

BELOVED GODDESS OF PURITY'S DISCOURSE

SANTA FE, NEW MEXICO

JUNE 12, 1947

BELOVED ONES OF SAINT GERMAIN'S FAMILY, in the Light of Eternal Purity do I come tonight, to make clear certain Activities of Life which it is Our Privilege to use. In that which I have to say, I trust there will remain a Picture within your minds that will become for you an Eternal Focus of the Purity which "I AM" to the Earth and which I seek to expand through every part of Life who will give Me attention.

I wish to explain to you the Tremendous Power of both Radiation and absorption that people are living under all the time; and therefore, your obligation in the Explanation which has been given of the Invincible Honor Flame of God's Heart to call incessantly for the Purification of your own Beings and worlds, that you may be strong enough and protected enough to be entrusted with the next Wave of Power and the Powers from your own Life Stream, as well as from Our Octave, that will more rapidly purify the Nation and the World.

Now Purity does not come from anywhere except the Invincible Honor Flame of God's Heart, and if all the Student Body could — even here in these Morning Decrees, especially those which were given this morning — understand from the Inner Action what Tremendous Power of the Sacred Fire could be drawn in and around their bodies while those Decrees were going forth, "I AM" sure there is not a person on the Planet who would not have been here. If anyone could have seen what went forth through the Student Body and the Messenger this morning that rose into the atmosphere of Earth, you would understand that which We have sought to explain through the years in this Activity through the Power of Radiation.

Now the Mighty Saint Germain told the Student Body in the beginning that only twenty-five per cent of the Instruction is given through the spoken word and seventy-five per cent is given

through Radiation. Well, if that being the Law, that being the case, I wish you to understand each one's responsibility when in either explaining the Law or carrying this Light to the rest of the World, each one's obligation to keep his or her own mental and feeling world immaculately clean and the Radiation of Purity pouring forth to assist the rest of Life; because all discord dishonors Life. Everything that does not release the Qualities from God's Cosmic Heart — and by that I mean the Ascended Masters' Qualities which are Eternal in Their Action of the Sacred Fire — anything that does not release that is some sort of contamination of the energy of God's Heart, which has been given through the Great Cosmic Law of Love for mankind to use throughout the centuries.

Now then, to show you each one absorbs whatever is in the atmosphere in which you move, I wish you to observe if the Sanctuaries are harmonious and the Music sent forth and the Calls for Purity maintained, the Harmony maintained, the atmosphere of the Sanctuary as people enter it is as different from the outer world as if you stepped off the Planet; and that always occurs in these Dictations. Why? Because you are held within a Sphere or a Heart of the Flame which We are using, which is Our Purity and Our Healing Love from Our Life Streams and Our Temples of Light while the Dictation is going on. You are sealed in That, and therefore, the mental and feeling world and even your flesh bodies absorb That.

Many of you have had the experience during the Dictations of sometimes your intense Devotion to your "Presence" or to Us of feeling the hands becoming very smooth, almost as if they had oil on them. Well, that is an actual Substance which you have absorbed from your "Presence" or from Those upon Whom you have had your attention.

You all know if you move in the outer world, if you go into restaurants or where cooking or smoking is going on and go in, how your clothing smells. Well, the same thing is true of the absorption from the Radiation from Our Octave goes on just as surely, only infinitely more powerful, if you are aware of It and will give It Conscious Call, Acceptance and Conscious Recognition.

Therefore, when you turn your attention to the Ascended Masters or Cosmic Beings or to the Angelic Host or to the Great Activities of the Sacred Fire, the Cosmic Love or Healing Power or the Supremacy of Divine Justice, those Magnificent Activities of Our Perfection, you can just as surely absorb the Energy, the Substance and the Flame into yourselves, and those Activities will draw Our Qualities, Our Purity, Our Healing Love, Our Forgiveness of God's Light and God's Heart into your mental and feeling world, or into your flesh bodies or your affairs, even into the atmosphere about you.

Well, if you choose to give your "Presence" and Us and these Activities attention enough, then you may fill your worlds each day with That which comes from Our Octave, and you may absorb everything from Our Octave which you desire. Now you have been absorbing the discord of the outer world in the centuries past, because of your attention held there and your mental and feeling world connected with that, and you can just as easily turn your attention to Our Activities and these Magnificent Activities which have been explained in this Class, and draw These into your world, just as surely as your clothing can absorb the atmosphere or the conditions in the atmosphere of smoke in places where you might enter a few moments and then come out.

