

Discourse by  
Beloved God Harmony  
Through Mr. G. W. Ballard

Washington, D.C.

November 13, 1938

In seeing the need of the Earth today and hearing the Call of so many earnest individuals, it has drawn My Attention to the Earth once again, as in those ages so long forgotten when all the Earth knew Me and expressed the Harmony which I represent to the Earth. And in song, in praise, in every activity of Life, Harmony was given, honored, and through the Harmony sustained in Life was Life given complete Obedience.

In the close of the Second Golden Age it was My Joy to come forth in the Tangible Body and teach those in charge how to release the Harmony from within the human form. Today I have returned to render that Service to those of Earth who will be kind enough to give Me their attention. In the conditions from which the Earth is being relieved, it will make it possible for the Greatest Harmony the Earth has ever known in more than three hundred thousand years. And to the degree there are those among the Students of Light who wish to give daily attention to the Presence and Power of Harmony, may that Power of the Harmony within Life find Its Action in speech and song and praise to Life.

How needful today is the praise to Life! Children of Earth, could you suddenly realize all that it meant in giving instant Obedience to Life in the Great Harmony which it is to you, then would you fully realize that no longer are you subject to the conditions that had been gathered through the centuries. And I remind you again,

as you have been before, of the privilege that is yours to reestablish yourself in the honor of Life, having so long forgotten to give even a thought to Life, or praise for all Life has supplied you with.

It is quite true that you had forgotten Life; but had Life forgotten you this long, long time, you would not have been here. I call your attention earnestly to this tonight, that you who have come to understand the Great Law of Life to your present degree may give that praise and gratitude to Life that will release a greater Fullness of Life to find Its Dominion and Expression through you and before you. This is one of the greatest opportunities—in finding you can call forth, to be projected before you, Light Rays of Power that harmonize your pathway and prepare it for your coming.

The Great Ones of the Ages who have come forth to bless mankind have rendered mankind that Service en masse, because They have projected the Radiance before mankind, and those who would accept Them had the Blessing which That brought to them. But today, how far different! Since you are coming to know your own “God Presence,” the “Mighty I AM,” and by your Call to It, It is projecting constantly before you—if you will but realize it—those Mighty Light Rays of Power that harmonize, dissolve and consume all discordant accumulations of yourself and that which touches your Life Stream, and places you in the position of Authority of Command over the energy and substance which Life supplies you.

Will you not understand and see tonight how Great is that Authority? Even throughout one hundred eighty thousand years these various Statements have come down to mankind, but just like so many other things, mankind voiced those words with no comprehension or feeling

back of them; therefore the result was nil. I say to you today, just a little further beyond, not around the corner, however, but just a little beyond, as you enter into this Preparation that is now being made in the release from the conditions of mankind's accumulation, then will you understand more of My Presence tonight.

There are two elements the Earth must have today, and very soon. They are the Law, the Action, the Power of Harmony sustained within the individual; and then must come the Goddess of Purity to establish Purity within the thought, feeling and action of mankind to spread Its Radiance over the Earth, that all mankind may feel Its Presence and Power. Beloved Students of the Light, if you, from Our position, looked upon the Earth and saw the depravity that is there today—seventy-five percent of which the black magicians who have been seized and removed from the Earth are responsible for—you cannot imagine, Beloved People! Some of you are experiencing some touch of those things from time to time, but you cannot imagine the conditions at various parts of the world. And oh! you of America are in Heaven in comparison to the rest of the world!

The eastern hemisphere, My Dear People of America, may I use the expression, there are thousands in America today with their high ideals and determined intent who are actually Angels moving on Earth in comparison with the conditions that exist in other parts of the world. All moral sense and balance is gone. Can it be restored? We shall see. If We knew what discouragement was, if We knew what failure was, then I would probably say to you tonight it would be impossible to change it at this time. But I say to you, the Power of Life is Supreme, and once those of a nation begin to give Adoration and Praise to that "Presence of Life," then all things of Earth change in that environment.

