

“I AM” MUSIC OF THE SPHERES

BELOVED GOD HARMONY

In the Assistance which it is Our Cosmic Privilege to give, there is Power so staggering to the mind of mankind that It is incomprehensible to the intellect of individuals, until they see It in action in the atmosphere about you; and that Power is the concentrated Electronic Force, the actual Sacred Fire Element of the Universe that comes forth through the Cosmic Action of Music. There are Chords in the Sound of the ethers of this planet, in the upper atmosphere, which if drawn into the energy of the physical world could shatter everything that was of discord. There is Rhythm in the Power of that Music that would, of Its own natural heartbeat of that Rhythm, shatter the form and the accumulation of discord. There is Melody in the Octave of Light—not the Ascended Masters’ Octave, now. I am talking about the upper atmosphere of your own world. There is Melody so exquisite that It would make you weep with joy, so great is Its Power to affect the feeling, which is the energy in the emotional bodies of mankind.

The Voice of the “I AM,” 1973.7:20