Now in all that has been said this week concerning the Invincible Honor Flame of God's Heart, if I were you I would keep asking your own "I AM Presence" and Us for the Cosmic Illumination of the Cosmic Christ Activity from the Great Central Sun as of a Thousand Suns to come into your Beings and worlds and make you remember and understand all these Words mean which have been spoken to you thus far this week. The Activity of this Class is in preparation for the visit to the Royal Teton and for the Service which is to be given in the World-wide Dictation on the Fourth of July; but the only thing, Precious Ones, which is of any use to Us is the Purity you give Us, which means the harmonized energy.

Now let Me show you what takes place, and this is why until the Student Body understands that they must let go of all

resentment and forgive unconditionally and completely everything that has ever been in their Beings and worlds, or that they have contacted that has been wrong – until the outer mind comes to the full realization of this, it does not disconnect itself from that which has caused its limitations, its struggle, its human desires and its habits – human habits.

The outer self, regardless of all the words which have been spoken through these Dictations and in all the Instruction which has been given, still I say to you, your intellects have not absorbed but almost an infinitesimal part of It, compared to what is still within It; but when you read the Words you need to call from Our Octave the Full Illuminating Flame of the Cosmic Christ – the Invincible Honor Flame of God's Heart to illumine the Words as your eyes see Them or read Them and the outer intellect contemplates what They mean. Because you may read a phrase a thousand times and each time you think you understand it, then all of a sudden there comes like a flash and that will mean to you what it never meant before. That is when It enters in and becomes a part of your own Heart's Flame. Then no one can ever take that away from you. But just ideas can come into the intellect and go; feelings can come and go, but that which comes from the Honor Flame of God's Heart and brings to you Itself, becomes a permanent part of your own Heart's Flame, and when that occurs, the Unfed Flame in your Heart grows greater, and therefore, expands more of Its Light and Its Powers through the flesh structure, as well as through the brain structure of the body.

Now this is very important and I want to show you from Our Standpoint why many times people are intensely sincere and they think they are doing everything in the world to be obedient to the Fulfillment of the Requirements of the Law, yet if their feelings hold resentment within against persons, places, conditions or things, their world is padlocked against Freedom! It is padlocked against Purity; and until that Forgiveness is unconditional and saturates the energy of the mental and emotional body – the mental and feeling world of the individual to the point where it charges that saturation out into your atmos-

phere, until that is completed, My Dear Ones, the Floodgates to Supply, Healing or Protection – whatever it is – do not open to give you their Fullest Gifts.

Now let Me show you. Every one of the Great Ones have said, if you do not give Us something from your physical octave, from the energy of your substance, of your mind, body and your world, if you do not let some of that flow out into the Hands of your “Presence” and Us, We do not have anything from your octave which We can take up and clothe with these Greater Powers of the Sacred Fire and use as a “Cup” to pour into that Our Greater Gifts to give you the Greater Blessings in your worlds for which you are calling.

Now you have all had more Freedom in this Activity than you have ever had before. “I AM” speaking of real, true God-Freedom. This Light has blessed you beyond the rest of mankind. Therefore, if you, through the Love of someone else, have received this Blessing, your duty to Life, your responsibility, your guardianship of Life is to see that this Light goes to all who are ready to accept It at this time. Therefore, your greater joy – at least your world will be filled with greater joy as you give that to others.

Now this is the Law. “I AM” not speaking of any individual. It can apply to one or all, and it applies to all creation. If you do not give Purity to Us We do not have any of the energy or substance of Purity from your Life Stream – the physical body and its surrounding atmosphere – We do not have any of that substance which We can take and amplify by Our Flame of Love and pour back into you as greater Purity. Do you not see? If you do not give Us forgiveness of all that is human down here, We do not have substance from your world that We can charge with Our Flame of Mercy and come back and extend Mercy to you.

This is very important, Precious Ones. You may or may not understand Me tonight, but I must say these Words, because I love you so much that I want you free, and you cannot be free until you understand that your obligation to Life is to pour forth the Love and the Purity and the Invincible Honor Flame

of God's Cosmic Heart into everybody and everything you contact, irrespective of whether you think they deserve it or not.

All Life in the Universe is God's Energy. No energy belongs to this outer self of itself, even the substance of the body is but loaned to it. Every particle of energy of every Life Stream that every individual uses is loaned to that Life Stream from the Great Central Sun, and the condition of that Great Central Sun is Purity. Every discord is an impurity to Us! Every unkindness is an impurity. Every word that does not contain within it a form of Beauty, Purity and Perfection is an impurity to Us, and is a shadow upon the Light of your own atmosphere; and if that were not true, the Radiation of the Energy and the Light from the Unfed Flame in your Heart would illumine the atmosphere wherever you go.

Now then, people who require healing, there is only one thing that ever made illness and that is discord of some sort and lack of forgiveness. Why do you think every Great Being Who has brought Light to the World in the various ages all through the centuries has continually preached and reminded the people of the necessity of Forgiveness, Mercy, Divine Compassion, Love and Purity? Because those are the Qualities which you must absorb from Our Octave if you are going to have a force within which will repel them or drive your discordant conditions out into the Violet Consuming Flame and set you free. And the only reason people struggle in the physical octave is because they won't forgive.

