

Discourse by
Beloved Mrs. Rayborn
Through Mr. G. W. Ballard

New York, New York

May 20, 1938

My Greetings, Beloved Ones, in the Joy and Harmony of My Being! While We are here, We shall also direct Our Love and Harmony to enfold our Beloved Mrs. Hall! Her Beloved One has fulfilled his great Joy in the long years when he had wished to contact the Great Host of Ascended Masters. Now it has been his privilege to meet Them, so it is not occasion for sorrow in any way, but one of great rejoicing for his Freedom!

Isn't it a wonderful thing, Beloved Children of Earth, to know that there is no such thing as death anywhere in the Universe! Think of all the mistaken grief that mankind has experienced—not knowing. But today is being restored the glorious, wondrous Memory of Life in Its Fullness, and with that Memory is coming the Glory of Harmony and Peace in the understanding of mankind, wherein they may come to know directly and individually the Glories of all that is.

You don't have to make the Ascension to become aware of the Great Perfection that is yours; for all forms of Life first receive through their feeling, and if you only understood, stilling yourself and listening to your Heart, what Revelations would come! I am going to say something possibly startling to you, but do you know that every Heartbeat is a spoken word to you? Really and truly, every Heartbeat is a spoken word to you of Love and Light. I call your attention to this tonight, that as you still yourself and call forth

the Powers of your Presence, the “Mighty I AM,” you may come to understand the spoken language of your Heart. That language is the most beautiful, the most perfect, because no human imperfection enters into that.

You have long heard the Voice of the Silence, haven’t you? Did you ever know that that Voice was within you, your Heart speaking to you, which is the Law of Harmony, and never knew anything else. Mankind have thought that their Heart was disturbed by outer conditions, but never so. That is but a human concept again. The Heart, being the miniature Flame from the “Presence of all Life,” no imperfection can enter your physical Heart.

Mankind have imposed upon their Hearts many feelings that do not belong there and have accused the Heart of being imperfect—going too fast or too slow. That was not the Heart, but your human concept of it; and as soon as you can change your human concept, your Heart acts normally and perfectly. The Messenger has proven that innumerable times, and he found that most of the heart trouble was gastritis.

So tonight I want you to feel, if you will, that your Heart is the Center of Harmony of your Being, and your acceptance and recognition of that will enable the Presence, the “Mighty I AM,” to release to you, through you, and into your world of action that great harmonizing activity which mankind requires today more than ever in releasing the Powers of the “Mighty I AM” into Action to do for them what is required.

I say this to you and to our blessed one conducting the meeting, that in and through the old masters which we have studied and appreciated greatly, they were but the forerunners of the greatest Perfection in music that was trying to come forth then; but the lack of

understanding of the “Great Presence of Life” only enabled them to strike certain parts of that great Harmony of Life—and at those times, those melodies have lived on and on, creating and carrying mankind oft-times into a vibratory action that has been the savior of that individual.

You, most of you I think, know what Beloved Saint Germain did for Me right here in your city when for the first time I understood what stage fright meant. This part of it has never been conveyed; but why do you suppose suddenly fear beset me without any reason at all? Because there was a force seeing what would come to me in the future that attempted to interrupt my great outpouring of Harmony. Saint Germain, seeing this, silenced it forever and came to my rescue—and from that hour on when He touched my forehead with His Hand, then I began to know the Glory of all that the Music of the Spheres meant, and I went forward to boundless success with my voice.

Closing my career, if you wish to call it that, upon Earth in Cairo, Egypt, and then returning to our home, I received at regular intervals those visits from Beloved Saint Germain—and what Golden Moments! In those Words of Wisdom which He conveyed to me I was able, under His Radiation and Direction, to apply from the first with great Blessing. And yet I was not privileged then as you are today. I could speak to no one. That was a Sacred Sanctuary of my own Heart. Today you are privileged to convey your Blessings to others. And even my family—I could not make them aware of all that was being given to me; for they had, like you today, to stand on their own feet and wait that coming of Understanding.

During that time, I found after My Ascension, that

my Love and Gratitude and Radiation pouring forth through me to my family was doing wonders unheard of that I was not aware of at the time when I so longed to speak to them of all the Happiness that filled my Heart. Then when suddenly the strength began to lift my human form, and Beloved Saint Germain had not yet made me aware of the Final Victory, but when I closed my eyes and thought upon death, I opened them in the “Presence of Life”! Only a few moments, and there stood our Beloved Saint Germain with one of His gentlest smiles, and He said to me: “Get ready! You are not passing on, but You are entering Your Victory over substance and energy! Come with Me and I will show you how to turn upon your human form the Mighty Energy of your Stream of Life—flowing at that moment from My Higher Mental Body which I had entered into. As I turned in that Great Blazing Presence of Light and looked at Myself I could not help but smile, how little we know in the human form of the Glories that belong to our Stream of Life.

