So try to co-operate with the currents which are surging through the Cyclic Action of the World, to bring in the Permanent Golden Age; to purify and consume that which is of the old useless materials. By that, I mean that which has been so contaminated by discord that it must be put in the Flame and consumed. Then keep calling into action the Divine Plan fulfilled the Way the “Presence” wants It, and I will give you help.

You have done wonderfully well with your bodies, Beloved Ones, considering the time you have been in the “‘I AM’” Activity. Of course, you have had great, great assistance, but at the same time the outer world has increased its discord. And yet you have held your own against that outer discord and still gone on improving yourselves. You could not have done this if the

Mighty Divine Director had not taken away two-thirds of your own human creation. That is the only reason you have been able to come this far in the Light, because had that still been about you when the outer world was thrown into this greater discord, it would not have been Victorious for you. You had to have the Help of that Mighty Divine Director and your Beloved Saint Germain, your Beloved Godfre and all the Great Ones, Who have come to you from time to time. Those creations had to be cut away and your momentum built to a certain point before this war condition broke loose, or you could not have come this far in the Light without the Assistance of those Great Ones.

So be of good cheer. You are moving forward surely, steadily, invincibly, eternally, blazing more of the Light; but just be happy and enjoy the completion of the Purification of your worlds, your homes, your bodies, your cities, your Nation. The Great Inner Currents have been reversed some time ago and now that the Surge of the Cosmic Light is lifting into Greater Light all who are accepting and acknowledging the Light, you will have Ever-Increasing Assistance in the outer; and the discordant conditions, as they are thrown back upon those who will not serve the Light at this time — their weight of discord will become heavier until they give Obedience to the Law. You have already decided to give Obedience, and you are trying to; therefore, the Law comes to your Assistance whenever you make the effort to hold to the Light and call forth more Light.

Beloved Ones, in all the Powers which are to be released to you from your "Presence" for use in the physical octave before your Ascension, hold steadily, firmly and continuously until you are wholly Ascended and Free, to your Calls for Greater Purity; because certain Powers cannot be released by the Action of your "Presence," or the Ascended Host, unless your own Inner feelings — and I mean by that, your secret feelings — have become purified and held upon all that is above the Heart. Your inmost secret feelings should be as pure as the driven snow, and your attention held to the "Presence" and the Ascended Host from whence your Assistance comes.

As you refuse absolutely to allow the attention to go to anything that would cast a shadow upon your Light, you will find the Hands of the Ascended Masters are ready to guard you at any moment, to lift you above your problems, to help you,

show you the many marvelous things in Our Octave; and to point you to the Right Way in any circumstance that you contact. Lift your Hearts unto the Heights from whence cometh your help, and that is your own "Beloved Mighty I AM Presence." But if you could just govern that feeling, and you can, of going ahead and wanting to do a thing — oh, you are so full of ambition, you know, especially the young folks, and they have to have ambition, but the ambition should be to reach the Heights of Purity and Ascended Master Powers, rather than gratifying the feelings of doing something, doing it your own way and then see what the results will be, because the results are not always what you think they are going to be before you start, because disappointment comes sometimes because the Law has not been obeyed.

But when you learn to rest in the Great, Calm Surrender to the "Presence" of just wanting to do what that "Presence" wants you to do, only where and how Its Way is revealed, you will never worry again; you will never lack for any good thing; you will never struggle; you will never be tired!

Now "I AM" giving you a Secret. When you are weary, remember you have done something that you might have done that you thought was right, but you did not do it the way of your "Presence," or the discord or exhaustion could not have come in, do you see? You can stand in the midst of great chaos and yet being still within, holding to that "Presence" and raising within It, Its Flame of Love — you can stand perfectly steady and It could do things to assist others around you that you could never do in the world, if you did not hold yourself insulated in Its Purity of Love. Now, the Love from your "Presence," remember, is the Purity of Love from the Great Central Sun. It is the Builder of all Creation.