There cannot an imperfection of any kind exist in your bodies when your Forgiveness is complete and you know what the Invincible Honor Flame of God's Heart means to you. You see the Cosmic Law of Expansion is that you must give before you get. If you were a farmer and you did not plant your seeds of corn in the ground, if you did not give some balance into that ground, you would never have a crop, would you? If you are a banker and you do not put any money in the bank you do not have any interest coming back, do you? If you do not give of yourself the God Qualities of Perfection all around you and

pour the substance back to your "Presence," It hasn't even a "Cup" into which It can give you Its Gifts.

That is why all through the centuries the Cosmic Law has demanded this, and mankind is bound in the outer world today by their own selfishness and impurity. Because to hold what the Great Presence of Life gives to you, to hug it to yourself and not let it flow to bless Life with Purity and Happiness, but stagnates the flow from above. If you have a bucket full of water, you cannot make it any fuller can you? Supposing you had water of a very much better quality, if you do not release that and let it go out so the clean water could come in, you do not have the blessings, do you?

If you do not let go of the discord and let God's Honor Flame of all Purity and Forgiveness come within yourselves to forgive and bless all Life, if you do not let that Flame flow through you, well then, you have absorbed these conditions of the outer world and you still stay there bound in those limitations until that forgiveness is complete.

Do you know why people do not like to forgive? Do you know why discord is created? Simply because the outer self cannot have its own way or make someone else do what it wants to do by that sense of domination that — I am the ruler! Yes, the "I AM" is the Ruler, and the "I AM" is the Purity! The "I AM" is the Harmony! The "I AM" is the Love! The "I AM" is all of the Invincible Honor Flame of God's Heart! The "I AM" is Purity, Peace and Healing to every particle of energy you contact.

People often think that they have forgiven everybody. They don't think they hold anything but, Precious Ones, who knows in the unascended state what is back in the Life Stream that has occurred centuries ago? Therefore, if limitations still seem to exist in your worlds, simply turn your attention to your "Presence" and to Us and demand whatever Activities of the Sacred Fire are required to go into the cause of those limitations and compel that cause removed from the Universe, so it may touch no other part of Life. Then after the cause is removed, demand the Invincible Honor Flame of God's Heart and the Ascended

Masters' Mightiest Purity and Healing Love take the place of that, because to saturate your Beings and worlds with That which produces Perfection enables you to send That forth day after day in pulsations corresponding to your own Heartbeats — that rapid and that generously.

You would be in a rather bad way, wouldn't you if your "Presence" did not keep releasing Its energy to you, with every pulsation of the Heart. When It does not pulsate any more you do not stay here. If your "Presence" did not give It to you, how could you get the experiences in this world? If you do not give the Love of God's Heart, Its Invincible Purity and Healing Love of the Invincible Honor Flame of God's Heart, if you do not saturate yourselves with It, do not pour It into the atmosphere about you, you do not have Purity.

Why do you suppose the Earth, or rather mankind upon it, went through those cycles centuries ago when they were under the frightful creations of the black magicians, discarnates and so on? Why do you suppose mankind had to go through those experiences? What do you suppose that was the reaction of? What cause do you suppose produced that? I said this once before in the Discourses and "I AM" going to say it again, because the intellect needs to be reminded, and you as "I AM" Students if you understand This Law from tonight will be free, as you obey and do This which I know will set you free.

During the time they had that school of three hundred black magicians concentrating on mankind shortly after the Second Golden Age, when mankind had begun to turn from the Light and claim the Power to themselves in the outer, that was when the filth was so great that they drove Me from the Earth. You know under the Action of the Cosmic Law it is one thing for an Ascended Being to leave of His own free will, but it is another thing for the filth of mankind to drive One of Us away, and yet they did that; and this Messenger was the one who called Me back, on the platform of the Auditorium Theatre in Chicago, the first time the Beloved Goddess of Justice ever dictated. She said: "I wonder where the Goddess of Purity is," and she said: "Wherever You are in the Universe, come to me,"

and I came; and "I AM" here tonight to release every one of you from everything that is not the Invincible Purity of the Honor Flame of God's Heart. "I AM" that Authority!

Therefore, with your Beloved Saint Germain, Precious Ones, I haven't been any more popular through the centuries with the mass of mankind than He has, because when those destructive forces hold mankind in their hypnotic control, they do not want Us. They do not want Purity! They want to get out of the misery of the reaction of their discord, but they do not want Our Purity. They call for Freedom, but they do not give it! They want Peace, but they won't keep it! These things depend on Purity, and Purity comes alone from that Invincible Honor Flame of God's Heart.

