MRS. G.W. BALLARD

As our Beloved Frederick has played the Adoration to the Goddess of Peace, we send forth our Love and Gratitude to Her, and ask Her to clothe us in Her Flame of Peace while the Goddess of Music is dictating. May there come Her Flame into the physical atomic structure of each one of us. This time may that Flame be made immortally a part of our flesh bodies until that Flame takes Its Dominion and is revealed through us to all. May our Love to the Goddess of Music tonight draw forth into the physical octave of Earth in the name of all mankind that Music which She alone gives to the Earth. There are many who give the great Music of the Spheres to the people of Earth, but the Goddess of Music has certain Authority to blaze that Flame into the emotional world of the people for purifying purposes.

Beloved Ones of Earth, as We enter into the Door of Immortal Happiness, I want you to know that there comes to your assistance from the Heights of Immortal Purity the Music that none on Earth can ever give you. May you realize tonight that the Music of the Spheres to which We refer—that which gives Adoration to that “Mighty I AM Presence”—carries within It the Illumining Powers of the Fire Element, the Sacred Fire from the Great Central Sun. And I want you to feel tonight that as you ask

for the Dispensation from the Great Central Sun for the Immortal Power of this Cosmic Music to be drawn into the lower atmosphere of Earth, the Great Ones in the Great Central Sun will grant the Dispensation to qualify that with whatever Powers are needed to bring into outer action quickly that which diverts mankind's attention from the destructive forces, and so enters into the feeling world of the people that It charges them with the Desire to turn away from discord. And let Me show you how that comes about.

You know, there is a saying in the Orient that animals and men in anger can both be diverted by a song. Well, the Music from Our Great Octave of Existence, when It suddenly charges into the energy of the feeling world of an individual—or groups of individuals or for that matter, even into the animals in the jungle—It stirs into outer action the natural Harmony that is within the Unfed Flame in the human beings and is within all Life when that Life is undisturbed by outer discord.

I am sure some of you have had this experience—and all of you may—that many times canaries or birds that are kept in cages may remain perfectly quiet, but when wonderful music starts within the atmosphere, it moves the bird into action and the bird begins to sing gloriously when that other music is heard. Now just so can We by this great, Immortal Music of Cosmic Action stir in mankind the Desire for Purity, the Joy of reaching up to the Light; and We can shock the attention away from the discord until by a manifestation of the Sacred Fire, We gain the attention for an instant, and the Flame holds Command then forever.

There are many ways, My Loved Ones, by which the discordant activities of the outer world can be handled under the Action of the Great Cosmic Law; and Music, I want you to know, is the Language of Immortality. Every planet

in this System has its own individual Melody and Power that goes forth through the Power of the Sacred Fire that sustains each planet, and all of that, combined, forms the gigantic Anthem of this whole System of Worlds. Therefore, the Stars and the Sun, the Suns of interstellar space, sing their Song of Peace throughout Infinity. And that Song is immortal. That Vibratory Action of the Sacred Fire goes on and on and on, ever creating forms of Beauty and drawing substance into outer action that forever creates more and more manifestation so beautiful, so perfect, that It could only bring Joy to all in Creation. And it is My Privilege to be a part of that Activity to this Earth.

There are Sounds, My Dear Ones, in Our Great Octave of Life, that come forth from Our Musical Activities, Our Instruments and Our Voices—Sounds whose Beauty and whose Power are so exquisite as to almost make you weep with joy, Sounds of Beauty and Perfection that are absolutely irresistible in the feeling world of the outer self. Let Me show you a very concrete, physical example and a very practical application of this of which I speak. You know well enough when you hear wonderful marches how it's almost impossible to keep yourselves from marking the time, the rhythm of the march, and especially when the melody is extremely beautiful. You know when a wonderful waltz with beautiful melody starts to release into the atmosphere and you hear that, the vibratory action goes through your feeling world. There comes a sense of joy and lightness and happiness within your feeling world that is the desire to dance if you have danced in the past. (*laughter*) Now isn't that strange?—and if you haven't, sometimes it wants to make you dance anyway.

