

BELOVED MIGHTY CASSIOPEIA'S DISCOURSE

SANTA FE, NEW MEXICO

AUGUST 3, 1947

Evening

BELOVED ONES OF GOD'S HEART, in coming this evening to bring you the Encouragement, the Radiation and the Directing Assistance which I wish to offer, I ask you to feel the Great Reality more powerfully than ever of the Great Inner Activities of Life.

Mankind in the outer is so prone to feel that the outer is so real and tangible and that these Great Magnificent Activities of the Sacred Fire are more or less intangible, but yet that is not true. Just the reverse is the Reality of Life's Manifestations of this World.

What seems to you as visible and tangible in the world of effects is to Us but shadow, and unless the Life within each human form passing through the substance of the body and the atmosphere around it radiates a Light, then the Greater Powers and Reality of Life remain at the Inner Level instead of functioning in full power through the physical form in the physical octave.

You know you are Life, and Life in Our Great Activities of Manifestation is far more Powerful and far more Perfect than your expression of Life in the physical world. Therefore, in the Great Wisdom which Life contains within Itself, there is always the Greater Power, the Greater Light, the Greater Activity of the Sacred Fire functioning at the Inner Levels which you may draw forth into outer physical action at your own Conscious Command.

I want you to feel that the moment your attention goes to your "Beloved Mighty I AM Presence" or to Our Great Octave of Life and your desire is for Our Greater Power and Perfection and Greater Manifestations, mark you, then anything you have in this world, can come through you into manifestation here in order to make the physical octave like the Octave of Perfection in which We dwell.

I plead with you, take the commanding attitude to every problem that confronts you and know that is but the return of some of your own Life energy from the past that was not qualified with the full Perfection that was within your Life, and which was trying to get through to produce the Manifestation that would give you Happiness.

If you will consider your problems as but so much energy returning to you to be requalified with the Eternal Manifestations of Greater Perfection which are in Our Octave, then I will assure you, you not only will have the Power to raise your problems and limitations into Perfection and set yourselves Free, but you will release yourselves from every unpleasant feeling; and every unpleasant feeling within you is but another problem to come back and be handled in the future.

Now regardless of things that you will see in the outer world, they are but the effect of causes already gone before; and every day may become for you a great, glorious enjoyment of sending forth fresh causes which produce the Perfection which is in Our Octave, if you will so decree it.

I want you to feel tonight how Real and how close We are in your Life Streams. When you understand that all Life, Substance and Energy are One, you will not have that sense of separation, because the physical senses do not quite function in the same way in regard to Us that they do to you in the physical bodies. You see you are but children so far as We are concerned, and now for an analogy. I wish you to take a little child in your own family and if the child gets into some sort of distress and it comes to you, you pick it up, you pour your love to it and the distress vanishes, doesn't it? Well, what happened? You poured the energy of your Life into the child's Life, into the mental and feeling world of the child and into the body. You poured the Flame of Love from your Life into the child's Life and you changed the condition and produced Happiness for the child. Well, that is what "I AM" doing to you tonight.

You have problems and limitations, or they seem to appear to you, and the outer world screams for attention and demands it most of the time; and when those problems become so severe

that the outer self seems helpless and then you really surrender the management and everything into the “Presence” and you really let go in the outer, of being tied to your problem by your attention, then when you really loose it and take your attention off it, the Higher Mental Body has an opportunity to show you the Divine Solution.

But tonight, My Loved Ones, I want to bring to you a realization of the Great Wisdom which is within Life, and how Magnificent is the Fulfillment of God’s Divine Plan, and what tremendous Joy is the experience of those who choose to fulfill It. So often the outer self says: “Well, I want to fulfill the Divine Plan,” but there isn’t a thought or picture or thing in the mind that the outer self is sure is the Divine Plan. I want you to get over that if you have a hazy, indefinite, uncertain feeling — well, I don’t know whether this is the Divine Plan or not. I want to fulfill the Divine Plan, but then the outer self has not a definite, concrete picture of what the Perfection of that Divine Plan contains.

