

“I AM” MUSIC OF THE SPHERES

BELOVED CYCLOPEA • JUNE 29, 1947

The Beloved Godfré attuned Frederick so he may be reached to play as We desire; and if you will try and remind those who are playing the instrumental Music to play as nearly like him as possible, it will bring them very much greater Blessings.

As soon as the Messenger and he can get some of these Musical Compositions recorded and the playbacks out, so each Sanctuary, and even those in their private homes who want Music, can have It as We would like to have It played, then the whole Musical Activity will become for Us one photographic plate, one Great Mirror, as it were, from Our Great Octave of Perfection. Then could We reach and pour forth through all, tremendously greater Blessings to help all the people of Earth.

It seems so difficult for people to put their own desires and feelings aside. They so want to do things their own way instead of Ours, but We just have to be patient. Sometimes when I see people put their own feelings into

a thing We have given with such Perfection, it is like one distorted photograph over a beautiful photograph; and it is not fair to Life.

We are trying to set a Standard that will bring Purity, Happiness, Perfection, and Greater Good to all; but oh, to submerge the self, the outer self that has had dominion so long, is not the work of a moment. We are not discouraged and you should not be, because We have tried this longer than you have. You ought to be of good cheer, no matter how many times it takes to overcome conditions that have bound you through the centuries. If We could have been discouraged, We never would have undertaken the Work or Activity of cleansing the Earth; but since Our Courage is greater than mankind's discord, well then, We will survive longer than they will, or rather, longer than their discord will.

So, be happy! And I do plead with you, after you drink this water today, which is again charged with the same Essence that the Elohim of Peace gave you last Sunday, I plead with you, guard your energy! Guard your feelings! And just let the Happiness of Our Great Service to Life flood you, and know that you do live in the Invincible Honor Flame of God's Heart of Happiness. Don't allow anything to take that Happiness from you, because Happiness, Precious Ones, is Power—Power from Our Octave when We give you the Essence in the water. You see, you have to become accustomed to these things gradually. Your atomic structure could not suddenly be fed continually on Precipitated Substance. The Vibratory Action would raise you too rapidly, and that is not the part of Wisdom. Everything We do, We do permanently and comfortably, if mankind will cooperate with Us.

The Voice of the "I AM," 1989.5:13-14