Well, I want you to see how practical everything We give can be used in the physical octave. You can positively play

people out of their anger, out of their hate, out of their depression by joyous Music. And within the Music which has the Power to do that, there are certain Harmonies—certain chords that are combinations of vibratory action that hold, for the time being, a certain Activity of the Fire Element. And when that passes through anything, It changes all vibratory action into Itself. Well, there is a Cosmic Action of that Flame from the Great Central Sun which could be drawn into the lower atmosphere of Earth by certain Dispensations that can travel through the atmosphere of Earth, and being of a higher frequency than the ear of mankind hears, It could go forth and purify and do Its Work without mankind ever hearing the Sound unless It were amplified by outer means. It might be—I don't say it is—but I said it might be and it could be that flying saucers sing a melody! (*applause*)

Everything sings in the Universe, Precious Ones, either a song of joy or a song of distress. All vibration makes a sound. Your airplane propeller makes a melody. The passage of the plane through the air makes a sound. A train makes a sound. A boat rushing through the waters makes a sound. And you make a sound in the Universe, do you not? I think so! Well, you might just as well sing a melody of joy as one of complaint; but unless you place your attention upon the Melodies from Our Octave that hold the Purity of the Sacred Fire and draw that into your physical use—if you do not draw Our Purity through that Flame, well, you would not hear the Melody.

I'm not going to talk in riddles tonight, not by any means. I want you to think these things through with Me so you will begin to have a wider understanding of the Universe around you and also the Octave of Music to which you may reach, consciously, by your own Free Will, with Loving Desire to draw the Immortal Music of the Spheres into the

physical atmosphere of Earth to do these very things that will lift mankind out of the discord. We have great Melodies, transcendent beyond description, whose Power is indescribable to the human mind and whose Action of the Fire Element can be so concentrated that wherever that Sound in that Flame blazes through, the human is gone forever. This is one of the most magnificent Powers that is contained within Life; and if people but understood how to use It, their Joy would know no bounds, because I tell you Truth, you can purify and can correct practically everything that is discordant in this world by certain Powers of Our Music.

And when I speak of the Immortal Music, the Immortal “I AM” Music of the Spheres, I speak of those Activities of the Sacred Fire that come under Our Direction that are consciously drawn from Our Temples of the Fire Element in the Electronic Belt around the Physical Sun, and that can be consciously commanded into the lower physical atmosphere of Earth until that Sound is heard by the human ear. And when It gets the attention of the individual long enough as It passes through the body, especially into the energy of the emotional body of the individual, It carries the Qualities of Our Purity into the structure of Earth, into the very physical ground you tread upon, into the very atomic structure of the body, the flesh body. And that can become the Healing of the Nation. That can become the Healing of the atomic structure of the physical bodies of mankind. That can become the Healing Flame that brings Balance within the mind and into the mental and feeling world that can be commanded to seal the Door against the human forever.

This great, Immortal Flame of the “I AM” Music of the Spheres is no figment of anyone’s imagination and is a gigantic Cosmic Power that can as well be drawn into the physical

octave as the Electronic Force out of your atmosphere. I want you to feel that through this use of the Miraculous Powers of Music, you could become so absorbed in that Activity of the Sacred Fire that your very attention upon It, your use of It, and your enjoyment of It would be for you the Commanding Presence of the “Mighty I AM” or your Higher Mental Bodies into your physical affairs, into your physical world, until you would live in the World of Our Immortal Music, and you would hear the Commands for Perfection by your own “Mighty I AM Presence” come into outer action as clearly as you could hear your own voice.

These Powers, My Dear Ones, are within Life. And if you have a semblance of Music in the physical octave, which your best music is—much of the best music that has come forth is but a fragment of some of these other Cosmic Activities of the Music of the Spheres of which I am speaking. And I think you have heard the Messenger say several times that one night after a Dictation, she went home and heard what sounded like a hundred organs playing together. And that was not anyone’s imagination. Why, We have thousands of organs if We need Them.

And you might wonder, “Well, why do you need organs?” Well, because We love Them and We enjoy playing Them. You do! Do you deny Us the same pleasure? You have jewels and so do We. You have flowers and so do We. You have Temples and so do We. You have homes and so do We. You have your idea of God’s Love, and We are that Idea. We are that Flame of Love. So you see, “As above, so below; as below, so above.” You have been told that, but you didn’t know what it meant.

Now I say to you that as your attention comes to your “Presence” first, always, and then to Our Octave, asking for

this Immortal Music to come into outer manifestation on Earth and produce the Flame in the atmosphere about you which goes forth either with Its Healing Power or with Its Harmonizing, Illumining Presence—whatever you desire—It could also be charged with the Power of the Great Central Sun Magnet to draw into your outer use Its boundless Supply of every good thing. I am very practical, and so is Our Music very practical; and it seems to Me it is far more sensible to heal the body by the magnificent Joy and Beauty and Purity of Our Flames of Music than it is by the torture method of surgery.

