

Beloved Godfré

Beloved of My Heart, Precious Ones of Chicago and elsewhere, and those of you who have crossed the seas to enter into the Light at this Christmastime, I welcome you with all the Victory of My Heart's Command to Life; and I shall make you feel My Love until you know that My Reality is ever abiding with you and is One with your own Life for all Eternity! Therefore as you choose to render that Service to the rest of Life which sets It Free, automatically will that Freedom expand and come back to you.

Try to feel with Us a closeness you have never felt before, for many times We are nearer than breathing and closer than hands and feet. I wish you to understand today what it means to feel and know that your "Mighty I AM Presence"—Its Electronic Body—is One with the Life in the Great Central

Sun. If you could understand that your own “Blessed I AM Presence” is the Great Central Sun Presence for you and is the Physical Sun Presence for you, you would not feel any separation between the Powers of these Great, Great Activities of Life in Cosmic Action and the Powers that your “Blessed I AM Presence” is constantly trying to release into your outer use.

I wish you to understand today that every Power you desire to use, every Power you crave to produce greater Perfection, is trying to crowd through your outer self to give you Itself to produce greater Perfection. So you do not have to pull these Powers out from somewhere in order to set Them into action down here. You have but to send your Love and your Gratitude, many times a day, at least morning, noon, and night, back to your “Beloved I AM Presence” for all the Blessings It has given you thus far. As you understand what can become yours in outer use through Love and Gratitude to your own “Mighty I AM Presence” and Higher Mental Body, you would never miss the opportunity to send wave after wave of Love and Gratitude to that “Beloved Mighty I AM Presence” and the Ascended Host every time you use something constructive in the outer world.

People go along in the dream state, Beloved Ones, of just marking time, waiting for something to occur—when if that same energy were sent back to the “Presence” with Love and Gratitude for all that It has given you since you left the Great Central Sun, It would flood into your outer use so much of every good thing, such a terrific Release of everything you could desire, and much that you do not even know is in existence—that It would flood your outer world with the Perfection that would last forever.
