

and keep everything out of your home but the Harmony and Perfection of the Ascended Masters; and to stand place on guard at your doors so that no person, place or condition comes into your home that can carry anything but the Perfection and the Harmony of the "Presence." Then you will establish such a Mighty Focus within your home—that already has a beautiful atmosphere—that your Call, your Decrees, may find almost Instantaneous Manifestation.

Never joke about the Law—anyone! Always be happy and full of fun—that is wonderful. I rejoice so much to see it. Don't become too serious. Give each other absolute freedom in every way; then see the great Happiness that will fill your world and being that is the same to all.

Oh how We rejoice to give Assistance as mankind's great love and happiness comes to us. Oh that you might really feel Our Great Reality! And one day you shall! Don't be discouraged. One day you shall all feel and know the Great Reality, really, and I hope it is not long. You Blessed Ones, all of you, don't fear that every earnest, sincere effort that you put forth ever fails to receive its answer. Oh it is so wonderful, and I know the Freedom that stands before you in your firm, determined Application. Nothing can keep you from it. Don't let any feeling ever talk back to you and say you can be deprived one moment of that Freedom and the Goal of your Ascension.

One who will speak to you now needs no introduction, I am sure—the Beloved God Tabor.

The Beloved Mighty God Tabor:

As I have held you in My Embrace of Light for many months, so do I consider it a Privilege in rendering that Service which will enable you to feel more deeply your Freedom in the Call to your "Presence." Having been so closely in touch

with the God of Gold and the God of Nature, and knowing that in the release of wealth from the Earth is the Purest and Greatest Blessing that can come in providing financial supply for the Children of Light, it is My very firm Conviction that channels will be opened in the release of wealth from the Earth that will give you all you require to go forth in the establishing of this Great Freedom and Activity for mankind that every Heart so earnestly desires. For in this day, while We give it no power, money is a great objective still to many, and with money, much can be done more quickly through a harmonizing activity. It is curious, isn't it, how quickly mankind will harmonize with that which they require in their expenditure—how quickly rebellion goes down in the feeling. The first requirement for that release is great thoughtfulness and kindness in speech and action.

I tell you frankly, Dear Ones, it would not have been possible for the Messengers to have been sustained in their Work if they had not actually, really, poured forth that Great Power and Intensity of Divine Love. That is the only reason that abundance has come forth to sustain the Work; and while they have had to be very positive at times, even at that, no one could say a word against their kindness, love, and sincerity. That is a great, great thing in your daily life and activity. How often a kindly word or a touch will quell and silence a greatly disturbed feeling in another, when just a word with an unkindly feeling would fan it into a flame of great disastrous condition.

Now I say to you, you who want your Freedom: the supply of money you require, the full consciousness of your ability to call forth that which you require, can only be accomplished through your kindly speech, your kindly action, your kindly feeling; and the provocation of the outer world cannot be taken into consideration, for you might *think* very clearly, but unless you become master of your *feelings*, how can you allow the Power of the "Presence," or which We and the "Presence" wish

to bring forth, to give this supply you need? And it is quite right, everybody should have that which they require, so long as it is Perfection.

Now then, let us feel this all so very practical tonight, that we will take a firm, determined, unyielding stand from tonight, and with determination, decree and call the "Presence" into action to see that we do not speak an unkind word or have an unkind feeling, no matter what the provocation of the outer world is. Know this is the essential of bringing the money we require, and the Harmony and the Love that brings the abundance. Let no one ever allow the feeling of jealousy of any description to register in their beings or conditions—persons, places, or whatever it may be. I assure you, it is the serpent in your garden of happiness, and don't let it act. Silence it with great determination the instant it starts and say, "*Mighty I AM Presence, take that out of me once and for all, and never let it raise its head. Forever silence it and sweep out of my world—cause and effect of it!*" Any feeling of that kind is but a human concept and activity.