Try to realize, Precious Ones, that since the Flame of Life from the “Mighty I AM Presence” that comes into the Heart builds the body, well, the same Flame of Life, if allowed to expand through the body, would restore its Perfection. And all Healing of the future, My Dear Ones, will be done by the Light Rays or by the Music. All crude methods must go. All bulky equipment must go. All that is complex in the outer world must go; and I might say to you, all the involved, wordy terminology of outer world education and science—it, too, must disappear, because the higher you go in the great Perfection of Our Octave, the more simple does everything become.

And do you know that the fundamental Qualifications of the unlimited, immortal use of all these Blessings to which We turn your attention are, first of all, Humility, Purity, Obedience, and Harmony. Without Humility you cannot have but a fragment of the great Blessings We can bestow. Without Purity you could not have those Blessings because They would become distorted. Without Obedience you could not receive those Blessings because you wouldn’t give Us your attention at the right time and in the right way. And without Harmony you cannot produce Perfection.

Precious Ones, those who have the backbone to discipline themselves and bring the outer self into obedience to these great qualities of Immortal Perfection can make the outer self a “Cup” which We can attune to the place where you may receive more and more of the Voice and the Perfection and the Music of your Higher Mental Bodies, until you move within Its own Luminous Presence and It lights your way and It provides for you, by the Joy of Its Music, the Harmony which you require to maintain Perfection. Now you might think, “Well, I’ve got to have the Harmony before I can get the Music!” But the Music Itself contains the Harmony. The Humility and the Purity and the Obedience are fundamental; but when you reach up to the Joy of beautiful Melody and wonderful Rhythm and Power of Harmony so great you cannot comprehend It tonight—when you reach up and draw those Magnificent Activities into your outer use, you automatically harmonize yourselves.

The moment your attention through Humility and Purity and Obedience enters into and connects with Our Octave of Life and you desire what is in Our great Music Temples or Our Healing Temples or Our Fire Temples, when you desire that, the moment your Love touches into that Temple, there flows back to you the Flame of Its Love—Our Love containing the very Joy of Our Harmony that harmonizes you. You can just as well, My Dear Ones, through the Flame of Love in your own Hearts, reach into Our Octave and ask for Our Immortal Music of Our Love to come into you and hold Harmony as you can turn the dial on your radio and draw into your room the program that is going out from any individual station. You have no compunctions of conscience about disturbing your atmosphere with what comes over some of those programs, have you? Look at this blessed younger generation that sit and study a whole

evening with all kinds of things coming in on the radio. It is a most amazing thing, most amazing—that human feeling that craves sensation and will not become acquainted with the Peace of Our Music and the Joy of Our Purity. However, that, too, can be corrected by this Music.

You can quiet the body, the feeling world; you can quiet the mind. You can relax the muscles. You can charge Joy into the feelings. You can lift the consciousness to the Heights of Creation by your attention upon Our Immortal Music. Now let's just take a very concrete example. You have many channels of many kinds of music in the physical octave, do you not? You have the marches of war that stir up the feelings and release the energy which they use to destroy. You have the dance music which thrills and exhilarates the individual and produces sensation. And you have your religious music which automatically makes you feel the Presence of God; and may I say, that comes the nearest to Ours. But you have never yet heard the exquisite Beauty—or felt the Power that you can just as well feel as you can see the Sun in the daylight when the Sun shines—until you turn your attention to Our Octave of Music, to Our great Temples of Music, and keep the attention there long enough to learn what's there.

If you go to a music teacher and you take a lesson, you give a half an hour or an hour of your time and attention undivided to the teacher and to the instrument; and you connect your energy with that, and after you make certain effort, you draw that greater perfection forth. You go home and practice by connecting yourself with your instrument. Your energy goes into that, and by action you draw forth more vibration back into yourselves through your attention; and you continue that until you build it to a momentum where you are able to do what you desire.

