

## DISCOURSE BY MIGHTY POLARIS

Through Mrs. G. W. Ballard

Minneapolis, Minnesota

February 9, 1947

Evening

**B**ELOVED Ones who have for so long offered Me your love, tonight I respond to a Call that can no longer be denied. In the great, perfecting scheme of Creation, there abides within every part of Life the Magic Wand of Love Supreme! Within the Call of Love is the Full Power of all Creation and the wide-open Door to all that is of Life's Perfection.

Tonight I want you to feel the annihilation of all space, for since God's Life fills all manifestation, and the quality, or the faculty, within every Life Stream that enables love to go forth is the Supreme Scepter of Authority, then through your love to any part of this Universe is there always a Pathway of Connection at your command.

Love may not be denied an answer when it is intense enough! In the fullness of the love you have sent to Me in your Calls over the many months and years past, there has arisen from the Planet Earth the Blazing Light and the Flame of your Life Streams from your "Mighty I AM Presence." That has come to Me through the ethers and has touched My Heart—whose Response to you shall bring a Joy that all will feel and may forever expand.

In that love that has been sent to Me, My Dear Ones, is the Fullness of all Authority; and could you but realize it tonight, through that Love you may become the Authority over all that is of manifestation here. Oh the Majesty of that Love which reaches to the Heights of Creation, and that wants to draw forth on this Earth the greater Perfection that is within Life and

within the Love of God's Heart!

In the Cosmic Activity that is Mine, together with Others who direct the Destiny and the Manifestation of the Mighty Star Polaris—it is in reality a Sun. Within that Great Focus I want you to feel is your Home, whenever your love chooses to remember Us. In the Service which We give to the people of Earth, My Activity is directly connected with the Royal Teton. There is a certain Activity within the Royal Teton to which I refer but which as yet may not be explained further than that. However, just as there is a Central Core of the Life Flame within every individualized being, so is there to the Earth a similar Activity of the Sacred Fire that corresponds to the Will of Life—to the Cohesive Power of Love—to hold together the atomic structure that produces manifestation, and that must come forth through Conscious Command of the Beings who are the Directing Intelligence of this System.

My Service, therefore, is that Great Power of Love, which while It is referred to in the outer world as the Celestial Pole of your Earth, yet from the outer standpoint It seems but an orderly arrangement of the Great Creative Power of the Universe to maintain in action the Planetary Systems that belong to this Universe; but in reality, each of you has a similar Activity within the physical form that comes from your “Presence” and Higher Mental Body.

Just as the spine is the location of the flow of the Life Substance or Liquid Light into the body of each one's Life Stream, and from that it is disseminated to the other parts of the body, so does My Outpouring of Love to the Earth enter in and reach the Heart of the Earth—the center of the Earth. Through that Outpouring of the Life Energy which I direct, there is carried to every portion of the Earth part of My Life, part of the Love which holds this System united as one Chord of Music in Perfect, Harmonious Action with the other Systems of Worlds by which it is surrounded.

I shall take you tonight for a time into the Great Realm of God's Manifestation, for that which We draw forth is composed fundamentally of the Great Chords of Sound, due to the Vibratory Action of the Life Energy of the Great Beings who govern this System of Worlds. Even in the Constellations that surround the System, they too form Great Chords of Music in the Sound of the Universe, and when they are in perfect cooperation with each other, they too produce Melodies of the Spheres. That term is not an idle phrase. The "Music of the Spheres"<sup>®</sup> means the Sound *within the energy* of the Life Streams of the Cosmic Beings who create and govern Great Systems of Worlds; and in that use of the Magnificent Life of the Universe, there is always produced Magnificent Music, Magnificent Color, and Manifestations of Beauty.

Mankind, because they are surrounded constantly by an atmosphere of discord, feels shut off, far away, and apart from these Magnificent Realms of Life's Love and Perfection; and the only thing that forms the veil or the barrier between is but the vibratory action of their own thought and feeling of discord. Therefore to those who understand how to reach to the Heights of Creation through the love of their own Life—which they consciously command to come to Us—will they find the Door always open into Our Realms of Activity.

