

## **THE ROYAL TETON**

### **Beloved Lanto**

The Mighty Cyclopea for long ages only poured this Light to the Earth once in a hundred years. You surely must realize what mankind has generated over a period of a hundred years! Now since this Outpouring is twice a year, you must realize It is to neutralize and consume as much as the Cosmic Law permits of mankind's increasing destruction until the final annihilation of it takes place.

You can be a part of this Outpouring from the Royal Teton by every morning remembering what your first obligation to Life requires you to give to the Life of this world in order to fulfill the requirements of the Divine Law to give you your Ascension. If you will help Us to purify the Earth so the Nation and the world may gain the Ascension, automatically We would have to give you the Assistance for your Ascension. So when you realize your first obligation to Life is to bring back the Light of the Love from the Realms above you, that Love, pouring Its Light into the world around you, will light your way, will harmonize your pathway, will dispose of the obstacles, the obstruction, the delay and the problems, and will give you freedom to act, to reveal the Perfection that the Divine Plan contains for you while you yet abide in the unascended state.