Well, what's the difference between that and giving Us an hour of your time contemplating Our Temple of Music, loving the Beauty and the Light that is there, stilling the outer, and practicing the seeing of that Light—and that Feeling in yourselves—until you draw that Beauty into your outer action, hearing that undisturbed until you can draw It into outer action. What is the difference whether you are taught music by your teaching in the physical octave or whether you will listen to Our Music and let your “Presence” or some one of Us teach you Our Way of Music? Is there any difference? Can you do any of this without using Life? Your Life and the Life of your teacher is the only thing you have with which to understand music and to produce it on an instrument. Your Life and Our Life is all that you will ever have to produce the Beauty and Perfection and Power of Immortality from Our Octave into you and into your world. Isn't it simple? Isn't it real?

Oh, don't imagine this is the Messenger! I am real, and I can prove Myself. (*applause—audience rising*) Thank you, Precious Ones. Won't you be seated, please. Strange it is how much faith the outer self has in the information of some human being, and strange how it likes to doubt when someone asks it to reach up to a Realm that has greater things within It. Supposing someone comes to you and says, “Well, I am studying with Mr. So and So.” You never doubt that that teacher exists. And if you want to study with that teacher, the individual takes you there or introduces you and you see that individual; but you never think of doubting the individual. You don't doubt your friend that says, “I'm studying with Mr. So and So.” You believe that Mr. So and So exists! You don't doubt your friend. Well then, don't doubt the Messenger; and don't doubt Me, because if you

do, I can't help you. (*applause—audience rising*)

My Dear Ones, if you want to study with Me, come to Me! (*applause—audience rising*) Thank you so much, Precious Ones. And while you're standing just a moment, will you remember what the Mighty Victory said to you: Every cell in your body can be changed within twenty-four hours. Then supposing you don't have the voice you want, supposing you seem to be old in the outer—did you notice, I said “seem”—supposing you seem to have lost the voice you had once. Do you deny Me the Right, the Authority, or the Power to restore that, or command your cellular structure to be restored and rebalanced until not only the beauty of the former voice, but the greater Beauty of the Higher Mental Voice comes into the outer atmosphere and lets you have the freedom to sing as the Flame in your Heart wants to. (*applause*) Please be seated, Precious Ones.

I shall remind and remind and remind you of the Way and Means constantly by which you may receive this Perfection. The only thing that it requires to restore a voice that has been beautiful and seems not to be there now is the Purification of the atomic structure, the Humility in the Desire, and the Obedience to your “Presence” and the Cosmic Law. That's all it takes to restore the Perfection that was once yours and may become yours again by Conscious Command.

Now the reason I am pointing your attention to this is because, Precious Ones, there must come someday the feeling within you that as you keep your undivided attention to Us through Purity in the feelings, through Humility, and through Obedience, and that becomes just as natural as breathing in and around you, then when you make the Call to your “Presence” and to Us for any special Blessing, any special Activity of Life to come forth into your outer use, the way

is clear and unobstructed. And the “Presence” will answer you, and We will enfold you or insulate you in the Flame of Our Love while your “Presence” is anchoring again the Perfection of Its Gift into the use of the outer self.

It simply means undivided, uninterrupted Purity, uninterrupted Humility, uninterrupted Obedience; and he who surrenders himself completely into the Flame of the Higher Mental Body and maintains that Purity and Humility and Obedience without any concern about anything else, will automatically begin to feel the outer self filled with the Flame that contains the Perfection of everything your Hearts could desire for all the rest of time.

And I would like to try for one day, just one day, to have you remind the outer self as much as possible—as many times of that day as possible—that I am anchoring in and around you My Immortal Flame of the “I AM” Music of the Temple wherein I abide. Why, Dear Ones, think of all that is within Life and the inexhaustible possibilities within Life! The ever-expanding Music of the Spheres has never yet been drawn into this physical octave but in a very fragmentary way. You could not exhaust the Music of the Spheres. Some musicians have said, well, there are only certain combinations of tones and sounds, and that everything else is a rehash of some of those. Such silly nonsense! Since when has Life become exhausted when It is the Causeless Cause of ever-expanding Perfection? How could you exhaust the limitless Music of Life, answer Me that! Could you exhaust the limitless combinations of vibration everywhere throughout Infinity? How could you? And Music is the infinite combination of vibratory rates, and who can exhaust that? Who could count the infinite vibrations in the Universe and their infinite combinations?—and Music, Our Music of the Spheres, is that.