Why do you suppose this is the case almost continuously in the outer intellect of mankind? Because the outer self is not disciplined to take its attention off everything in the outer world and anchoring it within the Heart of Love — the Unfed Flame in the Heart of the “Presence,” ask within the Flame — stand within that Flame, feel yourselves clothed in the Luminous Presence of your “Mighty I AM,” and there abiding in the Peace of Its Love, ask to be shown the Divine Plan, every detail of Its Glory and Perfection and everything the outer self is supposed to do to bring It into outer manifestation. The only reason the intellect does not quickly recognize and know what the Divine Plan is in any set of circumstances is because it will not still the outer and give full undivided attention with Unconditional Love and Surrender of the outer self into the “Presence” and the Ascended Host’s Great Octave of existence.

I want to take out of your worlds tonight the slightest uncertainty concerning the Fulfillment of the Divine Plan so every step of the way you will see as clearly as you see the sidewalk before you, what is to be done from day to day in the

Fulfillment of the Divine Plan. If the outer self were kept continuously harmonious so that the Harmony from the “Presence” automatically was flooding all the energy of the emotional body and flooding the brain structure with Its Golden Flame, each act of the day would be without any particular strain or stress or tension – would be the natural, normal sequence of the Fulfillment of the Divine Plan.

So long as the Harmony is maintained, the Higher Mental Body has an Open Door through which It is pouring Its Perfection, but the moment a shadow crosses the Light of the Harmony from your “Presence” then the mind is either distorted in its concepts as they pass through, or the shadows become so dense within the brain structure that the ideas are not allowed to come through. “I AM” here to bring you Wisdom tonight, to help you understand your problems so they may cease to be.

Now supposing you have made mistakes in the past, and who hasn’t? If you had not made any mistakes you would not be in this world. So if you have made mistakes, be of good cheer, you have plenty of company, but you do not have to associate with that company forever. There is other company in the Universe with which you can associate and We are part of it.

Now then supposing you have made mistakes, well there is no particular reason for condemnation because of a mistake here or there. This is the schoolroom in which you are learning to dissolve those mistakes. Now watch! Instead of feeling that you want to get out from under your problems or that you dislike them and they are causing you such distress, instead of that constant rebellious irritation, battling attitude in the feeling world toward the problems through strain and worry, which is but battle and fear, why not take those problems and realizing that they are your responsibility to change, go into action to change them. And if you would ever call to your “Presence” when a problem comes to you for solution and ask your “Presence” to correct the mistake that produced the problem, you would find your future free from problems. But mankind goes on in the treadmill of existence, solving problem after problem

and they get one solved and a dozen may appear, but it never dawns on the intellect to ask God, the "Mighty I AM Presence" to correct the mistake that produced the problem; because a problem is but a mistake, and it is but energy which can be requalified by charging into it another vibration which compels its quality to change.

Therefore, if mankind would understand this, the problems could easily be removed; but so long as the rebellion goes on and the human thinks it is so self-sufficient that it does not need to ask the "Mighty I AM Presence" for guidance, well then it goes on in the misery of its own conceit. Until the outer self is humble before that "Presence" and renounces the management and the qualification of the energy it contacts into the Hands of the Higher Mental Body, the problems will continue, but they do not have to. You could just as well pass day after day in the most exquisite Happiness and ecstatic Enjoyment in the Great Great Silence of the Full Companionship of your own "Beloved I AM Presence" and that of the Ascended Masters. The day the individual decides to do that, you will find no veils between you and Us. Human veils between your octave and Ours exist purely because the outer self wants to run itself its own way and has through the centuries to the complete annihilation in many cases of the outer identity.

But if you want to know how strongly anchored the desire and the determination in the average individual is to have his or her own way, regardless of effects, just ask someone to do something they do not want to do. Just the moment the outer self is displeased just because it cannot have its own way, it is ready to create problems for itself, those by which it is surrounded and even the atmosphere in which you move. The outer self, because it is so determined to defy the Law of Harmony, creates problems for the personal self, problems for the Ascended Host and the Cosmic Beings Who govern the atmosphere of the Earth; problems for the Beings of the Elements and problems for other Life Streams on this Earth for no reason on the Earth except its determination to have its own way instead of God's Way.