Then I was shown how to direct these Mighty Currents of Energy onto my human form, and had the family noticed it, they would have all seen the change within the hour; but having the attention upon death, as they thought, they failed to see the Radiance of Life encircling the form. Then We allowed the form to be placed within the tomb, and then I arose with that Perfected Form in which the substance of Earth has no barriers.

As the Ascended Masters pass through seemingly solid substance, so was I released from that tomb of metal and rock. Can you for a few moments feel what such a thing meant to Me? No words in any language,

with all the Power of the Elohim, could convey the Feeling that surged through My Being at that moment, knowing that never again in all Eternity would I be required to build another human form!

Now remember that in that embodiment there had been no great distress as many have experienced — and yet the Joy was so great in the Freedom that was Mine! And then many of the things Saint Germain had told Me became a living reality in My experience; and then I began to use Powers of which the fondest imagination can scarcely conceive; for do you realize what it means to suddenly step into a Pure, Perfect Body of Light with all the Powers of your “Mighty I AM” for use at any moment? Such was Mine! Then My only concern was hoping that My family might have the same Great Joy! But remember, Saint Germain is a very peculiar individual — He never tells you much beforehand, and as He must have seen My great longing, He never said a word. When He had sent the Message to My Beloved Ones—not letting Me know anything about it—then on the second night that He was in our home, Saint Germain came to Me and said, “Would you mind coming with Me?” I said, “I would be delighted always!” and I immediately began to feel something unusual. Presently We stood in our home, Our bodies still invisible, and there I saw the wondrous Radiance in the receptivity of My Beloved Ones to the Messenger. Then I saw the rest. I saw that My great longing, My great Desire was soon to be fulfilled. Can you feel with Me what that meant, Beloved Ones? Words could not describe it, so I shall not make any attempt!

Later when Saint Germain brought our Precious Bob to the Cave of Symbols and We were there to

greet him, it was very wonderful! Can you not see, Beloved Ones, how that was a great Circle of Life being fulfilled, and in the presence of Bob and Pearl was the completing of our Circle of Life. How long do you suppose it had been since we had the memory of that? We had met many times, but the memory was forgotten. That is the position that mankind stands in today. In all the Beauty and Perfection that mankind once knew, they have forgotten. Now, as our Blessed One said tonight, let us never forget that our attention to the Great Presence, the “Mighty I AM,” will release Its Beauty and Perfection of Form—as well as that which you term more needful: your supply.

Do you know, Beloved Ones, there is not one of you in this room who could not transform your face and body in the next six months if you only would! You could change them in the great similarity to your Higher Mental Body. That great one who sought the Fountain of Eternal Youth had held the Memory of that Great Beauty which he had once known, and was to a large decree, even then, outpicturing. So today, in all the glory and the freedom that mankind seeks from outer conditions, do not forget to include the beauty of face and form. That is the Outpicturing of the Ascended Masters. O Dear Ones, once that was thought to be vanity, but no longer. No “I AM” Student in the world would ever longer think of acquiring beauty for vanity—but to be the greater outpicturing of the Ascended Masters and all They represent. And remember, Beloved Ones, as Saint Germain has very often said, the Students now, since they have had sufficient time for adjustment, should in every way make themselves the Dignity and the Beauty and the Representative Glory of the Ascended Masters, and

remember what the Power of your attention will do.

I think I shall tell you something that happened to the Messenger once. He had not had the privilege up to that time of attending the theater, and he so longed to go. So finally he succeeded and was so lifted by it that on his return home, stepping before the mirror, he saw there in himself another being—and by the uplift which he had received, his Higher Mental Body showed him in the mirror the “Presence” which he really was—a Memory he has never forgotten or ceased to cherish.

Many people have had wonderful experiences but because of the doubt of their associates, did not hold all that was intended for them. But today, in the Understanding of your Great and Mighty “I AM,” there is not one thing that your Heart desires that cannot be fulfilled in a comparatively short time. Look at the Messenger! When Saint Germain came to him the second time on Mount Shasta and he was considerably concerned about his many desires, Saint Germain said to him even then, “Are not all your desires being fulfilled?” Since, his fondest desires that he had been holding throughout the years—every one, without exception—have been fulfilled.