So musical tone, musical quality, melody, harmony, power, rhythm is infinite, My Dear Ones, and immortal and life-giving and all-powerful, and is the Commanding Presence of Love from the Great Central Sun. The great Universe as it is filled with the Life from the Great Central Sun is immortal in its ever-expanding, constructive activities. No two things in the Universe are exactly alike, because every rate of vibration has its own quality, and when combined with other rates of vibration produces another quality. And that goes on infinitely. Who can limit Our Music? Certainly not the people of Earth. How could they? Who could limit Us?

Therefore, when I make up My Mind to come to those who love the Light, those who love to serve that Light through Music, those who call and can be used as a channel for these Cosmic Healing Flames to be drawn into the physical octave of Earth, those who call to Me, I am very grateful to reply. And, Beloved Ones, I am reminding you of these things tonight because the individual doesn't exist on this Earth or anywhere else who will not be answered when the Call goes forth with Love from the Heart. You have been told throughout endless aeons of time, "Call unto Me and I will answer thee." "Ask and ye shall receive." "Knock and it shall be opened." "Seek and ye shall find." "Thou shalt decree a thing, and it shall be made manifest to thee."

You have been told just recently, "What you think you create." In other words, the thought *forms instantly* a "thought form" made of the substance of the mental body. What you feel, you manifest, because you pour the energy of your feeling, which is substance, into that form, and it produces manifestation. And what you meditate upon you become. What you contemplate you photograph back into yourselves. So if you contemplate Our Immortal Music of

the Spheres, you shall become all the Beauty and Perfection and Joy and Opulence of that Music; and Earth—human beings of Earth can never offer you anything like that. If you contemplate that, you will become that. My Dear Ones, I marvel sometimes—and it seems impossible that with this magnificent Universe, infinite in its boundless Beauty and Perfection, infinite with its indescribable Power, overwhelming with its magnitude—that mankind can look away from that Presence and that Beauty and that Power and Perfection, and by the attention, go forth and experiment with one type of misery after another.

It seems impossible, and yet it is manifested. When people look away from the Heights of Purity and Creation and Beauty and Blessings from the Life that is self-evident, manifesting Perfection and Beauty and Power indescribable in the Heavens above you, in the atmosphere around you, in the Powers of Nature, in the growth of the mountains, in the magnificent formations of the minerals of the earth—with all of this before the eyes of man, it seems incredible that they could want to experiment with misery. But since they have, We can, you might say, ring the Cosmic School Bell of Freedom and remind them it's time to come back into the Classroom of Intelligence.

So Beloved Mighty Saint Germain's Cosmic "I AM" Bells of Freedom are no figment of anyone's imagination, and the Sound and the Flames from those Bells can be intensified by Our Cosmic Calls for the Dispensations from the Great Central Sun until They ring throughout the atmosphere of Earth that which compels mankind's attention to go back Home. (*applause—audience rising*) Thank you, My Precious Ones; and while you are standing, I want to remind you of this. I want to give you a Secret tonight, and as surely as you

issue the Command will you produce the condition. How many of you, day after day after day after day, including this good Messenger, have said, “Oh, I want so much to do this! I want to do that! It needs to be done! It’s so wonderful! Everybody requires it!”

You have all said that thousands of times. Your Hearts have wanted to do more and more and more of that which produces Perfection in the physical octave; and then you feel, “Well, I just haven’t got the time to do it!” Let Me tell you a Secret. That’s a subtle trap of the sinister force. When you long to do these things, say to your “Mighty I AM Presence,” “I would love to do this and do it quickly and immortally Perfect! ‘Mighty I AM Presence’ and the Illumining Pure Mind of Thyself in me, come forth and do it!” Why, Precious Ones, you think you have to have time to do things—and who says so? I don’t! I don’t know anything about time. When I want to do something, it’s done. The moment the Desire is there, the Manifestation comes. And so can you. I have Life to use, you have Life to use, and there’s no difference between your Life and My Life. The only difference is in your manifestation that you have produced with Its use—the way you’ve used It. But there’s no difference in the quality of Life.

Therefore I say to you, when you desire to do something and there seems not to be the time—I am giving you a Secret of Power tonight—say to your “Mighty I AM Presence,” “Beloved Mighty I AM Presence” and the immortally Pure Mind of God in me, come forth and do this now by Love that knows naught but Immortal Perfection!”—and see for yourselves the Miracles that will flood your world. Miracles are God’s Way uninterfered with by human shadows; and if you desire to draw the Perfection of the Heavens into the

physical octave of Earth, It would come. The Cosmic Law would be compelled to answer you. So according to the intensity of your Desire, the intensity of your feeling, will the speed of your manifestation be determined by your own choice. Thank you. Won't you be seated.