Mankind may have from the Heights of Creation the most Magnificent Beauty and Powers and Manifestations of Perfection when they are determined to drive through the barriers of human discord and abide within the Love that knows all, the Love that governs all, the Love that holds together a System of Worlds, the atomic structure of a body, or a blade of grass. The great Cohesive Power of Creation is the Love from one or more of the Cosmic Beings who manifest therein, and so it is with all upon Earth. Therefore, in your love to Us have you opened the Door from the physical side of Life to enter in and behold the World in which We dwell, and wherein you may

learn of some of the Activities that We are directing to the Planet Earth, and that come forth from Our Life to bless your Life with greater Intelligence, greater Illumination, greater Love, greater Beauty, and greater Perfection.

When under the Action of the Great Laws of Life recognition is consciously given to Cosmic Beings who are as real as reality can be, as real as the Sun in the Heavens, then do We part the atmosphere of human creation and make Ourselves known to those who love Us. To the Beloved Irene Hudson do I offer my Love, blessed child, for Eternity, for your fierce, relentless devotion and determination to give recognition to Me, that My Love might come back and manifest to you the Fulfillment of your Calls, and give you Blessings that the rest of mankind do not understand are here for your Freedom. Thank you for your love through the years. Thank you for your determination to recognize that which I can give!

Those, or for those who have stood with Me, will I also bring forth the Blessings that you shall know are very real; and when your Calls come to Me by the Response that I give and the Fulfillment of those Calls, will My Gift be proof of My Reality. There has come to the Earth—since the Beloved Godfre opened the Door to this Wave of Light which the Mighty Saint Germain is giving to the Earth—there has come repeatedly, Beloved Ones, Activities from Cosmic Heights that have long waited through the centuries for some one of the Children of Earth to open the Door from the physical octave and let flow through That which is so willing to help mankind to be free from discord; and Our Love is that Assistance.

The blessed people of Earth cannot be free, My Loved Ones, so long as their attention is held upon discord, for it is like quicksand and is sucking them in deeper and deeper into its destruction, until the Great Cosmic Law takes a hand and shuts off any further use of Life's Energy; but to those who give recognition to the Cosmic Beings whose Love is so ready to bless

them, there will come the Glory, the Strength, the Victory, and the Power to draw into manifestation on the physical Earth these Greater Powers that We are so willing to bestow.

In My Service to the Earth, in that Great, Cohesive Love which holds Divine Order in all manifestation that is harmonious, I am privileged with the Mighty Cyclopea to be the Guard in the use of the Power of God's Sight, and that is why My Service to the Earth is directly connected with the Royal Teton. Since the Mighty Cyclopea in the use of the All-Seeing Eye of God to the Earth is the Designing Activity of Life's Blessing, then My Love is the Enfolding Flame that brings about the Manifestation of the Substance of Light to fulfill the Divine Plan through Love. Therefore, in all that We wish to do to assist the Mighty Saint Germain, the more recognition you can give to the Great Beings of Love and Light and Directing Intelligence who are the Cosmic Authority in this Earth or on the Earth, the more will you draw into the outer atmosphere of Earth the Power of Our Love, and That is a Consuming Activity that dissolves the hate.

Therefore, in your Call to Me, I am happy to respond, and I thank you for the privilege of bringing through each of you more of the Dissolving Love from the Great Sun Polaris. It is called a Star by the people of Earth, and to the people of Earth, it does so appear; but in reality It is again a Focus of that Mighty Activity of the Sacred Fire which pours Its Love ceaselessly throughout the aeons of time, and in that Love is the Directing Intelligence that blesses all manifestation with the Power to expand Perfection and hold in Divine Order everything as it moves on its appointed path of activity. So it can be for you, the "I AM" Student Body. My Love can make Itself felt very tangibly and very powerfully in and around you all, My Dear Ones. If you choose to let your attention come to Me through love, My Attention shall come back to you bringing Love and the Intelligence from My Life Stream's Activity in

Creation to bless you with those Faculties and greater Powers of Perfection that enable you to be free more quickly, that will enable you to assist the Mighty Saint Germain more powerfully, and which shall clothe you with a Love that is in Itself Victory.

