Beloved Ones of My Heart, as We enter in, tonight, to the deep feeling of the Great Power of Harmony from the Great Central Sun, I wish you to know something of Its Action at the Inner Level. When I speak of that, I mean the effect of that upon the substance of the mental body and the emotional body, as well as the etheric body—which means the energy and the substance in those three bodies, as well as the outer self which is your physical flesh body.

When you understand from Our Standpoint that harmonized energy is Luminous Energy from the Inner Standpoint, you will understand then how easy it is for your thought and feeling to come to Us, and how readily We see it and know what is required to give you help in this octave to stand against the forces that seek to cause you disturbance. The moment you turn your attention to an Ascended Being and send your Love there, there comes to Us a Flash of Light. It is like a thread of Light that flashes to Us; and We, following that back, can see the requirement of the individual. So there is no thought about Us that goes unanswered. If your Love and attention comes to Us, then Our Love and Attention comes back to you.

We are fully cognizant and entirely aware of what the conditions are around each one whom We are trying to assist to their Freedom, to each one's Freedom. When it comes to the mass of mankind, We see the conditions in a locality. And if We wish to observe an individual and turn Our Attention there, it is like turning a flashlight into any place in the room. You see what is there. When We turn a Light Ray into a condition, We see what is there; but I want to assure you that We do not amuse Ourselves in examining your every thought and feeling. We have more important business; but if your attention comes to Us and you make a Call and you need help, well then, when Our Attention comes back to you, We necessarily must see what the conditions are around you. Then We pour into that whatever will purify that energy and harmonize it—so as to allow Its Light to penetrate the mind and the feelings—to purify it and to strengthen the Protection around you for all that is constructive, that you may go forth to the solution of your problems.

Now, whatever discord mankind has created, there comes back to the individual the problems produced by that discord, whether the discord be in the individual or created by the mass of mankind in their general activities of the outer. All discordant energy produces some kind of a problem and some kind of a limitation in the individual and in his world if that discord goes forth. And so, if discord has gone forth, then be alert and use the Violet Consuming Flame and demand that that discord be taken out of the Universe so it cannot throw anybody else into discord by its pressure.

This is the thing that mankind seem to have no concept of at all. If one's feelings become disturbed, he or she may think, "Well, that's only in my world." That's not true! If your feelings become disturbed, that disturbance goes to everybody and to everything that connects with you through the attention. If you are disturbed, and someone you love begins to think about you, your disturbed energy begins to flow to them and will produce discord in their world. If someone else becomes disturbed and that individual begins to think upon you, and you become disturbed, you'll automatically connect with that. If you do not become disturbed and you refuse to let that disturbance touch your energy, then you may remain insulated in your own Tube of Light and your own harmonized feeling. And then you can call to your Higher Mental Body or your "Mighty I AM Presence" to pour forth the Violet Consuming Flame or the Light Rays into that disturbance, and that will flow to the individual to help that individual become harmonized and raised out of the problem.

People's problems around them, My Dear Ones, are just like cocoons. Most people are moving in a network of discordantly qualified energy that condenses as the problems that you have to handle every day. Now if your disturbed energy flows to one whom you love—some of your family or your affairs, it flows into your business—if your energy is disturbed, wherever that energy flows it will disturb something else. That's your responsibility to avoid that.

Now on the constructive side, if your feelings are kept harmonious, when your attention comes to Us We see

the Light. Then more Power of Our Light can come into and through and around you and protect you. If your energy is harmonized, it is luminous; and then when your attention comes to Us, We can send more Light to expand your Light. We can send more Protection of Our Love around that Light, but We cannot protect destructively qualified energy. It is utterly out of the question!

We have said these things, Dear Ones, and sometimes you think, “Oh, we’ve heard that before.” Yes, but what did you do about it? You did hear it, but what have you done about it? If you did hear it and didn’t correct the condition, what’s the use of Our talking? We have other important things to do in Life. These Ascended Masters and Cosmic Beings are using every Activity of the Law the Great Central Sun provides to help mankind turn away from these things that are seeking to engulf them further, and We cannot protect what is wrong. It’s useless to ask for it. But if your harmonized energy and your Love comes to Us and you will hold the Harmony, then if there are problems in your world, We can help pour the Sacred Fire into that to dissolve the problem and give you Perfection in its place; but so long as you disturb the energy of your own world, then the outer world’s disturbance will connect with your disturbance and the pressure and the momentum will be far greater for you to handle than you realize.

People think they can disturb the energy of their own world and they’re the only ones that have to handle it. That’s not true. Every wave that you send forth either carries Light and Love to assist Life to see what is the right thing to do, or you send out a shadow that prevents Life

seeing what is the right thing to do. And those conditions stand in the atmosphere about an individual as plain as the nose on your face. If a sudden whirl of energy goes forth, it whirls for forty-eight hours before that thing quiets down. And if during that time you move among other discord, it sucks that in like a whirlwind; and if you keep on moving in that atmosphere, you reach the point of saturation. Then down comes an accident or discord of some kind, or a problem lands in your world. Then you wonder why in the world you can't get out from under all these things.