Will you please remind yourselves to annihilate the feeling within you when you want to do some of these magnificent things, "Well, I can't do it because I haven't got the money to buy this or that or something else." I want you to get away from that. You must! Now your intellect says, "Well, how are we going to do it then, without the money to buy these things?" Isn't it strange. I have a Music Temple with magnificent Instruments, and I don't spend a dime for It. I don't have to have money. So there is a God Way of doing what you desire that is not dependent on money.

May I say to you, if you don't stop acknowledging, "Well, I can't do this because I haven't got this and I haven't got that," that's nothing but a subtle, sinister trap of the sinister force to make you think that the God and the good of the Universe are dependent upon the sinister force; and it is not true. You can't make God dependent on evil. You can't make the Sun dependent on the shadows. And if there are shadows of lack or limitation in your world, order them out and put God in their place and listen to the "I AM" Miracle Music of the Spheres and demand Its Immortal Power in such astounding Miracles into the physical octave that It shall call the attention of mankind to the magnificent Power of Its Light that is irresistible and all-commanding, and none on Earth can resist It. (*applause—audience rising*) Thank you so much.

Precious Ones, thank you so much for that Happiness tonight and the Power of your Music and your energy; but

let Me help you tonight to do what the Beloved Godfré did on the streets of Los Angeles when the human depression was constantly suggesting to him failure. He said, “Shut up! You’re not going to limit me longer! Now stand aside!” And He went forward to Victory. And I say to you, when these limitations appear to you, say that same thing: “ ‘Mighty I AM Presence’ in me, with the Invincible, Immortal Pure Mind of God, the ‘Mighty I AM Presence,’ the Immortal, All-knowing Mind of the Ascended Masters, come forth in me!—and I say to every limitation, stand aside! while God passes by! and I accomplish the Fulfillment of the Divine Plan!” And it shall be so.

Say to that which seems to limit you—when you would want to do what’s right and then you seem to have to accept limitations, take your stand, if it’s a thousand times a day, and say to every limitation in or around you that dares to suggest itself to you: “Stand aside! by the Power of my “Mighty I AM Presence” while I go forward into the Immortal Victory of my Divine Inheritance!” And you shall be the manifestation of that which you command. It has to be so.

Thought, feeling, and the spoken word are the only Creative Power in the Universe; and when limitation constantly suggests to you you can’t do something that God wants to do through you, stand that limitation aside and order it into the Flame and be no part of it longer. Forbid its existence; and when you send forth your determined feeling into that, you will find there comes to your assistance an Action of the Sacred Fire that will as surely take that out of the Universe as that you issue the Command. Won’t you be seated, please.

Take your stand if you say it a thousand times a day: “ ‘Mighty I AM Presence’ in me, come forth in Your Immortal

Authority of Immortal Perfection, and command these limitations out of the Universe forever!” And I tell you, you will mow down one obstruction after another until they dare not appear, because with every Command of that kind, the Higher Mental Body comes closer, the Flame expands within you brighter. It begins to stand around you in the atmosphere about you. It emits a Light at the Inner Level, and the more you do it, the brighter the Light becomes and the farther It extends; and limitations will soon learn that they have nothing in your world to tie to.

Whenever your Hearts want to do that which is in agreement with the Divine Plan and you long to expand some of these Beauties and greater Perfection of Life’s Magnificent Activities, when you desire to do these things with great Love and intensity, and yet there seem to be delays, there seems to be obstruction, and there seems to be something that holds authority in the outer to keep the manifestation from coming, you take your stand. And when you call your “Mighty I AM Presence” and the Immortal, Pure Mind of God in Its Dazzling, Fathomless, Diamond-shining Light into yourselves and command that to come forth and stand the limitation aside, you will surge the Power that dissolves that which has sought to be an Authority over the God Desires within you. Then will you find human habits, human desires, human obstruction, human accumulation, but a shadow; and you, the Immortal Light of Eternity, stand forth the master of circumstance.