Now you may know completely if you will, the full Divine Design ahead when your surrender has been complete to your "Presence"; for when you are willing to place everything in the Hands of your "Presence" and stand in Its Harmony adamant against the discord of the outer world, you will find wave after wave of revelation coming faster almost than you can receive it, but I wish to make something very clear tonight to the "I AM" Student Body. When I say: "Make the renunciation to your 'Presence' and pass the management up to the Higher Mental Body" — the management of the outer self unto the "Presence" and Higher Mental Body, there should not be any letdown feeling of the outer of not knowing what to do. You can remain as positive as steel and yet know you are in the Arms of your "Presence," and hold the Harmony around you in your Electronic Circle wherein you may charge that with whatever you desire; and then within that Great Power of Harmony will automatically the right ideas come through the brain structure without distortion.

Had it ever occurred to you, Precious Ones, to use some of that Magnificent Instruction which that Blessed Saint Germain gave you in those "I AM" Discourses when He said: "You may charge your Electronic Circle with whatever you please." Had you ever thought of charging your Electronic Circle with every Activity of the Sacred Fire necessary to prevent all problems of the future? Have you ever tried it? You might experiment from tonight and I shall be glad to observe and watch the Happiness which "I AM" sure will take the place of your problems.

This is why, Beloved Ones, in the Great Supreme Gift which your "Presence" gives you constantly in the Use of Its Life through the body, do you not think it is just as willing to give you the pictures of what It desires to do through you? If It gives you energy from day to day, wouldn't It just as well give you ideas? It has given you Its Love! It has forgiven all your mistakes and has stood for centuries awaiting your attention and surrender of Eternal Happiness.

Now if there is any feeling in the outer self that you still want to go on experimenting with something out here and you

are not sure whether you want to fulfill the Divine Design, do not complain if your problems boil up more and more, because I tell you there is no intelligence worth that (*snap of the finger*) that does not fulfill the Divine Plan, and God does not have to have problems to fulfill God's Divine Plan.

Your "Presence" is All-Powerful, All-Perfect, All-Knowing, All-Luminous. Do you think It has to have an aggregate of energy qualified with a shadow in order to produce the Fulfillment of Its Manifestation of an Universe? Your problems are not necessary if you are willing to surrender to your "Presence"; and a complete surrender and unconditional renunciation of the outer activities of discord and the renunciation of the management of yourself into the Arms of your "Presence" hasn't anything to do with a weak-kneed or let-God-do-it sort of attitude. That is not what I mean at all. In fact, you remain far more positive than you would otherwise, or you are positive within God's Harmony, within the Love of your "Presence," and you stand like steel against the discord of the outer world, taking your stand that you are no part of it and refusing any of the energy of your Life to be connected with it.

So, My Dear Ones, if you understand Me tonight, there won't be any more problems in your worlds. Your worlds, My Dear Ones, your worlds can be your Electronic Circle of Living Sacred Fire qualified with what you choose, not only the Power of God's Love to solve your problems, but that Flame around you which contains every Ascended Master Quality, for whatever radius you decide, becomes the Power of Love which solves the problems of those around you.

Now you may live there if you will, but let Me remind you of something. You cannot and will not maintain your Harmony so long as you see the continual mistakes of others and are occupied with — shall We say, "dissecting" them, and then you wonder why they appear in your own world. Unless you are able to take your attention off human beings who are doing something that displeases you, you cannot maintain your Harmony.

Your Beloved Saint Germain told you to keep your atten-

tion off every human being and put it back with your “Presence” and then be adamant against the discord of the outer world. I tell you, Dear Ones, if you choose to fill your Electronic Circle with the Seven-Fold Flame from each One of the Seven Mighty Elohim, you could become so aware of your “Presence” and Its Light within and around you, that you could go through conditions and be absolutely unconscious of the discord, the imperfection and inharmony through which you pass.

You can pass through human discord insulated in the Love and the Light and the Flame from your “Presence” and Our Octave wholly unaware of conditions that otherwise would seem frightfully tragic to you. Where your attention is — I must remind you again tonight — “WHERE YOUR ATTENTION IS, THERE YOU ARE FUNCTIONING; WHAT YOUR ATTENTION IS UPON, YOU BECOME,” and if your attention is on the mistakes of a dozen people in the course of a day, by the time you go to bed at night, you are the sum total of twelve mistakes. Supposing in just passing an individual you see someone making a mistake, so far as you know, at least the appearance is so, and you have some mental register of that with deep feeling, and you wish somebody wouldn’t do so and so, and your wish might be all right to have someone stop doing something destructive; but if you sent that out with resentment, then you, too, are destroying the Harmony of your “Presence”; and if you do that a half dozen times in the day, then you wonder why things do not go well with you the next day.

