

## BELOVED MIGHTY GOD OF GOLD

---

I love the Golden Flame like the Beloved Mighty Master Saint Germain loves the Violet Consuming Flame, and I might also tell you a Family Secret! When He works at certain levels of Cosmic Activity, He wears magnificent Golden Armor. That is because the Power that He draws when He is using that Flame is forever invincibly protected by the Magnificent Love which He sends to It. And It becomes an Armor for Him wherever He moves in His Magnificent Service to Life.

So, Beloved Ones, oh! to become acquainted with some of these wondrous Activities of the Sacred Fire, to know They are within your reach! They are within you to some degree, at all times; for when constructive thoughts and feelings are pouring through the individual, there is a Golden Light in the brain. When the Divine Love is pouring forth through the Heart, there is a Golden Light expanding. When the emotional body is at Peace, the Radiation is a Golden Light. Within It is everything that is constructive.

So when We draw Great Rivers of that Flame through the physical structure of Earth and condense into solidified form the Substance of Gold, it is that there may be a constant Radiation pouring forth from the Mighty Helios into the Powers of Nature and Forces of the Elements, into the very Radiation and atmosphere over the surface of the Earth in which mankind move. And that Radiation is an ever-purifying Peace-commanding Love which, if recognized and loved, would bring Illumination to the mind, healing to the body, prosperity to your affairs. And you would know what it means to become the Peace-commanding Presence that the Beloved Saint Germain brought to your attention in the very beginning of this “I AM” Activity.