Mankind is no longer authority upon this Earth. Mankind has been, because of the human free will, but since the human free will of destructive individuals is withdrawn, then the Power of Life becomes the Supreme Commanding Presence, and at the Call of a number of individuals will that begin to act with Its Full Power. And I say to you, in your great Student Body today, you stand in the Supreme Apex of Life, ready to call everything into obedience in the energy and substance and power of Life. There is no power of human creation anywhere upon the face of this Earth that can be opposed to that Power of Light; for it knows that That Light projected upon it will cause it to dissolve and disappear.

You, as individuals acting within this Great Power of Light in your individual world, are the same as that Great Cosmic Power of Light acting upon this planet. You are a miniature planet within yourself, a miniature world. You probably do not know it, but yet it is there for your command, for your direction, and through those Temples of Light. Why are they Temples of Light? Because of the Light Pattern that holds your physical structure together. Then those bodies are the Temples of Light upon Earth in spite of the appearance. Many bodies, human forms, do not look much like Temples of Light, but yet within those forms is the Pattern of Light which could become the Temple of Light. Mankind should awaken and realize that those human forms are the greatest conveyers of energy known on Earth today! But how few are utilizing it! Just see how little of this Mighty Energy you are using! But yet look, Beloved Friends of Earth, what you create in its gigantic power. Look at your war machines. Look at your bombs filled with destructive power that could be charged with the Power of Light to go through the

atmosphere of Earth and dissolve and consume forever every discord there. If mankind would be as anxious to bring about the powers of constructive activity as they are of destructive activities of war, then they would have the Earth's atmosphere charged with the Power of Light, Energy and Happiness, and Perfect Accomplishment of the individual sent forth on his Pathway of Life. But since they have forgotten, then mankind must have assistance to again reawaken into that which once was theirs.

You, many of you, have once lived in magnificent homes, and the selfishness and discord of mankind has taken that away from you. You, Beloved Ones, have taken away from Life its opportunity to set you free in all Its Great Perfection, Its Happiness, and Its Limitless Supply of every good thing. When I come into the atmosphere of Earth and I am compelled to observe in various environments the feeling acting within the homes of mankind, it is a most unhappy thing to look upon. But since those Great Ones are making such tremendous effort to release and to set free mankind, then I, too, have joined those, the Servers of Light, and through the Service of Light have become the Master of Light.

So We come to you, Beloved Ones, in spite of the ridicule of some of mankind who say We are but a myth of this wondrous being's imagination. How unfortunate there are individuals who stoop to that thought. These two Messengers who have been strong enough to carry this Light, I am more than pleased to see the vast number of people whose great Love pours out to them like a mighty river. You do not see it, but Beloved Ones of America, Beloved Students of the "Mighty I AM," if they had not been able to call forth the Love from mankind, mankind was fast being submerged under a shell of human discord never to awaken.

You do not realize how they have drawn you forth,

and I mean by that, the *real you* within the form of flesh, and how your Love poured out to them, to the Light, has been your release. Love! Love! Love! with the Power of Divine Love, Beloved Ones of Light, with no human qualities! Pour out your Love and Blessing upon your fellowman, upon every living thing! Then will you know what the Power of Harmony means to you in the perfecting of your world. You cannot pour forth a blessing without the feeling of kindness and harmony, and it is My Privilege now to begin to release that once-forgotten activity within your world. When I say “forgotten,” I mean just that. You, in the Harmony that you experience today—Beloved Ones, it is such a fragment of what you are capable of expressing, that I say you have forgotten it; because the fragment you are using is not a comparison to what you may express if you will.