The Mighty Beings from Venus who are certain Authority on this Earth because of the Love They came to give are fully cognizant of My Activities. In the Love which I bestow will you find a response within yourselves, within your bodies, within your affairs—within the intelligence of your minds, will you find coming clearer and clearer and as self-evident as Life Itself—will you find the Truth and the Reality of Our Presence coming within you, blending with your Life, and releasing Our Greater Powers through you to more quickly fulfill the Divine Plan to give you Greater Strength and Power and to make your pathway in the future the Manifestation of Our Love.

You have thought in the past that your own path was the pathway of your desires, but if you understand Me tonight, you may make your pathway the Flame of Our Love by your attention to Us. Did mankind understand what the Mighty Kumaras have done for the people of Earth—did even the Student Body completely understand how the Mighty Kumaras have given Their Love, and what They are constantly pouring into the atmosphere of Earth by your attention turned to Them, with the Demand that Their Love and the Love from your Life Stream become a River of Flame before you—you would move held in Their Master Power and go forth and do many things in ways that as yet you do not know in the present comprehension of your intellect. And so it is with Us. Mankind, and even the Student Body, do not understand what Authority is within each one of your Life Streams to demand in the Name of the “Mighty I AM Presence” these Magnificent Powers of the Sacred Fire, the Magnificent Love of the Sacred Fire, into your outer activities and through yourselves. Through this Power will you

find all reactions coming to you are pleasant and will bring permanent Perfection.

We have held your attention upon the Presence and Power of the Supreme Love of the Universe, and We shall continue to do so, for It is the Master Hand of Creation—and can you tell Me of anyone who has ever accomplished anything of constructive activities of great import who did not love to do that which produced greater Perfection? If you do not love to do something that produces Perfection, you cannot produce that Perfection. Therefore you have been using the Love of God's Life even to do the things you have desired to do, but not understanding the Desire of the Source, the Great Central Sun, to produce Perfect Manifestation, mankind has allowed the love that is within Life to go forth and to feed the human cravings instead of understanding that all the outer self is supposed to do is to remember the Perfection and the Intelligence within the Supreme Love of the Sacred Fire, and command It to go forth and reveal Its Beauty, Its Gifts and Perfection to those around you in the outer world—and then return it to the “Presence” again.

In the Great Outpouring from the Star Polaris to the Earth there flows continuously a Stream of the Mighty Love of the Sacred Fire, and if at any time you wish to experiment with Its Effects in yourselves, if you are still for a few moments and give Me Conscious Recognition with a Call for the Illumination of My Activity to come into your Life Stream and expand Its Perfection, you will find a Peace and a Power of Perfect Balance that all mankind requires in the outer world today. The Peace and the Poise of My Love are an essential part of holding balance everywhere. Mankind, because of their uncontrolled energy, requires poise and balance more than they know, because could you hold the feelings within you perfectly poised under all conditions, and allow the Balancing Power of My Love to flow through just to bless everything in the world around you,

you would find the Power of My Love holding and drawing to you that which you next require in your outer activities to produce greater Perfection.

My Love is a Great Magnetic Power, and since It enters into the very structure of Earth, It is and becomes part of the Life of this World. So does It become part of every Life Stream upon this Earth because you are held within the Radiation of My Love to the structure of Earth itself. If you walk upon the surface of the Earth, you are held within the Radiance of My Love. If you give Me Conscious Recognition, that Radiance can become intensified within and around your own Life Streams, and as you feel Its greater intensity, you will find sometimes you can scarcely begin to think of something that produces Perfection until you find it visible and tangible in your hands and use, drawn from the outer world many times, if it be already in existence, and if not, then shortly coming into existence and seeking you out to give you of Itself.