The most serious part of discord in your own feeling world is its effect upon those you love. Sometimes when your loved ones are having a struggle, and then if your own energy is disturbed and they begin to think on you, that disturbance comes in and only adds to their struggle. So from a purely unselfish standpoint of consideration of others whom you love, it is well to exert all the self-control you have. And if you find yourselves beginning to boil inside, go someplace, into the cooler, sit down, and cool off before the explosion comes. That's the time to go into the deep freeze, (*laughter*) because you'll find Harmony there. I am not trying to be facetious. I just want you to realize We don't want to get too serious to keep you under tension; but I do want to make an impression upon you tonight of what happens to your loved ones sometimes when in an unguarded moment you create discord. If you love your loved ones truly, you do not want to impose distress upon them. And if they are in conditions wherein they might contact distress, any discord in your world will reach them if they turn their attention to you at that time.

Now this is a dangerous thing where people are in the National Defense, because if they are moving in conditions of destruction, they might be able to hold their own protection against that if an added wave of discord does not come at a crucial time when they're having all they can do to stand against the destruction of war. So for more reasons than one am I bringing this to your attention tonight. It's a serious thing because it has a serious effect upon those you love and those you really want to protect.

You cannot fool with your own energy, My Loved Ones! It doesn't make any difference what anybody else does—whether you like it or don't like it. It's *your* energy that you have to guard. The Great Beloved Divine Director said the easiest way to overcome anything is to turn away from it and put your attention on the “Presence” and ask the “Presence” to correct the condition, but keep the destructively qualified energy out of contact from your own Life. That is each one's responsibility to his “Presence” and to the world.

Do you know what We could do with you, every one of you in this room, if you would hold the Harmony for thirty days without a wave of discord? Do you know what We could do through this handful of people in this room alone tonight? IF WE COULD DEPEND ON YOU TO KEEP YOUR ENERGY UNRUFFLED FOR THIRTY DAYS, WE COULD DRAW THROUGH YOU POWER OF LOVE FROM THE GREAT CENTRAL SUN THAT WOULD GO INTO YOUR NATION, INTO YOUR GOVERNMENT AND INTO THE VARIOUS CONDITIONS OF YOUR LAND, AND DISSOLVE AND

CONSUME AND PREVENT PRACTICALLY EVERY DESTRUCTIVE THING. (*applause*) Thank you, Precious Ones.

Now, do you know why We could do that? Not that you're so important or that each one's energy is so great, but if We had a nucleus of that much harmonized energy that could be sustained for thirty days, as that poured up to Us each day We could take that and, charging into it the Sacred Fire and Power from the Great Central Sun, could amplify It without limit and direct It to render this Service because the stream would be continuous for thirty days. And then We would have a pressure and an amplification of that proportion of the Life energy of unascended mankind which We could use like a Magnet to draw everybody else connected with you in the Nation—I mean all unascended beings would feel the uplift of that surging Energy that continued to flow without cessation over a period of thirty days. Why, the Uplifting Power of that within the Nation would be indescribable in your words!

So if just one person holds the Harmony, everyone around that person, as the attention goes to him or her, would be raised every time the Light expanded. And then you would find, wherever you abide, you are the Raising Power to draw conditions or people out of their problems. But until people more thoroughly understand what they do with their own energy, they bind themselves in greater and greater discord all the time, when they could as easily as a breath be Free.

Tonight I thought I would come and give this Explanation and see if, during the rest of this Class,

We can continue to pour forth every evening a Purified Stream of Energy qualified with your Love and attention to the Great Central Sun and to Us, and let a daily Release of that come forth like a wave. And then We will take that and qualify it with whatever will help to correct conditions within the Nation that are extremely dangerous and threatening in certain channels.

There is much agitation going on against the communistic activity, and it has to be revealed in order for mankind to have the opportunity to take their stand against it; but in that revealing, My Dear Ones, it stirs up a very great deal of hate, and that's the biggest danger of all. The world is almost breaking under the hatred of mankind's feelings thus far, and anything that adds to that, adds to the danger of America and but hands to the sinister force more energy with which to destroy. You are Our Hope for the release of harmonized energy which We can expand and qualify with the Sacred Fire to help stand against that onrushing hatred which must be consumed if Protection is to be given America.

We cannot protect America if She's filled with hate; and therefore, harmonized energy and purified energy and the use of the Violet Flame are the only Powers by which that hate can be consumed. People do not understand that when they begin to reveal treason and the various vicious activities that have flooded into this Nation, if that is allowed to generate more and more hate, it's like a boiling caldron of destruction. And so, in the release of your Calls for the Love from the Great Central Sun to force the Purification of all within your borders, you give Us an opportunity to neutralize that hate that is

seething and coming to the surface, much of it qualified with fear and treachery. And it must be purified if the people are going to be controlled enough to keep from doing something they will regret. So each one is directly responsible for the assistance to the Nation that will either enable It to stand against those destructive forces, or if the destruction is increased, mankind will have to pay the penalty.