The fundamental structure of the Universe, is the Purity of Light; and the qualities imposed upon that should have all been kept Constructive in this World. If they had, you would have a World made of substance as iridescent as the rainbow, as transparent or semi-transparent as you chose, and emitting Light that was all clean, pure and harmonious, and never interfering with anyone else.

Now may I remind you of something? Did you ever know the colors in the rainbow to interfere with each other? Did you

ever see any colors in the rainbow blending with each other that ever made anything dark or dirty? Well, then the fundamental qualities of Light and Color in the activities of the Cosmic Scheme of Creation, never contain dirt nor discord; and never did they interfere with each other. I wish mankind might do likewise. That is your Standard, My Loved Ones, and as I pour the Radiance tonight, while the principal Substance which is enfolding you and entering into the very cellular structure of your bodies is white, a soft, white, Luminous Substance, yet the colors of the rainbow play through that like a soft, waving Light, harmonizing and sweeping out much in your emotional bodies that has cast the shadows upon your Light.

Remember, you are not yet fully aware that every shadow, every impurity in your world, has come forth from your solar plexus, first as a shadow or a color of impurity when you were displeased. Therefore, when the struggle and the rebellion are gone, the Light reveals. What do you suppose is the Light that belongs to your solar plexus and the entire center portion of the body; what do you suppose is the Light that ought to be there with all mankind? That should be a Blazing, Golden Sun; and yet while We would not describe it, if you knew what the color was in your emotional bodies through the central portion of your bodies when you become irritated, angry or rebellious — if you ever saw it once, you would never do it again. So just take My Word for it tonight and let Us purify everything in the emotional bodies.

May I remind you tonight that in calling forth this Greater Purity, whether it be in your minds, bodies, feeling worlds, your homes, business or city, won't you please just enjoy the process of purifying that which needs assistance? You see if you don't enjoy it, you are really hating it, because what you dislike is a mild form of hate. Now watch out about your intellect. Your intellect says: "I don't like dirt." Oh no, We don't expect you to; but We don't like that feeling when it comes out in the argument like that. Remember this tonight, Precious Ones, and you will save yourselves untold discord. Do not let that human intellect argue inside with you. The day you shut that off, your peace will expand! Your intellect will say: "I am trying to understand this." It is no such thing. It is not trying to do anything but keep your feelings restless or disturbed — anything to

keep your Harmony from being continuous. It will use any kind of intellectual concept to get you arguing inside, just to disturb that Uninterrupted Harmony.

Now, you don't have to sit off in a corner by yourself to keep yourself Harmonious. I have seen a lot of people sit by themselves and they were a long way from Harmonious, and a long way from Purity. You can go to the mountaintops, anywhere you please, and be just as discordant there as anywhere else. But I say to you, in the very midst of the most intense activity, you can have a happy, continuously happy feeling inside that all is well, that you love your "Presence," your "Presence" loves you; and keep asking It to fulfill Its Divine Plan through you in Its Own Way. And send your Love to your "Presence" and all will be well. You will find before long, the Purity you seek is seeking you and will have gotten through from your "Presence" as surely as you keep your Harmony Uninterrupted.

But Precious Ones, just a lethargy or inertia, because you are afraid to start to do anything, is not Harmony. You can be as active, as dynamic, but with the Greatest Happiness and the Greatest Purity and Uninterrupted Harmony. We expect you to go into action. Life is perpetual action. Life neither slumbers nor sleeps. It is only the body that feels it has to lie down awhile, and that is only to let you get out of it long enough to let God's Harmony get into it. You leave your bodies for awhile in the care of your Higher Mental Bodies, so some more Purity might get in and settle the constant disturbance with which they have been filled.

So tonight, as "I AM" bringing this Radiance closer to you, will you feel at the back and at the solar plexus, like a Great, Great Golden Sun had blazed Its Great, Blazing Rays around you and is entering into you to hold your Harmony Uninterrupted, and to release Purity until it fills your Universe everywhere.

