

## **GEORGE WASHINGTON, OUR BELOVED GUY W. BALLARD**

### **Tribute by Beloved Saint Germain**

*I will be with you again on Tuesday evening, which is Washington's Birthday. And on that day, may We pour forth through you the Fire and Love of Freedom which was the Gift of His Heart to America—the Heart that guarded Freedom for the Earth, the Light of whose Life Stream was great enough to open the Door fearlessly and let Me give this Light in this embodiment.*

*May mankind feel its responsibility to Life deeply enough to value the Gifts which have been given, and to guard them, so those they love may have Freedom and Peace. All here must be guarded and left as a heritage to generations yet to come if safety is to be given now to the people of America. When Life has given great Blessings, Life expects you to protect those Blessings so they may serve through generations the Life that is yet to come.*
