

Excerpt from Easter Class, 1941

**SHRINE CIVIC AUDITORIUM
MRS. G.W. BALLARD**

We ask that Mighty Power of the Blue Flame to go into all the food of our people, into the substance of the minds and bodies of the people, and consume every bit of substance that injures or destroys mankind or dims their Light or delays their Victory. In the Mightiest Blazing Glory we have ever known, may the Full Release of that Mighty Power go forth this day. And may we call forth the Power and Pressure of that Light of a Thousand Suns to go forth and do this and release all required to blaze the Light which at dawn tomorrow morning enters into the Earth and reigns—in spite of all appearances.

Mrs. G.W. Ballard Memorial Talk 29