I ask you to observe these two Beloved Ones. Compare them four years ago and today, and tell Me if there is anyone who can deny the Expansion of Divine Love, Power and Harmony that is expressed! If that change can come in four years, then with a concentrated activity of the great Body of Students today who are actually decreeing and calling for each other as they call for themselves, and for the Freedom, Power and Protection of America, so are you becoming One in the Great Body of Light. Try to feel that, and try to appreciate all that it means in your individual lives. And as your precious Lotus has said to you so many times, when you have enough of the “Presence,” you will have the things that you desire. If you seek the “Presence” for all that It is, then all things must automatically manifest in your use, and in advance of your requirement.

So I say to you, in the Fullness of Life and the great harmonies and melodies that will come forth, you are just having a little touch of it in these recent magnificent

harmonies that have come forth, that every time you hear them you will feel the Greater Power of their Activity. I ask you to observe and see. We bring you proof of the Great Law which is your Life. Observe it! Do not pass it by and say that it is just one of the occurrences of Life. Life is intelligent. Do not forget it! And every point of Light in your body is intelligent. It wants its own, and yet you have shut it in. You have imprisoned in your forms of flesh the Light of Life which would spread Its Radiance everywhere before you, which It once did. Yet today, because of the density with which you have clothed yourself by discord, the Light is compelled to remain silent now. So make the Calls to expand the points of Light in every cell of the body. What a Glorious Acknowledgment! What a Glorious, Obedient Activity of your Call to Life! It is a very great Acknowledgment, Beloved Students, a very great Acknowledgment, and has very great Power to expand that Light; for when you have expanded It enough, no inharmony can again touch your world of action. Realize it! Be earnest, sincere, determined in that Call to expand the Light within your bodies; for here, beating your Heart, is Its Anchorage to the Infinite Power of Light within the whole universe. And yet mankind goes on in its unbelief, refusing to accept the Full Outpouring of that "Presence of Life" which would expand the Light within the body until it would become self-luminous.

Today the Ascended Beings are those whose Light illumines the room! And your Beloved Saint Germain, thousands of times, has come in and illumined a room like this as brilliant as noonday from His own Radiance. So may any Ascended Being. They intensify the Light from within Themselves, and Its Radiance pours forth. Or They can command the atmosphere in this room, and it produces Light. Light is all about you! Light is

the substance from which all things came, and once you return to that Great and Mighty Consciousness, that Great and Mighty Feeling of Reality, then mankind will begin to command Light, to command Life, and give such Obedience that Harmony will be the governing Power of their world and of Earth. In the days to come there will be established those Mighty Activities of Harmony within your Earth, that mankind will come from all parts of the world. And when they have spent one, two, three, up to seven hours within the Radiance of such a Great Focus of Harmony, they will be in full balance of all the faculties of Life. Then your penal institutions will have ceased to be. Crime will have ceased to be; for where there is Perfect Harmony, there can be no harm.

That is what the world needs today—the completeness of Harmony. And It can only come by the Full Release of Light that beats your Hearts and flows forth from your bodies which would compel the harmonious action of all forces moving about you. Will you try to feel with Me tonight how you, in obedience to this Great Power and Presence of your Life, with My Amplification, you can produce, call forth, and hold sustained in action absolute, complete Harmony in your feeling world. That means the success of all your Hearts' Desires and your achievement quickly into the Eternal Victory of Life. Do not pass it lightly by! And Beloved Students, may I plead with you, after this Class, after this Mighty Radiation, don't let the pull of the outer world change you a particle. Go on with the same Glory, Happiness and Radiance you have here. The world wants it! The world will respect you for your strength to hold steady in the face of difficulties, in the face of inharmony about you; for as you stand unmoved will I pour forth My Harmony through your world of action, and you will be amazed how you will stand and be still and see the

