

CONSTITUTION DAY

September 17th

BELOVED HERCULES

When you call forth the Herculean Sacred Fire Protection for your Nation to protect all Purity within the Land, you give Us added assistance. Then uncountable Legions of the Sacred Fire can come within your borders anywhere and everywhere anything constructive is taking place or is to be sustained. I assure you, when the Mighty Saint Germain gave the Constitution to the United States of America—and the Declaration of Independence—these Mighty Gifts of Life’s Perfection are not to be destroyed or cast aside or used by the sinister force to destroy the Nation!