Therefore, if you want Purity in your world, give Us some! Give Us the Cup of Purity, and I shall show you what Gifts are within the Purity of Our Octave. If you want more Light and Illumination, give Us the opportunity of carrying This Light to those who do not as yet have it. Remember, if the Great God Presence in the Great Central Sun had not given the Individualized Flame from the Heart of the Central Sun into the outer, if it had not projected that out through the Rays of Light as Manifestations of Itself, it could never have had another Universe.

God could never have created the Universe if that Great God-Life, the Flame, had not extended or given part of Itself to produce the Manifestation! So the Universe lives by God's Life, and so it is with you. You are an Universe in yourselves, and whatever you desire in your worlds must live by the natural projection of the Unfed Flame in your Hearts. Your world, if you want things brought into Divine Order harmoniously and permanently, you must give them Harmony; you must give them Purity; you must give them Love and Kindness; you must give of your substance into the outer world if you are going to plant there anything which will grow and bring greater blessings back to you.

If you want Healing you must give healing to the world; and only Purity and God's Love can heal. The scientific world

isn't healing mankind! They change one result for another, but in a short time the second condition is worse than the first — not that they are not sincere. They think they are doing the best they can, but they have not the Light, Precious Ones. This Light is of all importance. You think sometimes to accomplish these things in the outer world is important, and so long as they are pressing upon you, you have to do something about it. Either you have to dissolve them by your Calls to Us and your Decrees or else you are bound within them.

Didn't the Mighty Saint Germain say those who enter into this understanding of the Light, if they come only with the desire to solve their problems and get out of their limitations and distress, they will only receive a small portion of the Light, but if they enter into this Light for the sheer love of the Light, then they will find to enter into the Light is of all importance and more important than everything on the Earth that mankind has ever done — past, present or ever will be. There is not a thing on the Earth or in its atmosphere; and there is not a thing of importance that mankind's Life Streams are connected with except to let the Light from the "Presence" blaze through the bodies, fill the atmosphere of Earth, and with that Invincible Purity of God's Healing Love make each one the Invincible Honor Flame of God's Heart. The only important thing on this whole Planet is the amount of Conscious Recognition which the outer self of every Life Stream gives into the Full Acceptance of the "Mighty I AM Presence" — the Perfection from the Ascended Masters' Octave.

Precious Ones, all you have to do to prove to yourselves that "I AM" telling the truth is to watch the routine of the daily life of the mass of mankind. They awaken in the morning, eat something and go to work; have something to eat at noon, go back home and eat again, and what have they done which the "Presence" can use to give them their Ascension?

Don't you realize you are here to accomplish your Ascension, and Light is the only thing by which you can do it? Therefore, if you are holding resentment against any part of God's Life, if you will dissolve and consume it and demand its

removal from the Universe, demand the cause of it consumed from all the Universe so it touches no other part of Life then just forgive and forget everything that has been. Do not demand just for yourself, except when you are dealing with vicious forces. If you will ask your "Presence" to demand it, then you do not get caught in the whirlwind of feelings and be drawn into the condition where there is nothing but fighting going on. If people do not let go of the feelings of resentment, rebellion and the demand for self-justification, Precious Ones, We can but abide in the Octave of Light and await the opportunity when the misery gets so great they cannot stand themselves any longer; and then they turn to God.

Now the Student Body has worked on themselves. You have sought sincerely to purify yourselves! You have tried to forgive, and you have had your Freedom because you did; but so long as any imperfection or limitation remains in your worlds, remember there is still something else to forgive; and demand the cause of that limitation or condition or imperfection be annihilated at the Inner Level. Be concerned about the annihilation of the cause, and the effect must automatically disappear, because the cause is the supplying station for the energy that keeps the manifestation in outer existence. Do you see?

Now then appropos of what the Messenger said about the music tonight, music is one of the most powerful purifying activities on the Planet, because it is energy already harmonized; therefore pure. It is the "Cup" which carries Our Activities of the Sacred Fire, and is automatically pure in Itself. "I AM" speaking of the "I AM" Music and that music of the outer world which is constructive. "I AM" not speaking of the close harmonies or this modern stuff called music. There is no music in it. "I AM" speaking of the Music of the Spheres at the Inner Level which is just the natural flow of Life's Happiness and Love and expanding Activity of Creation; because when a Planet is created the Beings Who draw that Substance and clothe it in the Activities of the Sacred Fire do that under the Action of Magnificent Music.

