

“I AM” ASCENDED MASTER YOUTH

BELOVED KUTHUMI

Everything that is greater than what is in this world stands ready to give individuals here the fullness of Itself, but the individuals must unlock the Door to that greater Knowledge through the Key of their own Love. And all it takes, My Precious Ones, is just the Desire or the Love within that reaches and loves to know that which is greater than itself.

Just as a child—a tiny child reaches up to the parents and looks at the parent as the ideal and loves to become like the parent and do what the parent does and one day grows into those qualities—just so can the outer self of unascended mankind, by their attention to Ascended Beings and their Love to that Greater Perfection, draw themselves up to the point where that Perfection clothes them. And therefore, there is no condition and no individual on the Earth who cannot have the Help of that which is greater than himself or herself, so long as the Desire goes there and loves to understand what is there and loves to bring Its Perfection here. That is all that it takes, Precious Ones.

And mankind struggle down here under such limitation when Love is so ready to set them free. But it does require the humility of the outer self that is ready to humbly listen, and through the attention receive the Love that is the Illumination of the outer self. When your Love comes to Us asking for Illumination, Our Love clothes your Love and brings that comprehension in and around you. Your own “Presence” makes you comprehend the thing from within yourselves, but Our Love is what draws the conditions around you in which your “Presence” may work with Unlimited Power and uninterrupted Concentration.
