

THANKSGIVING

BELOVED GODFRÉ

When you see the tremendous amount of energy used in a civilization to create the things that provide Comfort and Ease and Peace and Blessing to mankind, you will understand how necessary it is to make every day a Thanksgiving Day, because if these things were removed from you, your pathway would be very much more difficult. It would be much more difficult to hold Harmony, and you could not exert the Master Powers of your own Life Streams as easily as you can now.

The reason We're calling this to your attention is because, when a planet is created and mankind is offered a place to come into embodiment to draw forth the Master Powers of Life, attain the Ascension, and become a Master Presence of Creation everywhere in this System, the Life of the Great Cosmic Beings who have created and sustained this world, keep it in its orbit, keep it expanding its blessings to mankind—that part of Life in Its Cosmic Action is constantly pouring the Blessings of Its Love into manifestation, that you may have Love's Way of drawing forth the Master Powers of Life and attain your Ascension harmoniously, because it was never intended that mankind should suffer or be in limitation in the embodiments of this world in order to gain the Ascension. That was never part of the Divine Plan, so don't ever accept it.

You don't have to go through the discord of mankind's human creation in order to become aware of and use the Master Powers of your own Heart Flame of your "Mighty I AM Presence" and the Ascended Host. The expansion of the Heart Flame of Life from your "Presence" or the Ascended Masters' Octave is not dependent upon mankind's creation of discord in this world! Such a thing is absolutely unthinkable! We want you to clear this because there has been a mass hypnotism and mass suggestion of this sort of thing down through the ages.

If you will do this which I bring to your attention this hour, of charging everything in your beings and worlds and all around you, into all Life that blesses you, keep pouring forth the Great Central Sun's Cosmic Light-Substance of such Indestructible Purity and Purity's Perfection to just go forth—and expand It and bless Life everywhere—you

couldn't give that Blessing to the rest of Life without filling yourself with the same thing, or filling the world around you with the things that will come back and bless you.

When you see what mankind has destroyed through war, after aeons of time of the Cosmic Beings' Use of Their own Life to produce these magnificent manifestations of Nature, surely you must realize that mankind in this world owe some sort of a balance back to the "Mighty I AM Presence" and those Great Cosmic Beings for the misuse of the Blessings that were created by those Cosmic Beings.

You do not need to become a part of nor be connected any longer with the discord of the outer world if you will use your "Beloved I AM Presence" and the Ascended Host's Great Central Sun's Cosmic Light-Substance of Indestructible Perfection that goes forth to bless and bless and bless Life. And anyone who will do this and fill your outer, daily activities with this Blessing to Life would automatically receive back into your use the wealth, the things, the Glory, the Blessings, and the Perfection that come from the Ascended Masters' Octave—as well as the Gifts from the Higher Mental Body of every Life Stream that you would assist.

You can't imagine what the Blessings would be that would come back to you from the Higher Mental Bodies of Life Streams that you assist just by calling the Cosmic Light-Substance of Indestructible, Purifying Perfection to go forth and bless and bless and bless Life with whatever produces Perfection and consumes mankind's discord. Try Me out! I want you to have Supply that you don't even know is here, and I have the Authority and Power to give It to you.