That is for you, Beloved Ones, every one of you. As you hold steadfast with determination in your Call to your Presence, the “Mighty I AM,” so shall It out-picture your fondest Desire in Health, in Beauty, in supplying the Harmony, which is the great important thing of Life in the human octave.

You will come ere long to revel in the Melodies that lift you and give such assistance in the quickening, holding, sustaining the vibratory action of the atomic structure of your body which those Harmonies

will create. Remember Dear Ones, you are dealing with a Great and Mighty Law of Life, which is Harmony—and music is the greatest outpouring of it, or should be. Much of the distortion today was intentionally intruded; but it can only exist for a certain period; then it too must vanish, and is rapidly doing so. Why do you suppose that before a Great Outpouring of Light there comes a period of seemingly most discordant action? Because mankind, when everything is going smoothly in the human octave think, “Oh, I should give attention to something else—to my joy through the human form.” There is where the great mistake is. Then would be the opportunity to take advantage and call forth the Glory and Perfection of your Stream of Life! But mankind have not understood. They could not be blamed for what they had forgotten—except that they had forgotten it; but now you today who have the Understanding and the minutest Application before you, is there any excuse why every one of you should not outpicture all of the Perfection which your Higher Mental Body is?

Remember, your “Presence,” through your Higher Mental Body, has given you the Light Pattern which is within your physical structure, Beloved Ones. It is not outside, Dear Ones. How would you be able to perfect and raise the purified structure of your physical bodies if that were not the case? You would not be able to do it! But I say to you, the “Presence,” through the Higher Mental Body, has provided the Light Pattern through the atomic structure of your body. That is the Real You, not the covering—because, unfortunately, you have covered it with great density; otherwise your Light would shine through! Your Light would shine through this structure of flesh. It does already,

only your eyes are not yet attuned to the Vibratory Action where you see It, although the Messengers see It about you.

That is how the Great Joy of Life is flooding your being and world. You don't have to seek the Inner Sight and Hearing, but as you give great intense Adoration, great calm Adoration to your "Presence," all of these things, these faculties which you have in your human form, will begin to act from the Octave of your Higher Mental Body, all perfectly natural in Divine Order at all times.

How do you suppose these eyes see and the ears hear, and the vocal organs vibrate to form speech? Oh, not by the human structure, but by the "Presence of Light" and Energy from your Higher Mental Body, from your "Presence" of all Life. And it is those Faculties from the Higher Mental Body that cause to vibrate, and be brought into your use in the density of the human octave, these organs within the human form.

Is it not magnificent, Beloved Ones, when you come to understand—even the outer structure which you are—and then far more wonderful when you come to understand that back of that is the "Great Presence of Light" that is the Victory of Life! You are that Light! You are not the physical, limited structure, and once you realize that all that acts in you is the Power of Light, then you will know that your fondest Desire can be fulfilled—and quickly. Look at the thousands and thousands of Students today who are receiving hourly, daily, the fulfilling of their Desires. Within the Staff surrounding the Messengers are Miracles after Miracles being performed! Within your lives are Miracles being performed! Some of them you do not see outpicturing, but I say to you, if you will go on in your

earnest, firm, calm determination and application, you can so quickly stand forth and raise your hands to the “Presence” and say to that “Great Presence”: *“Thank You! At last I know my Freedom! At last I know there is no human creation in the world that has power to touch, retard, or interfere with the Expansion of my Glorious Light, the Light of my ‘MIGHTY I AM,’ THE LIGHT OF GOD THAT NEVER FAILS!”*

Such is the Edict of Life which Life speaks to you. Stand in the Glory of that Light, Beloved Ones, beating your Heart, and never waver for a single instant from Its Mighty Power and Victory that is the Controlling, Masterful Presence of your outer form and your world of action. That “Presence of Light” that beats your Heart holds the anchorage of Infinite Power and Victory of all you require, and there is naught in the Universe to say nay to It. To every discordant appearance in the world, say: *“You have no power!”* and let the Power of your “Presence” through that mighty declaration flow forth and dissolve it into the nothingness which it is; for all human discord which has such terrifying appearance to mankind is nothing but that form and has no sustaining Life, except your attention feed into it to come back and frighten you.