You see, Precious Ones, for your own Protection how imperative it is to keep commanding the Perfection of the Sacred Fire in the place of everything that seems to be a mistake or something that is less than Perfection. This is why your Mighty Saint Germain said to you if you cannot do it otherwise, shut your eyes and see Perfection everywhere, but even then something comes to your attention that is not Perfection; if your attention is on your “Presence” or Our Octave you would be seeing Our Forms, Our Flame, Our Light Rays and Our Manifestations of Beauty and Perfection and superimpose

That upon the thing that appears to you that is less than Perfect. There is no other way.

The Law of Energy and Vibration is an Eternal, Sustaining Activity of the Universe. That Great Cosmic Law is the regulating Activity. You find no trouble, Dear Hearts, if a room does not suit you of going in there and regulating everything to bring it into the beauty, order and perfection you desire; and there is no difference in this. This World is just a schoolroom of existence, but it contains Life — Life's Energy, Substance and Consciousness — and if you do not bring all of God, then you are going to have to live in the human.

Your problems are human, My Dear Ones, because God never created problems for any one. Your "Mighty I AM Presence" never created any problems in your world, and problems will only exist so long as you won't go back completely to your "Presence." But it seems so difficult for people to be contented with the "Presence," and yet could you see the Beauty of each one of your Higher Mental Bodies, could you see those Higher Mental Bodies in action directing the Light Rays, directing the Cosmic Flame, the Healing Flames at your Call, mark you, could you see at the moment you send forth your Call, the Hand of your Presence send forth a beautiful Flame to assist someone for whom you are calling for help; could you see at that moment the Flame go forth; could you see the smile of Beauty on the Face of your Higher Mental Body; could you see the condition lift the individual, and that one awaken, go forward harmonious and healed; could you see the Action that instant you make the Call, you would be contented to have the companionship of your "Presence" all the time!

So never feel lonesome. You are never alone! Never! and if the old human habits are allowed to rule you, you will stay in distress until you assert your Mastery and make them know you are the authority to dissolve them. Precious Hearts, you do not need to stay in your problems one hour longer after tonight. "I AM" here to help you be cut free from them tonight; and I trust you won't go out and accumulate any more.

It seems so difficult for the outer self to realize that its

main business in this world is to hold the Harmony and the Purity within and around itself so the “Presence” and the Higher Mental Body may come close and flood forth more of Its Light and Its Beauty and Its Perfection through the physical form. The “Presence” is always giving; but the Perfection and the Blessings which It gives cannot come into the outer use of the personal self if it is chasing everywhere in the outer world and reaching here, there and everywhere and accumulating things that, could you see on the moment what you reach out and draw to yourselves in a moment of irritation, you would faint at the sight.

So, Dear Ones, tonight I come to bring a Blessing of Wisdom — a Wisdom I trust will be forever a reminder to look first to that “Presence.” Go into counsel with your “Presence” and be at Peace. Hold the Harmony first and do not just dash headlong into things without stopping to think what your “Presence” might want you to do concerning that which you think is all right for you to do in the physical octave.

Precious Ones, I want to convey to you tonight the feeling that the only veil between your physical sight and your Higher Mental Body is your own thought and feeling, and it is no more than the clouds you see in the sky. Those clouds are moving constantly here. They come up and look like they are going to give you rain in New Mexico, and then they don’t, and this is exactly the way these veils between you and your “Presence” treat you. You can take an airplane, you know, and go above the clouds. I trust I might give you a ride tonight. Maybe “I AM” your airplane. I would like you to come with Me and show you how in one instant a Light Ray or a Flame can flash like a streak of lightning and everything in Its path be consumed, purified and perfected, where a moment before distress had been.

Oh, Dear Ones, I want you to feel — feel deep within yourselves more, more and more deeply the Power which is within your “Presence.” Just because you do not see It with the physical sight does not mean that It isn’t in the Visible, Tangible Body just as tangible as anything in the physical world, but I

want you to feel the security within your Call to the "Presence."

You have been using the Name of the "Presence" all through the centuries, haven't you, not knowing your "Presence" was there and whatever you used, or whenever you used the Word "I AM" followed by whatever quality you wanted, that condition came into existence to you, showing that That Great Creative Word was working all the time. Now with your conscious awareness of where your "Presence" is, then in the Use of Its Great Name, then in the Command for Its Perfection to come into outer action, It will act just as surely in the present as It did in the past. It certainly acted for you. You have set into action whatever you desired.

