

ASCENSION DAY

MAY 25, 2006

Whatever your attention goes to, your attention pulls you into it, because you give it your Life. Therefore, if it draws you into that condition, it will keep you bound in that condition until your attention goes to the Sacred Fire Love of the Ascension Flame that raises you out of the condition. And there is no other Raising Power anywhere in the Universe of Life. So, Blessed Ones, since the Mighty Saint Germain brought forth this “I AM” Instruction to again bring the Ideal before mankind that the Ascension is the goal of all physical experience in this world—since He has brought that, it is to make It live again in the memory of the human beings of this world until the Cosmic Light, amplifying that, anchors It within the physical structure of Earth and the Powers of Nature until the raising is rapid enough to consume everything that is of discord.

There is no greater Ideal to live for anywhere than to bring this Knowledge of the “I AM Presence” to mankind until all individuals understand this Law. I repeat to you again, *thought, feeling and the spoken world are the only creative power anywhere in the Universe.* Therefore, when you call forth the Great Central Sun’s Sacred Fire Love of the Ascension Flame in and around all Life with the Command that all Life be withdrawn and raised out of all discordant vibratory action, you can be the Power in this world of the Great Central Sun Magnet. Therefore, as you call this into action and give Obedience, you become the Raising Presence of the Ascension Flame to all Life everywhere that you contact.