I used to do that too, but not any longer! Think of it, Beloved Ones, of all the energy that I wasted—that many of you have wasted—in thinking that the effort of the human activity was the thing that brought Perfection. A certain amount of it is necessary for training the atomic structure, but the Great Power or Perfection comes from your “Presence,” and when intensity enough is given to the Desire, it enables the Power of your “Presence” to release it—and you think

you have accomplished it by your physical effort.

I thought that too, once, but I found the mistake. How privileged you are today, Beloved Ones! As I have observed the Students of America and the world, I have seen so many whose Hearts were so great, and there, resting within that feeling world was the disappointment in what they had longed and felt their voice should do. If they but knew it still, the Great Power of the “Presence” could change that Heart to its original color and flood forth the Voice of the “Great Presence of Life,” and they stand victorious in their great Desire.

Is it not wonderful to know that at last mankind is coming to know and understand that even though they have lived so many years in limitations, limiting themselves upon every turn, that There, beating their Hearts, is the “Presence of all Life” that will release at their Call—by sufficient Harmony maintained in their feeling world—and again restore the Beauty, Perfection, and the Harmony of Life that will express Itself and bless them forever.

Words cannot convey, Beloved Ones, Our Love, Our Gratitude, and Our Rejoicing with you at the slightest Victory you gain in your acknowledgment of the “Presence”; for every one means the Final Glory and Victory to you. Every little thing added together makes the Great Final Goal of Life, and as you bring together the small pieces to make a physical structure of form in your buildings, so does mankind gather the Perfection of Life, once they understand their “Presence.” And then from their building and from their Garden of Life is plucked out all that has grown there undesirable, and in its place are planted the Flowers of the Perfection of Eternal Youth.

That is what you are doing now. You are planting

within the Gardens of your Being the Flowers of Eternal Beauty, Perfection, and the Harmonies that are blessing you far beyond what you yet outwardly express, except that you are beginning to feel now the great Poise, Peace, Love, and Harmony—even in the face of things that would otherwise have terrified you.

O Beloved Ones, I have so many times wished that We might release Our great Wealth that is still here in the physical octave to the Great Light; but Saint Germain said, “Not yet.” But the floodgates will open one day to these Beloved Messengers, and all the wealth of America will be at the Service of the Light.

I ask you, please, if things financially sometimes seem to weigh upon you, please don’t be discouraged. Go on! Your “Presence” will never fail you. Remember, only about five and a half years ago the Messengers were living on one sandwich a day—and see the difference today. That came through the most dynamic Application that individuals ever made, and in the face of the greatest hatred ever directed to two human beings. Now then, if two individuals can do that—how? *By knowing that human creation has no power!* That is what they know, and that is why they have gone on untouched by all human discord.

You can do the same thing, Beloved Ones; but you must be firm, dynamic and determined in your Application, and *know* It cannot fail—because It is the Power of Light, the Power of God, your “Mighty I AM Presence” that you are talking to and about, and are calling Its Mighty Intelligence, Power, Energy and Light into action to supply you and do the things that are required. How can It fail? It cannot do it and never did! Don’t let those feelings enter your world that your Call to the “Presence” could fail in a single thing. It cannot do it, and I stand with you in that Power

and Determination that gives you the Strength to know that—and forever! There is no defeat to any human being who knows their “Presence”!

I trust our Blessed Friend of the Light who has done so much for the Perfected Harmony of the musical world will go on in her great, great opportunity to give to the world the perfected application that brings so quickly the outer structure into the Harmony of the “Presence.” That Blessed One is in the audience tonight!

Oh the Joy, Beloved Ones, to know that you stand the Mighty Focus of the Victory of all Life that naught can interfere with but yourself—that your great Determination is the outer activity of the “Presence” holding you in Obedience to the Great Law that releases Its Power in whatever department of Life you wish to find expression! So tonight, in the great Joy and Release into your world of action—when I see the blessed young people today who are coming into this Understanding and finding such Joy, and some of the Precious Ones who have stood against such great odds, oh, their victory is wonderful—I shall endeavor to give every one My Strength and Courage to stand in the Victory of their own “Presence” and have Its Glories fill their world!

Tonight, in all the Joy that fills My Heart, take It, let It fill your world, Beloved Ones, with all the Glory that is Mine. Let Me hold you in My Arms of Light, that you may feel Its Victory, Its Strength, Its Courage, Strength and Determination that in your attention to your Great “Presence of Life” is your certain Victory and Freedom in the Light, and I thank you.
