

THE LAW IN MANIFESTATION

June 5, 1939

You know, when children are grown to full stature—and they do mature quite young these days, many at seventeen are almost at full maturity—you cannot use the former methods of discipline. Since obedience has become so absent in children, young people, and the older people too, then there must be a greater means than father's slipper to govern things. You know you cannot take one that is larger than you are across your knee. You surely would not be comfortable doing it. Then there must be a means

of governing and giving that assistance in a way which is much more valuable and much more powerful. That is through the “I AM Presence” of the individual.

Of course, you cannot see and know all of this which transpires, but I just make the statement because it is constantly going on, every day. The Messenger just opened a letter after dinner and there was the report of a magnificent so-called Miracle performed. A mother wired him a few days ago. Her son was to be operated on and a bone graft made in order to save his limb. At the same time congestion set in on the lungs, and he was about finished when she wired the Messenger. He made one powerful Call, and within the hour the congestion was gone, and in one-fourth the time the bone graft had healed. The doctor stands in amazement, not having witnessed anything like it before.

Oh, My Dear Ones, how can mankind scoff and doubt when these magnificent things are done every day through the Calls of the Messengers—hundreds and hundreds and hundreds of these things! Then, do you not think We love these Messengers? Do you not think We shall always stand by these Messengers for their great love, loyalty, unselfishness, and honesty?