If you will make the Call to come to My Temple of Purity, I will show you what the Beauty of Life can produce in those Great Temples which are the focuses of those Special Qualities which are poured to the mankind of Earth to purify and hold the Balance; and to bring forth the Divine Design which fulfills the Plan of Creation everywhere in this world. In that Cosmic

Temple of Purity is Light so blazing; and yet, there is such Beauty. The Designs within That are heavenly to behold, and there is such rest, such Peace. There is no feeling within that Light, except that Great Love to It, and the great Blessing that It will give to you. You will carry It with you for days and weeks at a time, in the physical structure, as you make it a habit to go There every night at your Conscious Command. And if your Beloved Saint Germain, Jesus and the Great Ones need your assistance in some other work, They know what "I AM" doing. Our Work does not conflict. You will come to each place at the right time. So do not let your intellect say: "How can I come there, if I have to go out and assist Beloved Saint Germain?" You would be surprised how you can get there. Beloved Saint Germain, Himself, comes and you might come with Him. (*Applause, audience rising*)

Thank you, Blessed Ones, I offer that to Him. "I AM" sure He hears the Call; and I ask Him to be very sure that you all come to see Me. I think He can find the Way to My Temple of Light. (*Applause*) Thank you, Precious Ones, for your Love; and I shall see there comes into your feeling worlds, the Peace from My Temple of Purity, which will give you the Greatest Joy you have ever experienced, and will remain in your outer physical consciousness, not as a memory, but as an actual feeling of Purity and Peace so Powerful you will never let anyone disturb you again. Thank you, and won't you be seated?

This is the Peace which I want to give you, and this Peace depends upon Purity and the Substance of that Purity. It is My Great Joy and Cosmic Privilege to flood forth to the Earth and to stabilize all who are trying to serve the Light and are trying to hold to Purity, in a world that is whirling and filled with chaos, until more of Its Light has spread Its Radiance and dissolved the shadows.

Within the Light and the Substance in the Cosmic Temple of Cosmic Purity, there is the most Heavenly Feeling. When you become surrounded by that Light, then do you know and then do you feel within yourselves the Pulsations of the Heart of Creation. And you are in Cosmic Rhythm with It, because there is no resistance there. As you absorb That and feel It, will you bring It into your outer Life. And then that same Heartbeat and constant Expansion of those Waves of Cosmic Purity and Sub-

stance pour their Peace and Light to the world around you; and all you contact will want to become like that, because they will enjoy your Purity and your Peace.

I want you to notice this analogy, Precious Ones. You know there are certain things many times you can do in the outer world, and you take a lot of something, you sometimes never want any more of that thing again. You know how it is. You become saturated with a thing to the point you do not like it the rest of your Life. But there are other substances you can take into your bodies; they will take such command of you, some of your other habits cannot work. Well, that is the Way it is in My Temple of Purity. If you ever come There and become thoroughly saturated, when your body is sleeping and you come into My Temple of Purity, and will absorb in your Inner Bodies the Substance and Flame which is There, then when you come back into the physical bodies, you will feel My Strength and My Love of My Purity and Divine Order with such Power, that it will just naturally breathe or radiate through you the Feeling from My Life Stream, and from Mighty Helios' Life Stream which is There. As you keep charging the outer atomic structure with That each morning, and as you come back, it will be a very easy matter to keep these bodies Purified, relaxed and your Harmony Uninterrupted. Because the Greater Purity makes a condition wherein that which is impure has nothing to feed upon, nor connect with in you, therefore, cannot enter your world.