Music is used Cosmically to condense the Substance which forms a world; and when We pass each other in the atmosphere of Earth — as Cosmic Beings or Ascended Masters pass each other — the Love and the Happiness of greeting each other, forms like a gigantic symphony in the ethers, for in all energy is sound and color. When Love goes forth to bless some other Being of God's Life Who is working with Cosmic Activities of the Sacred Fire, when that One Flame of Love reaches forth to bless another Flame of God's Heart, the ethers sing with Joy. And so should it be with mankind. When they pass each other in the greeting of Happiness there should go forth at the Inner Level the sound — the harmonious sound of Music.

Yet the ethers of Earth, the atmosphere of Earth is charged with the cries of mankind's agony and the discussions of their daily labor. Do you wonder that the Messenger for more than a year has been calling the attention of the Student Body to live in the World of God's Heart wherein sings the Great Melody of Life, where automatically there abides My Purity?

In the recognition which has been given in this Class, the Explanation which was given in the beginning of the use of that phrase — the "Invincible Honor Flame of God's Heart," which the Mighty Godfre gave in Washington, D. C. — when that Expression was brought forth, It was for a very important Cosmic Purpose. It is not to be taken lightly; and if I were you, I would ask the Beloved Godfre, your "Presence" first, and the Beloved Godfre to explain to you the Fullness of all He intends That to accomplish for the Student Body, and all that Phrase means throughout the Cosmic Realms of Creation.

Mankind has dishonored God so long by their discordant thoughts, feelings and spoken words that if God's Honor is again to live on this Earth as a Blessing to mankind, it must live through mankind; and some of the unascended beings of this Nation must arise and understand that they must be receptacles — the Crystal Cup in which the Honor Flame of God can live to give Its Blessing and Purity to the Life around it, if the Nation is to survive. Since America is the Heart of the World, then a group of Students who understand This Law, automat-

ically if they have been blessed by It, take the responsibility of drawing forth the Honor Flame of God's Heart to re-establish the Honor of Purity; to re-establish the Honor of fulfilling God's Divine Plan.

Oh, Precious Ones, from tonight I think you will realize as you have never before the importance of holding Harmony. Discipline yourselves and do not allow your lips to speak one word that does not produce Perfection and a Blessing to Life. If you will give Me this co-operation I will show you many Blessings which the Invincible Honor Flame of My Cosmic Heart is the Custodian of to bring to the Earth That which will one day raise all into Eternal Purity, which is Freedom and Happiness.

Without Purity you will have nothing which is permanent. With It you can have everything in Infinite Space, if Purity is maintained; because Purity is the Love within Life which is the Honor Flame of God's Heart. THAT "BELOVED I AM PRESENCE," YOUR ELECTRONIC BODY, THE UPPER FIGURE IN THE CHART, IS THE HONOR FLAME OF GOD'S HEART — THAT HONOR FLAME WHICH CAME FORTH FROM THE GREAT CENTRAL SUN! The Higher Mental Body is the Honor Flame Who came forth in lesser intensity from the "Mighty I AM Presence," and you originally, in the first two Golden Ages, were in your bodies the Honor Flame of the Higher Mental Body; so in the physical form and during the time that Harmony and Obedience were given to the Light in those first two Golden Ages, your bodies were Self-Luminous and enfolded in the Sphere of Light-Substance, and the atmosphere of the Earth itself was Light, and the Earth itself emitted Light in the System.

That condition must come again, and it can only come and be brought into outer manifested acceptance by the Conscious Command, mark you, of those who know the Power in the Word — "I AM," the Great Creative Word of Life; because that Purity and that Activity of the Sacred Fire must come through the flesh bodies of those who choose to give the Command. That Honor Flame must fill the brain, must fill the flesh, must

fill the mental and feeling world, the atmosphere and environment around the individual. Until people understand that the maintaining of Purity and Harmony and Obedience to that "Presence" is more important than making money or dominating their fellow man; until mankind understands that, they will go on, now mark you, in more and more and more limitation, with less and less money, and with more distress until they will come back of their own free will, willing to put the Light first and to give that which is the Honor Flame of God's Heart to the Universe in Boundless Blessing. Then when they hold their attention There will they find that the Treasure House of God contains more than all this Earth has ever seen put together.

People do not know the Greatest Treasure House in the Universe is the Invincible Honor Flame of God's Heart. That is the Greatest Treasure House in existence, because it is God's Own Life and Love from the Central Sun. Therefore, if an individual will call That into the physical structure and then offer It back to bless all the Universe so that it flows back to the "Presence," then the "Presence" has something by which It can bring a Greater Wave of that Blessing through the outer self, until the time arrives when the Higher Mental Body can so enfold the physical form that it becomes Self-Luminous and can go on almost indefinitely without a sense of exhaustion or limitation of any kind. When the Higher Mental Body is allowed to have full Freedom through the physical form, you won't struggle! You won't have limitations! You will scarcely have to ask or even think of something which is required to give a greater Blessing to Life, and It will rush to bless you; because It knows It will be blessed by the Love you pour forth upon It, and the command for Its expansion to fill the Universe around you.

