## Great Elohim of Purity

---

Now everything suffers in translation, because when things are translated, you do not have the Truth of the translation. All you have is the translator's concept. . . .

Therefore, those under this Radiation have been given again and again the Reminder that if they want the Ascended Masters' Understanding of this Law, if they want the Truth, then they must take It in the original language in which It was given. When people don't want to study the language in which the Truth abides that sets them Free, or they think it's too much effort, then how can We teach them the Law by which they can help to free themselves? Because the freeing of individuals in this world is not entirely the Work of the Ascended Masters nor Cosmic Beings—the freeing of individuals in this world is the responsibility of the individuals themselves. Each individual must make conscious effort to free himself or herself from his or her own self-created limitations.

So in order to protect the Truth which this Law is and which has been given to you uncontaminated, We must protect It against those who will not take It in Its Original Purity and then obey It—so We can be two-thirds of the Power that It takes to free the Life Stream of the individual. And when people say they can't learn the English language, I wouldn't want to offer them a million dollars a week to see whether they could or not, and I think you wouldn't want to offer a million dollars a week either! I am quite sure they would make a supreme effort and conquer.
