

BEINGS OF THE ELEMENTS

“How do the little Beings of the Elements come into existence?”

Beloved Mama said, “They are created by the Ascended Masters and work wholly under Their Direction.”. . .

How long do the Beings of the Elements live?”

Beloved Mama: “Their existence is determined by how long the Great Beings need them.” (Youth, Nov. - Dec. 1944)

Beloved Fun Wey said, “The Beings of the Elements do not like mankind’s discord, and they do not like to be compelled to obey mankind, although under the Action of the Cosmic Law they must do that. But when a person is naturally happy by temperament, and then Fearlessness and Purity are added to that in the feeling world, as the radiation extends around the physical body for quite some distance in every direction, I tell you the Blessings the Beings of the Elements will bring you, My Dear Ones, will seem like Miracles to the outer world, because the Beings of the Elements get release from mankind’s discord just by staying around you. Just the same as a child seeks safety in coming into the house or into the arms of the parent, just so will the Beings of the Elements seek you; and when they come to you because they are happier and more comfortable in your atmosphere, they will bring you their gifts!” (Apr. 1947)

Beloved Saint Germain: “The Beings of the Elements are very loving, pure Beings in the beginning; but because they are created to do the will of mankind, to carry out that will regardless of its effect upon them, they are subject to the direction of the feeling of mankind!” (Dec. 1950)

GNOMES

“Do the Gnomes have pointed toes?”

Beloved Mama: “No, the Gnomes are not distorted in their original form, but they become distorted because of mankind’s

impurity and discord imposed upon them.”

“What is the activity of the Gnomes?”

Beloved Mama: “They are Builders. Gnomes guard the formations, and they guard and help all metallic formations, and also assist the Lord Maha Chohan.”

“How big are the Gnomes?”

Beloved Mama: “Gnomes are taller than Fairies, and have a heavier body structure. They are about two and one-half to three feet tall. . . .

“Call for Gnomes to guard all jewels. If Gnomes don’t want inharmonious mankind to locate jewels, they can keep anyone from finding them. . . .

“All the Beings of the Elements will worship you, if you give them Love and Protection.” (Youth, Nov. — Dec. 1944)

Beloved Saint Germain said, “. . . but don’t hurt those Beings of the Elements and then expect them to serve you — and all dislike is hurt to their feeling!” (Dec. 1950)

Blessed Virgo said, “Do you know that with enough Love poured to the Beings of the Earth Element, they will bring to you their choicest gifts, their most magnificent jewels, their loveliest flowers, their mightiest wealth.” (Mar. 1945)

FAIRIES

Beloved Mama said, “The Fairies have to do with flower formations. . . .

“If they were guarding a pink rose, they would be pink in color.” (Youth, Nov. — Dec. 1944)

Beloved Saint Germain: “Take these flowers. The little Beings who bring the substance and build the flower, stand guard over it, until the time of its manifestation has been fulfilled! When they let go, it begins to disintegrate! . . . These Beings are under the Direction of the Lord the Maha Chohan, the Mighty Virgo, the God of Nature, and those Who assist throughout the whole Manifestation of Nature’s Activities on this Earth!” (Dec. 1950)

The Mighty Lord Maitreya said, "If the little Beings of the Elements did not love these little flowers . . . they could never create them." (Oct. 1976)

The Beloved Goddess of Music said, "Anything as beautiful as a flower, has that substance drawn together by very pure Beings. It takes a very pure Being of Nature to gather the Substance that produces a lily; and those Beings must hold that Purity, Beauty and Perfection until the form is complete." (Apr. 1944)

Goddess of Purity: "The Beings of the Elements, when surrounded by the Harmony, enjoy the building of a flower. They do not struggle. They sense and feel the Love which projects the substance into a thing of Beauty for the Blessing of mankind, even if only for twenty-four hours." (May 1979)

Beloved Mama: "When you really understand the Great Cosmic Scheme of Creation, you will see It is so Divinely Just, so Magnificently Perfect that you are positively ashamed when you see what mankind impose upon those delicate Beings — the Beings of the Air, the Fairies, and the Sylphs — the most beautiful things you can imagine, with rainbow colors and as pure as the driven snow. When they come into the atmosphere of someone who has filthy human and sex creations, they die, and the agony on the face is terrific." (Youth Conclave, 1945)

SALAMANDERS

Beloved Mama: "The Salamanders carry on the activity within the Fire Activity . . . Helios creates the Salamanders."

"How tall are they?"

Beloved Mama: "About one foot, some of them smaller." . . .