Now then let us all desire the "Presence" in the place of every problem. Desire the "Presence" of the Ascended Host moving among you as you move with each other, visible and tangible to all. We did in those first two Golden Ages. In every Golden Age, We have moved with mankind and they knew who We were, which is more than the modern mankind understand. That must come again, because without knowing Who We are, how can mankind co-operate unless they understand that the Great Elder Brothers of humanity hold the Knowledge which is the next Expansion of Wisdom which they must have as the Earth goes forward on its appointed destiny to the Fulfillment of the Desires of God's Heart.

Oh, I plead with you in your complete surrender to your "Presence," I mean to surrender to the Harmony of your "Presence," and because you stand determined to abide within Its Love and Its Harmony does not mean any weak-kneed, wishy-washy feeling within you, that you do not know if it is God's Will or it is not God's Will. When you stand in the Harmony of your "Presence," adamant against discord, you will know when the charge comes through your mind. There will be a Happiness, an exhilaration within it which will make you know unmistakably that it is the Divine Plan to be fulfilled.

There is no uncertainty in your "Presence." There is no uncertainty in your Higher Mental Body. The only place uncer-

tainty exists is in the emotional body and that is because it is constantly being pressed upon by all kinds of disturbances in the atmosphere in which you move. Therefore, if you will abide within the Electronic Circle from your "Presence," then will there again begin to form as in the first two Golden Ages the Oval of Light-Substance around the physical form. Then as the outer edge of that is qualified with the Blue Flame, you will find where you move you are a Blessing; where you move Perfection is pouring forth; where you move all things bless you.

May I ask you from tonight to place your Electronic Circle of the Sacred Love of the Sacred Fire where every problem seems to be this hour, and as you enter sleep tonight "I AM" warning you to charge more dynamically and more powerfully around the physical form while it sleeps your Electronic Circle of every Power of the Sacred Fire in the Universe to keep from the body while it sleeps any contact with anything in the atmosphere of Earth. I have reasons for this tonight. There are certain epidemics, due to the aftermath of war that are diabolical, and "I AM" guarding the Student Body from tonight. These things that are trying to touch the blessed mankind of Earth have an aftermath of tragedy and the depravity of war. That energy and that vibration are still in the atmosphere over this Nation and worse in the atmosphere over the other Nations, but that is no reason it should touch those under This Radiation.

If you knew the Power you could have by charging your Electronic Circle with the Invincible Purity, the Herculean Harmony and Victory's Victory of all Activities of the Sacred Fire, and then call Us into action to concentrate within your Electronic Circle every Power of the Sacred Fire We direct, the very intensity of that Fire Element around you would automatically go out into your problems and dissolve them before they appear. This is how you can redeem the causes that have gone before and prevent the results bringing you back greater misery.

Oh, Precious Ones, when you know mistakes have been made, unloose all the Love at your Command to your "Mighty I AM Presence": "BELOVED MIGHTY I AM PRESENCE,"

FORGIVE ME AND BLAZE YOUR LOVE AND CORRECT THAT MISTAKE AND SEE THAT NEVER AGAIN DO I MAKE ANOTHER ONE!" Oh, when you are willing to correct mistakes, Precious Ones, your "Presence" has Infinite Ways and Means of bringing every situation into a Miracle of Perfection, but so often the intellect just because it does not see how the Higher Mental Body is going to act, it throws into the emotional body the feeling that something cannot be done. Now I want to take that out of you tonight.

It does not make any difference what set of circumstances has come into existence on this Earth, your "Mighty I AM Presence" and Higher Mental Body and those of all mankind and the Great Host of Ascended Masters, Cosmic Beings and Angelic Host — why there are Infinite Ways and Means of turning any set of circumstances into a Miracle of Perfection; otherwise, you would have no Mastery of Life. God is not dependent on evil in order to produce a Manifestation.

I want you to feel the Joy, the Thrill of using the Power of the Sacred Fire from your "Mighty I AM Presence" and Our Octave into your own Electronic Circle to keep repelled the problems of the outer world. Oh, Dear Ones, if you understand Me tonight and realize deeply the Power within the Sacred Fire wherever you go, you would have but to smile and people would love you, because automatically they would feel that Flame come near them and help to dissolve their own.