The most Powerful Force in this Universe and on the Earth and in its atmosphere is the Blessing which can go forth on this "I AM" Miracle Music of the Spheres. Talk about Miracles, you haven't seen the beginning of Them yet until you know the Miracles which are within this Music which has been given. Music can purify! Music can balance! Music can bless! Music can

so fill the feeling world with the Peace and Harmony from Our Octave, that the individual does not have any further desire to do anything except forgive and forget and bless and bless and bless with the Perfection from Our Octave all that you contact in this world.

When you understand how important it is to forgive and forget everything that is less than Perfection and hold no feeling of resentment against any person, place, condition or thing — when you know how important it is not to disturb That, then will you understand what is within the Honor Flame of God's Heart, for It contains ALL. You won't have to ask the outer. You will use the Authority of that Honor Flame and command the manifestation by Love and everything will love you and serve you; and the limitations and problems and struggles of the past will be a thing forgotten; because the memory and the attention will be sealed within the Invincible Honor Flame of God's Heart.

The Student Body is receiving this time in this Class That which has never yet been given into the outer world. You do not know yet the Gifts you have been given in that expression. The Beloved Godfre gave It to the Student Body in Washington, D. C. Those Words were spoken there so the Honor of the American people might burn brightly once again in and around all transactions in the Nation, and while it might seem to be a spark, yet it takes only a spark to make a forest fire, and that spark can be fanned in every Life Stream on the Earth until the fullness of that Sacred Fire has purified all and given the Gifts of Its Heart to produce Perfection in Invincible Freedom and Eternal Happiness everywhere forever.

Therefore, Beloved Ones, remember when you give your Decrees, hold clearly within the mind the Picture of the Decree fulfilled, and never allow yourselves to give Decrees so fast that it just becomes mechanical. When you give your Decrees, give them rapidly with intense feeling, but hold clearly the Picture in mind of the Fulfillment. Then as you know yourselves as the Invincible Honor Flame of God's Heart, will you find that Flame filling all your affairs; and as you give that Flame to the

whole Universe around you and let It pour Its Blessing without reservation, you will find your very own Heartbeat will contain a greater Flame, until one day that Unfed Flame filling the physical form, enfolded by the Higher Mental Body, moves you forward a Being of Eternal Perfection.

You may reach that state before your Ascension and you may maintain It for thousands of years if the Higher Mental Body so decrees. Therefore, you can move in the world and give to it without reservation, and yet never be a part of its dishonor or its degradation.

Impurity dishonors Life! Discord is impurity! Discord is filth to Us! Therefore, those of you under This Radiation who have so faithfully used the Violet Consuming Flame and who have so persistently stood by in the giving of these Decrees during the time of the war, you are very dear to Me, Therefore, everything that the Honor Flame of My Purity can give to you I shall give to hold you protected, to give you strength, to help you dissolve the limitations and the distress, as you awaken to the importance of This which We have given in this Class; and I would that every Student under the Radiation had been physically present to gain That which has been released, and which must ever build until mankind return to the Honor of God, and the way of dishonor has been wiped from the memory of Life for Eternity.

Try to remember, Precious Ones, there is no such thing as doing things in secret. There are Activities of the Cosmic Law when We are bringing forth something which We wish to bring to fulfillment for mankind – before It can be given to mankind – wherein We keep Our Own Counsel and prepare It and perfect It within Our Octave of Light so when We open the Door it is all complete to bless mankind. Therefore, sometimes We tell you and sometimes We do not, that which We are doing at the Inner Level, depending entirely on what the purpose is to be accomplished in the physical world.

There are so many of mankind at this time who need healing; and the impurity that is accumulated in the atmosphere of Earth since this last war is really tragic before God; and yet,

there isn't a Life Stream in existence who could not be raised out of that by your Calls for the Invincible Honor Flame of God's Heart and the Mightiest Invincible Purity of God's Healing Love to go forth to surround those bodies and those Life Streams and demand the consuming of everything that dishonors the Purity of God.

Oh, Precious Ones, you might wonder why "I AM" rather dynamic tonight, but Oh, there is such need for you to call for this blessed Younger Generation that every diabolical force that has been imposed upon them shall take its claws off and be consumed from the Universe and the Invincible Purity of Our Octave — the Invincible Purity and Healing Love of God's Cosmic Heart come to enfold those blessed ones like a Mantle of Living Flame and close the door against the degradation of war.

This Precious Younger Generation, who have to face the responsibility of purifying and bringing Divine Order throughout the World, they are strong Life Streams or they would not have come through the atmosphere of two wars. Your obligation to them is to help them hold to the Purity of Life and you can only do that through Love and Harmony. Criticism, condemnation, blame and judging this, that and the other one by your own ideas is filth before Us. That is not giving God's Purity, Blessing and Perfection to Life. It is filth so far as We are concerned.

