

ROUND TABLE TALKS

**OUR BELOVED MRS. G.W. BALLARD RESPONDS
TO QUESTIONS FROM THE "I AM" STUDENTS**

BRINGING FORTH INDUSTRIES

Q. For some time we have been thinking of creating our own industries by which the young people will have their supply and employment, rather than going into outer world industries which we have to do now in order to earn a living. This will enable us to be in more constructive achievements, thus giving us the opportunity and time to bring forth new things. Then you're really beginning to build in the new Golden Age.

Mrs. G.W. Ballard: Saint Germain, as He sees you take the lead and provide the "cup" for Him, will bring through many of the things that He has already perfected in the Cave of Symbols that are to be the outer manifestation for our service. And we might as well be the channel for the finer things, because we are the natural channels not only for our own people, but for the Blessing of all in America. Saint Germain gave to the world the steamship, the steam engine, and several other things. Saint Germain gave the printing press in the 15th Century. He has designed already for America a magnificent plan in the living conditions for the general mass of the people. So you would naturally be the channels. If there are industries brought forth, He could bring through you in twenty-five years what would take one hundred years to bring through the outer channels.