And then as you hear the Music of the Spheres will you produce the Miracles you desire almost in a breath. If you lived one day in that sort of an attitude, calling the “Presence” and the All-knowing Mind of God into outer action to produce Immortal Miracles in all you do, and to stand

every limitation aside and keep you invincibly, immortally, eternally free from it, untouched forever—Dear Ones, it might take a little strenuous Command for awhile, but I tell you, you will crash every obstacle, you will annihilate every delay; you will take every shadow of discord and distress and limitation out of your world. And then will this Music your Hearts desire to send forth surge forth Its Cosmic, Immortal Power; and then when you command that Music to go forth and purify the flesh body of an individual, It will contain Power enough of the Sacred Fire to bring you instantaneous manifestation. It has to be done by someone, and only you are prepared thus far.

I want you to become acquainted with the Immortal Music—the “I AM” Miracle Music of the Spheres as you have heard the Messenger refer to It—because It is all of that. And you might just as well produce your Miracles by Music as by strenuous concentration or work, because when you call forth the Power and Authority of your “I AM Presence” and you send up the Love for this Music—Love is the greatest Magnetic Power in the Universe—and as you send that Love to your “Presence” with the intense Desire for that Music which you love to hear to come into outer action, Love may not be refused. Love cannot be denied. Love—that Love which you give to your “Presence”—can never, never, never fail to receive Its Reply. That is why It is the great Magnetic Power of the Universe. That’s why It is All-authority throughout Creation. That is why every vibration within It produces a sound of Music that is Immortal Joy.

As you enter into this with great Devotion and absolute Humility, with immortal Purity and unconditional Surrender and Obedience to your “Presence” and to Us, the boundless Blessings of Eternity with Infinite Power ever-expanding

will seek you out and flood you and your world with that which only that Love and Our Music can give. So tonight as you rest within this great Music to which I have turned your attention, may you hear the Melodies and bring Them back in the morning—or at least the Joy and the Power of the Perfection They have charged forth into your outer use; and that is as free as the air you breathe.

May you enter into Its Great, Immortal Victory tonight and clear your worlds of everything that is not the Glory and the Joy and the Perfection of your “I AM Presence” and Our Great Octave of Life. As that veil is consumed, you may come and go from Our Octave—come in, receive what you like, draw It back into outer use, produce Immortal Perfection, give It to your fellowman, and hold the attention of the outer selves of mankind upon that which they have never yet beheld in the atmosphere of Earth. You can produce It! You are being prepared. You have come thus far. Your Hearts want to do it; and you shall, so long as your attention and your Desire comes forth to your “Presence” and to Us, and you issue the Command with the Authority that is the Eternal Birthright of your own blessed Life.

In the Infinite Glory and Blessing of that Immortal Music may every physical sound of Earth be stilled, the atmosphere filled with the White Fire of the Cosmic Light Substance, and even the physical senses of mankind be compelled to hear that Music which fills all space and is surging into outer action to help the people of Earth arise out of the shadows and come once again into the Light of Immortality and hear Its Song, Its Anthem of Praise for all Eternity. Immortal is Its boundless Presence, and Its Joy indescribable. Only by experiencing It can you realize how great is Its boundless Power.

Then will you hear the Bells of Freedom in Their Cosmic Authority ring a Melody that cannot be sounded on the planet Earth except by those Cosmic Bells in Our Octave of Life whose Perfection is indescribable with Its Beauty and Its Power—Bells whose Power and Joy ring throughout all space the everlasting Blessing to Life. They are “I AM” Bells of Cosmic Music and Immortal Perfection. They are the Cosmic Authority of Immortal Freedom, and They are the Great Sacred Fire of Immortal Purity. May Their Sound travel everywhere on this Earth, penetrate all things, and still forever all that is not Their Purity and Their Beauty and Their Freedom of all Eternity.

And I haven’t said a word about the Angels of Music; but They are your Friends, and if you want Them, you must invite Them—and when They come, you must treat Them accordingly! If you wish Them to remain, invite Them and say so; for They will not intrude upon anyone, but on the invitation of your Love will They come swift as the winged lightning through the atmosphere of Earth to give Their Flame that shall sing and sing and sing to you the Power of Their Love. Music! It is so wonderful! Music! It is infinite! Music! It is immortal! May Its Love now envelop you and the Earth, and all pass within the Great Octave of Its everlasting, expanding, intensifying Light, and there know Life in the Love of God’s Heart that honors all Creation and is the Divine Plan’s Fulfillment in Its ever-expanding Glory and Perfection.

Thank you with the Heart of Music in the Land of Love from whence I come. I shall await to hear your Call and see how much of Our Immortal Power may now come into outer action and your use for the Freedom of the Nation We love so well. Thank you.