"Can the Beings of the Elements become Ascended Beings?"

Beloved Mama: "Not just of themselves; for they are not immortal. However, an Ascended Master can, for some Great Service rendered, offer them Immortality. When an Ascended Master confers Immortality upon a Being of any one of the Elements, an Individualized Unfed Flame comes forth from the Great Central Sun." (Youth, Nov. — Dec. 1944)

Beloved Saint Germain said, "I have the Power in the Ascended State to confer upon the Beings who choose to serve you, My Immortality, so they may one day become Individualized human Beings endowed with Free Will, who can make conscious effort to become Ascended Masters! Many Ascended Masters have been such in the beginning!" (Dec. 1950)

Beloved Mama: "Oromasis and Diana were Beings of the Fire Element Who have become Immortal." (Youth, Nov. — Dec. 1944)

Mighty Helios: "There are Beings of the Elements who, because of their service to the Constructive Way of Life, under the Direction of certain Ascended Masters, have accepted the responsibility of Immortality." (May 1945)

Prince Oromasis: "Since I am called 'Prince of the Fiery Element,' and since I was originally a Being of the Fire Element and came up through the channels of human manifestation into the condition of the Ascension — that Mighty Victory — then My Keynote, so to speak, in the Universe has been the Action of the Fire Element from the beginning. From It I have never varied . . ." (June 1975)

UNDINES

Beloved Mama: "The Undines are the activity in all water formations."

"How big are the Undines?"

Beloved Mama: "About two-thirds the size of an average person."

"Do the Beings of the Water Element have anything to do with the growth of a pearl?"

Beloved Mama: "Yes. The Undines would watch over it." (Youth, Nov. — Dec. 1944)

Beloved Neptune said, "If you will remember in the description of the creation of the Planet as recorded in the Bible, the statement was made that 'God created the sea and all that was therein and it was good.' Well then, something certainly happened

to the creatures that are now in the sea, in the Water Element of the World; because a shark and the octopus and many of the destructive creations that live within the oceans are certainly not good. They are imprisoned Life and they are imprisoned substance.” (Mar. 1945)

Beloved Neptune: “That which you know today as the octopus within the ocean was originally a little Being like a Golden Sun with long Rays that poured forth Its Light within the Water Element. It was a tiny Sun placed within the Water Element, and the color and the forms of the tentacles that have been imposed upon those Beings by the filth of mankind’s hate, have distorted that original creation and have made it the thing of destruction it is today.” (Mar. 1945)

Beloved Neptune: “When you open an oyster, the body of that oyster is certainly not a beautiful thing to look upon, is it? Yet the inside of the shell is magnificent. Well, do you know what the body of that oyster was in the original creation? It was a Being like a little Fairy with soft, transparent wings of iridescent hue, and as pure as the Heart of the Goddess of Purity; and the present condition of that little Being is because of the filth mankind has imposed upon the Water Element through the centuries and has been condensed at the bottom of the sea.” (Mar. 1945)

ELVES

“The Elves are always pictured playing pranks. Are they naturally that way?”

Beloved Mama: “No. The Elves learn all their tricks from humanity.” (Youth, Nov. — Dec. 1944)

Beloved Fun Wey said, “The Mighty Saint Germain for long centuries has had a very close association with the Beings of the Elements. They were His servants. He blessed them greatly! They accomplished many things for Him which to the outer world seemed miraculous . . .” (Apr. 1947)

Precious Virgo: "I shall bless your Beloved Saint Germain for all Eternity for all His Love, for where He walks, the Beings of My Element are cleansed and set Free." (Mar. 1945)

Beloved Virgo: "Precious Ones who have gardens and are interested in assisting Us to bring forth the new plant life which belongs to the Golden Age, together with the Lord Maha Chohan, the God of Nature, may I be privileged with Them and Others Who will assist you, to bring into your gardens through My Beings of the Elements, wonderful new flowers, fruits and vegetables; and who knows, one day there can come jewels of magnificent Beauty whose Light Rays reflecting their Blessings around you, bring forth the Beauty on this Earth that was here once before . . . Your gardens, My Beloved Ones, with this Understanding, should be the beauty spots of the World! Your products should be the wonder of the age!

