

THE POWER AND PEACE IN THE WATER ELEMENT

Beloved Mighty Neptune

Now let Us take up the Power, the Spiritual Power in water that draws off from mankind the distress and the discord human beings have created by disturbed feeling. Every time you are weary and you place the body in water to rest within that, it draws off the weariness. It dissolves that weariness, in other words. And therefore, there is within the Water Element the Activity of the Sacred Fire that continues to purify everything that is placed within it. . . .

I am here to help everyone draw into the outer self the Inner Essence and the great Blessings of the Water Element from the Heart of the Central Sun. You may have this Inner Strength of Our Consciousness, Our Peace, Our Purity, Our Power of Control that dissolves human creation; but do not consider lightly the Reminders We have brought to you about calling forth the Inner Essence! The Inner Essence is the greater Power, the greater Life and the greater Purity and the greater Love from the Higher Mental Body and the Ascended Masters' Octave that fills the outer self with Mastery. It's the Strength of Life's Perfection to produce Mastery through the outer self. And this has many Blessings from a healing standpoint. It has wonderful Blessings to the power of sight. It can be the dissolving Power of Love that clears the outer consciousness and holds the feeling calm and controlled and powerful—holds it strong against the turmoil of the outer world.

So rest within Its Great Powerhouse of Peace. And were you to call forth the Inner Essence of the Feeling of the Great Elohim of Peace, the Inner Essence of My Feeling of the Water Element and My Control of it, It would bless you greatly; and It would strengthen your emotional bodies with a Power you cannot understand until you become It.