Oh the Majesty of that Love of Life! None can know Its Fullness till they become Its Cosmic Action, and it can only become Cosmic in the Life Stream's Service to the Universe by being called into conscious, constant use while yet in the physical embodiment of the atomic structure. The more you use It and call It forth into outer action now, the greater will be the Cosmic Power that you can wield, many times even before your Ascension. None of you can tell Me tonight how great could be the Activity of the Sacred Fire drawn around each of you, were you to give Complete Acceptance and Conscious Attention to the Great Activities of the Sacred Fire that I offer and pour to the Earth and all upon it.

In cooperation with the Great Group of Beings who govern this Planet and this System of Worlds, We are as one Great Family, and wherever One is pouring Love there, the Others offer Their Love also to assist in bringing about the Perfection that enables the Greatest Expansion of the Sacred Fire to take

place within a given length of time. It is not a period of time so far as We are concerned, because We measure all Service to Life by the Expansion of the Sacred Fire. To you that may seem a period of years or months or aeons of time, but to Us there is just the Joy and the Privilege of expanding the Sacred Love of the Sacred Fire through Use and the producing of Manifestations in the Universe which brings the Joy and sings Its Great Theme of Beauty throughout the Sounds of Creation.

Oh My Dear Ones, tonight the Door is open, if you choose to call for My Love as you leave the body tonight while it sleeps. If you choose to call for My Love to enfold you as you leave the body and to bless your own Precious “Mighty I AM Presence” with your Love and Obedience as you go forth, you will find yourselves clothed—when you return in the morning—with a Joy you can scarcely describe. We would like to make you the most joyous people on Earth, for thus you would be of greater Assistance to Saint Germain. Your Joy, My Loved Ones, is very necessary to Life. We want you to have more Joy in whatever you choose to do, and Our Love can bring you a Joy that mankind cannot give you. Remember I say tonight, there is no time nor space so far as We are concerned, for Our Love can reach anywhere instantly. Our Directing Intelligence can assist you on the moment, and your attention to Us can bring from your Life Streams a Call to the Heart of Creation that Love alone can answer.

Try Me out tonight, and let Me have the Joy of giving you greater Joy in the morrow. Prove Me, My Loved Ones, whether I have Authority over certain conditions in this World. Prove Me, and demand, if you like, Powers of My Love of the Sacred Fire to come into your use to bless your fellowman; and I shall reveal to you, and through you, That which will delight your Hearts, put them at rest, and remove the doubt and fear that are of but human creation.

The Great Universe is a Magnificent Focus of Light

Substance, within which at various points the Sacred Fire is drawn forth through Love to produce definite Manifestation at any particular point in that Light Substance; and there, under the Direction of the Beings whose Intelligence governs that Love and that Light Substance, does the Free Will of God set Its Pattern of Beauty and Perfection, and command It to move into action, and let Its Radiation pour forth Its Blessings to the rest of the Universe. In that does It create the Music that travels on and on in Its ever-enjoying Perfection of Blessing all that lives.

If mankind could understand their responsibility in the use of Life's Energy to just bless with this Great, Supreme Cosmic Love of Creation, there would be such Joy in the Power of that Blessing as to seal the door against discord forever. Discord is but a lack of Blessing. Therefore, tonight, in the Great Power that abides in the Heart of Creation, you may come, if you choose, abide within the Banquet Hall of the Universe, behold the Treasure-house of God, select what you please, and by the Authority of that Love of the Sacred Fire, return and do those things in the physical octave that bring Perfection here for Eternity, that heal as you pass by, and that remain forever to bless all who come in the future.

I say to you, there is no time nor space to Us, and there should not be to you. Time and space, or the human concept of it, is due to mankind's acceptance of the limitations of the atomic structure instead of feeling themselves as the Unfed Flame in the Heart that comes and goes where It will in the Universe, and may know anything it seeks to find out. The Unfed Flame in your Heart can reach to any place in the Universe and draw back even to your intellect the information and the explanation of Life's activities there; but if you don't turn your attention and make the Call, then the information does not come, because the Door is closed from the physical side of Life. Tonight I draw the Door open and stand aside

to let you look within, and if you see There the Activities that make you happy, then enter in, learn of Their Power and Their Purpose, and bring Them back in your waking consciousness to assist the people of Earth to know more of God. They have certainly sought to know much of evil. With your assistance We can arouse through the Great Power of Cosmic Love within mankind — We can arouse the Desire to know more of God — and if you will help Us to radiate that Desire to the rest of Life, then you may bring these Powers into outer use and reveal to your fellowman the way out of the shadows and into their Homes in the Light, where abides the great satisfaction of all the desires that have prodded them through the centuries on and on and on into activities that have brought them distress.