"I stand ready to assist you, and if you will bless and bless the Beings of My Element, I will stand beside you and help to bring a Substance that will heal those who need your assistance. When some part of the body is destroyed, then there must come forth new Substance, if its Perfection is to be re-established. So you must have some of My Element to mold that solid substance once again into the Beauty and Perfection of the Original Plan. I am instrumental in the re-establishing of the Perfection of mankind's physical forms! I have supplied that Substance and I will be grateful and happy to do it, when your Calls come to Me! I have never refused!" (Mar. 1945)

The Goddess of Music said, ". . . I wish you would bless the crops of your Land. Call on the Law of Forgiveness, directly to the Beings of the Four Elements. Ask them to forgive what mankind has imposed upon them, and tell them you come to them with a Blessing of Love which shall protect them, if they will be your obedient, loving co-workers to arise, defend and supply the Children of the Light, for they love to be loved just like anybody else. Life, you know, likes to give Love, and Life loves to be loved! It likes to be Blessed, and the Beings of the Elements perhaps respond quicker than any other parts of Life." (Mar. 1944)

TREE BEINGS

Beloved Saint Germain said, “There is a Being who guards every tree, until the time of its manifestation has been fulfilled! This is true of anything that is brought into form in the outer world! The approximate time of its existence is determined in the beginning, but it is varied by the intense feeling of human Beings; because were it not for the discord in the feeling of human Beings, you would have no such thing as disintegration on this Earth. Trees would live for millions of years! No plant life would die on this Earth, were it not for mankind’s discordant feeling!

“This is the Secret of maintaining things in your use over a longer period of time. By blessing them, they last longer than they ordinarily would! All disintegration in the unascended octave, is the result of human discord . . .

“A violin that may be many centuries old, if it has been loved and beautiful music played through it, will last for centuries longer than one which has been used for jazz, swing music, and the other things you have!”
(Dec. 1950)

Beloved Fun Wey: “Do you know the Beings who govern the trees, for instance, and the Great Lord the Maha Chohan, under the Activity of the Cosmic Law, have commanded certain elements to come within a tree, and the Beings who draw those elements and expand them through the growth of the tree, could give you their Healing Gifts! They can direct that Healing to you in many ways you need it! . . .”
(Apr. 1947)

Blessed Virgo: “There is a Being who guards every tree. The Beings of Nature carry out the Direction of the Lord the Maha Chohan, when He desires to bring forth certain types of plant life upon Earth. The Beings of the Earth Element obey My Direction . . .”
(Mar. 1945)

Our Beloved Daddy said, “As the Great Ascended Masters pass a flower or a tree, that flower or tree will bend toward Them because of the recognition of Its Master.”
(Mar. 1943)

Beloved Hercules: “. . . When your America enters into its semi-tropical activity, your fruits — for instance, your peaches, plums and cherries, and, Oh, many other kinds of fruit — will become twice or three times, sometimes five times their present size, and with a lusciousness that is unknown today, because there will come forth an element which will spread over the ground as a fertilizer and no vermin of any kind will come near.” (May 1941)

SYLPHS

Beloved Aries said: “About you all the time in the atmosphere of Earth, are the Beings of the Elements of the Air . . . Do you know there are Beings in the Air Element that you can call to purify the atmosphere of a room? . . . Did you know that those Beings of the Air have much to do with the placing of fragrance within the flowers or the conveying of it through the atmosphere? . . . It is the Element of the Air that conveys from one part of Creation to another, the Blessings that are called forth.” (May 1945)

Beloved Saint Germain: “When something displeases you or you do not get your own way on the moment, your feeling goes out and strikes the little Beings of the Elements! Your feeling strikes them, as if you took the little Beings of the Elements and hit them like that! They are everywhere in the atmosphere, and one or more guard every form in existence! . . .

“When people have a momentum of long years standing, of just beating against the Beings of the Elements by sending out frightful discord and selfishness, one day it must all return upon its creator! Through the pounding feeling of battle against the energy in the atmosphere around the Beings of the Elements, one day before those Beings leave such discordant creations, they turn and throw all evil back upon its creator! That is how people’s own creations return upon them! . . .

“Oh, Life will not hold you guiltless, Precious Ones! Life does not hold anyone guiltless who goes on, whipping those Beings in the atmosphere with discordant human feeling! It has to come back into you! Wouldn’t you feel very much disgusted with

yourself, if you were to whip little children who were just happy and joyous? Wouldn't you dislike yourself very much? You could not be happy, could you? Well, the little Beings of the Elements in the atmosphere about you, are the Children of the Lord the Maha Chohan!"

