BELOVED MIGHTY CYCLOPEA

There are so many things that have been brought into this world and not allowed to be sustained because they were not protected. And Music is one of those great services to Life, one of the magnificent manifestations that you can bring into this world to bless every particle of Life forever that ever passes this way—if you will ask to have It sustained and forever enfolded in, protected by, and controlled by, the Sevenfold Flame of the Seven Mighty Elohim's Indestructible, Eternal Protection. Some of the magnificent Music that has been brought in the past has been lost completely because It was not protected; and when destructive forces want to

desecrate a whole world, they try to destroy anything and everything that is constructive. This which We are offering is your Protection against that.

So from tonight if you will remember what it means to call the Ascended Masters' Sacred Fire Protection around anything and everything you contemplate doing *before you start to do it*, you will have success, My Blessed Ones, in everything that is constructive. You won't know what failure is if you will protect what you are going to do ahead of time. We are ready to give! There is just limitless Sacred Fire in the Universe of Our Love, Our Peace, Our Purity, Our Power to manifest anything in this physical world that is of Perfection, anything and everything that fulfills the Great Divine Plan. But We could give and give and give—but if It is not protected, then mankind loses It.

So from tonight, if everything you want to do that is constructive, before you do it, you will ask the Sevenfold Flame of the Seven Mighty Elohim to blaze in and around you—first of all, around the outer self, and then around the condition or whatever you're going to accomplish. And if you'll just be still just a few moments while you send your Love to the Sevenfold Flame of the Seven Mighty Elohim—send your Love to your “Presence” first, then to Us, then to the Sacred Fire, and ask It to descend in and around what you're going to accomplish—My Dear Ones, your struggle will be over.

We have begged and pled with mankind to use this Sacred Fire to protect everything that you must do in the physical world. So from tonight, if you will remember this, I think your Happiness will increase in leaps and bounds and enable you to give Happiness to others, because you have such success that others, as yet, don't quite understand. But you can have it if you will go ahead and use this. (*applause*)