So, since you have been drawing the substance of the outer world's impurity into yourselves and have experienced what is there — that is what has been in the outer world — I say to you: Come to Me, draw My Substance into your bodies and worlds! And will you experiment with My Substance and My Love in you, to pour Its Blessings through you to the world? Experiment with the Cosmic Flame of Cosmic Love's Purity to the point where nothing except That which is of Uninterrupted Harmony of Life and Its Divine Plan fulfilled, nothing else can come into you to disturb you. It sounds easy, doesn't it? Well, it is, and "I AM" going to stand by that remark, because some of your feelings do not quite believe it. Some of you think it is so hard to keep harmonious. Some of you think it is so hard to keep things clean; and it is not at all. We have a much larger

Domain to keep clean than you do; and it is not hard for Us. If you once come to Me in My Temple and become saturated with My Substance and Flame, the Love and Purity completely saturated in your Etheric Bodies and your emotional bodies, your mental bodies, when you awaken in the morning, you will feel so wonderful, you will know you have been some place you never were before. I think you will be a frequent caller, after you experiment with this a few times. I offer you the invitation to come every night! (*Applause, audience rising*)

Thank you, Precious Ones, I accept that Love; and what is more, I accept your readiness to come. During the next few weeks until you go to the Royal Teton, come to Me there in preparation for that marvelous, marvelous accomplishment which is to come forth this year at the Royal Teton. I thank you for your Desire to come; and many of your Friends of the Light are working There with Me to set the World into Divine Order; and through your Calls We shall accomplish the Victory. (*Applause*) Thank you, Precious Ones. Won't you be seated?

We offer that to the Great Presence of Life and All that is Greater than Ourselves, and may every Being Who governs this System of Worlds come to the assistance of the people of America this night, and through you Beloved "I AM" Students throughout the World, flood forth the Cosmic Flame of Cosmic Love and Purity to the Completion of the Divine Plan and the Purifying of America, that Her Cup of Light may be offered to the World and Her Unfed Flame expand to enfold all.

You cannot have the Divine Plan fulfilled without Purity; and I wish to convey to you Beloved Lanto's Love right now. He floods into the room His Fragrance from the Royal Teton to bless you, in preparation for that which is to be accomplished the first of July, in that marvelous, marvelous Mountain of Light. For centuries there has gone forth through the Mighty Cyclopea, those great, great Activities for the Purification of the Earth, to purify the atmosphere of Earth, and with the Seven Elohim of Creation. Oh, Beloved Ones, one day when We can show you some of Our Activities with that Fire Element, you will remember It for all Eternity. And for the Blessing of the Beloved Ones here, who have so faithfully stood by this Light, for your enjoyment, for your Blessing and Illumination; and in recognition of the Beloved Nada, the Lady Master Nada, Beloved

Mary, and those Other Ones, Who have assisted in the Healing of mankind for so long, I say to you, Beloved Ones, one day you shall see what the Activity of the Seven Mighty Elohim is. When They All use the Pink Flame in Its Seven-Fold Activity, then will you see Beauty Supreme! You cannot realize what the Heart of Beauty is until you see Our Manifestation of the Seven-Fold Pink Flame, when We All draw It together. Then will you know the Healing of the World or the Nation depends upon Our Love; and Our Love purifies and beautifies all there is on the Earth forever.

Within the Temples of the Sacred Fire which belong to each One of the Elohim, there are those Sounds of Music which silence every feeling in every individual; and there is nothing left but the worship of the Central Sun, which can give a Gift so Supreme to outer manifestation. Come to Us, Beloved Ones who love the Music, come to Us at night into Our Temples and listen to the Music of the Spheres, that carries Our Vibratory Action everywhere your Hearts desire, and there is not one thing that We will hold from you.

My Beloved Ones, as you take your determined stand to enter into the Flame of the Heart of your "Presence," to enter into the Heart of the Flame of Cosmic Purity, or Peace or Music or whatever you desire, as you give that Command on leaving the body, you will go right straight through the atmosphere of Earth into these Temples and Homes of Light of the Ascended Masters, and There will We clothe you with That for which your Heart calls! And if you will remain positive, you shall come back clothed in that Flame; and no thing in the atmosphere of Earth shall touch your radiance! You may come and go clothed in Our Flame and bring Our Power into your bodies and your minds, into your homes and your worlds; and every time shall be a glorious expansion of the Divine Plan fulfilled. And that which We have shall outpicture through you here and purify, illumine and bless all Life for Eternity. Surely that is a worthy ideal to live for.

