Gratitude to Beloved Saint Germain

MRS. G.W. BALLARD

As the Beloved Saint Germain speaks His Heart to us all, we welcome Him, we bless Him, we thank Him, we adore Him for all Eternity for all that His Love has done for us throughout the centuries. Now may we in some measure repay that Love by our service to the “Mighty I AM Presence” and to the Nation of His Heart, until our love and His Love turn into the Violet Consuming Flame of Eternal Mastery, blaze throughout the Nation, and prevent anything destructive ever again existing within the Americas, or acting through or to those under this Radiation, or touching those in our National Defense.

We ask for whatever Dispensations from the Great Central Sun are necessary to move into outer Command that which compels the anti-Christ to leave the Earth and let mankind alone forever!
