

# GEMS OF LIGHT

## BELOVED REX

It is the RADIATION of destructive forces that DULLS THE DESIRE TO PRODUCE MAGNIFICENT GOD MANIFESTATIONS that produce Victory and Blessing for all that you contact. So, in preparing to receive that which the Mighty Saint Germain has prepared for your Blessing, and of which He wants you to be a part, try to feel that you seek your happiness in the anticipation and the use of the Greater Powers which He will bestow upon you—because in His Service to the Nation, in the Fulfillment of His Divine Plan for America's Purity and Freedom, you will have to work with Him in closer Association, in closer harmonious Cooperation, and in closer Illumination, until He shows you what the Gifts are He wants to bring into the outer civilization that is to be built in America.

Now, you have already had marvelous blessings in this Nation. You have had tremendous advance in the great comfort of living and the ease of supply and the greater

attainment of magnificent powers in outer mechanical channels, and in many other channels. You have already had the daily use of these blessings. Then why not turn whole-heartedly to your “Mighty I AM Presence” and the Ascended Host and ask for the marvelous Happiness, the marvelous Entertainment, and the marvelous Powers of your own “Mighty I AM Presence” and the Ascended Host in full Ascended Master Action in your daily activities, until you see the transmutation take place that, I assure you, cannot bring you anything but Joy.

If so-called being “good,” as the outer world puts it, palls upon you, and you feel it’s such a severe task to be on the constructive side of life, I say to you, that’s nothing but hypnotic suggestion! If the Ascended Masters’ Way of Life were so irksome, there wouldn’t be anybody there; so I’m sure it’s not nearly so severe as most of you think. That idea that We have such a severe discipline and it’s so irksome and so hard compared to the outer world’s way of living destructively—I can assure you, it’s not hard. And it’s not difficult at all, compared to the choice of mankind to live the outer world’s way and go to destruction or to suffering that is so intense that it *forces* human stubbornness and human desire to give way.

I assure you, there isn’t any suffering in Our Way of Life, and that’s more than you can show Me in all the outer world’s channels of so-called happiness.