Oh but we rejoice so much, and may I, as a very happy thought, convey the Love and Blessings of Rex and Nada, Bob and Pearl, Mr. and Mrs. Rayborn, Mr. Gaylord and his Friend, and Chananda from His Home in India—They send you Their Love and Greetings and Blessings and Happiness. Precious children, I trust you feel how great the Love of Nada, Rex, Bob, and Pearl are for you two. You are just a little younger than They. They know your feelings; They know your Hearts, and They want so much for you to have the Fullness of the Happiness which They have; and with great Harmony and Love and Freedom, you may have It!

How wonderful it is to enter into these Heart-to-Heart Talks where so much can be done, with no discordant vibratory action, and where the feeling grasps so wonderfully That which We endeavor to give forth. It was a very comical thing the other

night when Beloved Leto was talking and She touched upon certain things—to see twenty people in the room look around at each other. You know, We too rejoice in seeing the peculiar activity of the human, and how little they realize they are giving themselves away in such an activity; and still We just smile and rejoice at their eventual Victory. Is it not a most wonderful thing to be so free from concern? Notice, I say free from concern about the accomplishments of individuals—when you know your Call to the “Mighty I AM Presence” does the most wonderful thing for any individual to whom you wish to give help that can possibly be done—and a thousand times greater than you physically could do. Is it not wonderful? You need not be concerned, but call the “Mighty I AM Presence” into Action to hold Its Perfection and Dominion within the condition or person, whatever is required. Won’t you remember that with such firmness and power that Its Full Power of Action takes place in your world.

Each one of you, Precious Ones, do you not see that there is not anything We would not do to give you Happiness and Freedom and your Ascension. Just know that We always stand ready and are pouring forth hundreds of times when you do not dream of it—unless you come to the point where you feel the Current pouring through, as most of you do now, I am sure.

Our Blessed Messenger of Light, may I speak to you My Thanks and Praise and Gratitude for your dauntless Courage and Strength that you already have had to command the structure of your body to be obedient and to accomplish as much as you have. It is a very wonderful thing, and Our Praise and Blessings always abide with you to give you greater and greater command of your body, until one day it obeys every command that you make and is filled with that Joy and Strength and Happiness, and the Perfect Harmony maintained, that no pain can touch your body—ever; and that no human thought can ever touch your body, just the Full Feeling of the Perfection of the

“Presence.” May We clothe you with That tonight to become ever active and sustain you.

Our Blessed Betty, I rejoice in the Great Victory you have won, and We call the Power of Light to forever sustain It in greater and greater Victory, and to fill you always with Its Mighty Happiness. And to all you Precious Ones, We clothe you in that Light tonight with Its Invincible Protection, with Its Mighty Lifting Presence, Its Mighty Directing Intelligence, with Its Power through your Acknowledgment of the “Presence,” so that all persons, places, and conditions, no matter how or what they are that touch your world, must come into harmonious and happy agreement and obedience to that Great Light that does give you your Freedom as the Great Law commands. We give Praise and Thanks that It is established with Full Power for everyone—sustained. Let us feel the Glory of That and have Its Mighty Action.

Will not each one of you begin now, some few moments each day, call to Me to anchor within your consciousness and feeling the quality of your ability *to command the elements, to silence or part the storm, to withhold the frost, and bring rain where it is required, to establish a condition of sunshine or moisture where it is needed*. Oh Precious Ones, do you not see—in cooperation with Us—how it is possible for you to become an authority in the world in which you move and have manifestation of the Acknowledgment of your “Presence” in Supreme Command! It is possible for every one of you, and tonight let this be an established Activity within each one of you.

I must not take more of your time tonight, but Our Joy is quite as great as yours in the Fullness of Our Love—My Love—Beloved Saint Germain, Nada, Leto, Chananda, Meru, and Himalaya, Lanto, Cha Ara, and the Angel Devas of Blue Lightning who are serving so marvelously in holding your world free of disturbance.

Mighty Lord of the Light! Serve each one in Thy Great,

Harmonious Activity. See that every human being who touches or hears of these Loved Ones comes into harmonious, happy obedience to Thy Great Law and serves these Loved Ones with harmonious activity, and with the supply of all things that is required. Mighty Universal Power of Light, come into action tonight to see that This is done for each one of these Loved Ones, and glorify them in the Fullness of Its Activity until It is sustained; and We give Praise and thanks that it is done!

I bid you goodnight.
