

## ***The New Year***

**MIGHTY VICTORY  
CHICAGO, ILLINOIS**

**B**eloved Ones in the Garden of My Heart, I welcome you today into the New Year of My Victory and your Victory, and the Victory of Light for all who command it to be so in the physical octave. We enter into a tremendous opportunity because of the tremendous events that are approaching. But those of you who have stood at attention to the Light and helped Us to bring that Light into the darkened corners of the Earth where mankind are caught in the shadows of their own creation, you shall become the Victory of the Light you have served so well.

From tonight, My Dear Ones, as you approach the activities of the coming year, regardless whether there seems to be time or not, stop before making a decision and—turning to your own “Mighty I AM Presence” and to Us—ask for the wisest way to do what you are going to do, and the right way to compel everything you do to become the Eternal Victory of the Divine Plan’s Fulfillment.

You are entering into the use of tremendous Power this coming year, and it is the part of wisdom to ask for Wisdom first from Our Octave, that you may use all the Power by which you are surrounded in the way that will bring the best results to you and render the greatest service to your Nation and the World.

Now, in the Garden of My Heart of Life are all the Powers required to produce Victory in everything you attempt, so long as what you attempt is constructive. Therefore, the Powers of My Mastery of Life are stored up, so to speak, and growing Their Mighty, Mighty Blessings in My Garden of Life. Since those Blessings are mine to dispense as I please, and since you who are giving recognition to Me as an Open Door for Victory—you can have My Blessings and the Powers that produce Victory without any limitation whatsoever. But the easiest way to bring your Victory quickly is to shut off the old human propensity to dash into a thing without preparation and without the Call to be shown the wisest way to produce the Victory you desire.