## Power of God, the “Mighty I AM,” in Its Dominion of Manifestation.

Every one of you in this room, with sufficient determination, could from tonight go forward in Absolute Harmony in the face of all conditions you might meet; because as you would still yourself in the first intimation of disturbance, you would find the power—first gently, then rushing forward with greater command, until every person, place and condition about you would look at you in amazement, and they would say to you, “What has happened, that these things which once terrified you no longer have power to disturb?” Because you have become acquainted with Life, and Life has become your Eternal Friend in action! Therefore Life is the Commanding Presence in you and about you at all times. That is why the various ones in this Class have urged and urged you to take command of your body, take command of your world of action by the Call to your “Mighty I AM Presence,” which is the Power and Authority to hold Dominion in your Life forever. Only as you yield to the appearance world will you find you have lost your Dominion temporarily. But I say to you, hold it! No longer be the pawn of discordant forces about you that set your feeling world in a whirl, and your confusion allow you to be dormant and made a subject to that discord.

You are in a position where it is no longer necessary. You can be free now! This night! You can hold the Dominion of Harmony within your world; for I have so decreed it to every “I AM” Student in America and the world this night. Remember, I am not limited! There’s no number of people that I may not reach!

As I stand above tonight pouring My Radiance upon you, how I wish that all could feel the full import, the fullness of all it means to you! And this afternoon, when

the Great Divine Director was telling you of this Mighty Quality and Substance charged into your world, O Beloved Ones, appreciate It to the fullest extent of your ability, and let It do Its Perfect Work. Think of it! These Qualities released into your world of action become the throbbing motor of Dominion! And remember, these Qualities are constantly pulsating in a rhythmic pulsation in your feeling world, and one day you will come to feel that pulsation gently, as it continues to pulsate and release Its Great Radiance to bless you.

I tell you, there is not one Student in America today, or the world, that if they would accept fully and completely the Substance which the Great Divine Director has given into their feeling world, that would not allow and feel Its Pulsation to the extent that they would know at once they were *free*, and in giving the Obedience to Life would find Its Full Dominion in Action through their worlds. May I say to you tonight, as Others have said, you are being set free, people of Earth, from the accumulation of ages upon ages. This is being done for those whose hatred is bitter toward these two Children of the Light. They, too, are being blessed and being saved, for the present at least, from the destruction of their own creation. May mankind awaken and all bitterness be dissolved forever in opposition to this Light.

I shall see what can be done ere long, since I am the Authority for the Release of Harmony to this planet. Who shall say in the coming months what may be done? Will you not call for the Fullness of Its Action, for the Fullness of Its Power to take Its Dominion and give the Assistance to the Earth it needs? Not only you, but mankind have become so discordant, so long they have imposed discord upon nature, until nature is only a fragment of the beauty of luxuriance that it once was. And

you will begin again to smell the glorious fragrance of its flowers, see the beauty of its colors, the luxury of its trees and the beauty of their symmetry. All nature will soon begin to take on a greater beauty, and even the desert will put forth beautiful flowers four times throughout the seasons, and no longer will it be thought of as a desert.

Mankind has not known what creates a desert, a barren land; but it is the creation of too much inharmony that causes even nature to withdraw its forces, and the land remains barren. And yet, going into that barren land, those understanding the “Presence” and calling the Power of Life in Its substance forth, and the Call to the Intelligence within the Four Elements, can produce a Garden of Eden upon the desert, because all mankind who have investigated know the fertility that is there.

May the Earth again return to its Purity and Perfection, Its Great Harmony, that the very atmosphere will sing to you in the quiet. Within the Gobi Desert, within certain parts of India, one may stand and still themselves and hear the Celestial Music. There will be thousands of people in America, provided this Great Expansion of the Light continues, who will sit in the quiet of the eventide and hear the rejoicing of nature. Such is the privilege of mankind. Such will come again, and may you, in your rejoicing, in the Acknowledgment of the “Presence of Life,” your “Mighty I AM,” intensify your Call in the great, calm determination, until the Fullness—and enough of mankind come to understand and join you—that the Fullness of Life, of Harmony, may find Its Dominion on your Earth; and then the Glory of Life will bless you forever. I thank you and give My Hand, the Harmony of Life.