We have pled for Purity so long, My Dear Ones, and most of the time mankind have turned a deaf ear to Us. When people are bound in their own human desires, they don't want Purity. They have ridiculed It. They've sneered at It. They've thought it was smart to desecrate what God has given; but oh, what penalty that demands in the individual who will not listen! So tonight I trust with this Explanation you will be able to realize your responsibility not only to yourself for your own affairs, but to your loved ones to whom you want to give Protection.

Precious Ones, no matter how much effort it takes, keep calling the Fiery Love from the Great Central Sun in and around you to make you so strong that discord cannot exist in you or your world, because, I tell you frankly, that Fiery Love from the Great Central Sun is the greatest Strength of all Eternity. It is the very Existence of your "Mighty I AM Presence" and Higher Mental Body. And if you call It in and around the outer self, It will make you as strong as steel, and these things that have seemed so disturbing won't anymore affect you. You will simply control them until they are compelled to be purified and produce Perfection.

You know, the Beloved Morya gave you a wonderful bit of Instruction when He said you have to control the outer self to the point where no disgruntled comment or criticism or ridicule by anybody ever touches your feeling world or makes a flicker of the eyelash of disturbance in you. That's what it means to Master the energy of yourself. Then as you hold command of that, the disturbing force knows it cannot get in and it will go elsewhere. Just as surely as you take your stand you will NOT accept that, it will go elsewhere. Or if you ask your Violet Flame to annihilate it, you must hold your poise, the center poise of your feeling, until that Violet Flame has flashed and fulfilled your Call.

So, Beloved Ones, when you keep charging yourselves with the Fiery Love from the Great Central Sun, feel Its Blazing Presence come into you and pour forth around you. Then as It goes on, It will keep purifying all that you contact, and at the same time hold you Invincible against accepting the discord in conditions or problems that you have to handle. You see, there is not one thing, Precious Ones, that mankind creates that is of discord that the "Great God Presence" of Life, the "Mighty I AM," does not provide some Magnificent Way of Mastery to control it, to transmute it, and to prevent its existence any longer.

No matter what is wrong, Life, the "Mighty I AM Presence," always provides a Way and Means of Mastery over it, of dissolving and consuming it, and of protecting yourselves against it. So you are not helpless. You are not left without defense. You are not forgotten by your "I AM Presence" or the Cosmic Law—which means the Cosmic Beings who govern the Life of this world.

As We go forward, if you will remember that as you call the Fiery Love from the Great Central Sun in, through, and around yourselves, It will make you as strong as steel. And in that Strength will come the Purity which that Love also is, to enable you to stand above your problems and let the Sacred Fire from your “Presence” handle conditions that you cannot handle physically yourselves. You will begin to realize what Infinite, Eternal Power is in that Fiery Love from the Great Central Sun if you demand It come into yourselves and pour into all conditions around you, for that Love can never be qualified by anything human.

Therefore, you draw within yourselves the Power of the Sun, whose nature is to illumine everything; and in that Illumination comes the Revelation, and the Power of Protection, and the Master Hand of the Universe that controls mankind’s conditions by that Activity of the Sacred Fire from the Great Central Sun that mankind in this world cannot desecrate. So, I offer you tonight a Scepter of Power in reminding you of this as you go forward to build Its Momentum in the rest of this Class, that during the Seven Sacred Weeks We may draw enough of It into your physical conditions and in, through, and around you to help protect you against the hatred and the disturbance of the outer world, until more of Its Power can consume that hatred and save your Nation from that which is not Love.

So, Beloved Ones, use, use, use all the Fiery Love from the Great Central Sun! Don’t fail to use It many times a day. Just let Its Momentum build in and around you until, when you reach a certain point, you will observe

that your world has no more problems for you. It is the Solver and Dissolver of all problems, as well as your Protection. Then you can assist your loved ones and your fellowman by the use of that Fiery Love from the Great Central Sun that will not let human hatred live anywhere.

May you go forward and feel the greatest Power you have ever known. And in using that Power will come a Peace you have never yet experienced, for the very intensity of that Loving Power will set you at Peace because you will feel Its Security about you as It stands between you and the discord of the problems and limitations of the physical world. And then in the Harmony which that holds about you, will come the fullness of every good thing. Then I will be privileged to give you many of the Gifts which come under My Direction. And I want you to enjoy Them, that your Joy may know no bounds and you fill all you contact with the Happiness that Freedom is here attained; and your Mastery is in the expansion of Its Blessings to all the rest of the world.

May you feel the Mantle of that Fiery Love from the Great Central Sun holding about you the Glory of Its Commanding Authority and Power that are Eternal Peace. May you enter in and have your Freedom forever. Thank you with all My Heart.