Oh, there is no Joy in the Universe so great as the Expansion of the Great Activities of the Sacred Fire from God's Heart. And please feel that these Great Magnificent Realms of Life's Activities, the Magnificent Inner Powers of your Beings and your Life Streams are far more real than these transitory bodies you have shaken off so many times. We are hoping this is the last time you will shake it off, but it takes your determination; it takes your love.

Oh, Precious Ones, command what you will, but Oh, if something is wrong do not feel justified in condemning, criticizing and condemning some other part of God, and whether you like it or not, whether you like the personality or not,

matters not before the Great Cosmic Law. Every one is just as much a part of God's Heart as you are, and when you live in God's Heart, when you know your responsibility to Life; when you are fiercely determined to have your Freedom and have Perfection where imperfection seems to be, you will not be concerned with some human being's human creation.

So long as your attention is on the human, you will create more of human distress until the attention is schooled to go to the "Presence" and stay there and stay with the Ascended Host in the enjoyment of Their Way of Life. Until you make your decision inflexible and be no part of those qualities that are degrading to Life, then problems will go on, unless you decide to live in the world that has none.

Oh, if mankind but knew what it meant to charge the atmosphere around the physical body, your Electronic Circle will contain whatever you desire; but Oh, if the ego takes that up and says: Oh, my Electronic Circle, I charge that, when you just blow up with your importance, you never began to have an Electronic Circle. There is only one way of proving it to the world — let your deeds speak what is the Fulfillment of your Calls rather than the exploiting of it to those around you. Don't go along and brag about the Power you have.

The Mighty Saint Germain does not tell everybody how Pure He is or how Free He is; because We know that no matter how great is Our Own Power and Attainment in Cosmic Action, there lies beyond an Infinity and an Eternity of that which is greater, and that all Greatness belongs to God. Won't you come the Way of Greatness from tonight? Be no part of petty things of the outer world, but just remember every moment is your opportunity to charge that Electronic Circle around your bodies with more and more Blessings and Beauty and Mastery and Perfection of the Sacred Fire so as you move throughout space, as you move anywhere in the Universe, whether you be in the physical body or out of the body at night, wherever you move, that Flame attends you and is the sum total of every desire of Perfection which you require to bless and bless and bless with greater Beauty and Victory all that you contact of God's Life.

Learn the Wisdom of complete renunciation to the "Presence." You will stand then the Master of circumstance, knowing that the Power of Perfection stands above you; and you the Open Door of Its Outpouring to the physical world are the guardian at the portal of your "Presence" Own Perfection. Therefore, you will not requalify it, but you will let it flow without reservation, and flooding forth at your Command will enable you to be Master of circumstance by Its Own Flame.

If you really know the Power is there, the personal self will never take credit for anything. Never! If it seems to come, it will go right to the "Presence," because you will be continuously aware in the intellect and the memory will inform you of who is the Doer. Therefore, when you say: "I AM" THE PRESENCE WITHIN THIS FORM COMMANDING PERFECTION INTO ACTION; you will not allow the human to do that which dishonors the "Presence." You won't allow it to speak that which the "Presence" would not speak! You would not allow it to do things that the "Presence" would not do. It is but a matter of Honor to God.

If you stand within Our Seven-Fold Flame; each One of Us directs a Seven-Fold Flame into the brain structure of every human being, and if you stand within Our Magnificent Activities you will find Perfect Balance everywhere you move.

Tonight, I wish to say something, because I would love to have the "I AM" Student Body remember This and give the Love and the Gratitude to the Seven Mighty Kumaras which will draw you Boundless Blessings you have as yet not had in the outer. The mass of mankind knows nothing of the Seven Mighty Kumaras. Theosophy has mentioned Them, but almost no love goes up to Them, and yet for four and a half million years They have given Their Love to mankind; and as One of the Mighty Elohim, I would love for you as Beloved Saint Germain's Family of the "I AM" Student Body, to draw so close to Them through your Love and Gratitude to Them that They could give you Their Choicest Blessings from Venus.