(Dec. 1950)

BLESSING ALL THE BEINGS OF THE ELEMENTS

Beloved Jesus said, "It would not only be holding My Luminous Presence before or enfolding the physical bodies of human Beings, but you could draw forth My Luminous Presence as a permanent Outpouring to the Powers of Nature and to certain Activities of the Four Elements, which will enable Me to bless through the Four Elements in a way that ordinarily mankind does not recognize . . . The Beings of the Elements will respond to that Love even more quickly than mankind, because it was their natural state, until discord was imposed upon them!" (Apr. 1944)

Beloved Leto: "That which appears to you as the Point of Light in the electron is its brain, and therein abides the Intelligence which enables energy to obey mankind's direction . . . every electron is a tiny Being of Intelligence and Love, emitting Light which gives you activity for manifestation."

(Sept. 1975)

The Goddess of Purity: "These Beings of the Earth, the Water, the Air, and the Fire, Who are the Beings of Nature, the Beings of the Four Elements, love you when you pour Love, Happiness, Purity and Kindness to them. They will obey you. They certainly have in the past when you imposed discord upon the Beings of the Elements — then they became distorted creations of your own. They gave you obedience. They did your will and your bidding. They are just as willing, far more so, to do your will when you command them to produce Beauty, Cleanliness and Perfection . . ."

(May 1979)

The Goddess of Purity: "The Beings of Nature, who have carried mankind's discord for so long, and some of those Beings,

when, because of their Service to Beloved Saint Germain, were offered Immortality by certain Ones of the Ascended Masters, Himself included, those little Beings argued with Him and said, 'No, they would rather cease to be than ever become as vicious as mankind.' They refused Immortality because of mankind's disobedience. My Loved Ones, mankind's responsibility to the Forces of the Elements is far greater than anyone knows in the unascended state.' (May 1979)

Blessed Virgo: "Can you imagine what the structure of the Earth would be like, if it were semi-transparent like white quartz, only with all the various colors of the Rainbow playing through the white quartz? Can you imagine the Beauty that was once here?" (Mar. 1945)

Great Saint Germain: "Your standard of comparison is the Rainbow! The pink in the Rainbow is not red — it is an entirely different vibration than the red in this World! If a color is not in the Rainbow, then it should not be around your body!" (Dec. 1950)

Mighty Saint Germain: "You can take all substance which has been discordantly qualified by destructive colors, and call to the Powers of Nature to release the Beings of the Elements from every rate of vibration except those in the Rainbow!" (Dec. 1950)

Beloved Venus said, "I can make you warm by the Flame of Love from My Heart, when the atmosphere about you is uncomfortably cool! I can make you cool by the Love of My Heart, when the atmosphere is uncomfortably warm, because all the Beings of all the Elements always obey My Love!" (Sept. 1949)

Beloved Saint Germain: ". . . you are dealing with these Beings of the Elements and they are Real Beings! One day your cameras will photograph them as clearly as they photograph you! Then, you will see what mankind has done to the Beings of the Elements; for it will photograph the weight of mankind's discord upon these little Beings! . . .

“If you will just reach unto the Heights, ask to have Perfection sustained, and see that never again do you impose upon any of the Beings of the Elements, anything We would not — then you are safe! Then, I have a Door through which I may step and give you any moment whatever Assistance is required! . . .

“Do you know what happens when you suddenly don’t like things and the feeling comes forth from you of displeasure? Do you know it is a form of hate! It is as if you said to Me, ‘Saint Germain, will You come in and help me?’ I say, ‘Yes, I am coming!’ I start toward you and before I can get there, you slam the Door in My Face! Then, I just have to leave and I go to other Doors, for there are some which are open a great deal of the time!”
(Dec. 1950)

Goddess of Purity: “Were your feeling world entirely purified, you would have no trouble seeing the Beings of the Air Element flooding in the atmosphere about you . . . in seeing the Beings of Nature working with the plant life on the Planet. You would have no trouble seeing within the structure of the Earth, and watching the growth of the minerals and the metals and the glorious Perfection . . .”
(May 1979)

Beloved Fun Wey: “. . . through that At-one-ment with the Beings of the Elements, would you hear the Voices of Nature in an entirely different way from what your ear hears them today. You would then hear the Voices of the Beings of the Elements; and if you want to hear exquisite music, it is when they are performing some service in the activities of Nature which produce Beauty.”
(Apr. 1947)

Precious Nada said, “. . . the Beings of Nature respond to the Pink Flame perhaps the easiest of any.”
(Sept. 1951)

Beloved Virgo: “Give Me this cooperation, and help purify the conditions under which the Beings of the Earth Element struggle, and you can be the outstanding Lights of America and the World in five years’ time.”
(Mar. 1945)