Therefore, Beloved Ones, the Music is your Purifying Joy which can go forth and saturate the atmosphere of Earth to the place where It automatically purifies, just the same as the stream of water. If you had a sponge full of dirty water and you put it under the faucet and let the clean water flow through it, you would soon have a clean sponge; and so it is with this Precious Younger Generation. "I AM" their Champion! "I AM" determined every destructive force shall be taken off those Life Streams. They shall be shown the Authority of God's Power! They shall be assisted to fulfill the Divine Plan; and the Desire of their Hearts to bring forth the Magnificent Beauty and Perfection which belong to the Permanent Golden Age shall bring them Joy such as no generation has experienced; because no

generation has gone through what they have in taking their embodiments at this time.

The obligation of every "I AM" Student is to call for the protection of that Blessed Younger Generation and dissolve and consume the cause at the Inner Level of everything that would dim their Light or delay their Victory, or impose impurity upon them for any reason; and you will find certain Cosmic Actions of the Cosmic Law which will soon take in hand those activities that have sought to impose such frightful experiences upon them.

God is not to be mocked; and destructive forces once they build to a certain point will find themselves surrounded by the Wall of Blue Flame through which they cannot pass, and as it closes in upon them will they understand the Sacred Fire is the Authority which commands and compels Purity throughout Infinite Space, and not an atom escapes.

This night, I trust you will feel a calm Power of My Purifying Love to saturate your mental and feeling world, to bless your bodies with health, to open the Floodgates and bring to you first of all the Harmony, and then the lavish Supply of whatever you desire to fulfill the Divine Plan as you give Service in this Light and carry to those who are crying in the darkness for some Hand of God's Light to rescue them.

The Powers of Nature will assist you beyond all description! You may make every Being of Nature your friend by Love and Purity, and you may release every Being of Nature from the discord and impurity imposed upon them by mankind. What think you is the Authority of the Elohim of Purity! In that Great Responsibility which is His to help the Mighty Saint Germain purify the Earth and all upon it, He is the Director of the Blue Lightning, and where human creation of discord has been concentrated for centuries, He can dissolve it in One Mighty Stroke.

So Purity, My Dear Ones, is the Powerhouse of Creation. It is one of the Supreme Powers of the Invincible Honor Flame of God's Cosmic Heart and that Purity is the Action of the Cosmic Christ to dissolve and consume, to bring Illumination without

limit, to bring things into Divine Order at your Conscious Command.

I certainly thank you for the Decrees which were given this morning. Did the Student Body fully understand the Power which flows through those Decrees you gave today, and a Group of all of you would stay with that intense Focus every day for a year, you scarcely would know yourselves. Your relatives would scarcely know you. Even your own grandmother might not recognize you; because I tell you Purity beautifies the body! Purity brings supply into your hands! Purity holds Harmony; and Purity makes you an Open Door through which every Gift in this Universe can flow to you on the instant, because it will be blessed and sent forth to fulfill the Divine Plan.

I thank and bless the Student Body beyond measure for the Purity to which they have attained, because they have desired to rise out of that in which the rest of mankind are still enmeshed. I bless you for your desire to come into the Light and rise out of the impurity! Therefore, I champion your existence. I shall champion everything you do, every effort you make to hold to Purity and bring that Greater Purity into the outer. I shall amplify infinitely; and as this Music goes forth, you will find many, many wonderful things coming into your experience which will bring you Joy unspeakable and give you a sense of Mastery which alone comes from the Use of those Words "I AM" — the Invincible Honor Flame of God's Cosmic Heart.

Because, Dear Hearts, when you begin to acknowledge your Divine Identity, your Divine Source, your Divine Inheritance, your Divine Prerogatives, your Divine Powers, you have to acknowledge them before you can set them into dynamic action through the outer self. Therefore, as you continue to acknowledge that Flame blazing through yourselves, you will be all the proof to yourselves which you could desire of this Magnificence of Life of which I speak tonight.

In the acknowledgment of that Mighty Flame as you ask for the Mightiest Radiation of this Sacred Fire to saturate your worlds, you will as surely draw Our Perfection into yourselves as you make the Call. You can absorb everything from Our Octave

through Radiation in your Conscious Use of that Great Creative Word of Life. Then as you go to render your service in the physical octave, as your daily activities go on in your positions and your business activities and your homes, will you find your Purity and your acknowledgment of that Invincible Honor Flame of God's Heart will saturate everything you contact. All things will absorb that Flame just as you absorb conditions in which you sometimes move, but with this Conscious Knowledge, if you will make your Calls before you enter into those conditions and know that you are sealed in the Invincible Honor Flame of God's Heart, and that Flame goes out from you into those conditions to either repel that substance or consume it, you need not absorb that from conditions you are trying to assist. You will be able to give the assistance to the outer world without giving into its destruction. That is the Power We want you to have to bring you Invincible Freedom, Eternal Happiness, Overwhelming Supply and Victory which expands to fill the Universe for Eternity.