By your Radiation of Our Love and Our Intelligence you may awaken their consciousness into the memory of their Homes in the Light, and once again lift them into those Activities of God's Universe where satisfaction and permanent Accomplishment become their daily activities in the physical octave, until the final veil is swept aside, and the "Presence" which they behold face to face takes them into Its Heart, and once again they live as God intends.

May My Star flash to you and be a reminder of My willingness to hold to the Love I offer for your acceptance. I can flash that Star, and you can see It if you ask your "Presence" to consume the veils between. May I give you Its Message! May I release to you Its Power, and may Its Love lead you on in Everlasting Joy and Victory, that you may more powerfully assist the Mighty Saint Germain. May everything I have at My Command be placed at His Command for His Acceptance — for you know not the Heights of His Love or the Greatness of the Power that has enabled Him to be the Angel Deva of the Violet Flame. My Love ever stands to serve Him, and you, whom He has chosen to help Him free the Earth. Let us from tonight know there are no veils between. Let Us come to you, and you come

to Us, and receive those Powers that bring you Perfection everywhere. This night do We clothe you in the Love of the Sacred Fire, the Mighty Scepter of Perfection; and the Calls from your Hearts shall draw the Response from Ours, until once again Heaven and Earth meet, and the Song of Earth is harmonized with this System of Worlds, and the Light begins to shine brightly from the Planet Earth and sings Its Great Supreme Song of Victory.

Again I thank you, Precious Ones, for the love you have given—the recognition that has come thus far. Now the Way is open, and I shall offer you many things for acceptance—Beauty, Perfection, Purity, Love, and Protection from God's Heart, and your Life will automatically know the Truth and the Reality of My Gift. Then as you give it to others, I can give you greater Gifts, until never again will you feel that you are struggling under problems, or that your world is limited. If limitations seem to appear, your Call to Us will dissolve them, and your Freedom will be Real and Boundless forever.

Thank you for this Privilege of speaking My Heart to you all. Try Me out, and see how much I love you! See how much I can give you! Try Me out, and keep the Door open, and see what I want to give you. May the Mighty Cyclopea in His Service through the Royal Teton ever have your Blessings, and all that We can bestow be released into your hands and your direction to assist in fulfilling the Destiny of your Nation and the cleansing of the Earth, till the Freedom of the Love of God's Heart reigns in Full Command on this Earth forever.

To your Mighty Saint Germain do I bow again in Gratitude for all He has given for the Expansion of the Sacred Fire on this Earth and for the Freedom of Life, that you may all enter in and become the Great Song of the Victory of His Heart, of My Heart, and the Heart of every Ascended Master and Cosmic Being, until only the Song that Life sings in Its Perfection of Love ever again can sing in the atmosphere of Earth. BE That,

My Loved Ones, and enjoy that which God offers in the use of that Great Life of Cosmic Activity. Thank you, and may We meet again when you have received more of My Blessings and live close in the use of Their Powers for the Freedom of all Life. Thank you again tonight, and feel the Mantle of My Love become Real and Tangible and Visible to you with Full Power. Thank you forever.

### *Gems of Light*

*Beloved Saint Germain:*

I DEMAND, I COMMAND the Unfed Flame in my Heart go to the Realms of Music, and draw back into my intellect the Information and the Explanation of Life's Activities which are there—things which make me happy. I enter into this Realm of Music and learn of Its Purpose and Power, and bring that back into my waking consciousness to assist mankind of Earth to know more of God; and thru me, radiate that Desire to mankind, and reveal to them the way out of the shadows and into their Homes in the Light, where abides real satisfaction from all distress.
