

**Excerpts on
ELECTIONS**

I want to show you that you are moving into a time when hourly the Cosmic Light is increasing in the atmosphere of Earth. It must be so, because destructive forces are coming to a terrific vortex in this coming election. And I want to plead with every one of you tonight, as you value everything that means America's Freedom and your own Ascension, I ask you to let not one feeling of battle of any kind go forth against each other.

You whom I have loved for 70,000 years, I might say to some of you tonight that some of you have been very disobedient children in the past. Some of you have been deliberately defiant many times in those 70,000 years. But I did not reprimand you. I did nothing but pour on more Love. And if I could love you for 70,000 years in the midst of some of the degradation of the past, surely you can love each other until this election is past and the war is over—for America's sake—in order to save the Constitutional Form of Government for America which I have given on the last spot on Earth where Freedom could come forth. There is nothing important on this Earth these days but the amount of Light and Harmony you give others and the time and devotion you give your "Presence." . . .

Now I am pleading with you tonight because the conditions of the coming election are the most vicious America has ever

experienced in Her history. The sinister forces are desperate. There is nothing they will stop at. I am depending on the “I AM” Students to maintain the Harmony and the Light that will allow the greatest Protective Power to come forth for those who will give America Her Protection, Purity, Freedom, and Victory of the Constitutional Government that will save Her from these frightful experiences, because if the sinister force succeeds in continuing the communistic activity in this Land, you will not want to live here. I know what I am talking about. I have done everything I could to stem the tide of that thing and keep it out of America. . . .

I want to say something else that you must understand as “I AM” Students. In carrying on this Light and certain activities come up for accomplishment, just feel that each thing that comes up—well, it is a Trust from your “Presence” and the Masters; and because you have received a greater Trust, you should be more humble, more kind, and more selfless, and not let it go to your head and feed the feeling that you are better than someone else in this Activity. No one knows except from Our Octave, but We see what each Life Stream is contributing to protect America and the rights of free men throughout the world. Any discord against an “I AM” Student is discord given the sinister force to allow it to be more vicious. You have a great responsibility once you know this Law.
