

TALK

MRS. G.W. BALLARD

JANUARY 9, 1966

Charge everybody and everything under this Radiation and all for whom we call with the Violet Consuming Flame, the Violet Flaming Power. Force the Purification that frees! frees! frees! all under this Radiation from all problems! all problems! all problems! all mistakes! all lack and limitation and all human creation everywhere forever! Watch your mind that it does not—sometimes when your problems are connected with human beings, you don't want to feel that you're just getting rid of them [the person or people], or something like that, when you're asking to be free from the problem. You're asking to be free from the discord of the problem, not from any situation that is the fulfillment of the Divine Plan or that brings to you the opportunity to give to someone else a Victory. So be careful.

Precious Ones, remember our Beloved Saint Germain saying at the beginning of this work that we had to correct

our expressions of speech, and so on—that people couldn't go on using these wrong expressions and expect to avoid the penalty. There are so many things in our daily conversation that when you stop and analyze them, you just bat your eyes. You wonder, well, what's the matter with this? We must stop using some of these. There's just no truth in the average expression that so many times is used in the outer world. We often use an expression—exaggeration—and we don't mean it at all; but it's not the truth. We were discussing this the other day. Somebody said, "What are you going to do?" And I said, "I'm going to jump in the bathtub." Now I'm not going to jump at all! (*laughter*) It's just a habit of expression, and it wasn't the truth. I take it *leisurely*. (*laughter*) Then we say, "I'm going to throw something in the laundry." Well, you don't throw it. You're supposed to put it there graciously, you see.

Then you say, "I've got to run over to the store." Well, you don't run. You walk. (*laughter*). When something of discord comes up you say, "Oh, I hate to do that!" Well, you don't hate it at all. You might rebel against it or resist it, but you're very unwise if you hate just because you have to do something that seems to be necessary to do.

Now these are the expressions that Beloved Saint Germain had reference to. There are so many of these things that are just kind of automatic habits in the race consciousness, and we take them all without realizing; and for those under this Radiation, I think we should, all of us, watch carefully grammatical expressions. We may slip once in a while on number of subject or predicate or something of that sort, but this is what I'm speaking of—deliberate, intentional misuse.

Now there's a habit everywhere in the outer world: "They up'd the price." Well, there's no such thing as *up* as a verb.

Up is a preposition. But that is just plain ignorance and downright deliberate, intentional desecration of our language. We have a perfectly good word—*raised*—in the English language. Now let's hold to it. If we let these habits of people that are either not educated or not willing to be purified, if we begin to accept their habits, Precious Ones, we accept other things in their consciousness. If we accept their habits, we've opened ourselves to their radiation and their mistakes.

So when we go into this Decree for the—that's the reason I brought this up at this time—when we go into this Decree to Force the Purification that Annihilates and prevents all problems, Annihilates and prevents all mistakes, Annihilates and prevents all opposition or limitation or delay, it includes these things, because these expressions are downright lies. There is so much of this thing that goes on every day. Everyone says that it sounds funny. Yes, but the Law doesn't know anything about funny. Energy takes on the quality because it's an impersonal thing; and if we keep using those expressions, a hundred-million Legions of Ascended Masters can't get us free. We have to correct the speech.

There's so much of this thing in the outer world. Oh, there are just many things you come across; and since I've brought this to your attention, you'll begin to notice these things in daily speech. Every time you do—it may sound funny, but at least stop it, because we're calling for Fiery Christ Blue Lightning Purity and Fiery Christ Blue Lightning Truth. There's plenty of humor in the Universe. We can have lots of fun with a lot of things without deliberately using our Life to say a group of words that are a deliberate lie to Life. And to me there's nothing funny about something that's destructive.

I just bring this to your attention because many people limit themselves for centuries by just expressions like that. When you look back to your own conversations, sometimes things just come out all of a sudden. Sometimes you just think them over to yourself, sometimes you speak them out loud to yourselves; but every time you catch an expression that's not the truth, blast it! Just call for Fiery Christ Blue Lightning Blasting; and I tell you, Precious Ones, it will get rid of a very great deal of resistance and opposition and delay in the fulfillment of our Calls.

So when we call forth this Forced Purification, it's going to get rid of a lot of these things. We don't have to be pedantic or anything of the kind. We can be natural, but we can avoid the thing that will build limitation in our beings or worlds. And particularly do these things form resistance and opposition and limitation to your supply. Whether it be energy or supply of opportunity or the supply of things or money or what, it matters not. This is simply an accumulation of energy that is vibrating at a rate that is an obstruction to the fulfillment of our Calls.

So you can have some fun with yourselves or not as you choose. That's your privilege, but at least we should watch this thing. You know, in the outer world, when people get angry or they get irritated and say what they think sometimes: "Oh! he blew his top!" Well, he didn't do anything of the kind. *(laughter)* He's still got his top on, see. These things are nutty, that's all. So I just give you this thought because as you watch it and you hear other people say things, you will see many, many an opportunity to keep correcting these things and keep them from producing an effect in your world. So I just give you the thought so you can guard yourselves if you want to.

Beloved Saint Germain said you cannot go on using these expressions and avoid reaping the result. It simply can't be done. Nobody can do it. You often hear things, "Well, I've got to hop downtown." Well, you don't hop at all. You see, these expressions—you can't help but laugh at them; but still, after all, they're serious as an opposition or a resistance to the Perfection for which we call. Now the Ascended Masters have a wonderful sense of humor. They do not use words destructively. So we can profit by Their Wisdom.

So now let's call whatever Overwhelming Violet Flaming Power and Fiery Christ Blue Lightning Force and Purity, Sacred Fire Purity in, through, around, and to all under this Radiation that frees, frees, frees us all! Now that isn't deep freeze either (*laughter*); but this frees us from—you can say "Keeps us free" if you want to. That's a little bit safer. We don't get icicles on our ears then or something. But we can just as well use this to keep all under this Radiation invincibly, eternally free from all problems, mistakes, limitations, and discord of every kind—human creation.