We would like to try some very joyous experiments with you all. As soon as you demand that there be no pride, arrogance or conceit of any kind in the outer self and it is entirely free from those feelings, so it stands purified, then when you call for your Golden Voices of the "I AM" from your Higher Mental Bodies, if you won't try to out-do each other, but just let the voice sing in unison with all to give the Perfection of Life, it matters not your age or condition of the body. The Higher Mental Body could enfold you on the moment and open the way, let Its Golden Voice sing through you as Living Flame to purify — Oh, even in a moment.

You do not know the Power in that Music! You do not know the Power yet in the Invincible Honor Flame of God's Heart! You do not know the Power of My Cosmic Purity, nor that of the Elohim of Purity! You have never yet heard the Music which is in My Temple of Purity. There are melodies which pour forth from that, which are so sweet, they will melt everything unlike their own Purity from the Universe. That is God's Way of drawing mankind back again into the Octave of

Light where they belong, which is their Eternal Home wherein abide all the things they have sought in the outer world and never yet found.

So from tonight, Precious Ones, if you will remember your Divine Birthright, your Divine Source, your Divine Commission as you travel through this World, your Divine Responsibility, your Divine Honor, your Divine Purpose of existence in the enjoyment of yourselves as the Invincible Honor Flame of God's Heart, I think you will find it very, very much easier to hold the Harmony; and you will not even desire to do that which dishonors Life, because it is discordant.

As you remember your Divine Responsibility "I AM" sure you will have Herculean Strength to go through Victoriously, because you are held in Mighty Saint Germain's Great Invincible Honor Flame of His Cosmic Heart, and His Invincible Freedom is Invincible, Eternal Happiness. May His Cosmic Victory be so magnificent throughout Creation that every particle of Life will love Him as He deserves so richly, and has deserved, Oh, so long.

Honor your Beloved Saint Germain! Honor your Beloved Master Jesus! Honor your Beloved Godfre! Honor your "Presence"! Honor each other's "I AM Presence"! Honor God's Life and remember every heartbeat is another Flash of Flame through your bodies which may carry that Honor Flame everywhere to bless Life, and you shall never again experience unhappiness nor lack nor distress.

This is your Divine Prerogative! It is My Great Privilege to guard and assist you both knowingly and unknowingly. At times when you do not even dream "I AM" pouring to you, It shall flow without reservation! It shall join the Pulsations of that Flame from your Higher Mental Bodies; and as that Impulse goes through your Heartbeat it shall carry My Enfolding Love to bring Purity without limit everywhere until the Great Cosmic Work of Creation is accomplished in freeing this Earth and bringing everything again into the Victory of the Invincible Honor Flame of God's Great Cosmic Heart.

Oh, live for that Heart and enter into Its Flame, and have the Home you have always longed to enter into, and the only

place where Eternal Freedom abides. That is your "I AM Presence." It is Our Mighty Octave of Light! It is the "I AM Presence" of every human being, and it is the Great Cosmic Action of the Sacred Fire from the Great Central Sun! It is just as close as your Heartbeat and the very breath you breathe is Its Love of Purity which has come from the Highest Realms of Creation to give you the Blessing of Its Love.

This night the Door stands open for your Freedom, and as you enter into this Light, "I AM" sure you will remember those centuries ago when you dwelt there and your homes were magnificent in that Perfection. You will remember your homes in that Light and once again you shall dwell within them and pour forth their Love, their Purity and their Blessings to the people of Earth until they, too, come home into the Heart of the Honor Flame of God's Cosmic Heart of Everlasting Purity.

May your journey be the happiest you have ever known, Overwhelming Supply attend you, and the Angelic Host counsel together with Ascended Masters and each of you and be the greatest accomplishment possible at this particular time. I shall ever abide as your Friend, and shall await every opportunity to give you the Power of the Invincible Honor Flame of My Heart, Its Purity, Its Healing Love, Its Joy, Its Supply, Its Limitless Faculties and Its Boundless Invincible Perfection.

Thank you, Precious Ones! Dwell on all That means and you shall know Joy you have sought all through the centuries and it will be yours forever. Thank you for your presence here! With every Gift I can give I shall pour It to you, for I, too, have a Garden of Purity, and the more I give to you, the more that Purity shall grow and bring to Me Its Cosmic Powers for future Blessings.

Thank you, Beloved Ones.