The Seven Mighty Kumaras, if you as an entire body of mankind will pour your Love and your Gratitude and thank

Them for what Their Love has meant to this Earth, It will draw to you not only Boundless Blessings, but in the years ahead – not immediately, but some time in the future – it would entitle you to Their personal visit before They return to Venus. I would love to have you begin to make a daily Call to your “Presence” to pour such Love and Gratitude to Them in the name of all mankind, so it would form the Open Door through which one day, you may enjoy standing in the Presence – Their Visible, Tangible Presence and thanking Them in person for Their Love which has helped to set you Free.

It is a great, great thing, My Dear Ones, to pour Love to those Cosmic Beings. It is one thing to render a service when asked, but it is a far greater thing to render a service unasked, but I just put this thought into the ethers tonight to encourage the Student Body to return to Life the Love and Gratitude to Those Great Beings Whose Great Blessing to the Earth has been Its protection through the centuries past.

When Great Cosmic Beings from Realms of such indescribable Beauty and Power, inconceivable to the human intellect, leave Their Great Cosmic Activities to come and abide for four and a half million years, within the atmosphere of Earth, you must know that is a phase of Love with which the mass of mankind is wholly unacquainted, but you are understanding more and more of what that Cosmic Service means, and as you pour your Love and Gratitude to Them, will you find a response and a Blessing in your world that you have not experienced up until now.

Should you choose – now “I AM” just as you say in the vernacular, tipping you off – but should you choose to qualify your Electronic Circle with Their Flame of Love from Venus, “I AM” sure you would be greatly delighted. I leave it with you, and I can assure you only Joy would be the result.

So tonight, Precious Ones, I trust I may take you by the hand as you leave these bodies and lifting you to those Great Temples of Love and Beauty and Wisdom Supreme in the Electronic Belt around the Physical Sun, let you share for awhile some of the glories and the Beauty of the Great Inner

Temples of Love and Beauty and Wisdom Supreme in the Electronic Belt around the Physical Sun, let you share for awhile some of the Glories and the Beauty of the Great Inner Realities of Life's Supreme Victory. May I welcome you tonight as a Group — if you will be out of the body by 12:00 o'clock, and may we all pour our Gratitude to that Great Central Sun, and clothing you in the Love I want you to have at the Inner Level, may you bring It back into the outer physical world as a Garment of Our Healing Power, Our Healing Wisdom, Our Healing Love and Peace and Harmony to be your Protection in the coming weeks.

If you choose to with Great Sincerity and Earnestness, but not with tension, but with that Great Concentration of Love within and around you, charge your Electronic Circle once an hour with all Activities of the Sacred Fire which the Seven Mighty Kumaras direct, and which We direct, "I AM" sure you will all feel a tremendous uplift and your Victories will come quickly; your pathway will be more magnificent to tread; and your capacity to give service and assistance to your fellow man will be increased in leaps and bounds.

May you have those Miracles and Victories which bring boundless Joy and open to you the Realm of Perfection through unconditional surrender to your "Presence" as you abide within Its Own World of the Sacred Fire, for which you call.

This night is a memorable one. We are closing the Dictations of the Seven Mighty Elohim Who in succession have given That which the Student Body requires next; and may you, all of you, be consciously aware of your Victorious Power as you call this Sacred Fire into your Electronic Circle and move forward to render a Service to your Nation which will only be apparent as it is completed and offered to your Beloved Saint Germain.

This night the Seven Mighty Elohim watch you with a Love this time that is drawing you closer and closer into your Eternal Victory. May you move forward without delay and with Herculean Power hold the guard for your Beloved Nation

so Her Cup of Light may burst into a Blazing Glory and flood the Earth with the Victory of the Sacred Fire forever.

Thank you, Beloved Ones, and in the Fullness of My Heart's Love, if you want to know the Fulfillment of the Divine Plan for you, do as I have said tonight and I will give you every assistance to help it come through to each of you unmistakably plain, for your Freedom is very near.

Thank you, and as I hold that Great Power of the Sacred Fire around you, may It bring you Boundless Blessings and Gifts and Miracles which release the Powers which enable you to give those same Blessings to your fellow man without reservation.

Thank you for this night, and I shall ever stand your guard and shall give without asking wherever I can assist you most. Thank you and with My Love of Eternity expanding through your Life Stream as you enable Me to expand the Flame of My Life Stream through that Service, may you, too, be one day this Great Outpouring to your fellow man everywhere.

Thank you and good night.