You have experienced everything that is in the outer world; you have drawn to yourselves everything in the outer that your attention has rested upon. Give Us your attention and your Calls. Come through the atmosphere of Earth clothed in the Flame of the Call of your Heart, for this which it is Our

Privilege to give, and let Us reveal to you the Powers of Almighty Perfection. Your "Presence" will bring you, and so will any One of the Ascended Masters to whom you call, and if you go asking for that assistance which will render the greatest service through you at the Royal Teton in the coming Outpouring – if you will come with the Divine Command to be purified for the Blessing that is to be yours There – then will Happiness be great indeed within you. Then will your Beloved Saint Germain appreciate your assistance to America. Then will you feel the greater Mastery over the conditions of this world and then will one Door after another open to you in the outer world's channels to enable Beloved Saint Germain's Activities to expand and give their Blessing to mankind, and awaken them from the nightmare of their own selfishness.

Your Love, your Light and your Purity released and Power of Uninterrupted Harmony will speak volumes to the Hearts of mankind, and you will find God's Authority Supreme over the things of this world.

Come, My Beloved Ones, to My Temple of Cosmic Purity. I could show you Jewels in that Temple, whose Dazzling Radiance is so intense that the Light, passing through the flesh of an individual, would purify it and reveal its Eternal Youth and Beauty. Jewels in the Temples of Light, My Dear Ones, are Focuses of condensed Light-Substance, Light so intense and All-Powerful, It can penetrate anything and yet never is there a destructive action about It. It simply illumines everything with Its own Life and Purity. Just as a needle kept against a magnet becomes a magnet itself, so does all substance that touches those Jewels of Light become the Substance of Purity and Light and Beauty and Perfection, for that Light dissolves everything that has been imposed upon the Electrons that was not the Beauty and Perfection intended by Life's Divine Plan. Those Jewels of Light could remove all substance that shuts out the sight of an individual's eyes. Those Jewels of Light could remove all substance in the emotional body that interferes with people's hearing. It can remove any substance. Jewels of Light are magnificent focuses of Substance and Power, of Purity and Love, in that condensed Light that is Obedient to Our Command and All-Powerful over all in this world.

Come, let Me show you in the Temple of Cosmic Purity

what Life can create and give, and what awaits your acceptance, enjoyment and use at your will. There is not anything in this physical world that is worth keeping That from you tonight which I offer. When you call to Me, I shall hear you throughout the whole System of Planets. The Heart-Call of Life is heard by all Life; and We answer. When Life asks for more Light, every Being of Light in the Universe is obligated to answer you and give you more Light. And when you call forth Purity and more Cosmic Purity and Cosmic Love, so are the Beings Who direct those qualities to the Earth obligated to give It to you, and none may say you nay. You may call to the Heights and the Heights will answer you, because you have looked to the depths and have drawn those shadows about you. Now turn your attention, come to Us when you are out of the body at night. Let Us help you to perfect and beautify and purify these forms and move among mankind revealing more of God's Authority of Cosmic Purity and Love to the Fulfillment of the Divine Plan everywhere you move on this Earth or throughout Creation.

This Assistance is offered. It must be given, and those who accept will be proof enough of the Truth of the Words I speak to you this night. Take Me at My Word, and come with the devotion in your Hearts and the determination to be the out-picturing of This, and see how Life will bless you; and you in turn can be a Joy and a Blessing to everything and everybody in Creation.

Precious Ones, Life is your friend. Life is the Light, and Light is My Cosmic Purity and Love; and We are the Friends of Life everywhere. Everything We have, We offer to you for your acceptance, your use, your Freedom, your Joy and your Victory. Come and BE the Outpouring of all We can give, and render that Service to your fellow man, which shuts the door on the shadows for every Life Stream until all are in Our Octave, and the Joy of Creation is complete in Its Victory on the Earth for Eternity.

I await your Call, and I shall give you My Heart's Love and Purity forever!

I thank you and good night.
