## **CLASS ATTENDANCE AT THE LARGE CLASSES**

### **Beloved Saint Germain:**

Remember, Beloved Students, let no one spread the disintegrating idea that you should dissolve your larger Groups into small ones. What a great tragedy that would be! Build, build, and build your Great Groups until greater space is required to accommodate them. There is your Powerhouse! Your Great Groups in Los Angeles—those of a thousand, three thousand and five thousand people sending forth these Mighty Calls in one great volume—are the Power which has made such great achievement possible!     The Voice of the “I AM” 40.6:7

### **Beloved God Harmony:**

We try so earnestly to have the Student Body feel more and more in each Class, because their vibratory action raises each Class. Be assured of that, Dear People. You who are attending these Classes at least twice a year or more, My Dear Ones, are more valuable than all the jewels you could carry.

The Voice of the “I AM” 91.2:5

### **Beloved Victory:**

Therefore, in the momentum which you build through giving your Decrees, you are gathering Cosmic Light Substance which becomes, when you reach a certain momentum, an Action of the Sacred Fire around yourselves. That continues until you stand forth the Jewel in the Heart of the Lotus of the Sacred Fire. Then every quality which you have intensified and drawn forth into a momentum bursts—when it reaches a certain intensity of action—into a Flame of that Quality.

That is why, in your “I AM” Decrees, the momentum you have gathered stands around you all, from the Inner standpoint, as a Focus in which you all abide. Then as you dwell within It, and as you harmonize the outer self with the rest, each one of you receives the increasing Action of the Sacred Fire until every Quality stands forth a Living Flame around you.

That is why the people who disregard the Messengers’ Request to come into the Large Groups are missing the greater Action of the Sacred Fire. If they do not understand the necessity of coming together in Large Groups, they are missing the Action of that Fire Element in their own individual momentum, because one individual giving your Decrees alone at home does not draw the same Cosmic Momentum and Power which the Cosmic Law focuses into a room where there are many gathered doing the same thing.

### **Goddess of Light:**

. . . Every time people have left this Light or become discordant or drop away or get lukewarm, it is because they do not keep coming to these Large Classes. And there’s never a person who runs into problems yet—in your Sanctuaries and so on—who hasn’t found those problems because they do not come and get the Radiation that is in these Big Classes! And there isn’t any small Class anywhere that will do the Work of these Big Classes—where all the Students combine to give their Love and their Light and their Blessing and their Calls for the Perfection of the greater Activities of Life in the Nation. When people say, “Well, I can stay home and feel more harmonious”—surely, so can We! We could go to the Central Sun and have a very much greater time expanding Our Light. But just at present this is what life needs—and that’s the Purification of your world.

### **Beloved Godfré:**

Now let us all take the stand that the coming Thanksgiving Class will be ten or a hundred times more invincibly Victoriously, All-powerful than these two Conclaves. And then We'll take, in that Class, the same Command—that the Christmas Class will be ten or a hundred times more invincibly All-powerful than the Thanksgiving Class. That is your responsibility just as well as the Messengers. . . .

You have been charged with enough Power here to raise the planet; and you have given such magnificent Decrees—you have sent forth such Power for the Protection of the Nation, that I am determined to send forth Power to you for your Protection. (applause) Thank you so much.

### **Beloved Godfré:**

As the Decrees are given and the whole Student Body comes together at your Conclaves or these Large Classes, there comes again the intensification of the Sacred Fire and Cosmic Light—and Our Love drawn from the Physical Sun and the Great Central Sun—in and around the whole Student Body to affect the Nation and the world. This goes on in ever-intensifying Action; and that is why We have said from the beginning—where people want to render the greatest Service for the purifying and Protection of the Nation and the redeeming of the world, it is necessary to come into these Big Classes. . . .

You do not have the Assistance to the Nation or the world in a tiny group that you do in a Big Group. In numbers there is Strength and Power. And so in the Assistance We want to give, and that which America needs at the present time, it is very desirable, and it is Our Wish that as many as possible come into your Classes and make those Classes as big as

possible—for the Purification and greater Blessing of your own city and the locality, and then to the Nation and the world. . . .

That which affects the individual's body—or his or her home or business—is governed by the individual's own "I AM Presence" and any particular Ascended Master to whom you call, or any special Activity of the Sacred Fire. But that which affects the city must be called forth by all who live within the city. That which affects the Nation should be called forth by as many as possible who live within the Nation, and that which affects the world must be called forth by some from every portion of the world. And that's why these large Conclaves are necessary. And wherever the Students make the effort to come, they not only receive the Blessing in their own individual worlds because of the individual effort they make, but they also, because of that effort, draw back into their own countries as much as possible, because We are pouring—everywhere mankind will give Us an opening—We are pouring the Sacred Fire of Our Love, the Cosmic Light Substance, and the Directing Intelligence that corrects mankind's mistakes, that purifies the present conditions, and that brings Perfection in the place of discord.
